INTRODUCTION

A. PURPOSE

The purpose of this report is to evaluate the market feasibility of a proposed Low-Income Housing Tax Credit project to be developed in Macon, Georgia by In-Fill Housing, Inc. (a non-profit subsidiary of the Housing Authority of the City of Macon). This market feasibility analysis complies with the requirements established by the Georgia Department of Community Affairs/Georgia Housing and Finance Authority (GDCA/GHFA).

B. METHODOLOGIES

Methodologies used by Vogt Williams & Bowen, LLC include the following:

- The Primary Market Area (PMA) generated for the proposed site is identified. The Site PMA is generally described as the smallest geographic area expected to generate most of the support for the proposed project. Site PMAs are not defined by a radius. The use of a radius is an ineffective approach because it does not consider mobility patterns, changes in socioeconomic or demographic character of neighborhoods, or physical landmarks that might impede development.

Site PMAs are established using a variety of factors including, but not limited to:

- A detailed demographic and socioeconomic evaluation.
 - Interviews with area planners, realtors, and other individuals who are familiar with area growth patterns.
 - A drive-time analysis to the site.
 - Personal observations by the field analyst.
- A field survey of modern apartment developments is conducted. The intent of the field survey is twofold. First, the field survey is used to measure the overall strength of the apartment market. This is accomplished by evaluation of unit mix, vacancies, rent levels, and overall quality of product. The second purpose of the field survey is to establish those projects that are most likely directly comparable to the proposed property.

- Two types of directly comparable properties are identified through the field survey. They include other Section 42 Low-Income Housing Tax Credit developments and market-rate developments that offer unit and project amenities similar to the proposed development. An in-depth evaluation of those two property types provides an indication of the potential of the proposed development.
- Economic and demographic characteristics of the area are evaluated. An economic evaluation includes an assessment of area employment composition, income growth (particularly among the target market), building statistics, and area growth perceptions. The demographic evaluation uses the most recently issued Census information, as well as projections that determine the characteristics of the market when the proposed project opens, and when it achieves a stabilized occupancy.
- Area building statistics and interviews with area officials familiar with area development provides identification of those properties that might be planned or proposed for the area that will have an impact on the marketability of the proposed development. Planned and proposed projects are always in different stages of development. As a result, it is important to establish the likelihood of construction, timing of the project, and its impact on the market and the proposed development.
- An analysis of the proposed project's market penetration into the number of income-appropriate households within the Site PMA based on DCA's demand estimate guidelines. Components to the demand analysis include income-appropriate new renter household growth, rent overburdened households, and substandard housing. For senior projects, the market analyst is permitted to use conversion of homeowners to renters as an additional support component. Demand is conducted by bedroom type and targeted Area Median Household Income (AMHI) for the subject project. The resulting penetration rates are compared with acceptable market penetration rates for similar types of projects to determine whether the proposed development's penetration rate is achievable.
- A determination of comparable market rent for the proposed subject development is conducted. Using a Rent Comparable Grid, the features of the proposed development are compared item by item with the most comparable properties in the market. Adjustments are made for each feature that differs from that of the proposed subject development. These adjustments are then included with the collected rent resulting in a comparable market rent for a unit comparable to the proposed unit. This analysis is done for each bedroom type proposed for the site.

C. REPORT LIMITATIONS

The intent of this report is to collect and analyze significant levels of data to forecast the market success of the subject property within an agreed to time period. Vogt Williams & Bowen, LLC relies on a variety of sources of data to generate this report. These data sources are not always verifiable; however, Vogt Williams & Bowen, LLC makes a significant effort to assure accuracy. While this is not always possible, we believe our effort provides an acceptable standard margin of error. Vogt Williams & Bowen, LLC is not responsible for errors, or omissions, in the data provided by other sources.

Any reproduction or duplication of this report without the expressed approval by the Georgia Department of Community Affairs or Vogt Williams & Bowen, LLC is strictly prohibited.

D. SOURCES

Vogt Williams & Bowen, LLC uses various sources to gather and confirm data used in each analysis. These sources, which are cited throughout this report, include the following:

- The 1990 and 2000 Census on Housing
- Applied Geographic Solutions
- Area Chamber of Commerce
- Georgia Department of Community Affairs
- U.S. Department of Labor
- U.S. Department of Commerce
- Management for each property included in the survey
- Local planning and building officials
- Local Housing Authority representatives
- Real Estate Center at Texas A&M University
- Ribbon Demographic - HISTA

SECTION A. EXECUTIVE SUMMARY

Based on the findings reported in our market study, it is our opinion that a market exists for the 60 renovated units at the subject site, assuming it is developed as detailed in this report. Changes in the project's site, rent, amenities, or opening date may alter these findings. Following is a summary of our findings:

The subject will offer a high-quality, affordable housing alternative for low-income families in the Macon area. Very few affordable developments have been added to the Site PMA in the past five years and the subject is currently at risk of losing its affordable status. Anthony Arms is located in an established area of Macon with good access to community services. In addition, on-site social services coordinated through management will be made available to residents. After renovation, the subject will offer unit and project amenities competitive with existing Tax Credit projects including a computer room, library, playground, fitness center and sheltered picnic area. Project-based Rental Assistance will ensure affordability for very low-income tenants.

- The proposed project involves the renovation of the existing 60-unit, Anthony Arms Apartments in Macon, Georgia. Located within Bibb County, the property was originally constructed in 1968 and includes 40 two-bedroom units, 20 three-bedroom units. Currently, the project operates as a project-based Section 8 and market-rate property that is 98.3% occupied. The project will be renovated using Low-Income Housing Tax Credits and target households with incomes of up to 50% and 60% of AMHI.
- The proposed subject gross rents, ranging from \$544 for a two-bedroom unit to \$617 for a three-bedroom unit, will be very competitively priced with other LIHTC units in the market. After renovation, the development will offer the largest unit sizes (square footage) when compared with the existing LIHTC projects in the market. The number of baths offered at the subject site is equal to or greater than most of the LIHTC units in the market. As such, the unit sizes and number of baths will enable the proposed LIHTC units at the site to compete well with the existing low-income units in the market.
- The amenity packages included at the proposed subject development will be very competitive with the competing low-income projects. The subject will be the only property in the market to offer microwaves as a standard amenity. Each unit will also have washer/dryer hookups. The subject development does not appear to be lacking any amenities that would hinder its marketability to operate as a Low-Income Housing Tax Credit project.

- The subject property is located at 1692 Anthony Road, a dual-lane road. Traffic is moderate to heavy along Anthony Road, particularly during weekday business hours. Visibility is slightly impaired from all directions due to the wooded land, businesses, middle school, and church that surround the site. Access to the site is convenient for eastbound and westbound traffic off of Anthony Road.
- There are several shopping plazas and a mall that are close to the site. The site is within close proximity to employment, recreational, entertainment, and educational opportunities. A bus stop is located directly across Mercer University Drive, just south of the site. Social services, public transportation, and public safety services are all within 3.7 miles of the site. The site has convenient access to major highways.
- The Macon Site PMA was determined after speaking with the manager at Anthony Arms Apartments. The Site PMA includes the majority of the central and western portions of Macon, Georgia. The boundaries of the Site PMA consist of Rocky Creek, Wolf Creek, Ayers Road, Norfolk Southern railroad tracks, State Route 247, Interstate 75, and the Ocmulgee River to the north; Broadway (State Route 11/U.S. Highway 129) to the east; Interstate 75/State Route 401, U.S. Highway 41/State Route 247, and Guy Paine Road to the south; and Interstate 475 to the west.
- According to statistics provided by the Macon Economic Development Commission and based on interviews with representatives of the local area Chamber of Commerce and Economic Development Department, it was determined that regardless of the overall population loss during the past 15 years, new job growth and expansions will continued to grow in the future.
- The area employment base has a significant number of income-appropriate households from which the proposed subject project will be able to draw support. This, in addition to projected job growth, a stable unemployment rate, and historically high occupancy rates for income-restricted and government-subsidized units, indicates that demand is strong for the rehabilitated units at the subject site as proposed.
- A stabilized occupancy rate of 93% is projected and considered achievable. With 3,000 on the local Housing Authority's waiting list, and considering the high occupancy rates at existing government-subsidized projects in the market, we anticipate that any vacant units available after renovation will be rented as quickly as management can process applications due to the availability of Project-Based Rental Assistance.

- We conducted an on-site survey of 43 conventional properties totaling 4,633 units. Of these properties, 21 are non-subsidized (market-rate or Tax Credit) with 1,632 units. Among these non-subsidized units, 93.9% are occupied. We consider this a relatively strong occupancy rate, and a positive indication of the strength of the non-subsidized conventional apartment market. There are also 22 government-subsidized projects in the market with a total of 3,001 units. These units have an overall occupancy rate of 97.1%. These projects operate under various programs including HUD Section 8 and Public Housing.
- The capture rates by bedroom type are modest, ranging from 2.3% to 6.2%. These capture rates are indicators that there is sufficient support for the proposed subject units.
- The proposed collected rents are 78.6% to 83.0% of market-driven and appear to be appropriate for the subject market. The proposed rents represent a 17.0% to 21.4% market-rent advantage, which will be perceived as a value in the marketplace.

BEDROOM TYPE	COLLECTED RENT		
	PROPOSED SUBJECT	MARKET-DRIVEN	PROPOSED RENT AS SHARE OF MARKET
TWO-BEDROOM	\$465	\$560	83.0%
THREE-BEDROOM	\$515	\$655	78.6%

- According to GDCA/GHFA market study guidelines, units offering Project-Based Rental Assistance (PBRA) should not be included in the demand analysis. Forty-one units at Anthony Arms will have PBRA. HUD has indicated that PBRA will continue at the subject for at least five years and up to 20 years. The analysis presented in Section F estimates demand for the subject in the event that PBRA is ended after five years.

BEDROOM SIZE (SHARE OF DEMAND)	TARGET % OF AMHI	SUBJECT UNITS	TOTAL DEMAND*	SUPPLY**	NET DEMAND	CAPTURE RATE	ABSORPTION***	AVG. MARKET RENT	SUBJECT RENTS
TWO-BEDROOM (38.9%)	50%	8	343	59	290	2.3%	3 Months	\$502	\$510
	60%	32	520	26	494	6.2%	6 Months	\$502	\$510
THREE-BEDROOM (20.1%)	50%	8	177	25	152	4.5%	3 Months	\$582	\$565
	60%	12	269	16	253	4.5%	6 Months	\$582	\$565

*Includes overlap between the targeted income levels at the subject site.

**Directly comparable units built and/or funded in the project market over the projection period.

***Assumes subject is vacant after renovation.

- Overall, the project has a capture rate of 1.4%. This is a low capture rate and an indication of the good base of potential support for the proposed subject project. If the subject project happens to be vacant after renovation, it is anticipated that a stabilized occupancy of 93.0% would be reached in six months.

The table below summarizes our capture rate and absorption findings:

PROPOSED PROJECT CAPTURE RATE 50% LIHTC UNITS	1.5%
PROPOSED PROJECT CAPTURE RATE 60% LIHTC UNITS	0.3%
PROPOSED PROJECT CAPTURE RATE MARKET RATE UNITS	N/A
PROPOSED PROJECT CAPTURE RATE ALL UNITS	1.4%
PROPOSED PROJECT STABILIZATION PERIOD	6 MONTHS*

N/A – Not applicable

Assumes all units are vacant and no PBRA.

SECTION B - PROJECT DESCRIPTION

The proposed project involves the renovation of the existing 60-unit Anthony Arms Apartments in Macon, Georgia. The property was originally constructed in 1968 and includes 40 two-bedroom units, and 20 three-bedroom units. The project also includes a two-bedroom manager unit. Currently, the project operates as a project-based Section 8 and market-rate property and is 98.3% occupied. The project will be renovated using Low-Income Housing Tax Credits and target households with incomes of up to 50% and 60% of AMHI.

If the project is awarded Tax Credits, HUD has agreed to renew the current Section 8 contract for a period of five years. The contract may be extended up to 20 years; however at this time HUD has indicated that project-based rental assistance will continue for the first five years after the subject is placed in service as a Tax Credit property. HUD did not indicate if PBRA would be continued if Tax Credits were not awarded. A total of 41 units will be available with project-based rental assistance (PBRA). The remaining 19 units will be rented at 50% and 60% of AMHI, although the rents for each targeted income level are identical. The proposed Tax Credit collected rents range from \$465 for a two-bedroom unit to \$515 for a three-bedroom unit. Additional details of the subject project are as follows:

A. PROJECT DESCRIPTION

- 1. PROJECT NAME:** Anthony Arms Apartments
- 2. PROPERTY LOCATION:** 1692 Anthony Road
Macon, Georgia 31204
- 3. PROJECT TYPE:** LIHTC rehabilitation of an existing
HUD Section 8 apartment project
- 4. UNIT CONFIGURATION AND RENTS:**

TOTAL UNITS	BEDROOM TYPE	BATHS	STYLE	SQUARE FEET	PERCENT OF AMHI	PROPOSED RENTS		
						COLLECTED	UTILITY ALLOWANCE	GROSS
8	TWO-BR.	2.0	GARDEN	1,015	50%	\$465	\$79	\$544
3	TWO-BR.	2.0	GARDEN	1,015	60%	\$465	\$79	\$544
29	TWO-BR.	2.0	GARDEN	1,015	60% (PBRA)	\$465	\$79	\$544
7	THREE-BR.	2.0	GARDEN	1,244	50%	\$515	\$102	\$617
1	THREE-BR.	2.0	GARDEN	1,244	50% (PBRA)	\$515	\$102	\$617
1	THREE-BR.	2.0	GARDEN	1,244	60%	\$515	\$102	\$617
11	THREE-BR.	2.0	GARDEN	1,244	60% (PBRA)	\$515	\$102	\$617

Source: Developer

AMHI – Area Median Household Income (Bibb County)

PBRA – Project-based rental assistance

- 5. TARGET MARKET:** Family
- 6. PROJECT DESIGN:** Two-story garden-style apartments
- 7. YEAR BUILT/PROJECTED
OPENING DATE:** 1968/2007

8. SCOPE OF WORK:

Exterior – The exterior structure of the building will be modified to increase unit square footage by 175 to 225 square feet. Existing roofs and roof systems will be removed and replaced with a gabled roof system and architectural shingles. Wood fascia and soffits will be replaced and exteriors will consist of brick and vinyl or hardi-plank siding. New gutters and downspouts will be added.

Interior – Interior stairwells will be converted to open breezeways. An additional full bath will be added to each unit. All interior dry wall will be replaced and walls reconfigured to accommodate the increased square footage and additional bathroom. New insulation will be installed. All interiors will be repainted, internal doors replaced, exterior doors replaced, windows replaced, and carpet and vinyl tile replaced throughout.

Kitchens – New sinks, cabinets, countertops, refrigerator, dishwasher, range/oven, microwave, garbage disposal, and smoke detectors.

Electrical, Plumbing and HVAC – Conversion from gas heat to electric heat. Rewiring of units to meet current codes. New switches, plates and GFCI outlets will be installed in addition to wired jacks for cable and Internet. All units will be re-plumbed to the slab. New fixtures and faucets will be installed in bathrooms and kitchens and washer/dryer hookups will be added to each unit.

Landscaping – Installation of plants and irrigation systems, correction of drainage problems, repair, resurface and re-stripe parking areas, sidewalks and steps repaired and upgraded to ADA compliance.

Community Amenities – Construction of a 3,600 square foot community building with library, fitness center, computer lab, laundry facility, and management office. A new covered pavilion and picnic area will be added.

In addition to the above items, the existing freestanding maintenance facility for Anthony Arms will be converted to a handicap-accessible two-bedroom unit.

9. TENANT RELOCATION PLAN:

According to the owner, relocation of current tenants will be necessary during the renovation. The owner has indicated that funds for relocation have been budgeted to cover moving costs and a Relocation Advisor will be hired. Tenants will have the option to return to Anthony Arms or remain in replacement housing. No timeline for the relocation was provided to the analyst.

