INTRODUCTION

Purpose

_The Candler County Joint Comprehensive Plan_ is a comprehensive plan prepared under the Standards and Procedures for Local Comprehensive Planning (Local Planning Requirements) of the Georgia Planning Act of 1989. It is a joint plan for Candler County and its municipalities – the City of Metter and the Town of Pulaski. The plan was designed to meet the legislation’s requirements for each local government to have a plan for its future growth and development in accordance with the state standards. It is a full update of the previously joint comprehensive plan first adopted in 1991, but is basically a new plan, prepared under new standards.

As a comprehensive plan, _The Candler County Joint Comprehensive Plan_ is a critical self-examination of Candler County and its municipalities in the areas of population, economic development, natural and cultural resources, community facilities and services, housing, land use, intergovernmental cooperation, and service delivery; and a path for the community’s future growth and development. The plan is truly a reflection of the community’s concerns and desires for the future.

Candler County is a rural county in Southeast Georgia located west of Bulloch County along I-16. Its extensive southern yellow pine forests and transportation, first with the railroad, and then U.S. highways, particularly I-16, have always played, and continue to play, important roles in its economy and growth and development. The current population is around 10,700 (9,577 in the 2000 Census) for the County and 4,300 in the City of Metter. Both municipalities trace their beginnings to the establishment of the railroad in the late 19th Century. Both are now located on Georgia Highway 46, and Metter, the county seat, lies at the crossroads of Georgia 121 and I-16. The county has experienced past surges of growth because of the railroad, and the location of Interstate 16 in the 1970s. Growth appears to be accelerating in the 2000s because of location, commercial growth at the Georgia Highway 121/I-16 interchange, and resident in-migration. Transportation, location, agriculture and forestry, and the outstanding natural resources of the county continue to be opportunities and keys for future growth and development.
The community continues to prepare for growth and development, and is welcoming of such growth. The recent expansion of the community’s industrial park acreage, the ongoing extension of the airport’s runway to 5,000 feet in length, and continuing commercial development to Exit 104 (Ga. Hwy 121/I-16), are illustrative of both the opportunities and the county’s preparation. The community wants to maintain its high quality rural quality of life. The community is scenic, vibrant, and attractive for both industry and residents. This plan focuses on strategies to take advantage of these assets and opportunities to further prepare for and attract future growth and development compatible with the existing rural character and quality of life.

*The Candler County Joint Comprehensive Plan* was developed in the true spirit and intent of the Georgia Planning Act in that it was prepared by the community with the assistance of planners and not vice versa. The Candler County Joint Comprehensive Plan Executive Committee, which was comprised of the elected and staff management leaders of the local governments, assisted staff of the Heart of Georgia Altamaha Regional Development Center in the inventory and analysis inherent in the initial *Community Assessment*. This included the preliminary identification of issues and opportunities facing the community and its local governments. The Candler County Local Plan Coordination Committee, an excellent cross-section of public and private stakeholder groups, was formed to evaluate this *Community Assessment* and to develop this *Community Agenda*. The *Community Agenda* delineates the goals, objectives, programs, and projects the community wishes to pursue to continue the progress, growth, and development of the county as an attractive community in which to live, work, and recreate. The Community Agenda defines the implementation strategy of the community to address identified issues and opportunities and the needs and desires for the special sections, or character areas, of each jurisdiction.

**Format**

The plan is organized by the two main components required by the Georgia Planning Act and the “Local Planning Requirements:” the *Community Assessment* and the *Community Agenda*. The plan does address the elements recommended for a comprehensive plan, including those at the Basic Level at which Candler County and its municipalities are required to plan. These include: Population; Economic Development; Natural and Cultural Resources; Community Facilities and Services; Housing; Land Use; and Intergovernmental Coordination. Under each element of the plan, there was an inventory and assessment to determine where the
community was and had been, what were the current trends, and to help delineate and define issues and opportunities facing Candler County and its municipalities. It also identified the special sections, or recommended character areas, of the community. The first section of the comprehensive plan, the Community Assessment, accomplishes these steps and provides the foundation to decide what the community desires for its future growth and development, and how it plans to achieve its overall community vision and the vision for each of its chosen character areas.

