The procedure for amending the land use intensity district map and amendment to any Resolution [Ordinance] or section contained in this code shall be as provided herein.

§10-1-2  INITIATION OF AMENDMENT

A petition to amend this code or the land use intensity district map, or an application for a conditional use permit, may be initiated by the Governing Body, the planning commission, or by any person, firm, or corporation owning property in the local jurisdiction. Prior to the filing of any application to amend the text of this code, the land use intensity district map, or any other application pursuant to this code, applicants are encouraged to schedule and attend a pre-application conference with the Land Use Officer. The purpose of the pre-application conference is to provide applicants with the best available information regarding development proposals and processing requirements, and to ensure the availability of complete and accurate information for review of said application. Upon request of the applicant, the Land Use Officer shall provide the applicant with a written summary of the pre-application conference and list any specific documents, information, or other information that must be submitted to satisfy application requirements.
§10-1-4 MAP AMENDMENT APPLICATION REQUIREMENTS

§10-1-5 COMPLETE APPLICATION

Any application for action under this code must be complete before it shall be accepted for processing. Upon receipt of all application materials, the Land Use Officer shall find the application complete and schedule it for hearing, where required, and consideration.

§10-1-6 PUBLIC HEARING

Within no more than 60 days after the filing of a complete application for which a hearing is required by this code, a public hearing shall be held on such applications before the appropriate body as required by and in accordance with this code, before taking action on a proposed application.

Such notice shall state the purpose, location, time and date of the public hearing, and the nature of said application.
