

Georgia Department of Community Affairs State Planning Recommendations

SCHEDULES

These schedules aim to assist the community in creating its own schedule that will show when, and in what order, the local government will involve stakeholders and the general public in the comprehensive planning process. The community may choose one of the following schedules as a starting point and adjust it as needed, by dropping or adding events or by expanding or contracting time periods, in order to reflect local preferences. There are a variety of participation techniques that can be plugged into these schedules where "event/activity" is referenced. For more information on community participation, refer to [State Planning Recommendations Community Participation Techniques](#) and DCA's guidebook: [Planning for Community Involvement](#).

The Local Planning Requirements call for public and stakeholder participation only during the preparation of the Community Agenda portion of the comprehensive plan. Schedule #1 shows such participation in the Community Agenda. Schedule #2 is similar to schedule #1, but it places an additional emphasis on the early development of a community vision.