A Community Participation Program as required by the Local Planning Requirements to identify potential stakeholder groups and the scope and techniques of planned public participation of the plan (most importantly, the Community Agenda) was also included. The final components of the plan includes the Community Agenda as well as other appendices to address the Candler County Service Delivery Strategy. The Service Delivery Strategy was updated concurrently in accordance with Georgia Department of Community Affairs’ requirements and to insure consistency and coordination.

This final component of the Comprehensive Plan, the Community Agenda, is in a sense, the heart and soul of the plan. It lays out the issues and opportunities and the community’s vision of what it desires to become, desired development patterns, and the community’s implementation strategies. It is a guide for all concerned for the future growth and development of Candler County and its municipalities. The purpose of the Community Agenda is to lay out a road map for the community’s future as developed through community consensus. It is the most important part of the plan. It should be used by the local governments, the general public and private community, and citizens alike to evaluate and measure decisions, investments, and progress toward achieving the community’s desired future and implementing the plan’s objectives. Without citizen and community involvement, implementation will be difficult, at best. The community and its residents should feel ownership in its plan and work hard to achieve its aspirations for the future Candler County and its municipalities.

The Community Agenda contains components as mandated by the state planning requirements but shaped by the community to enunciate its desires. The components include the Overall Community Vision, the listing of Community Issues and Opportunities, the delineation of the community’s character areas with accompanying visions, and the Implementation Program for general community improvement and the more specific steps needed and planned for each character area.
CANDLER COUNTY COMMUNITY VISION

Overall Community Vision

Candler County is a small, rural county in southeast Georgia of nearly 11,000 persons located 75 miles west of the Savannah Port along I-16 where numerous fertile agricultural fields and verdant yellow-pine forests still dominate the landscape. The community is proud of its small-town atmosphere and rural, high quality of life. It boasts modern schools and progressive health care and other community facilities, including a local hospital and impressive airport. The county’s two municipalities, the county seat of Metter and the small town of Pulaski, trace their beginnings to the advent of the Central of Georgia Railroad in the late 1890s. Much of the county’s early growth was stimulated by the railroad and its access to markets. The county itself is one of Georgia’s younger counties, and was only organized in the early 1900s because of desires for road and bridge improvements to eliminate natural isolation, attract development, and provide increased market access. The county grew rapidly from 1890 to 1920, and then remained relatively stable until WWII, when agricultural mechanization and the automobile’s surge took its toll and created slow decline until the 1970s and the advent of I-16. Since 1990 growth has been slow but steady because of spillover from Bulloch County and the county’s location on I-16. Growth appears to be accelerating in the early 2000s because of location, commercial growth at the Georgia 121/I-16 interchange in Metter, and resident in-migration.

The community’s long-time slogan is “Everything’s Better in Metter.” The community’s unique setting of a well-planned city, including a tree-lined median entrance and a downtown central park shaded with large trees, set within a wide-open countryside of active farms and tall pines traces its beginnings to the vision of one of Metter’s founders, James Terrell Trapnell. This vision of a quality community with compatible development, outstanding facilities, supportive economic opportunities, all located within a countryside of active farms and forests and protected, abundant natural resources continues. This vision is also the desired community of the future. Candler County is home to some wonderful creeks, wetlands, and scenic natural areas providing open space, wildlife habitat, and many different natural leisure opportunities.
Charles Harrold Preserve owned by the Nature Conservancy was the first ecological preserve in Georgia and one of the first in the United States. The county was created for civic and transportation improvements to support an agrarian economy and better quality of life, and that remains the principal community vision. I-16, Georgia Highway 121 or the Woodpecker Trail, and Georgia Highways 129, 46, and 57 (Wiregrass Trail), and the improving airport will provide increasing opportunities in tourism and economic development. The growth that results will support, not destroy, the many natural and historic resources and the beautiful, natural open spaces of the community.

Commercial and industrial growth will primarily concentrate in and near Metter, although appropriate development will be encouraged at the I-16 interchanges. This future growth will occur mainly at the Georgia Highways 129 and 121/I-16 interchange area, the Highway 46 corridors, downtown, and the industrial park/airport area. This commercial and industrial growth will be made more attractive, compatible with and supportive of existing development, and more pedestrian friendly. Residential growth of all types, as appropriate, will be encouraged to infill vacant land in Metter and Pulaski. Subdivision and other residential growth in the county will be encouraged to locate near other development, to not encroach on agriculture and forest needs and resources, and to support and preserve rural character and open space.