10. UNIT AMENITIES:

- REFRIGERATOR
- RANGE/OVEN
- DISHWASHER
- GARBAGE DISPOSAL
- WASHER/DRYER HOOKUPS
- MICROWAVE
- WINDOW BLINDS
- CARPET
- CENTRAL AIR CONDITIONING

11. COMMUNITY AMENITIES:

- COMMUNITY ROOM
- FITNESS CENTER
- COVERED PICNIC AREA
- ON-SITE MANAGEMENT
- COMPUTER CENTER
- TOT LOT/PLAYGROUND
- LAUNDRY FACILITIES
- LIBRARY

12. RESIDENT SERVICES:

- BEHAVIORAL HEALTH PROGRAMS
- HOUSEHOLD MANAGEMENT CLASSES
- WELLNESS CLASSES
- VARIOUS FAMILY SUPPORT SERVICES

13. TENANT-PAID UTILITIES:

The property will be responsible for water, sewer and trash collection, while tenants will be responsible for the following utilities:

- HEAT (ELECTRIC)
- HOT WATER (ELECTRIC)
- OTHER ELECTRIC
- COOKING (ELECTRIC)
- AIR CONDITIONING

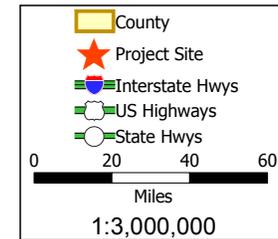

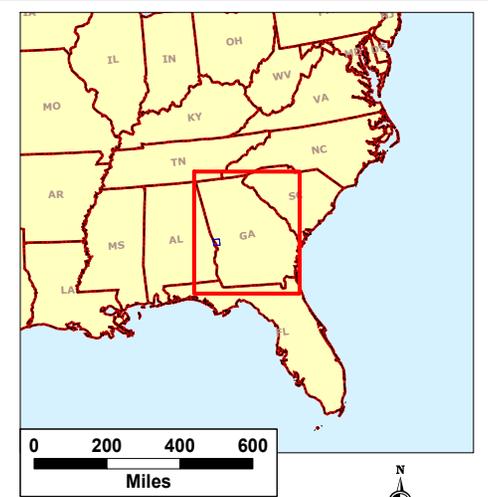

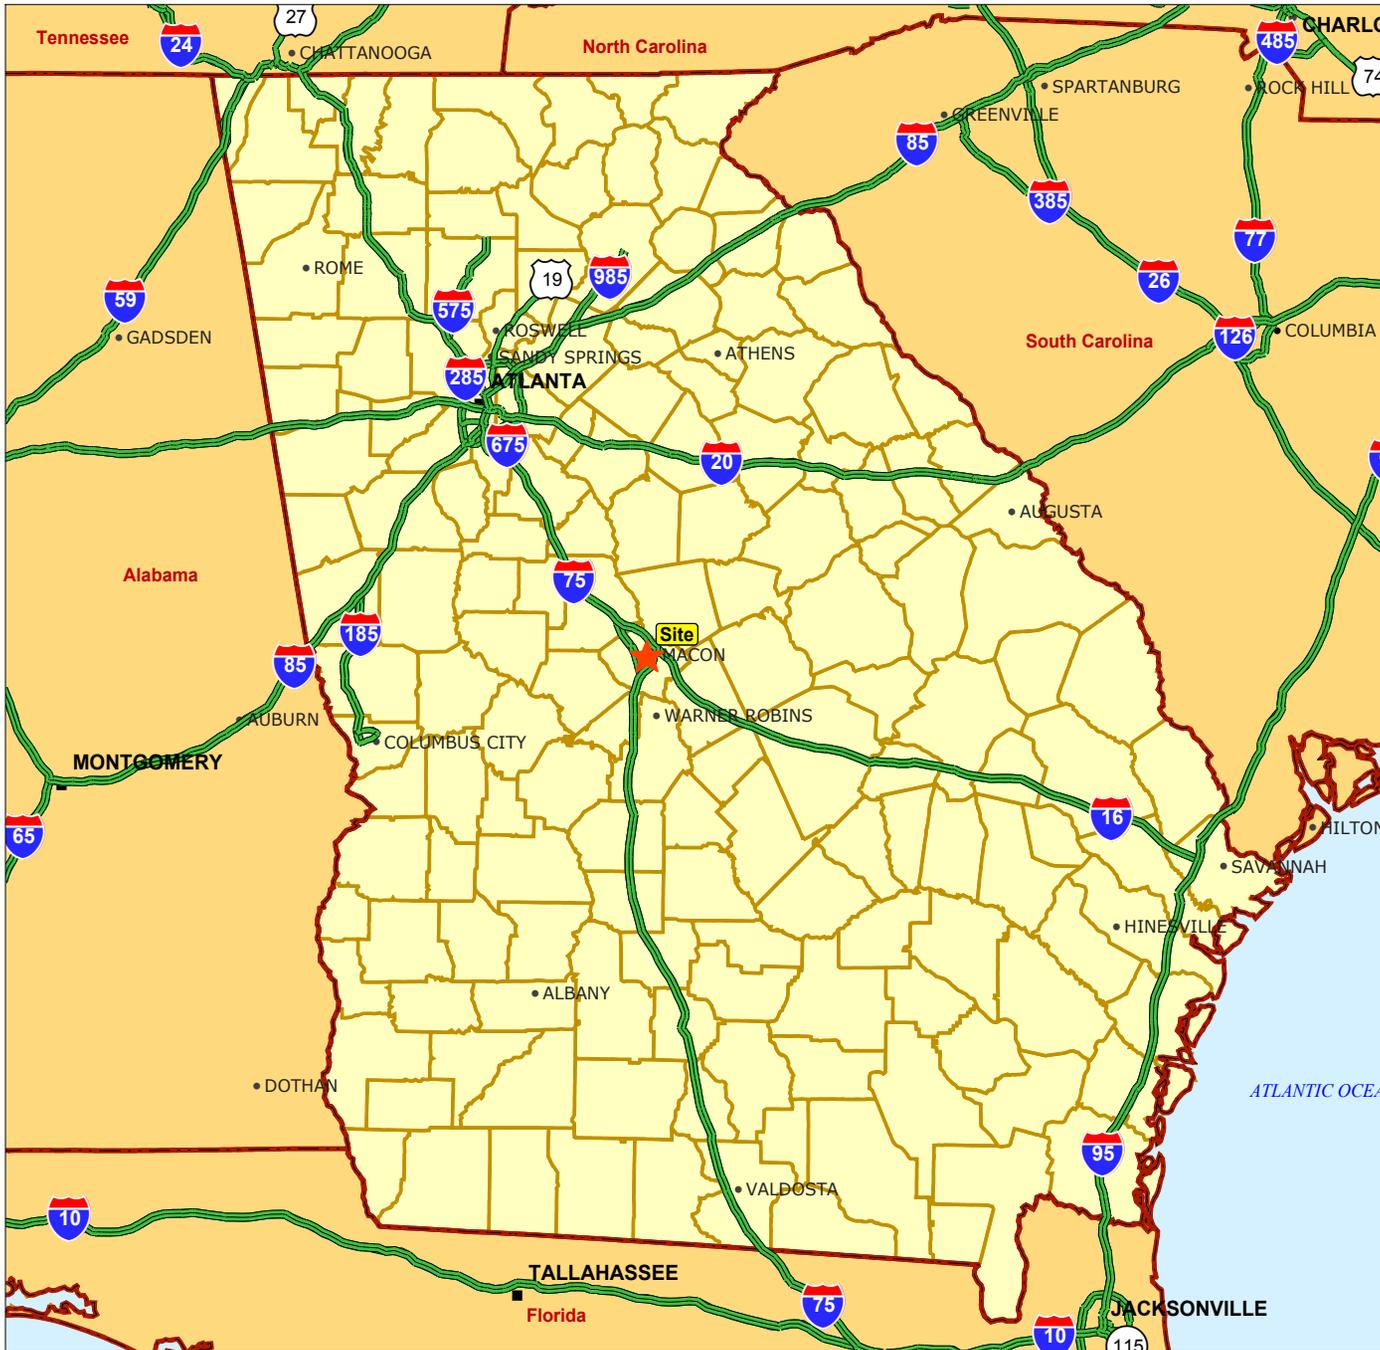

14. RENTAL ASSISTANCE: Forty-one (41) units of HUD project-based rental assistance for five years.

15. PARKING: The subject site will offer 90 open lot parking spaces.

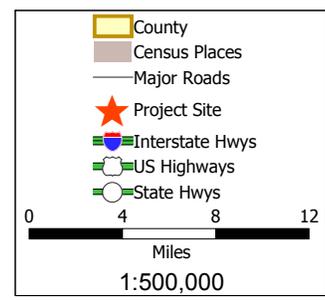

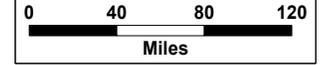

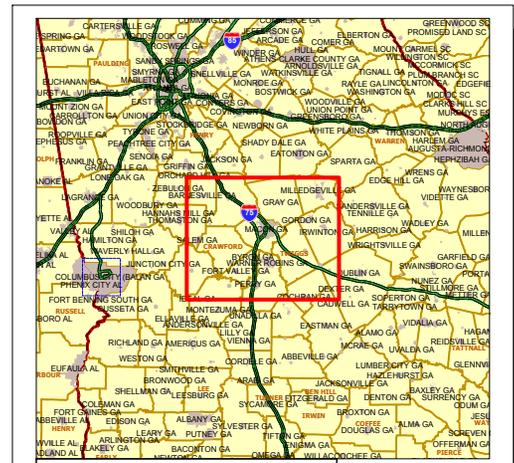

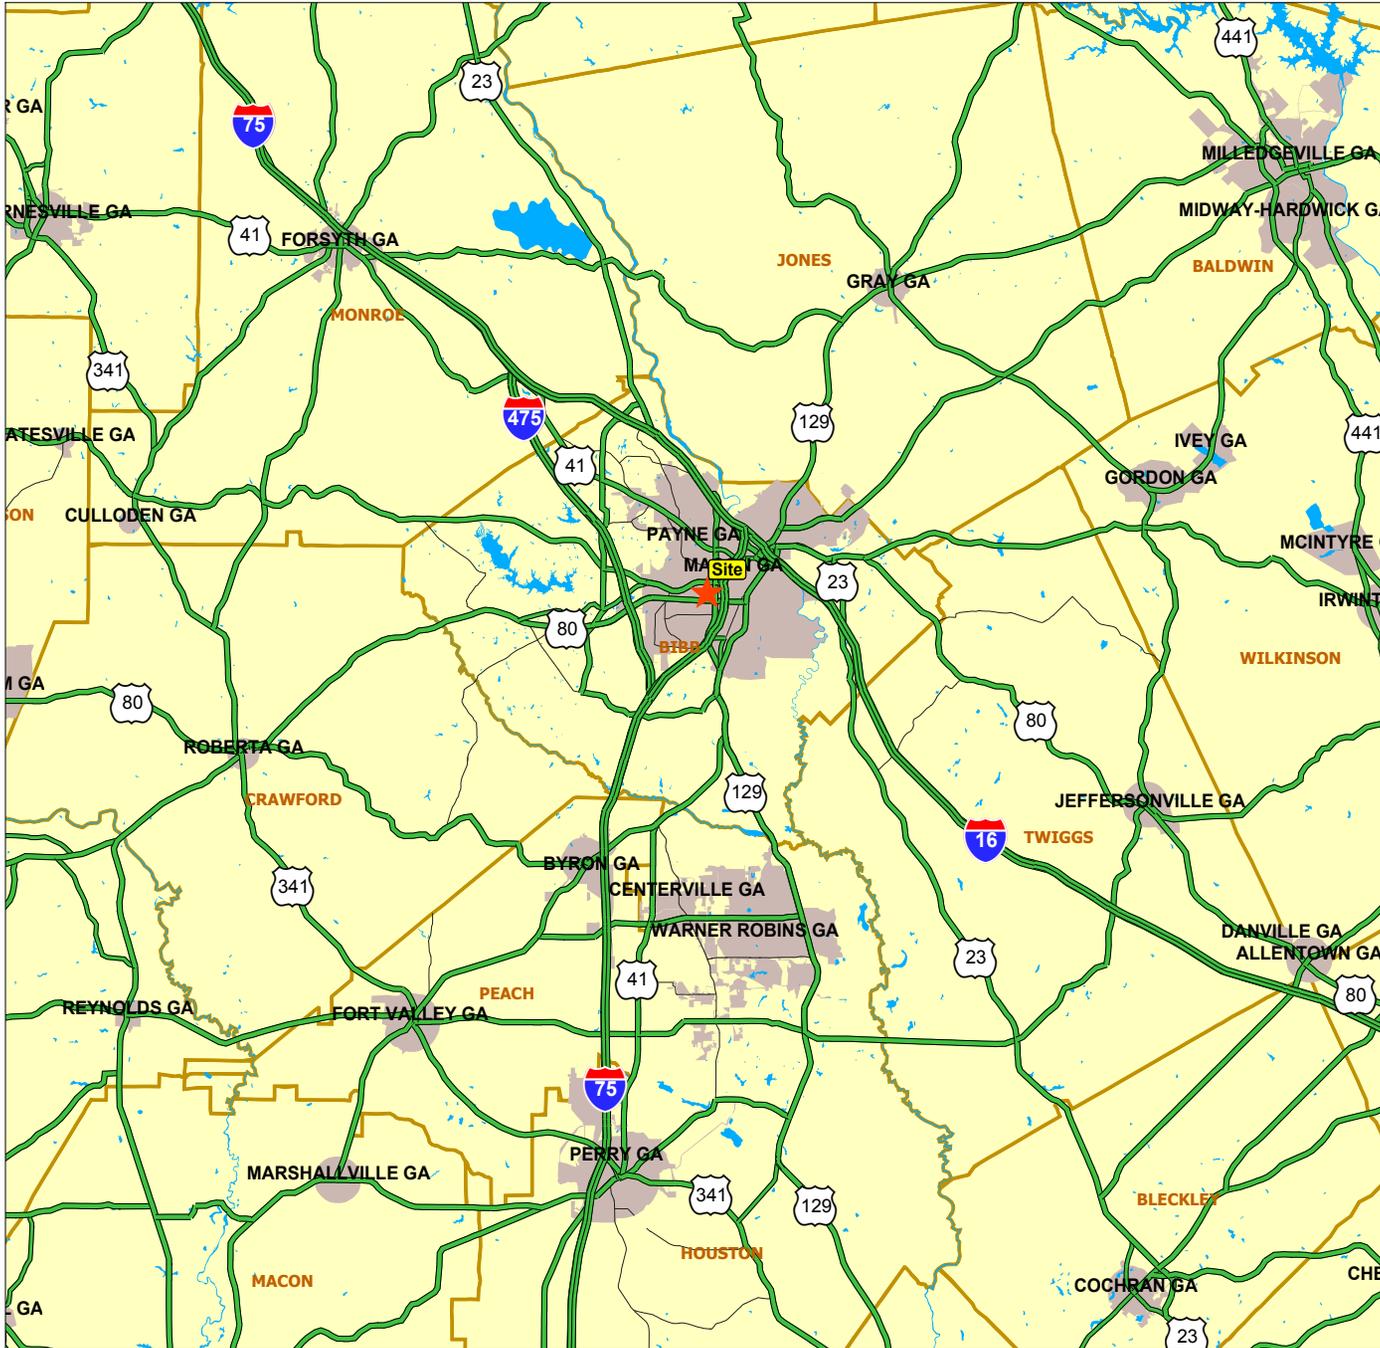

16. STATISTICAL AREA: Macon, GA MSA (2005)

A state map, regional map, and map illustrating the site neighborhood are on the following pages.

