

ST. MARYS, KINGSLAND, WOODBINE AND CAMDEN COUNTY

The initiatives chosen by the cities of St. Marys, Kingsland, Woodbine and Camden County are aimed at broadening the economic base of the community through of a specialized economic development and tourism promotional program, the continued revitalization of the three downtowns, the protection of bountiful natural resources through the development of a county-wide greenspace plan, the creation of a county-wide uniform way-finding signage system and the exploration of creating a joint land bank authority.

DCA's Housing Finance, Community Development Finance and Planning and Environmental Management Divisions will provide technical assistance as these objectives are addressed, as well as other state agency Program partners.

Lead applicant St. Marys and the other Program communities will use Signature Community funds for a study to analyze the development of a comprehensive and uniform directional signage system throughout the county as Phase I of their economic and tourism development program.