Future Candler County will be a growing, progressive community, but one with planned and managed growth and development respective and supportive of a vital and ongoing agricultural/forest sector and impressive natural and cultural resources. Development in the county will be guided by supportive, comprehensive land use regulation county-wide, and measured, careful community investment in outstanding community facilities and infrastructure. The resulting community facilities and infrastructure will further direct growth respective of the environment and the community vision. The uniqueness of Metter’s layout, street trees, and a vibrant downtown, as well as the attractive aesthetics of clean roadsides and a well kept, maintained community generally, will be nurtured and expanded. The community will be known as a beautiful community for visitors, residents, and retirees alike. They will be attracted through the inherent beauty and quality of life clearly evident in the county. Pulaski will be a growing, bustling small town with excellent facilities and services to support and attract residential, small business, and other appropriate growth, and to serve the surrounding county growth area,
including I-16. Historic areas will be well-maintained and functioning, desired places to live and work, and natural resources will be important and attractive to flora and fauna as well as humans. Tourists will flock to the community to visit the well-known Guido Gardens; the community’s outstanding and well-marketed festivals; the community’s abundant historic and natural resources; outstanding recreational facilities; and a quaint downtown with teeming shops, a well-balanced retail mix, and well-utilized places of public gathering. The populace will be involved and caring, and will be more literate and better educated. Modern school facilities and expanded educational opportunities will be available. There will be other improved, supporting community and cultural facilities, including a stable, progressive hospital and other improved health care facilities. Expanded health care programs, more doctors and other professionals will be available. The community will boast more paved roads and streets with more attractive and affordable housing for all economic levels. The tax base will be continuously expanding, including more clean, supportive businesses and industries with better paying jobs and an environment of entrepreneurial spirit that wants to contribute to and be a part of the community vision and high quality of life. Everything will be better in Metter, and it will be known, far and wide, as a great place to visit, live, or work on I-16; a can’t miss stop on the Woodpecker Trail; and a desired, proud place to call home in Southeast Georgia.

Future Development Maps

Candler County remains a rural county with outstanding natural beauty and pastoral landscapes, but also one with expanding community facilities, increasing commercial growth, especially near I-16, an attractive location along I-16 and near the port of Savannah, and progressive attitudes conducive to growth. The county has a scenic and pastoral landscape dominated by pine trees, farms, and other natural resources. Its county seat, Metter, is the center of county growth, but residential growth is occurring particularly in eastern portions of the county and north of Metter. Growth appears to be accelerating because of the county’s location near Bulloch County and the coast, I-16 and its transportation corridors, and new resident immigration. The community vision has at its heart the attraction of additional growth, development, and tourism which complement and enhance this progressive community, while preserving its quality of life, natural resources, rural charm, and its forest/agricultural land uses.
To continue the consistency of traditional comprehensive planning, the local governments have included future land use maps similar to the existing land use maps in the Community Assessment component of the comprehensive plan. These future land use maps, Map FLU-1 for Candler County, Map FLU-2 for the City of Metter, and Map FLU-3 for the Town of Pulaski, utilize the same standard land use categories as defined in the Department of Community Affairs’ “Local Planning Requirements.” These categories were also utilized and defined in the Candler County Joint Community Assessment. The reality of expanding growth is reflected. These maps illustrate this and the desired and chosen policies and strategies of Candler County and its municipalities, but are only generalized guides for community development. They are not intended to dictate, or specifically limit, private land use decisions or activities on any one parcel. They are a context or framework to evaluate and guide decision-making.

Another context and framework to guide decision-making and future growth and development is the delineation of character areas. These areas, as required by the state planning guidelines, are the geographic areas within the community that have unique or special characteristics or may require special attention, focus, or guidance. The community has chosen to utilize the same character areas described and recommended in the Community Assessment with some minor additions and changes in delineation. These character areas are depicted on the following future development maps, Map FLU-4 and FLU-7 for Candler County and Map FLU-5 and FLU-8 for the City of Metter, and Map FLU-6 and FLU-9 for the Town of Pulaski. The character areas are depicted separately in Maps FLU-4 through FLU-6 for ease of viewing and understanding and as overlays to the future land use maps as required by the standards on Maps FLU-7 through FLU-9. The character boundaries are defined by the maps and in the narrative found in this Community Agenda. They are not parcel-specific and are intended to represent approximate locations. What they represent is well defined, and the local governments will have the flexibility to determine appropriate development patterns for particular parcels on the edges and fringes of a character area both now and in the future, and as specific conditions may change, such as an annexation. Consistency with the community vision, the comprehensive plan, and the desired development patterns should be the deciding factors in any decisions affecting character areas or a proposed development. The character areas are further described in their defining narratives which follow.