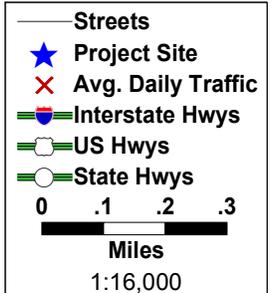

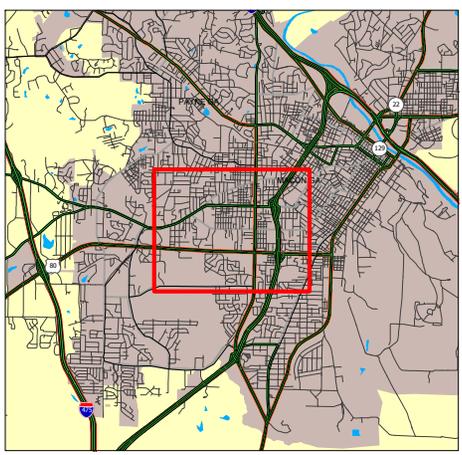

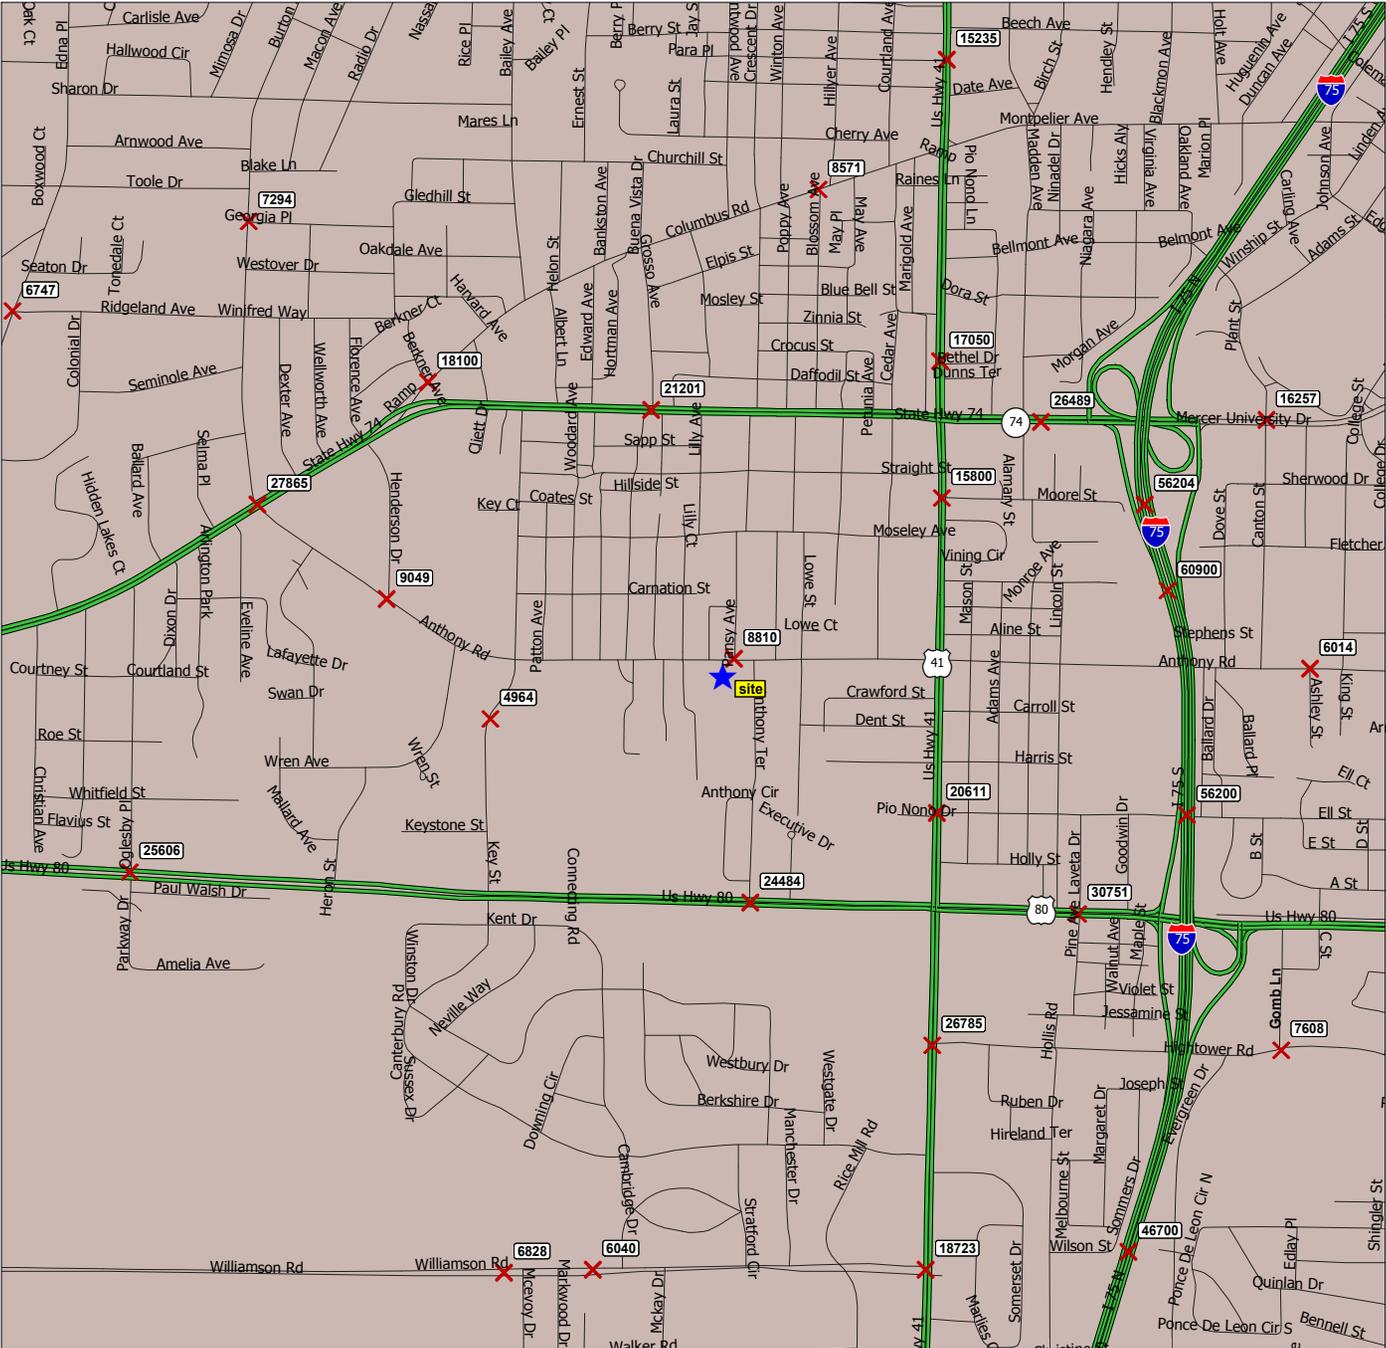

State of Georgia

Macon, GA: Surrounding Region

Macon, GA: Site Neighborhood

Source: DataMetrix 1998

SECTION C – SITE DESCRIPTION AND EVALUTION

1. LOCATION

The subject site is the existing Anthony Arms Apartments at 1692 Anthony Road. Specifically, the site is located on the south side of Anthony Road in the central portion of Macon, Georgia. Located within Bibb County, Macon is approximately 84.0 miles southeast of Atlanta. The site was inspected in June 2005.

2. SURROUNDING LAND USES

The subject site is within an established area of Macon, Georgia. Surrounding land uses include wooded tree lines, a grass-covered lot, churches, established, single- and multifamily homes, retail shops, commercial businesses, an electrical substation, a vacant for-lease office building, a middle school, and mini-storage facilities. Adjacent land uses are detailed as follows:

North -	A grass-covered yard (part of the site) borders the site to the north. Further north is Anthony Road, Deliverance Tabernacle Church, Johnson Farm Field, and established, single- and multifamily homes.
East -	A small tree line borders the site to the east. Further east are established single-family homes, a church, retail shops, and restaurants.
South -	A heavily wooded, fenced tree line borders the site to the south. Beyond that are commercial businesses, an electrical substation, a vacant for-lease office building, established single-family homes, and Eisenhower Parkway.
West -	The former Ballard Houston Middle school (no longer in-use) borders the site to the west followed by the future home of St. John Baptist Church (not yet under construction), commercial businesses, and some mini-storage facilities. Georgia Power and two electrical towers are southwest of the site.

3. VISIBILITY AND ACCESS

The subject property is located at 1692 Anthony Road, a dual-lane road. Traffic is moderate to heavy along Anthony Road, particularly during weekday business hours. Visibility is slightly impaired from all directions due to the wooded land, businesses, middle school, and church that surround the site. Access to the site is convenient for eastbound and westbound traffic off of Anthony Road.

4. PROXIMITY TO COMMUNITY SERVICES AND INFRASTRUCTURE

a. Commercial/Retail Areas

The area is served by numerous shopping opportunities. Westgate Shopping Center, which includes Home Depot, Burlington Coat Factory, PETsMART, and Media Play, is located 1.0 mile southeast of the site. The Macon Colonial Mall, which includes J.C. Penney, Parisian, Sears, Dillard's, Belk's, Macy's and nearly 80 other retailers, is located within 1.7 miles southwest of the site. Family Dollar and Splash & Dash Laundromat are both approximately 0.5 miles east of the site. Flash Foods grocery store is located within 0.8 miles southeast of the site. CVS Pharmacy is approximately 1.2 miles northeast of the site.

b. Employers/Employment Centers

The subject site is within 3.5 miles southwest of the Macon Central Business District, which has numerous employment opportunities. The largest area employers include Warner Robins Air Logistics Center, Medical Center of Central Georgia, Bibb County Board of Education, Government Employees Insurance Company, and Brown & Williamson Tobacco Corporation. A list of the area's largest employers is included in the "Economic Analysis" section of this report.

c. Recreation Areas and Facilities

There are three parks within 2.0 miles of the subject site. The park closest to the site is Arlington Park, located within 1.0 mile northwest of the site. There are three fitness centers within 5.0 miles of the site, while the closest YMCA is located in Warner Robins, approximately 15.3 miles southeast of the site.

d. Entertainment Venues

Macon has numerous entertainment venues for residents of Macon. Luther Williams Stadium, home to the Macon Peaches, is a single A affiliate to the Atlanta Braves National League Baseball Club and is located 4.2 miles northeast of the site. The Macon Knights of the Arena Football 2 league play their games at the Macon Centreplex Coliseum, approximately 11.4 miles northwest of the site. The Macon Centreplex is also home to the Atlantic Coast Hockey League's Macon Trax. There are five museums throughout the city of Macon. The Gold Cup Bowling Center is located within 2.0 miles south of the site. Regal Rivergate Cinema 14 is approximately 8.0 miles northwest of the site.

e. Education Facilities

The Macon Public School District serves the subject site area. Hartley Elementary School, McEvoy Middle School, and Southwest High School are all within 2.0 miles of the site.

Macon College, which typically has over 4,100 students, is located within 2.5 miles southwest of the site. Mercer University, located approximately 3.0 miles northeast of the site. The school has typical fall enrollment of 2,500 students.

f. Social Services

The Macon City Hall, which includes most local government services, is located within 3.7 miles northeast of the site. The Middle Georgia Regional Library is within 2.7 miles northeast of the site. The Senior Citizen's Center of Macon-Bibb County, which includes numerous social, educational, and counseling programs to elderly residents, is within 2.6 miles northeast of the site.

g. Transportation Services

The Macon-Bibb County Transit Authority (MTA) is a public bus service that serves Macon and surrounding communities. The nearest bus stop is directly in front of the site along Anthony Road. The site has convenient access to Interstate 75, State Route 74, and U.S. Highway 80.

h. Public Safety

The Bibb County Sheriff's office is located within 2.3 miles northeast of the site, while the Macon Fire station #5 is less than 1.5 miles east of the site. The Medical Center of Central Georgia is located along Hemlock Street, 2.7 miles northeast of the site.

5. CRIME ISSUES

The primary source for Crime Risk data is the FBI Uniform Crime Report (UCR). The FBI collects data from each of roughly 16,000 separate law enforcement jurisdictions across the country and compiles this data into the UCR. The most recent update showed an overall coverage rate of 95% of all jurisdictions nationwide with a coverage rate of 97% of all jurisdictions in metropolitan areas.

Applied Geographic Solutions uses the UCR at the jurisdictional level to model each of the seven crime types at other levels of geography. Risk indices are standardized based on the national average. A Risk Index value of 100 for a particular risk indicates that, for the area, the relative probability of the risk is consistent with the average probability of that risk across the United States.

It should be noted that aggregate indices for total crime, personal crime and property crime are un-weighted indices, in that a murder is weighted no more heavily than petty theft. Thus, caution should be used when using the aggregate indices.

Total crime risk for the Site PMA is above the national average with an overall personal crime index of 168 and property crime index of 213. Total crime risk for Bibb County is also above the national average with indices for personal and property crime of 119 and 171 respectively.

	CRIME RISK INDEX	
	SITE PMA	BIBB COUNTY
TOTAL CRIME	204	156
PERSONAL CRIME	168	119
MURDER	314	210
RAPE	151	100
ROBBERY	178	132
ASSAULT	91	77
PROPERTY CRIME	213	171
BURGLARY	223	174
LARCENY	233	193
MOTOR VEHICLE THEFT	176	140