Regional Development Center
Character Area Narratives

The following are the required defining narratives for each of the county and city character areas. The narratives include a specific vision for each area which is a part of and complementary to the general community vision. They also include a description of recommended and desired development patterns, a listing of appropriate, specific land uses which would be allowed, a listing of the state’s Quality Community Objectives selected to be pursued as appropriate, as well as identification of implementation measures planned to help achieve the desired development patterns and community vision. The implementation measures include a listing of the applicable community policies, and the particular community strategies especially critical to each character area and achieving the desired development patterns and vision. The Quality Community Objectives are merely listed. To read the full description of these state objectives, the reader can refer to the Community Assessment, or the www.georgiaplanning.com website. Further information on the particular projects and activities the local governments intend to utilize over the next few years to carry out implementation of each character area’s vision can be found in each jurisdiction’s short term work program, which cross-references applicable character areas for each item in the identified work program.

Candler County

Rural Candler County

Vision. Rural Candler County would remain an open landscape of continued viable agricultural and forest uses and conserved natural and cultural resources. Any development in this area should be low-density, comparable, and complementary to existing development. It should respect the County’s agricultural/forest tradition and maintain its rural, open space character.

Development Patterns. Development other than traditional agricultural, forestry, and low intensity rural uses should be limited within this character area. Residential use should remain large-lot and supportive. Any subdivision should retain as much open space, rural character, and
natural features and functioning as possible. All uses should encourage and respect continued, viable agricultural and forestry uses and maintain its rural open spaces and character.

Primary Land Uses
Agriculture
Forestry
Conservation
Park/Recreational
Rural, Low-Density Residential
Supportive Rural Public/Institutional, Transportation/Communications/Utilities,
    Commercial, Industrial, or Mixed Uses

Consistent Quality Community Objectives

Principal Applicable Community Policies (Including Applicable Implementation Strategies)

Rural Character Preservation
Maintenance of Agriculture/Forestry Uses
Proactively Manage/Guide Growth
Seek/Promote Compatible/Supportive Development
Natural Resource Protection
Capitalize on Compatible Economic Use/Opportunities
Encourage Compatible Residential Location
Community Agenda

Local/Regional Cooperation

Coordinated Planning

Critical Strategies

- Zoning/supportive land use regulation
- Subdivision regulation
- Utilize community facilities and infrastructure to guide growth and development
- Support/promote agricultural/forestry enterprises and uses
- Conserve open spaces/landscapes and natural resources

East Candler Growth Area

Vision. The East Candler Growth Area would be a rural area of large lot subdivisions and high quality development, but an area retaining a rural, agricultural, small-town character. Remaining farmland would be buffered, and development would be encouraged to locate near existing development, to preserve open space, and to recreate the rural village, unincorporated community model of compatible mixed uses. More relatively intense development would be encouraged to locate in and near Pulaski and I-16.

Development Patterns. Development within this area should be sustainable development which preserves existing agricultural, forestry, and open space uses to the extent possible while providing for primarily single-family residential development and supporting uses. New residential and other development should be clustered near existing uses, limit impacts on the environment, incorporate open space and natural resource conservation and provide connectivity to existing infrastructure, road patterns, and development. Pedestrian and bicyclist use and connection to recreational, park, and natural areas should be encouraged whenever possible.

Primary Land Uses.