- Community Center
- Interstate Hwys
- US Hwys
- State Hwys

0 0.5 1 1.5
Miles
1:54,000

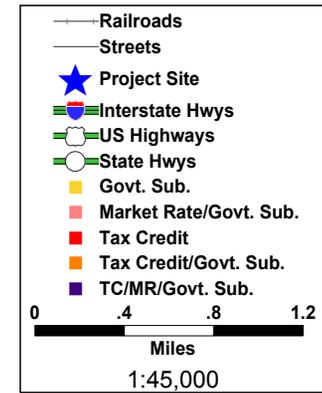

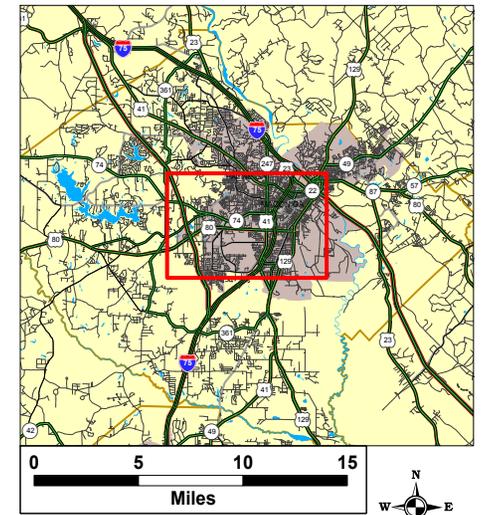

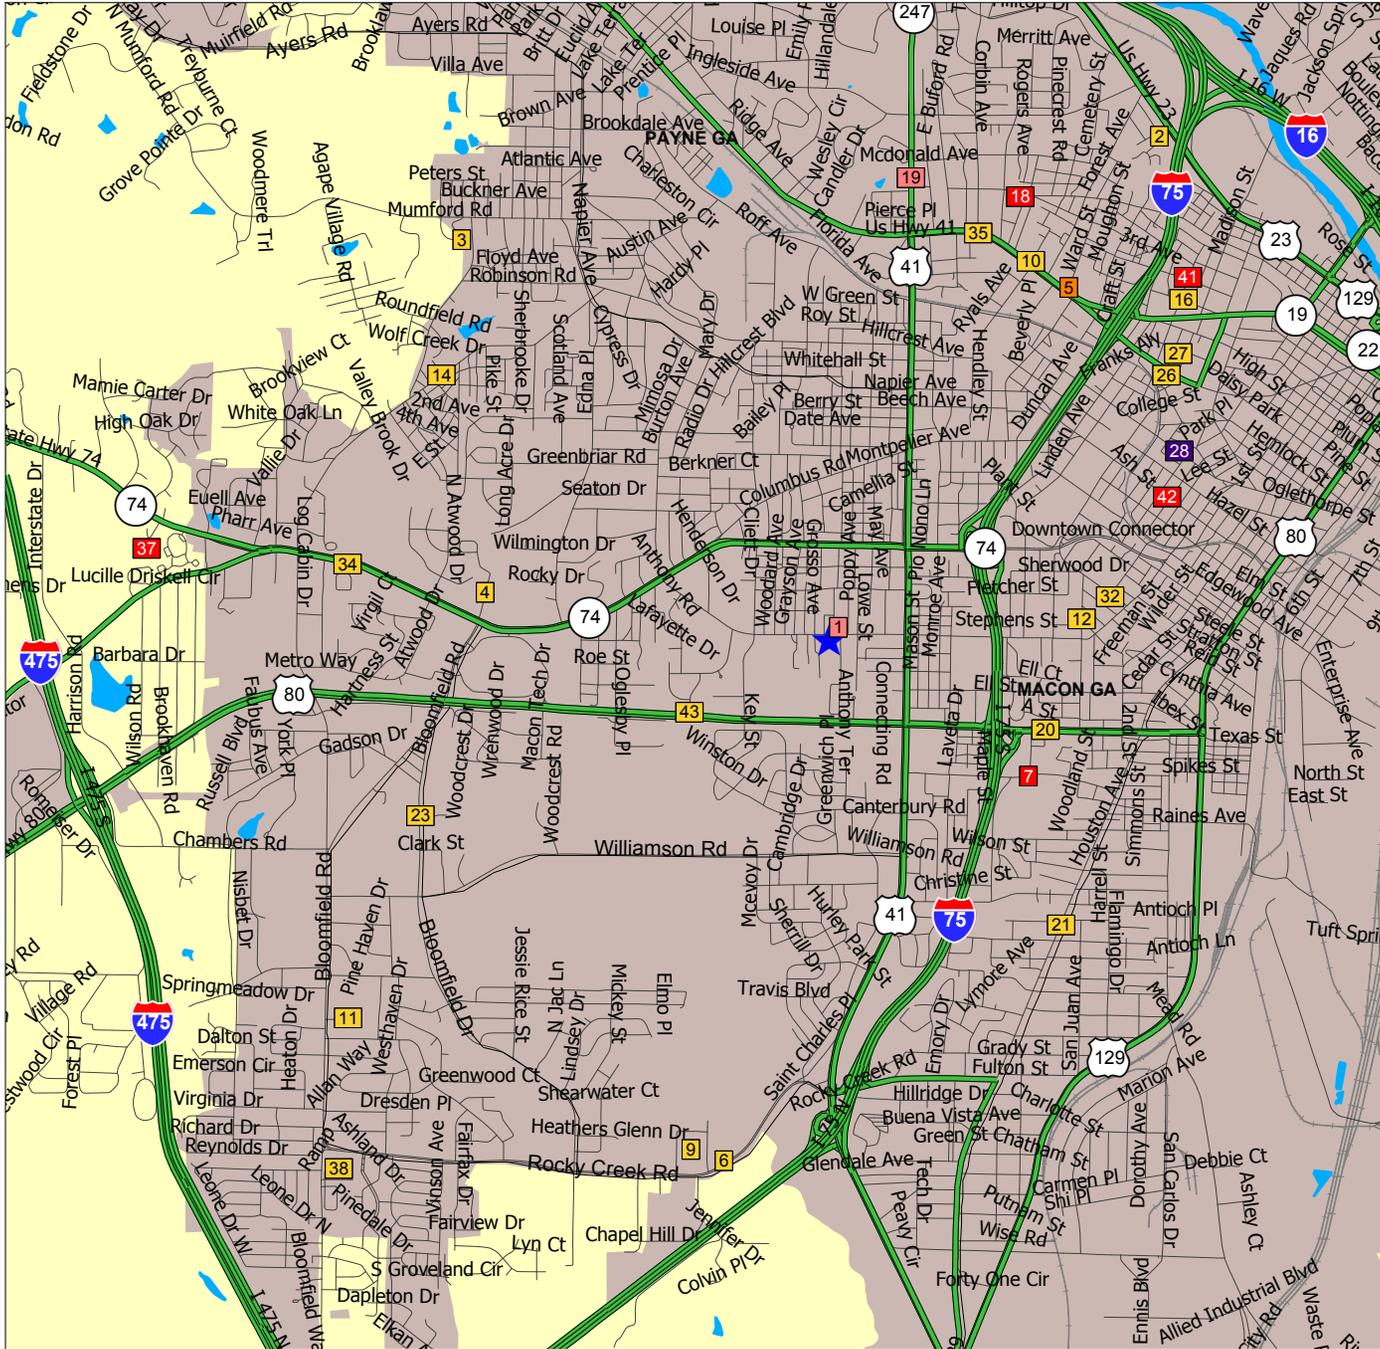

8. NEIGHBORHOOD DEVELOPMENTS/ZONING

The proposed project involves the acquisition of an existing building and rehabilitation of 100 apartment units in an established area of Macon. Nearby land uses include vacant, wooded land and retail developments, which are not considered to have a significant impact on the subject site. The site is currently zoned R-3 and surrounding areas are zoned for residential and commercial use.

9. MAP OF LOW-INCOME RENTAL HOUSING

A map illustrating the location of low-income rental housing projects (Tax Credit, Rural Development, HUD Section 8, and public housing) identified in the Site PMA is included on the following page.

Macon, GA (Anthony Arms): Low-Income Comparable Properties

10. PLANNED ROAD OR INFRASTRUCTURE IMPROVEMENTS

According to area planning and zoning officials, there are no notable roads or other infrastructure projects underway or planned for the immediate site area. The subject site has convenient access to Mercer University Drive and U.S. Highway 80. The area is established and Georgia Power provides electric service, while water service and sewer service are provided by the city of Macon.

11. VISIBLE ENVIRONMENTAL OR OTHER CONCERNS

The Georgia Power Company is southwest of the site and contains two electrical towers on the property. Also, there is an electrical substation south of the site. The heavily wooded tree lines bordering the site impair the view of the towers and the electrical substation in these directions. Although it is important to note these issues, they are not expected to negatively affect the marketability of the site, as occupancy has historically been high.

12. OVERALL SITE EVALUATION

The established, single-family homes close to the site are in relatively good condition. The two electrical towers and the electrical substation that are close to the site are not expected to hinder the marketability of the site. The site fits in well with the surrounding land uses.

The site is within close proximity to shopping, employment, recreational, entertainment, and educational opportunities. Social services, public transportation, and public safety services are all within 3.7 miles of the site. The site has convenient access to major highways. Overall, we consider the site's location and proximity to community services to have a positive impact on the marketability of the site.

SECTION D – PRIMARY MARKET AREA DELINEATION

The Primary Market Area (PMA) is the geographical area from which most of the support for the existing development is expected to originate. The Macon Site PMA was determined through interviews with area leasing and real estate agents, government officials, economic development representatives, and the personal observations of our analysts. The personal observations of our analysts include physical and/or socioeconomic differences in the market and a demographic analysis of the area households and population.

The Macon Site PMA was confirmed by the manager at Anthony Arms Apartments. The Site PMA includes the majority of the central and western portions of Macon, Georgia. The boundaries of the Site PMA consist of Rocky Creek, Wolf Creek, Ayers Road, Norfolk Southern railroad tracks, State Route 247, Interstate 75, and the Ocmulgee River to the north; Broadway (State Route 11/U.S. Highway 129) to the east; Interstate 75/State Route 401, U.S. Highway 41/State Route 247, and Guy Paine Road to the south; and Interstate 475 to the west.

The areas north and west of the Site PMA were not included as they consist primarily of high-end, single- and multifamily homes and residents in these areas are not likely to qualify or move to the existing site. The area east of the Site PMA is comprised of industrial parks, a landfill, a water treatment plant, an airport, and the northeastern portion of the city of Macon. Residents in this area are not likely to move from this area into the subject site. The area south of the Site PMA was excluded because it consists of undeveloped land and primarily established, single-family homes.

A small portion of support may originate from some of the outlying smaller communities in the area; however, we have not considered any secondary market area in this report.

A map delineating the boundaries of the Site PMA is included on the following page.

SECTION E – COMMUNITY DEMOGRAPHIC DATA & ECONOMIC TRENDS

1. POPULATION TRENDS

The Macon Site PMA population base decreased by 5,758 between 1990 and 2000. This represents a 7.9% decrease over the 1990 total population, or an annual rate of 0.8%. The Site PMA population base for 1990, 2000, 2004 (estimated), and 2007 (projected) are summarized as follows:

	YEAR			
	1990 (CENSUS)	2000 (CENSUS)	2004 (ESTIMATED)	2007 (PROJECTED)
POPULATION	72,612	66,854	65,343	64,436
POPULATION CHANGE	-	-5,758	-1,511	-907
PERCENT CHANGE	-	-7.9%	-2.3%	-1.4%

It is projected that the total population will decrease by 320 people, or 1.4%, between 2004 and 2007.

The Site PMA population bases by age are summarized as follows:

POPULATION BY AGE	2000 (CENSUS)		2004 (ESTIMATED)		2007 (PROJECTED)		CHANGE 2004-2007	
	NUMBER	PERCENT	NUMBER	PERCENT	NUMBER	PERCENT	NUMBER	PERCENT
17 & UNDER	19,356	29.0%	19,229	29.4%	18,943	29.4%	-286	-1.5%
18 TO 24	8,008	12.0%	7,577	11.6%	7,406	11.5%	-170	-2.2%
25 TO 34	9,010	13.5%	8,404	12.9%	8,223	12.8%	-180	-2.1%
35 TO 44	9,258	13.8%	8,421	12.9%	7,886	12.2%	-535	-6.4%
45 TO 54	7,823	11.7%	7,877	12.1%	7,719	12.0%	-158	-2.0%
55 TO 64	4,956	7.4%	5,521	8.4%	5,977	9.3%	456	8.3%
65 TO 74	4,183	6.3%	3,903	6.0%	3,989	6.2%	87	2.2%
75 & HIGHER	4,260	6.4%	4,412	6.8%	4,293	6.7%	-119	-2.7%
TOTAL	66,854	100.0%	65,343	100.0%	64,436	100.0%	-907	-1.4%

As the preceding table illustrates, even though the total population has been decreasing and is projected to continue to decrease through 2007, there has been a growth in population between the ages of 55 and 74. Between 2004 and 2007, the overall population of elderly age 55+ is projected to increase by 424, indicating senior population growth within the Site PMA.

2. HOUSEHOLD TRENDS

Within the Macon Site PMA, the total number of households decreased by 1,924 (7.0%) between 1990 and 2000. Household trends within the Macon Site PMA are summarized as follows:

	YEAR			
	1990 (CENSUS)	2000 (CENSUS)	2004 (ESTIMATED)	2007 (PROJECTED)
HOUSEHOLDS	27,462	25,538	25,767	25,957
HOUSEHOLD CHANGE	-	-1,924	229	281
PERCENT CHANGE	-	-7.0%	0.9%	1.1%
AVERAGE HOUSEHOLD SIZE	2.6	2.6	2.5	2.5

Source: 2000 Census; Applied Geographic Solutions; Vogt Williams & Bowen, LLC

Despite the decrease in total households from 1990 to 2000, household growth was positive between 2000 and 2004, and is projected to continue to increase when in 2007 there will be a total of 25,957 households.

The Site PMA household bases by age are summarized as follows:

HOUSEHOLDS BY AGE	2004 (ESTIMATED)		2007 (PROJECTED)		CHANGE 2004-2007	
	NUMBER	PERCENT	NUMBER	PERCENT	NUMBER	PERCENT
UNDER 25	2,084	8.1%	2,092	8.1%	8	0.4%
25 - 34	4,442	17.2%	4,425	17.0%	-17	-0.4%
35 - 44	4,867	18.9%	4,616	17.8%	-251	-5.2%
45 - 54	4,878	18.9%	4,856	18.7%	-22	-0.4%
55 - 64	3,681	14.3%	4,051	15.6%	370	10.1%
65 - 74	2,783	10.8%	2,905	11.2%	122	4.4%
75 - 84	2,188	8.5%	2,156	8.3%	-32	-1.5%
85+	844	3.3%	854	3.3%	10	1.2%
TOTAL	25,767	100.0%	25,957	100.0%	190	0.7%

Source: 2000 Census; Applied Geographic Solutions; Vogt Williams & Bowen, LLC

Between 2004 and 2007, the greatest growth among household age groups was among households between the ages of 55 and 74.

Households by tenure are distributed as follows:

DISTRIBUTION OF HOUSEHOLDS	2000 (CENSUS)		2004 (ESTIMATED)	
	HOUSEHOLDS	PERCENT	HOUSEHOLDS	PERCENT
OWNER-OCCUPIED	11,602	45.4%	11,742	45.6%
RENTER-OCCUPIED	13,936	54.6%	14,025	54.4%
TOTAL	25,538	100.0%	25,767	100.0%

Currently, 54.4% of all occupied housing units within the Site PMA are renter-occupied.

The household size among renter households within the Site PMA, based on Census data and estimates, are distributed as follows:

PERSONS PER RENTER HOUSEHOLD	2000 (CENSUS)		2004 (ESTIMATED)	
	HOUSEHOLDS	PERCENT	HOUSEHOLDS	PERCENT
1 PERSON	7,986	31.3%	8,046	31.2%
2 PERSONS	7,232	28.3%	7,314	28.4%
3 PERSONS	4,460	17.5%	4,493	17.4%
4 PERSONS	3,196	12.5%	3,211	12.5%
5+ PERSONS	2,664	10.4%	2,703	10.5%
TOTAL	25,538	100.0%	25,767	100.0%

One- and two-person households comprise 59.6% of all renter households within the Site PMA. The proposed subject project will generally house two- to five-person households, which comprise 68.7% of all households. This is a high share of renter households and a good indication for support for the proposed development.

The distribution of all households by income within the Site PMA is summarized as follows:

HOUSEHOLD INCOME	2000 (CENSUS)	
	HOUSEHOLDS	PERCENT
LESS THAN \$10,000	6,024	23.6%
\$10,000 - \$14,999	3,003	11.8%
\$15,000 - \$24,999	4,738	18.6%
\$25,000 - \$34,999	3,591	14.1%
\$35,000 - \$49,999	3,600	14.1%
\$50,000 - \$74,999	2,949	11.5%
\$75,000 - \$99,999	973	3.8%

3. LABOR FORCE PROFILE

The subject site is located within the central portion of Bibb County. The labor force is relatively diversified, with Retail Trade, Health Care, and Food and Hospitality Services as the largest sectors in the Macon Site PMA. According to AGS, employment in the Site PMA as of 2004 was distributed as follows:

EMPLOYMENT TYPE	2004 SITE PMA	PERCENT
AGRICULTURE/MINING	148	0.6%
CONSTRUCTION	1,404	5.9%
MANUFACTURING	2,033	8.6%
WHOLESALE TRADE	564	2.4%
RETAIL TRADE	3,120	13.2%
TRANSPORTATION AND WAREHOUSING	1,060	4.5%
UTILITIES AND INFORMATION SERVICES	1,715	7.3%
F.I.R.E	577	2.4%
PROFESSIONAL SERVICES	547	2.3%
MANAGEMENT	7	0.0%
ADMINISTRATIVE SERVICES AND WASTE MANAGEMENT	908	3.8%
EDUCATIONAL SERVICES	2,122	9.0%
HEALTH CARE AND SOCIAL ASSISTANCE	3,448	14.6%
ARTS, ENTERTAINMENT AND RECREATION	268	1.1%
FOOD AND HOSPITALITY SERVICES	2,525	10.7%
OTHER PRIVATE SERVICES	1,475	6.2%
PUBLIC ADMINISTRATION	1,691	7.2%
TOTAL	23,612	100.0%

Typical wages by occupation for the Macon, Georgia MSA are illustrated as follows:

TYPICAL WAGE BY OCCUPATION TYPE		
OCCUPATION TYPE	MACON, GA MSA	GEORGIA
MANAGEMENT OCCUPATIONS	\$75,790	\$85,340
BUSINESS AND FINANCIAL OCCUPATIONS	\$50,410	\$54,450

TRANSPORTATION AND MOVING OCCUPATIONS	\$23,030	\$28,300

Source: U.S. Department of Labor Statistics, Bureau of Labor Statistics

Most Macon, Georgia MSA annual average salaries range from \$25,000 to \$50,000, while most management and other white-collar jobs have annual average salaries of over \$50,000. The proposed project will target households with incomes between \$18,660 and \$35,640. The area employment base has a significant number of income-appropriate households from which the proposed subject project will be able to draw support.

4. MAJOR EMPLOYERS

The ten largest employers within the Macon ,Georgia MSA comprise a total of 44,044 employees. These employers are summarized as follows:

INDUSTRY	BUSINESS TYPE	TOTAL EMPLOYED
Warner Robins Air Logistics Center	Government/Military	23,000
Medical Center of Central Georgia	Health Care	4,631
Bibb County Board of Education	Education	3,700
Government Employees Insurance Company	Insurance	3,300
Brown and Williamson Tobacco Corporation	Agriculture/Manufacturing	2,300
Blue Bird Corporation	Manufacturing (school buses)	1,700
City of Macon	Government	1,635
Columbia Coliseum Medical Centers	Healthcare	1,500
Mercer University	Education	1,290
YKK (USA)	Manufacturing (zippers)	988
	TOTAL	44,044

According to officials at many of the area's largest employers, local Chamber of Commerce sources, and Economic Development representatives, only the Warner Robins Air Logistics Center is planning a major expansion. The base will add 700 to 800 new jobs over the next two years. Job losses include the closing of the Bibb County Brown and Williamson plant (2,100 jobs) and the closing of a Keebler Company bakery (400). Both closures are expected in 2006.

Job growth in the area includes the addition of 70 jobs at First Data over the next few months, 100 new jobs at Tyco Healthcare in 2005, and the recent opening of a Kohl's regional distribution center, which created 350 new jobs. Currently there is a Bass Pro Shops store and distribution center under construction, which will add an unspecified number of jobs to the local economy. In addition, Battle Lumber Company has added 50 jobs in 2005.

5. EMPLOYMENT TRENDS

The employment base has increased by 6.8% over the past five years in the city of Macon, outpacing the Georgia average of 3.5%.

The following illustrates the total employment base for the city of Macon and Georgia.

YEAR	TOTAL EMPLOYMENT	
	CITY OF MACON	GEORGIA
1990	44,364	3,118,253
1991	43,476	3,099,103
1992	42,869	3,119,071
1993	43,934	3,265,259
1994	44,686	3,522,905
1995	45,620	3,638,219
1996	46,588	3,751,699
1997	47,318	3,789,729
1998	47,107	3,915,174
1999	44,776	3,993,441
2000	44,735	4,096,122
2001	46,109	4,039,667
2002	46,139	4,059,644
2003	47,202	4,206,823
2004	47,797	4,240,053

As the preceding table illustrates, the city of Macon employment base has increased by 3,433 employees since 1990, an annual average of 0.8%.

The unemployment rate in the city of Macon has remained between 5.2% and 8.1%, slightly above the state average since 1990. Employment rates for the city of Macon and Georgia are illustrated as follows:

YEAR	UNEMPLOYMENT RATE	
	CITY OF MACON	GEORGIA
1990	6.2%	5.5%
1991	5.4%	5.0%
1992	8.1%	7.0%
1993	7.2%	5.8%
1994	8.0%	4.8%
1995	6.4%	4.6%
1996	6.3%	4.5%
1997	6.2%	4.5%
1998	7.1%	4.2%
1999	6.0%	4.0%
2000	5.9%	3.7%
2001	5.2%	4.0%
2002	5.6%	5.1%
2003	5.4%	4.7%
2004	5.8%	4.1%

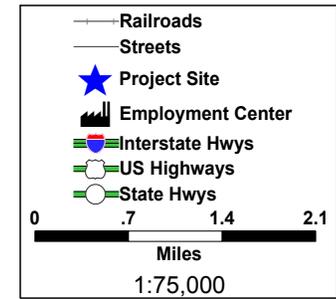

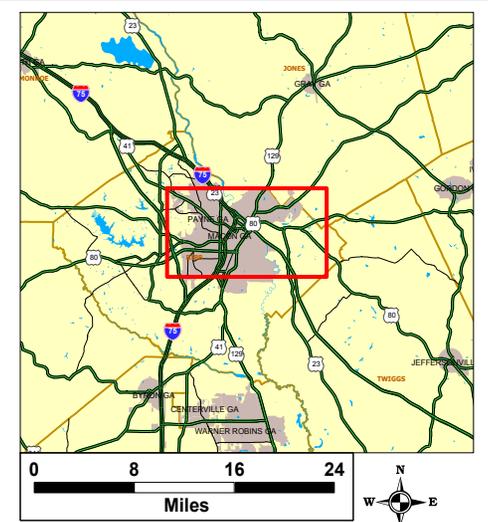

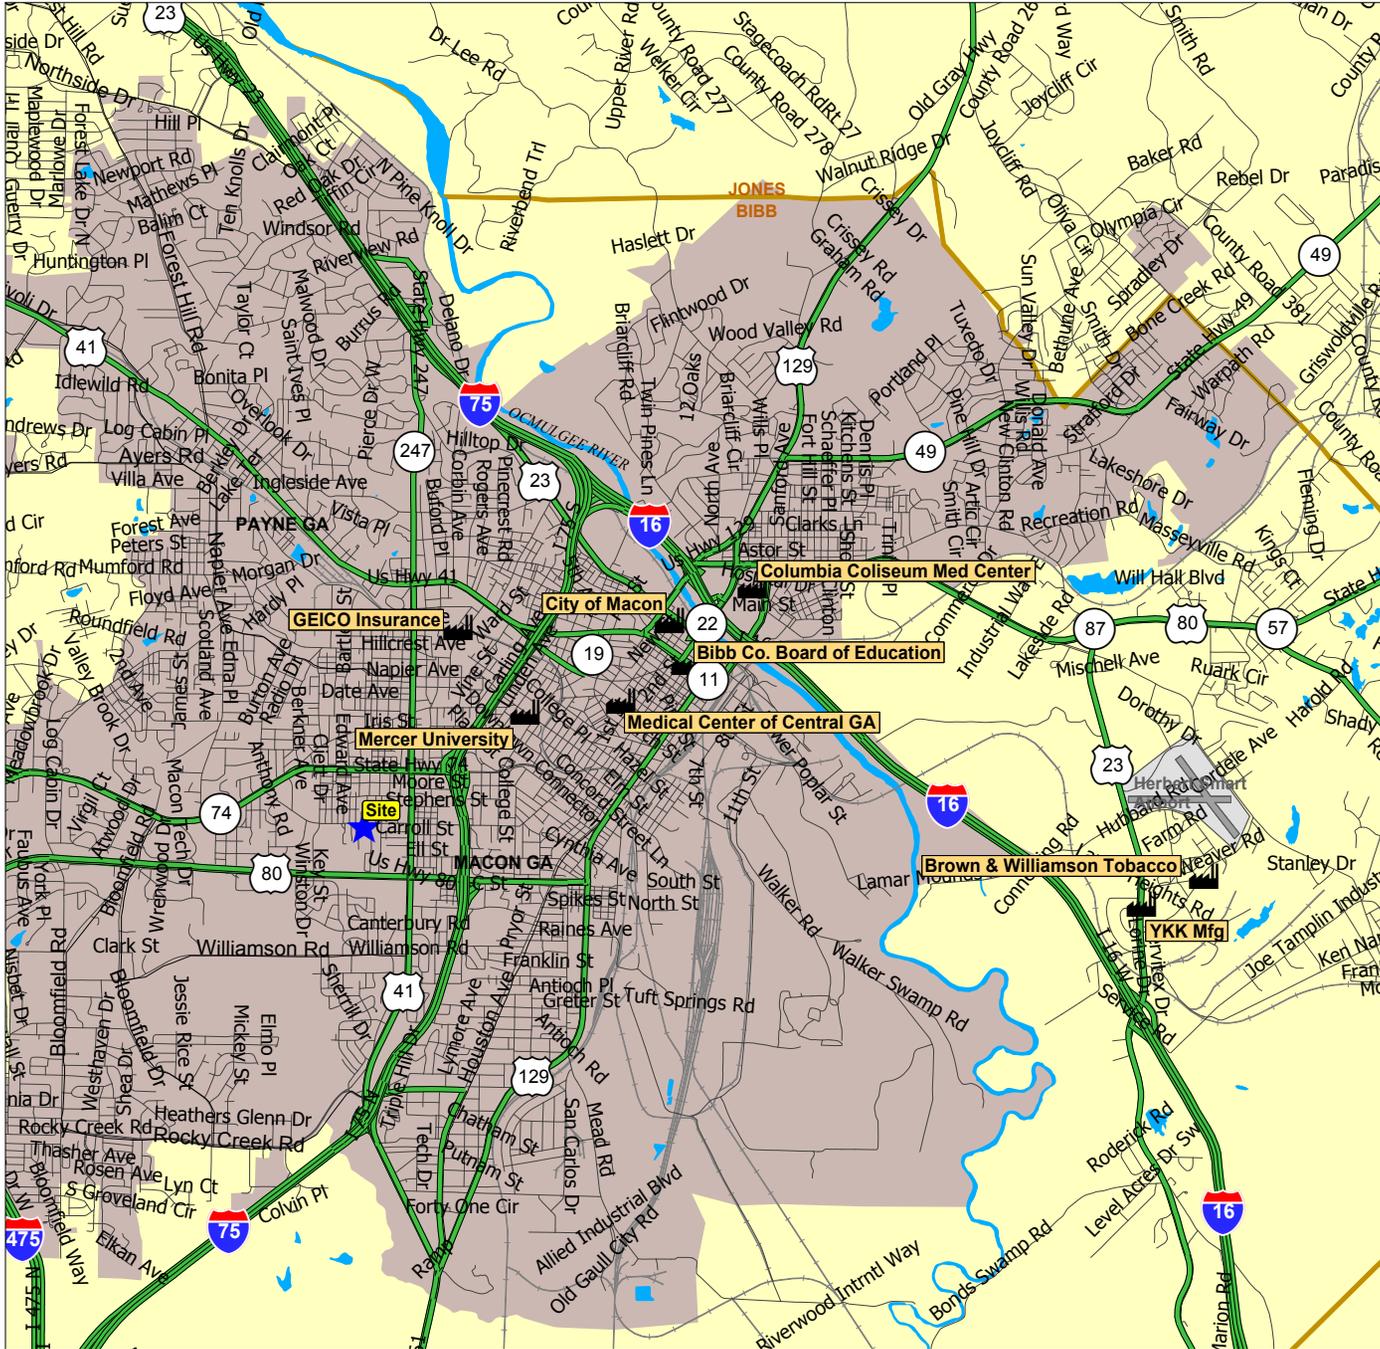

6. ECONOMIC FORECAST

According to statistics provided by the Macon Economic Development Commission, and based on interviews with representatives of the local area Chamber of Commerce and Economic Development Department, despite the overall population loss during the past 15 years, new job growth and expansions are expected to experience continued growth in the future.

Also considering the presence of government and education employment in the area, and the resistance these types of employment typically have to economic slowdowns or downturns, we anticipate that Bibb County will continue to have a stable and growing economy for at least the next few years. This will be anchored by the expansion planned for the Warner Robins Air Logistics Center. Many new jobs announced for the area will pay incomes in the range targeted by Anthony Arms. This will result in a continuing need for affordable housing in the Macon area, which the subject will continue to fill upon renovation.

A major employment concentration map is on the following page.

Macon, GA: Major Employers

SECTION F – PROJECT-SPECIFIC DEMAND ANALYSIS

1. DETERMINATION OF INCOME ELIGIBILITY

According to GDCA/GHFA market study guidelines, units offering Project-Based Rental Assistance (PBRA) should not be included in the demand analysis. HUD has indicated that PBRA will continue at the subject for at least five years and up to 20 years. The following analysis estimates demand for the 41 PBRA units at the subject site in the event that PBRA is ended after five years. Demand analysis for the 19 LIHTC units at the subject site is also presented.

In order to determine demand from income-eligible households, we first establish the income range required to live at the proposed Low-Income Housing Tax Credit (LIHTC) units.

a. Maximum Income Limits

Under the Low-Income Housing Tax Credit program, household eligibility is based on household income not exceeding the targeted percentage of Area Median Household Income (AMHI), depending upon household size.

The subject site is in the Macon, Georgia MSA (Bibb County), which has a median household income of \$55,000 for 2005. The subject property will be restricted to households with incomes of up to 50% and 60% of AMHI for Bibb County. The following table summarizes the maximum allowable income by household size for Bibb County at 50% and 60% of AMHI.

HOUSEHOLD SIZE	MAXIMUM ALLOWABLE INCOME	
	50% AMHI	60% AMHI
ONE-PERSON	\$19,250	\$23,100
TWO-PERSON	\$22,000	\$26,400
THREE-PERSON	\$24,750	\$29,700
FOUR-PERSON	\$27,500	\$33,000
FIVE-PERSON	\$29,700	\$35,640

The largest proposed units (three-bedroom) at the subject site are expected to house up to five-person households. As such, the maximum allowable income for the subject site is **\$35,640**.

b. Minimum Income Requirements

Leasing industry standards typically require households to have rent-to-income ratios of 27% to 40%. Pursuant to GDCA/GHFA market study guidelines, the maximum rent-to-income ratio permitted for family projects is 35%.

The proposed Low-Income Housing Tax Credit units will have a lowest gross rent of \$544. Over a 12-month period, the minimum annual household expenditure (rent plus tenant-paid utilities) is \$6,530.

Applying a 35% rent-to-income ratio to the minimum annual household expenditure yields a minimum annual household income requirement for the Tax Credit units of **\$18,660**.

c. Income-Appropriate Range

Based on the preceding analyses, the income-appropriate range required at the proposed project with units serving households at 50% and 60% of AMHI is as follows:

UNIT TYPE	INCOME RANGE	
	MINIMUM	MAXIMUM
TAX CREDIT (60% AMHI) NO RENTAL ASSISTANCE	\$18,660	\$35,640
TAX CREDIT (60% AMHI) WITH RENTAL ASSISTANCE	\$0	\$35,640
TAX CREDIT (50% AMHI) NO RENTAL ASSISTANCE	\$18,660	\$29,700
TAX CREDIT (50% AMHI) WITH RENTAL ASSISTANCE	\$0	\$29,700

2. METHODOLOGY

The following are the demand components as outlined by the Georgia Department of Community Affairs/Georgia Housing and Finance Authority:

- a. New units required in the market area due to projected household growth from migration into the market and growth from existing households should be determined.** *This should be determined using 2000 Census data and projecting forward to the anticipated placed in service date of the project using a growth rate established from a reputable source such as Claritas, ESRI, or the State Data Center. This population projected must be limited to the target population, age and income group and the demand for each income group targeted (i.e. 50% of median income) must be shown separately. In instances where a significant number (more than 20%) of proposed units are comprised of three- and four-bedroom units, please refine the analysis by factoring in number of large household (generally 4+ persons). Note that our calculations have been reduced to only include renter-qualified households.*

- b. Rent over-burdened households, if any, within the age group, income groups and tenure (renters) targeted for the proposed development.** *This calculation must exclude households that would be rent over-burdened (i.e. paying more than 35% of their income toward rent or more than 40% of their income for elderly) in the proposed project. Based on the 2000 Census, 32.3% of renter households pay more than 35% of their income toward rent. These households have been included in our demand analysis.*
- c. Households living in substandard housing (units that lack complete plumbing or that are overcrowded).** *Households in substandard housing should be determined based on age, income band, and tenure that apply. Based on the 2000 Census, 7.4% of all households were living in substandard housing (lacking complete indoor plumbing and overcrowded households/1+ persons per room).*
- d. Elderly homeowners likely to convert to rentership.** *GDCA recognizes that this type of turnover is increasingly becoming a factor in the demand for elderly Tax Credit housing. Due to the difficulty of extrapolating elderly (65 and over) owner households from elderly renter households, analysts may use the total figure for elderly households in the appropriate income band in order to derive this demand figure. Data from interviews with property managers of active projects regarding renters who have come from homeownership should be used to refine the analysis.*

Within the Site PMA we identified four LIHTC properties that were funded and/or built during the projection period (1999 to current). This includes one property under construction and one property that has been funded but not built. There were no LIHTC rehabilitation properties that entered the market during the projection period.

LIHTC properties built or funded since 1999 are summarized as follows:

MAP I.D.	PROJECT NAME	YEAR BUILT	LIHTC UNITS	UNITS AT TARGETED AMHI			
				30% AMHI	40% AMHI	50% AMHI	60% AMHI
28	TATTNAL PLACE	2005	35	-	-	-	35
7	BALTIC PARK (SENIOR)	2003	82	-	-	-	82
5	2009 VINEVILLE (SENIOR)	2004	106	-	-	-	106*
N/A	PINEWOOD PARK**	2006	148	15	-	105	13

*Project was built using Tax Credits. All units operate as Public Housing

**Construction has not started

N/A - Not Applicable – outside PMA

The developments 2009 Vineville and Baltic Park are not considered comparable to the subject project, as they target seniors. The two competing properties will have a total of 183 Tax Credit units upon completion, of which 105 are at 50% AMHI and 48 are at 60% AMHI. These directly comparable Tax Credit units are included in our demand analysis.

Since the subject site will offer 41 units at 50% and 60% of AMHI with Project-Based Rental Assistance, we have included the following table, which lists subsidized units built, under construction, or in the pipeline.

MAP I.D.	PROJECT NAME	YEAR BUILT	SUBSIDIZED UNITS
28	TATTNAL PLACE	2005	30
N/A	PINEWOOD PARK	2006	30

N/A - Not Applicable

There are a total of 60 subsidized units that have been built, are under construction, or are planned. All 60 units are currently planned or under construction. These units, the LIHTC units listed above, and the appropriate ratio of LIHTC and subsidized renovated units are included in the supply for our demand calculations of the Rental Assistance units at the site.

The following is a summary of our demand calculations for the subject's proposed units:

DEMAND COMPONENT	PERCENT OF MEDIAN HOUSEHOLD INCOME				
	50% AMHI (\$18,660 TO \$29,700)	50% W/PBRA (\$0 TO \$29,700)	60% AMHI (\$18,660 TO \$35,640)	60% W/PBRA (\$0 TO \$35,640)	OVERALL TC (\$18,660 TO \$35,640)
DEMAND FROM NEW HOUSEHOLDS (INCOME APPROPRIATE)	2,729 - 2,727 = 2	10,275 - 10,470 = -195	3,652 - 3,562 = 90	11,198 - 11,305 = -107	3,652 - 3,562 = 90
+					
DEMAND FROM EXISTING HOUSEHOLDS (RENTER IN SUBSTANDARD HOUSING)	2,727 X 7.4% = 202	10,470 X 7.4% = 775	3,562 X 7.4% = 264	11,305 X 7.4% = 837	3,562 X 7.4% = 264
+					
DEMAND FROM EXISTING HOUSEHOLDS (RENT OVERBURDENED)	2,727 X 32.3% = 881	10,470 X 32.3% = 3,382	3,562 X 32.3% = 1,151	11,305 X 32.3% = 3,652	3,562 X 32.3% = 1,151
=					
TOTAL DEMAND	1,085	3,962	1,505	4,382	1,505
-					
SUPPLY (DIRECTLY COMPARABLE UNITS BUILT AND/OR FUNDED SINCE 1999)	105	60	48	60	153
=					
NET DEMAND	980	3,902	1,457	4,322	1,352
PROPOSED UNITS	15	1	4	40	19
CAPTURE RATE	1.5%	<0.0%	0.3%	0.9%	1.4%

Pursuant to GDCA/GHFA guidelines, this analysis has been refined by factoring in the number of large households (4+ persons) within the Site PMA. Since the proposed site will include 40 three-bedroom units (40.0% of the total), we have based demand on the 2000 Census distribution of persons per unit among all renter households. The following is our estimated share of demand by bedroom type within the Site PMA:

ESTIMATED DEMAND BY BEDROOM	
BEDROOM TYPE	PERCENT
STUDIO/ONE-BEDROOM	31.7%
TWO-BEDROOM	38.9%
THREE-BEDROOM	20.1%
FOUR-BEDROOM	9.3%
TOTAL	100.0%

Applying these shares to the income-qualified households yields demand and penetration rates of the proposed units by bedroom type as follows:

BEDROOM SIZE (SHARE OF DEMAND)	TARGET % OF AMHI	SUBJECT UNITS	TOTAL DEMAND*	SUPPLY**	NET DEMAND	CAPTURE RATE	ABSORPTION***	AVG. MARKET RENT	SUBJECT RENTS
TWO-BEDROOM (38.9%)	50%	8	343	59	290	2.3%	3 Months	\$502	\$510
	60%	32	520	26	494	6.2%	6 Months	\$502	\$510
THREE-BEDROOM (20.1%)	50%	8	177	25	152	4.5%	3 Months	\$582	\$565
	60%	12	269	16	253	4.5%	6 Months	\$582	\$565

*Includes overlap between the targeted income levels at the subject site.

**Directly comparable units built and/or funded in the project market over the projection period.

***Assumes subject site is vacant after renovation.

The capture rates by bedroom type are good, ranging from 2.3% to 6.2%. These capture rates are indicators that there is sufficient support for the proposed subject units. It is important to note that the most conservative approach to demand has been used. For example, even though we have restricted the demand to only renter income-qualified households, the share applied to the number of income-qualified households represents the share of all renter households. In reality, at the proposed income levels, the share of renters is higher.

Overall, the project's Tax Credit units have a capture rate 1.4%. This is a low capture rate and an indication of the good base of potential support for the proposed subject project.

3. ABSORPTION PROJECTIONS

For the purposes of this analysis, we assume the absorption period at the site begins as soon as the first units are available for occupancy. Since all demand calculations in this report follow GDCA/GHFA guidelines that assume a 2007 opening date for the site, we also assume that initial units at the site will be available for rent in early 2007.

There is no recent precedent for absorption of family units in the Site PMA. The subject is currently 98.3% occupied, and relocation of all tenants is planned for the renovation period. With 3,000 on the local Housing Authority's waiting list, and considering the high occupancy rates at existing, government-subsidized projects in the market, we anticipate that any vacant units available after renovation will be rented as quickly as management can process applications due to the availability of Project-Based Rental Assistance. Conservatively assuming that the subject site is completely vacant after renovation, absorption is projected at six months, averaging 10 units per month. Stabilized occupancy is estimated at 93.0%.

SECTION G – RENTAL HOUSING ANALYSIS (SUPPLY)

1. OVERVIEW OF RENTAL HOUSING

Based on the 2000 Census, rental housing comprises 13,936 units, or 54.6% of the entire housing stock. The distribution of the area housing stock in 2000 and 2004 are summarized on the following table:

HOUSING TYPE	2000 CENSUS		2004 (ESTIMATED)	
	HOUSING UNITS	PERCENT	HOUSING UNITS	PERCENT
TOTAL OCCUPIED	25,538	86.4%	25,767	86.3%
OWNER-OCCUPIED	11,602	45.4%	11,742	45.6%
RENTER-OCCUPIED	13,936	54.6%	14,025	54.4%
VACANT	4,004	13.6%	4,086	13.7%
TOTAL	29,542	100.0%	29,853	100.0%

Based on the 2000 Census, of the 29,542 total households in the market, 13.6% were vacant. The share of renters and owners in the market has remained virtually unchanged over the last four years.

We conducted an on-site survey of 43 conventional properties totaling 4,633 units. Of these properties, twenty-one are non-subsidized (market-rate or Tax Credit) with 1,632 units. Among these non-subsidized units, 93.9% are occupied. We consider this a relatively moderate occupancy rate, and an indication that the non-subsidized conventional apartment market is balanced.

There are also twenty-two government-subsidized projects in the market with a total of 3,001 units. These units have an overall occupancy rate of 97.1%. These projects operate under various programs including HUD Section 8 and Public Housing.

The non-government subsidized apartment market is summarized as follows:

UNIT TYPE	NUMBER OF UNITS	VACANT UNITS	VACANCY RATE	MEDIAN RENT
1-BEDROOM/ 1.0 BATH	450	29	6.4%	\$489
1-BEDROOM/ 1.5 BATH	70	0	0.0%	\$559
2-BEDROOM/ 1.0 BATH	333	32	9.6%	\$507
2-BEDROOM/ 1.5 BATH	197	12	6.1%	\$609
2-BEDROOM/ 2.0 BATH	332	12	3.6%	\$687
3-BEDROOM/ 1.0 BATH	13	1	7.7%	\$603
3-BEDROOM/ 1.5 BATH	67	6	9.0%	\$616
3-BEDROOM/ 2.0 BATH	158	6	3.8%	\$813
4-BEDROOM/ 2.0 BATH	4	1	25.0%	\$664
4-BEDROOM/ 3.0 BATH	8	0	0.0%	\$910
TOTAL	1,632	99	6.1%	

The distribution of units by bedroom type in the Site PMA appears balanced. Generally, vacancies are clustered highest among the lowest quality properties. We rated each property in the Site PMA on a scale from A to D. The following is a distribution of units, vacancies, and median rents by quality rating.

Generally, vacancies are clustered highest among the lowest quality properties. We rated each property in the Site PMA on a scale from A to D. The following is a distribution of units, vacancies, and median rents by quality rating.

Market-rate

QUALITY RATING	PROJECTS	TOTAL UNITS	VACANCY RATE	MEDIAN RENTS		
				ONE-BR.	TWO-BR.	THREE-BR.

C-	2	23	8.7%	\$388	\$482	\$603

2. SURVEY OF COMPARABLE/COMPETITIVE PROPERTIES

Tax Credit Units

The proposed subject project will include 60 Low-Income Housing Tax Credit (LIHTC) units. We identified five Low-Income Housing Tax Credit developments within the Macon Site PMA. These existing LIHTC projects are considered comparable with the proposed subject development in that they target households with incomes similar to those that will be targeted at the subject site. These competitive properties and the proposed subject development are summarized as follows (Note: information regarding property address and phone number, contact name, date of contact, and utility responsibility is included in Section X “Field Survey of Conventional Rentals” of this report):

MAP I.D.	PROJECT NAME	YEAR BUILT/ RENOVATED	LIHTC UNITS	OCCUPANCY RATE	TARGET MARKET
SITE	ANTHONY ARMS	1968/2007	60	98.3%	TAX CREDIT @ 50% & 60% AMHI; FAMILY
18	MACON HOUSING SCATTERED SITES	1940/1996	9	100.0%	TAX CREDIT @ 60% AMHI; FAMILY
28	TATTNAL PLACE*	2004	29	0.0%	TAX CREDIT @ 60% AMHI; FAMILY
37	WEST CLUB	1997	140	100.0%	TAX CREDIT @ 30% & 60% AMHI; FAMILY
41	WOODLIFF PROJECT**	1975/1987	4	100.0%	TAX CREDIT; FAMILY
42	MACON HOUSING I	1960/1995	14	85.7%	TAX CREDIT @ 60% AMHI; FAMILY

*Under construction.

**Percent of the AMHI was unknown by mgmt.

The five stabilized, comparable Tax Credit properties have a combined occupancy rate of 96.4%. Macon Housing I, which has the lowest occupancy of any LIHTC property in the Site PMA, is not considered comparable to the subject due to its inferior quality and condition.

Gross rents for the competing projects, the proposed rents at the subject site as well as their unit mix and vacancies by bedroom are listed in the following table:

MAP I.D.	PROJECT NAME	GROSS RENT (NUMBER OF UNITS/VACANCIES)			SPECIALS/ CONCESSIONS
		ONE-BR.	TWO-BR.	THREE+- BR.	
SITE	ANTHONY ARMS	-	\$544 (60/0)	\$617 (40/1)	N/A
18	MACON HOUSING SCATTERED SITES	\$503-\$528 (2/0)	-	\$603-\$663 (7/0)	N/A
28	TATTNAL PLACE*	\$483-\$618 (12/12)	\$562-\$757 (61/61)	\$668-\$878 (24/24)	N/A
37	WEST CLUB	\$275-\$592	\$587-\$711	\$821-\$910	N/A
41	WOODLIFF PROJECT	\$363	\$439	-	N/A
42	MACON HOUSING I	\$388	\$482	\$573-\$664	N/A

*Under Construction, includes MR, TC and PH units

The proposed subject gross rents, ranging from \$544 for a two-bedroom unit to \$617 for a three-bedroom unit will be very competitively priced with other LIHTC units in the market. None of the surveyed Tax Credit projects are offering concessions. Note that if HUD does not renew PBRA after the current five-year contract, the owner has indicated that the subject's 41 units currently under contract will revert to the above-proposed rents.

The unit sizes (square feet) and number of bathrooms included in each of the different LIHTC unit types offered in the market are compared with the subject development in the following table.

MAP I.D.	PROJECT NAME	SQUARE FOOTAGE			NUMBER OF BATHS		
		ONE-BR.	TWO-BR.	THREE-BR.+	ONE-BR.	TWO-BR.	THREE-BR.+
SITE	ANTHONY ARMS	-	1,015	1,244	-	2.0	2.0
18	MACON HOUSING SCATTERED SITES	700-850	-	1,095-1,500	1.0	-	1.0
28	TATTNAL PLACE	600	900-985	1,140	1.0	1.5	2.5
37	WEST CLUB	595	845	1,040-1,190	1.0	2.0	2.0-3.0
41	WOODLIFF PROJECT	750	800	-	1.0	1.0	-
42	MACON HOUSING I	500	800	1,000-1,200	1.0	1.0	1.0-2.0

The proposed development will offer the largest units in the market when compared with the existing LIHTC projects. The number of baths offered at the subject site is equal to most of the LIHTC units in the market. As such, the unit sizes and number of baths will enable the proposed LIHTC units at the site to compete well with the existing low-income units in the market.

The following tables compare the amenities of the subject development with the other LIHTC projects in the market.

The amenity packages included at the proposed subject development will be very competitive with the competing low-income projects. The subject development does not appear to be lacking any amenities that would hinder its marketability to operate as a Low-Income Housing Tax Credit project.

Based on our analysis of the rents, unit sizes (square feet), amenities, location, quality, and occupancy rates of the existing low-income properties within the market, it is our opinion that the proposed subject development will be competitive with these properties.

The anticipated occupancy rates of the existing comparable Tax Credit developments following renovations at the subject site are as follows:

PROJECT	CURRENT OCCUPANCY RATE	ANTICIPATED OCCUPANCY RATE THROUGH 2007
MACON HOUSING SCATTERED SITES	100.0%	100.0%
TATTNAL PLACE	0.0%	95.0% +
WEST CLUB	100.0%	100.0%
WOODLIFF PROJECT	100.0%	100.0%
MACON HOUSING I	85.7%	85.0% +

It is expected that the 35 Tax Credit units at Tattnal Place will have reached stabilized occupancy by 2007. Development of the subject site is expected to have little, if any effect on the future occupancies of the competing Tax Credit properties, particularly given that the subject is currently 98.3% occupied. Occupancy is expected to remain low at Macon Housing I due to its inferior quality.

3. SUMMARY OF ASSISTED PROJECTS

There are a total of 28 government-subsidized and/or Tax Credit apartment developments in the Macon Site PMA, with one additional project under construction. They are summarized as follows:

MAP I.D.	PROJECT NAME	TYPE	YEAR BUILT/ RENOVATED	TOTAL UNITS	OCCUP.	COLLECTED RENTS				
						STUDIO	ONE-BR.	TWO-BR.	THREE-BR.	FOUR-BR.

TOTAL				3,345	98.3%					

*2 units under construction

**not including market-rate units

*** Five-bedroom unit

****All 65 units under construction and does not include market-rate units

OCCUP – Occupancy

TC – Tax Credit

U/C – Under Construction

Note: Contact names and phone numbers are listed in the field survey addendum of this report.

There are a total of 28 government-subsidized and/or Tax Credit apartment developments in the PMA, with one additional project under construction. The overall occupancy for the 28 stabilized properties is 98.7%, indicating a strong market among these types of apartments. The proposed project will offer subsidized units, and therefore may be competitive with government-subsidized projects. However, the subject will have a higher quality than most subsidized properties in the market after renovation. It should be noted that three government-subsidized projects listed above have also applied for Tax Credits to complete renovations (Riverside Gardens, Macon Gardens, Kingston Gardens).

4. PLANNED MULTIFAMILY DEVELOPMENT

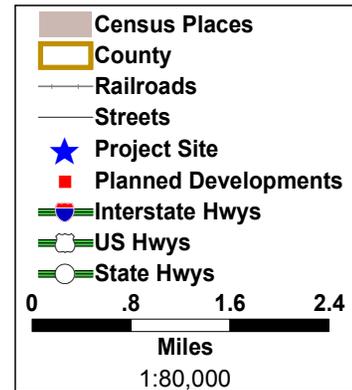

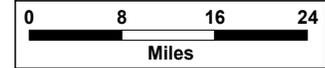

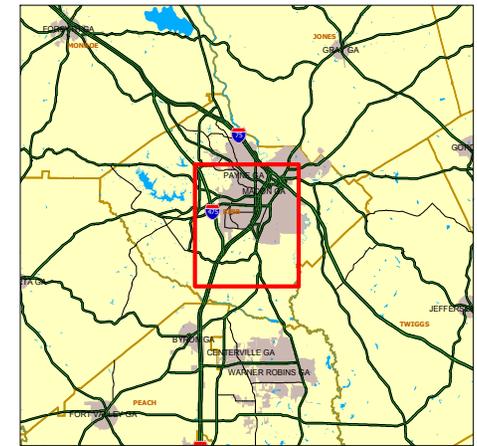

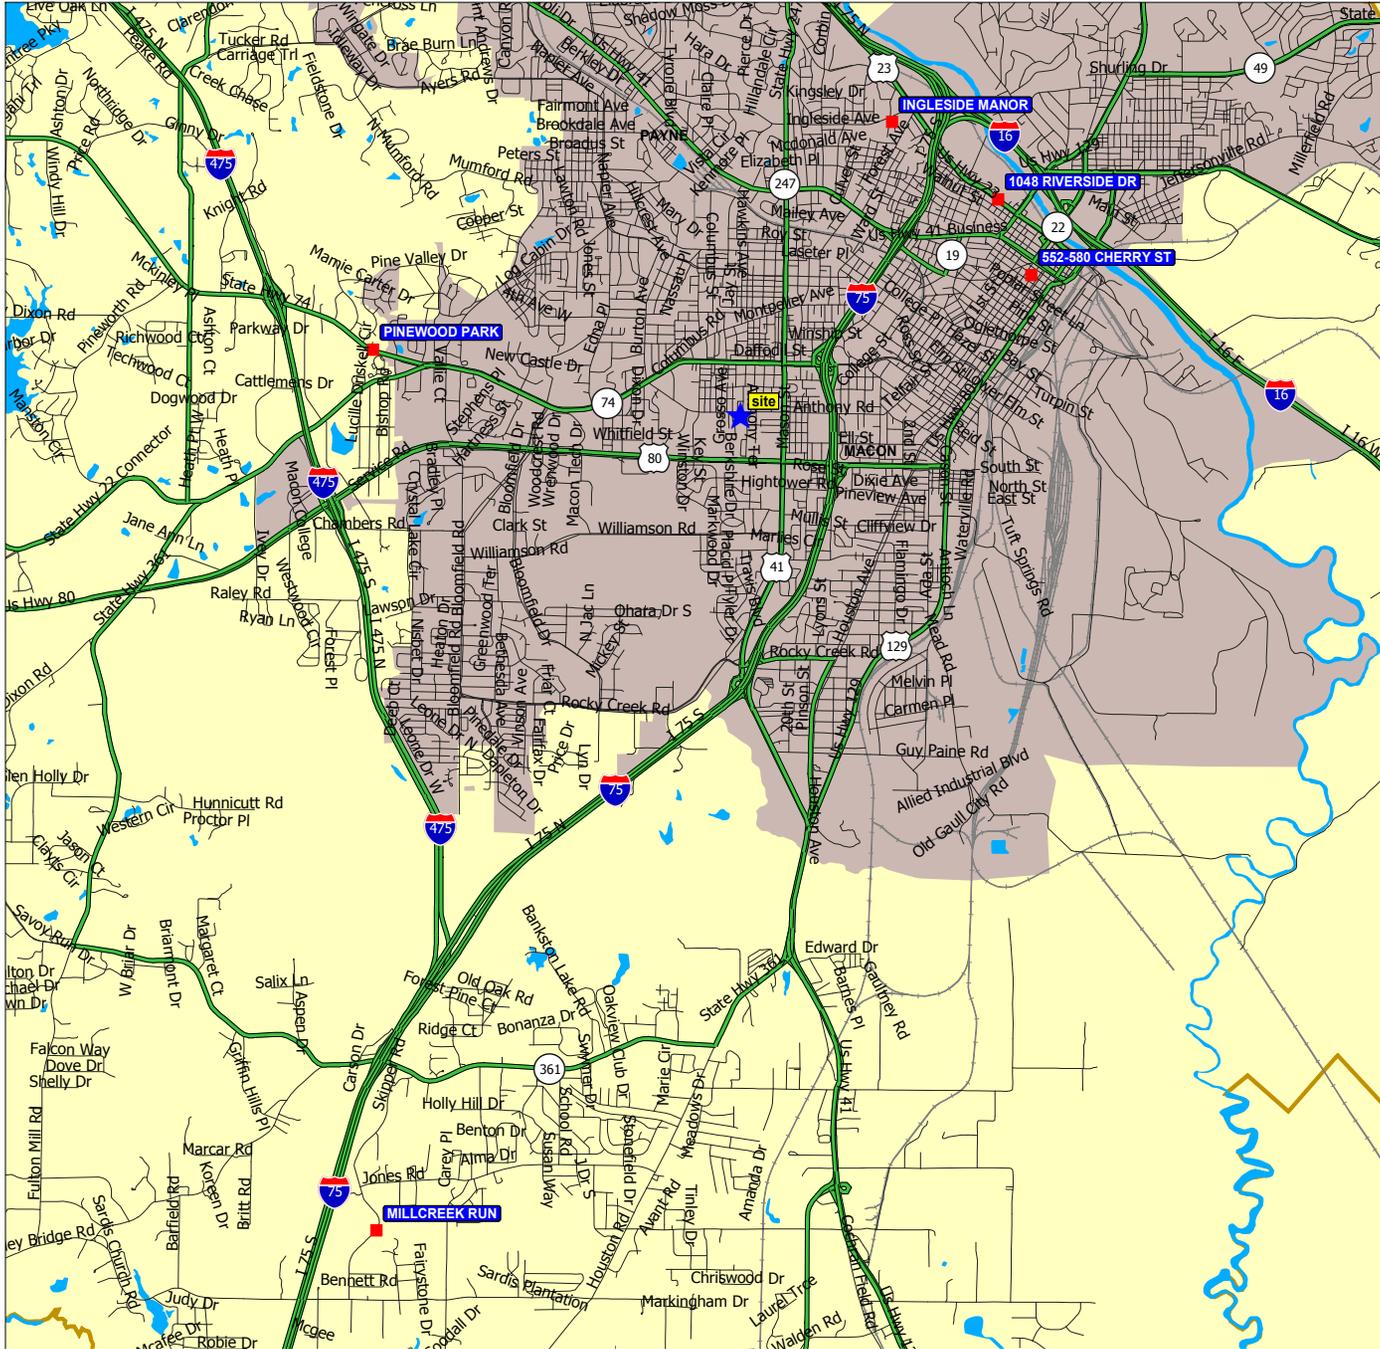

Based on our interviews with local building and planning representatives, it was determined that five multifamily projects are planned for the area. These planned developments are summarized as follows:

PROJECT NAME (LOCATION)	DEVELOPER	PROJECT TYPE	TOTAL UNITS	PROJECT SPECIFICS	DEVELOPMENT STATUS	ANTICIPATED OPENING DATE
1048 RIVERSIDE LN.	JAMES PAK	MARKET- RATE	5	1-BR – 3 3-BR – 2	APPROVED – NO PERMITS ISSUED	N/A
MILLCREEK RUN 6687 SKIPPER RD.	MILLCREEK DEVELOPMENT	LUXURY MARKET- RATE	224	1-BR – 48 2-BR – 128 3-BR – 48	APPROVED – NO PERMITS ISSUED	N/A
INGLESIDE MANOR 478 MONROE HILL	RETIREMENT HOUSING FOUNDATION	SECTION 8 SENIOR 62+	88	1-BR – 87 2-BR – 1 (MGR.)	APPROVED – NO PERMITS ISSUED	N/A
PINEWOOD PARK 4755 MERCER UNIVERSITY	N/A	TAX CREDIT / PBRA (30%, 50%, 60%) FAMILY	148	1-BR – 30 2-BR – 80 3-BR – 38	PERMIT ISSUED 4/05	N/A
552-580 CHERRY ST.	CHARLIE BRITTAN	MARKET- RATE	20	STUDIO – 2 1-BR – 6 2-BR – 22	APPROVED	N/A

Millcreek Run is located outside of the Site PMA and is not expected to compete with the subject project. Some competitive overlap is expected from Pinewood Park, which will likely be completing construction or in lease-up when renovations at the subject project are complete. Pinewood Park will also offer some Project-Based Rental Assistance. Pinewood Park has been considered in determining overall demand for the subject (Section F – Project Specific Demand).

A map illustrating the location of these planned properties is on the following page.

Macon, GA: Planned Multifamily Developments

5. MARKET-DRIVEN RENT ADVANTAGE

We identified three market-rate properties within the Macon Site PMA and two properties located outside of the Macon Site PMA that we consider most comparable to the proposed subject development. These selected properties are used to derive market rent for a project with characteristics similar to the proposed subject development. It is important to note that for the purpose of this analysis we only select market-rate properties. Market-rate properties are used to determine rents that can be achieved in the open market for the proposed subject units without maximum income and rent restrictions.

The bases for the selection of these projects include, but are not limited to, the following factors:

- Surrounding neighborhood characteristics
- Target market (seniors, families, disabled, etc.)
- Unit types offered (garden or townhouse, bedroom types, etc.)
- Building type (single-story, mid-rise, high-rise, etc.)
- Unit and project amenities offered
- Age and appearance of property

Since it is unlikely that any two properties are identical to each other, we adjust the collected rent (the actual rent paid by tenants) of the selected properties according to whether or not they compare favorably with the subject development. Rents of projects that have additional or better features than the subject site are adjusted negatively, while projects with inferior or less features are adjusted positively. For example, if the proposed subject project does not have a washer or dryer and a selected property does, then we lower the collected rent of the selected property by the estimated value of a washer and dryer so that we may derive a *market rent advantage* for a project similar to the proposed project.

The rent adjustments used in this analysis are based on various sources including: known charges for additional features within the Site PMA, estimates made by area property managers and realtors, quoted rental rates from furniture rental companies, and Vogt Williams & Bowen, LLC's prior experience in markets nationwide.

The proposed subject development and the five selected properties include the following:

MAP I.D.	PROJECT NAME	TOTAL UNITS	YEAR BUILT	OCC. RATE	UNIT MIX			
					ONE-BR.	TWO-BR.	THREE-BR.	FOUR-BR.
SITE	ANTHONY ARMS	60	1968/2007	98.3%	-	60	40	-

N/A	THE PARK AT NORTHSIDE	192	1972/2001	90.0%	60	72	60	-
N/A	RIVER RIDGE APTS.	116	1974	94.8%	10	68	38	-

Occ. – Occupancy

*Year renovated

N/A – Not Applicable (project outside market area)

The five selected market-rate projects have a combined total of 790 units with an overall occupancy rate of 93.7%. None of the selected properties have an occupancy rate below 90.0%. Four of the five selected properties are offering a rent concession of one-month free rent. Only The Park at Wynfield is not offering this discount.

The Rent Comparability Grids on the following pages show the collected rents for each of the selected properties and illustrate the adjustments made (as needed) for various features, and location or neighborhood characteristics, as well as quality differences that exist between the selected properties and the proposed subject development.

Appraiser's Signature

Date

Attached are explanations of:

- a. why & how each adjustment was made
- b. how market rent was derived from adjusted rents
- c. how this analysis was used for a similar unit type

Grid was prepared: Manually Using HUD's Excel form

form HUD-92273-S8 (04/2002)

The rental range for the two-bedroom units prior to adjustments is \$483 to \$593; the range after adjustments were made is \$515 to \$633. The low end of the range represents Hidden Lakes, while the high end of the range represents The Park at Northside, which was built in 1972 and renovated in 2001. The heaviest adjustments were made for differences in unit size. Four of the five comparables have unit sizes larger than the subject's two-bedroom units. It is anticipated that the subject project will be most comparable to properties in the middle of the range after renovations are complete. Therefore, if the subject project were not income-restricted, the two-bedroom units could achieve a market rent of \$560.

The rental range for the three-bedroom units prior to adjustments is \$590 to \$719; the range after adjustments were made is \$623 to \$713. Using the same methodology as above, if the subject were not income-restricted, the three-bedroom units could achieve a market rent of \$655.

The following table compares the proposed collected rents at the subject site with market-driven rent for selected units.

BEDROOM TYPE	COLLECTED RENT		
	PROPOSED SUBJECT	MARKET-DRIVEN	PROPOSED RENT AS SHARE OF MARKET
TWO-BEDROOM	\$465	\$560	83.0%
THREE-BEDROOM	\$515	\$655	78.6%

The proposed collected rents are 78.6% to 83.0% of market-driven and appear to be appropriate for the subject market. The proposed rents represent a 17.0% to 21.4% market-rent advantage, which will be perceived as a value in the marketplace. Note that the subject project will have PBRA and tenants will pay 30% of income toward rent. If PBRA is discontinued in the future, these rents should compete favorably in the market.

6. RENT ADJUSTMENT EXPLANATIONS (RENT COMPARABILITY GRID)

None of the selected properties offer the same amenities as the subject property. As a result, we have made adjustments to the collected rents to reflect the differences between the subject property and the selected properties. The following are explanations (preceded by the line reference number on the comparability grid table) for each rent adjustment made to each selected property.

1. Rents for each property are reported as collected rents. This is the actual rent paid by tenants and does not consider utilities paid by tenants. The rent reported is typical and does not consider rent concessions or special promotions. When multiple rent levels were offered, we included an average rent.

7. Upon completion of renovation, the subject project will have an improved quality. The selected properties were built or renovated between four and 31 years ago. As such, we have adjusted the rents at the selected properties by \$3 to \$16 to reflect the age of these properties.
8. It is anticipated that the subject project will have a quality finished look and an attractive aesthetic appeal after renovation. We have made adjustments for those properties that we consider to have either a superior or an inferior quality to the subject development.
12. There is a variety of the number of bathrooms offered at each of the selected properties. We have made adjustments to reflect the difference in the number of bathrooms offered at the site as compared with the competitive properties.
13. There is a wide range of unit sizes (square footage) among the selected properties. We have made adjustments to the rents of each project that had different unit sizes compared to the subject site. Where there is a range of unit sizes, we have used an average square footage or the square footage of the most similar style unit.
- 14.-23. The subject project will offer a unit amenities package similar to the selected properties after renovations are complete. However, we have made numerous adjustments for features lacking at the selected properties. In some cases, we have made adjustments for features the subject property does not offer.
- 24.-32. The project will offer a comprehensive project amenities package after renovation, including social services and recreational amenities. We have made monetary adjustments to reflect the difference between the proposed subject project's and the selected properties' project amenities.
- 33.-39. We have made adjustments to reflect the differences in utility responsibility at each selected property. The utility adjustments were based on the local housing authority's utility cost estimates.

Once all adjustments to collected rents were made, the rents for each bedroom type were considered to derive a market-driven rent for each bedroom type. Each property was considered and weighed based upon its proximity, amenities, and unit layout compared to the subject site.

SECTION H – INTERVIEWS

Ms. Laurie Chapman at the Macon Housing Authority stated that there is a need for more affordable housing. There are currently a few properties that are applying for tax credits to renovate their properties. The overall market in Macon can be soft at times making the market rents drop considerably. This in turn makes the Tax Credit properties lower their rents as well. Those properties that are having trouble with vacancies will have even more difficulty filling up if new complexes are being built.

When speaking with apartment managers in the Macon area it was concluded that there is a need for more affordable housing. They have to turn people away that aren't eligible for Section 8 and cannot afford market-rate complexes. The apartment manager said that they were in need of renovations to bring new residents to the property and to keep the ones they already have.

Determination of the Primary Market Area for the proposed project is based on interviews with the subject site property manager, as well as other nearby area apartment managers and city officials to establish the boundaries of the geographical area from which most of the support for the proposed development is expected to originate.

Interviews were also conducted with the Macon Economic Development Department, as well as the Macon Chamber of Commerce in order to gather economic data such as major employer numbers and information on job growth in the Macon County and Bibb County economies.

Lastly, area building and planning department officials were interviewed about area apartments, and other housing developments, and infrastructure changes that could affect Macon.

SECTION I – RECOMMENDATIONS

Based on the findings reported in our market study, it is our opinion that a market exists for the 60 units to be renovated at the subject site, assuming it is developed as detailed in this report. Changes in the project's rent, amenities, opening date or rehabilitation scope of work may alter these findings.

After renovation, the project will be very competitive within the market area in terms of unit amenities and unit sizes, and the proposed rents will be perceived as a value in the marketplace. By expanding the unit size and adding a full bath, the subject will offer the largest LIHTC units in the market. We do not recommend any changes to the project concept.

The subject will offer a high-quality, affordable housing alternative for low-income families in the Macon area. Very few affordable developments have been added to the Site PMA in the past five years and the subject is currently at risk of losing its affordable status. Anthony Arms is located in an established area of Macon with good access to community services. In addition, on-site social services coordinated through management will be made available to residents. After renovation, the subject site will offer unit and project amenities competitive with existing Tax Credit projects including a computer room, library, playground, fitness center and sheltered picnic area. Project-based Rental Assistance will ensure affordability for very low-income tenants.

In addition, as shown Project Specific Demand Analysis section of this report, with capture rates ranging from 2.5% to 6.2% of income-qualified households in the market, there is sufficient support for the proposed development even if PBRA is discontinued. Therefore, it is our opinion that the proposed project will have minimal, if any, impact on the existing and planned Tax Credit developments in the Site PMA.

SECTION J - SIGNED STATEMENT

I affirm that I, or an individual employed by my company, have made a physical inspection of the market area and that information has been used in the full study of the need and demand for new rental units. To the best of my knowledge, the market **can** support the demand shown in the study. I understand that any misrepresentation of this statement may result in the denial of further participation in the Georgia Department of Community Affairs rental housing programs. I also affirm that I have no interest in the project or relationship with the ownership entity and my compensation is not contingent on this project being funded.

SECTION K - QUALIFICATIONS

1. THE COMPANY

Vogt Williams & Bowen, LLC is a real estate research firm with offices in Columbus, Ohio and Austin, Texas established to provide accurate and insightful market forecasts for a broad range client base. The three principals of the firm, Robert Vogt, Tim Williams, and Patrick Bowen have a combined 37 years of real estate market feasibility experience throughout the United States.

Serving real estate developers, syndicators, lenders, state housing finance agencies, and the U.S. Department of Housing and Urban Development (HUD), the firm provides market feasibility studies for affordable housing, market-rate apartments, condominiums, senior housing, student housing, and single-family developments.

The company's principals participate in the National Council of Affordable Housing Market Analysts (NCAHMA) educational and information sharing programs to maintain the highest professional standards and state-of-the-art knowledge.

2. THE STAFF

Robert Vogt has conducted and reviewed over 5,000 market analyses over the past 26 years for market-rate and Low-Income Housing Tax Credit apartments, as well as studies for single-family, golf course/residential, office, retail and elderly housing throughout the United States. Mr. Vogt is a founding member and the chairman of the National Council of Affordable Housing Market Analysts, a group formed to bring standards and professional practices to market feasibility. He is a frequent speaker at many real estate and state housing conferences. Mr. Vogt has a bachelor's degree in finance, real estate, and urban land economics from The Ohio State University.

Tim Williams has over 20 years of sales and marketing experience, and over six years in the real estate market feasibility industry. He is a frequent speaker at state housing conferences and an active member of the National Council of State Housing Agencies and the National Housing and Rehabilitation Association. Mr. Williams has a bachelor's degree in English from Hobart and William Smith College.

Patrick Bowen has prepared and supervised market feasibility studies for all types of real estate products including affordable family and senior housing, multi-family market-rate housing, and student housing for more than nine years. He has also prepared various studies for submittal as part of HUD 221(d) 3 & 4, HUD 202 developments, and applications for housing for Native Americans. Mr. Bowen has worked closely with many state and federal housing agencies to assist them with their market study guidelines. Mr. Bowen has his bachelor's degree in legal administration (with emphasis on business & law) from The University of West Florida.

Brian Gault has conducted fieldwork and analyzed real estate markets for the past five years. In this time, Mr. Gault has conducted a broad range of studies including Low-Income Housing Tax Credit, comprehensive community housing assessment, student housing analysis, and mixed-use developments. Mr. Gault has his bachelor's degree in public relations from the E.W. Scripps School of Journalism at Ohio University.

K. David Adamescu has conducted real estate market research and analysis over the past four years for a broad range of products including Low-Income Housing Tax Credit apartments, market-rate apartments, student-targeted housing, condominiums, single-family housing, mixed-use developments, and commercial office space. Mr. Adamescu has participated in over 100 market feasibility studies with sites located in more than 30 states. Mr. Adamescu holds a bachelors degree in Economics and Masters of City and Regional Planning (with emphasis in urban economics) from The Ohio State University.

Wendy Curtin has a background in residential real estate, including four years as an active full-time agent, with experience in real estate procedures, and evaluating product demand and market trends. Ms. Curtin has a bachelor's degree in geography from The Ohio State University with an emphasis in human and regional geographic trends and global information systems. Ms. Curtin assists in real estate market research and analysis, conducts fieldwork, and is the project specialist working with appraisers to complete Rent Comparability Studies. Additional experience includes preparation of market studies for Low-Income Housing Tax Credit and senior living developments.

Nancy Patzer has been consulting in the areas of economic and community development and housing research for the past nine years. Ms. Patzer has been employed by a number of research organizations including Community Research Partners, United Way of Central Ohio, Retail Planning Associates, the city of Columbus, and Boulevard Strategies. Ms. Patzer has analyzed or conducted field research for over 75 housing markets across the United States. She holds a Bachelor of Science in Journalism degree from the E.W. Scripps School of Journalism at Ohio University.

Davonne Lewis has more than eight years of professional experience in the real estate and construction business. Previously Vice President of a national real estate consulting firm, her experience includes supervising and preparing market feasibility studies for low-income housing. Ms. Lewis has prepared many market studies in numerous states throughout the country and also has a background in the management and administration of real estate construction and real estate appraisal companies. Ms. Lewis was educated at Hardin-Simmons University in Abilene, Texas where she obtained a Bachelor of Behavioral Science degree and is a member of the National Council of Affordable Housing Market Analysts and the Real Estate Council of Austin.

Charlotte Bergdorf has over four years of professional experience in real estate market analysis and has prepared market analyses for Tax Credit syndicators, housing finance agencies, housing authorities, banks, investment banking companies, and real estate developers in many states across the country. Ms. Bergdorf attended the University of Wisconsin-Parkside in Kenosha, earning a bachelor's degree in English with a concentration in writing and has additional experience in journalism. Ms. Bergdorf is also a member of the National Council of Affordable Housing Market Analysts.

David Twehues holds a bachelor's degree in Geographic Information Systems (GIS) and a master's degree in Quantitative and Statistical Methods from The Ohio State University. He has contributed mapping and demographic products to over 250 community development market studies. Mr. Twehues has extensive knowledge in the field of statistics, including experience in mathematical modeling and computer programming, and has two years of experience using GIS in multiple report formats.

June Davis is an administrative assistant with 17 years experience in market feasibility. Ms. Davis has overseen production on over 1,000 market studies for projects throughout the United States.

Field Staff – Vogt Williams & Bowen, LLC maintains a field staff of professionals experienced at collecting critical on-site real estate data. Each member has been fully trained to evaluate site attributes, area competitors, trends in the market, economic characteristics, and a wide range of issues impacting the viability of real estate development.

ADDENDUM A: FIELD SURVEY OF CONVENTIONAL RENTALS

MACON, GEORGIA

The following section is a field survey of conventional rental properties. These properties were identified through a variety of sources including area apartment guides, yellow page listings, government agencies, the Chamber of Commerce, and our own field inspection. The intent of this field survey is to evaluate the overall strength of the existing rental market, identify trends that impact future development, and identify those properties that would be considered most comparable to the subject site.

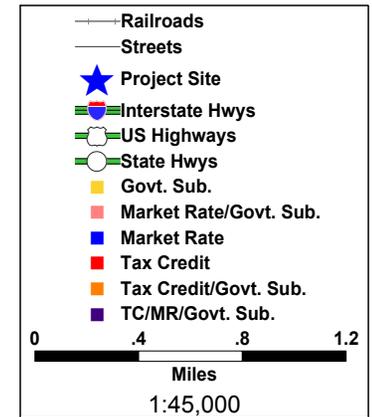

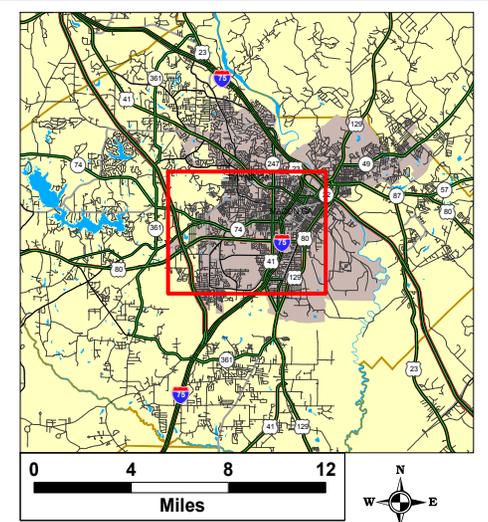

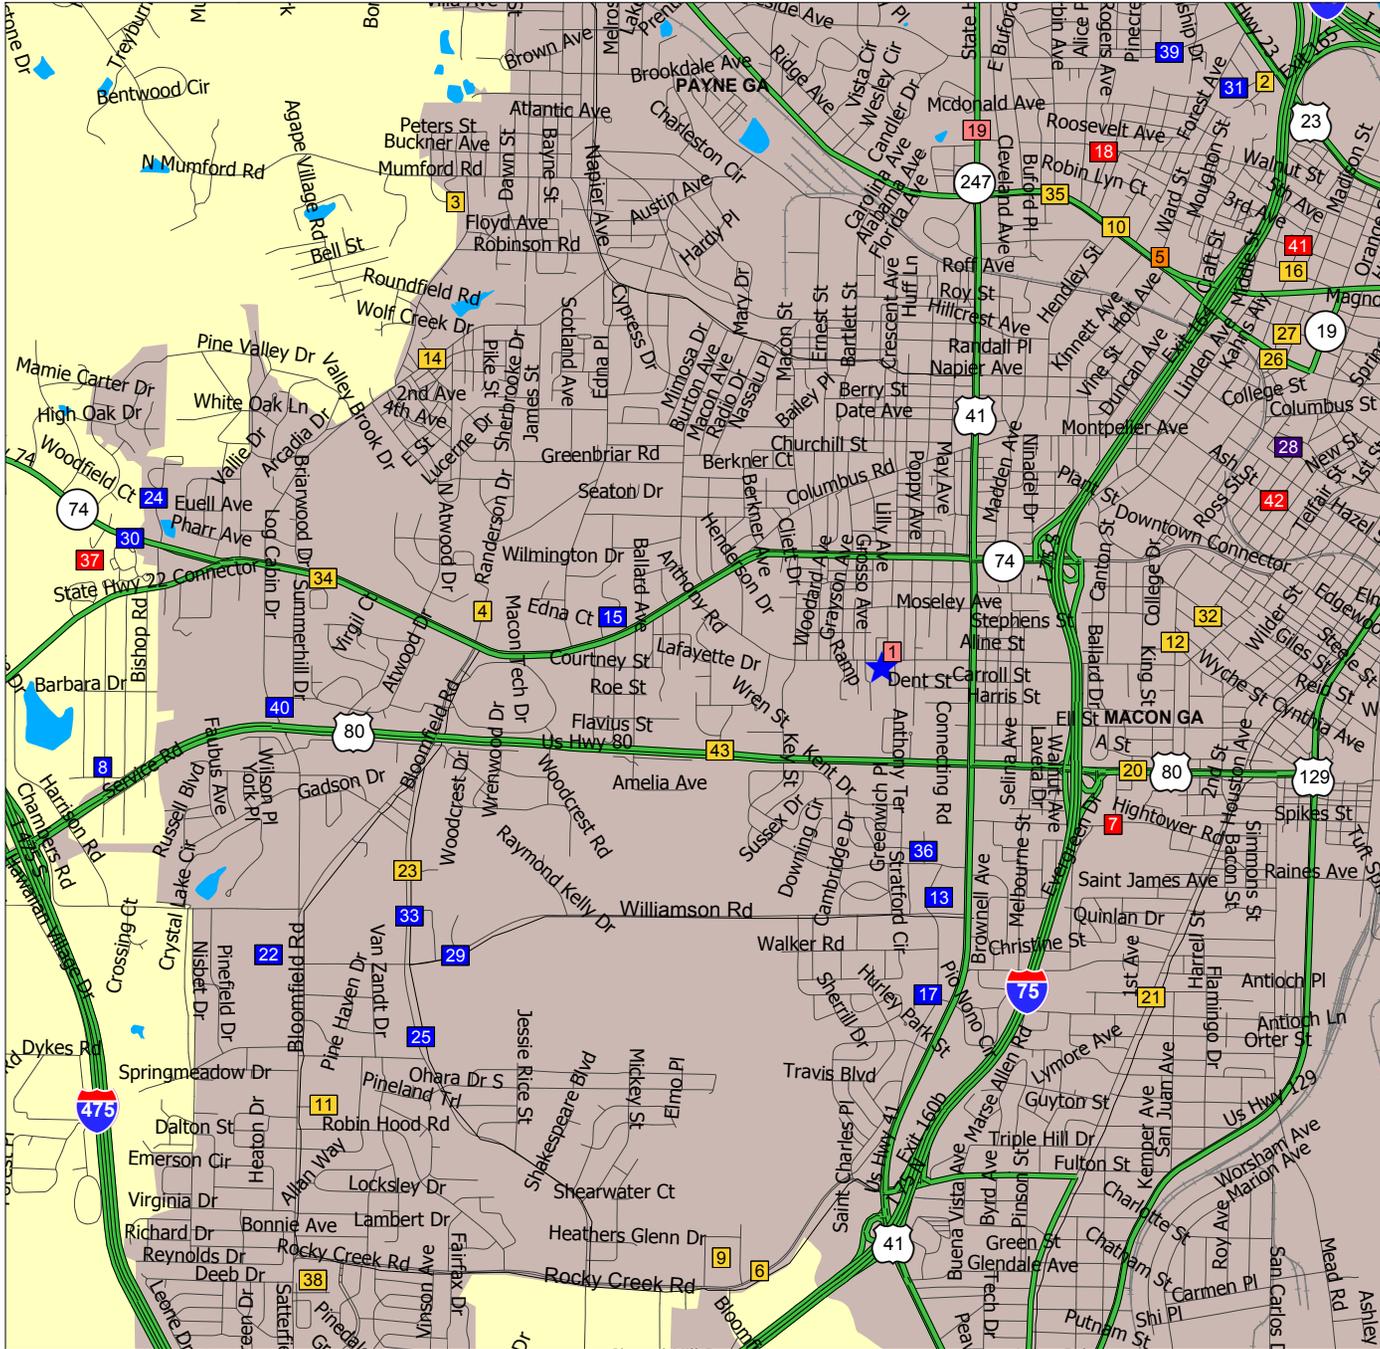

The field survey has been organized by the type of project surveyed. Properties have been color coded to reflect the project type. Projects have been designed as market-rate, Tax Credit, government-subsidized, or a combination of the three project types. The field survey is organized as follows:

- A color-coded map indicting each property surveyed and the project type followed by a list of properties surveyed.
- Properties surveyed by name, address, telephone number, project type, year built or renovated (if applicable), number of floors, total units, occupancy rate, quality rating, rent incentives, and Tax Credit designation. Housing Choice Vouchers and Rental Assistance are also noted here. Note that projects are organized by project type.
- Distribution of non-subsidized and subsidized units and vacancies in properties surveyed.
- Listings for unit and project amenities, parking options, optional charges, utilities (including responsibility), and appliances.
- Collected rent by unit type and bedrooms.
- Unit size by unit type and bedrooms.
- Calculations of rent per square foot (all utilities are adjusted to reflect similar utility responsibility). Data is summarized by unit type.
- An analysis of units, vacancies, and median rent. Where applicable, non-subsidized units are distributed separately.
- An analysis of units added to the area by project construction date and, where applicable, by year of renovation.
- Aggregate data and distributions for all non-subsidized properties are provided for appliances, unit amenities and project amenities.

- A rent distribution is provided for all market-rate and non-subsidized Tax Credit units by unit type. Note that rents are adjusted to reflect common utility responsibility.
- Aggregation of projects by utility responsibility (market-rate and non-subsidized Tax Credit only).
- A utility allowance worksheet.

Note that other than the property listing following the map, data is organized by project types. Market-rate properties (blue designation) are first followed by variations of market-rate and Tax Credit properties. Non-government subsidized Tax Credit properties are red and government-subsidized properties are yellow. See the color codes at the bottom of each page for specific project types.

ADDENDUM D. MARKET ANALYST CERTIFICATION CHECKLIST

I understand that by initializing (or checking) the following items, I am stating those items are included and/or addressed in the report. If an item is not checked a full explanation is included in the report.

The report was written according to DCA's market study requirements, that the information included is accurate and that the report can be relied upon by DCA as a true assessment of the low-income housing rental market.

I also certify that a member of Vogt Williams & Bowen, LLC or I have inspected the property as well as all rent comparables.

Signed: Charlotte Burgdorf

Date: 06/30/05

A. Executive Summary

1	Market demand for subject property given the economic conditions of the area	Page	A-2
2	Projected Stabilized Occupancy Level and Timeframe	Page	A-3
3	Appropriateness of unit mix, rent and unit sizes	Page	A-1
4	Appropriateness of interior and exterior amenities including appliances	Page	A-1
5	Location and distance of subject property in relationship to local amenities	Page	A-2
6	Discussion of capture rates in relationship to subject	Page	A-2
7	Conclusion regarding the strength of the market for subject	Page	A-1

B. Project Description

1	Project address, legal description and location	Page	B-1
2	Number of units by unit type	Page	B-1
3	Unit size, # of bedrooms and structure type (i.e. townhouse, garden apartment, etc)	Page	B-1
4	Rents and Utility Allowance*	Page	B-1
5	Existing or proposed project based rental assistance	Page	B-1
6	Proposed development amenities (i.e. washer/dryer hookups, dishwasher etc.)	Page	B-2
7	For rehab proposals, current occupancy levels, rents, and tenant incomes (if available), as well as detailed information as to renovation of property	Page	B-1,2
8	Projected placed in service date	Page	B-2
9	Construction type: New Construction/Rehab/Adaptive Reuse, etc.	Page	B-1
10	Occupancy Type: Family, Elderly, Housing for Older Persons, Special Needs, etc.	Page	B-1
11	Special Population Target (if applicable)	Page	N/A

* For the Atlanta MSA, for 60% income, rents are based on 54% rents

*Gross Rents are to be used for calculation of income bands

C. Site Evaluation

1	Date of Inspection of Subject Property by Market Analyst	Page	C-1
2	Physical features of Subject Property and Adjacent Uses	Page	C-1
3	Subject Photographs (front, rear, and side elevations as well as street scenes)	Page	C-5
4	Map identifying location of subject as well as closest shopping centers, schools, medical facilities and other amenities relative to subject	Page	C-11
5	Developments in vicinity to subject and proximity in miles (Identify developments surrounding subject on all sides) - zoning of subject and surrounding uses	Page	C-2
6	Map identifying existing low-income housing within the Primary Market Area and proximity in miles to subject	Page	C-13
7	Road or infrastructure improvements planned or under construction in the PMA	Page	C-14
8	Comment on access, ingress/egress and visibility of subject	Page	C-1
9	Any visible environmental or other concerns	Page	C-14
10	Overall conclusions of site and their marketability	Page	C-14

D. Market Area

1	Map identifying Subject's Location within PMA	Page	D-2
2	Map identifying Subject's Location within SMA, if applicable	Page	N/A

E. Community Demographic Data

Data on Population and Households at Five Years Prior to Market Entry, and Projected Five Years Post-Market Entry, (2004, 2005 and 2010) *	Page	E-4