- Agriculture
- Forestry
- Conservation
Park/Recreational  
Single-Family Residential  
Planned Mixed Use  
Nodal Commercial  
Public/Institutional  
Transportation/Communications/Utilities  
Industrial (I-16, Pulaski with sewer)

**Consistent Quality Community Objectives**

Growth Preparedness  
Heritage Preservation  
Open Space Preservation  
Environmental Protection  
Sense of Place  
Housing Opportunities  
Infill Development  
Appropriate Business  
Employment Options  
Transportation Alternatives  
Regional Identity  
Regional Cooperation  
Shared Solutions

**Implementation Strategies**

Principal Applicable Community Policies (Including Applicable Implementation Strategies)

Proactively Manage/Guide Growth  
Community Guidance  
Utilize Infrastructure to Guide Growth  
Rural Character Preservation  
Maintenance of Agriculture/Forestry Uses
Seek/Promote Compatible/Supportive Development
Natural Resource Protection
Encourage Compatible Residential Location
Encourage Diverse Housing
Upgrade Appearance/Quality of Housing Development
Capitalize on Compatible Economic Use/Opportunities
Historic Resources and Utilization/Preservation
New Resident and Retirees Attraction
Recreation Facilities Development/Enhancement
Protect Property Values/Existing Uses
Transportation Improvements
New Business/Industry Attraction

Critical Strategies
Zoning/supportive land use regulation
Coordinated subdivision regulations
Utilize community facilities and infrastructure to guide growth and development
Support/promote agricultural/forestry enterprises and uses
Conserve open spaces/landscapes and natural resources
Cooperatively providing sewer service to Exit 111 I-16 Interchange/Pulaski
Coordinated land use planning, regulation, and code enforcement
Prioritized road paving
Local/state recreational, natural area, and parks development

Crossroad Nodes

Vision. The Crossroad Nodes would essentially be unincorporated, small-town rural villages or communities of mixed-use development which are primarily residential. Those crossroad communities identified on Map FLU-4 include (from west to east) the Ollifftown, Union and Portal Highway nodes along Rosemary Church Road in northern Candler County, the Salem Church Road node in the East Candler Growth Area north of Pulaski, the Excelsior node below I-16 and Exit 110, and the Canoochee node along Georgia 121 south of Metter. Exit 98, or
Aline, could also be considered a crossroad community beyond the proximity of the interstate interchange. Development in these rural villages would incorporate new residential and compatible commercial and institutional uses which blend well with existing uses in similar size and scale. The Crossroad Nodes would contain well regulated growth and development respectful of existing character and the surrounding, rural open space. Development would provide compatible public and other uses which encourage community interaction and bicycle/pedestrian use.

**Development Patterns.** Development should be that typical of a rural village or unincorporated community with primarily low-density, single-family residential development centered around some form of neighborhood commercial activity at major rural crossroads of the community. Uses and architecture should be compatible and supportive of existing uses while encouraging infill development, community interaction and pedestrian and bicycle use. Such development should also be respectful of, and easily transition to, surrounding rural agricultural, forestry, and open space uses.

**Primary Land Uses.**
- Single-Family Residential
- Neighborhood, Small Scale Commercial/Retail
- Public/Institutional
- Park/Recreation

**Consistent Quality Community Objectives**
- Growth Preparedness
- Heritage Preservation
- Open Space Preservation
- Environmental Protection
- Sense of Place
- Housing Opportunities
- Infill Development
- Appropriate Business
- Regional Identity
Implementation Strategies

Principal Applicable Community Policies (Including Applicable Implementation Strategies)

- Proactively Manage/Guide Growth
- Rural Character Preservation
- Seek/Promote Compatible/Supportive Development
- Historic Resource Utilization/Preservation
- Encourage Compatible Residential Location
- Improve Appearance/Aesthetics
- Improve Housing Stock
- Parks/Recreational Facilities Enhancement/Development
- Transportation Improvements

Critical Strategies

- Zoning/supportive land use regulation
- Subdivision regulations
- Code enforcement
- Local park/recreational facilities development
- Conserve open spaces/landscapes and natural resources
- Pedestrian/bicycle development/improvements
- Landscaping/appearance improvements
- Historic properties reuse

Conservation Areas

Vision. Conservation Areas are primarily undeveloped natural and environmentally sensitive lands located for the most part along or adjacent to the county’s major creeks and rivers. They are essentially not suitable for urban or suburban development, and should be protected for their natural functioning and contribution to the scenic landscape of the county. Compatible park, public, forest/agricultural and limited other uses could be allowed.
Development Patterns. There should be little or no development within these environmentally sensitive areas. Any compatible uses should be of low-impact, respectful and supportive of maintenance of natural functioning.

Primary Land Uses.
Conservation
Park/Recreational
Forestry

Consistent Quality Community Objectives
Growth Preparedness
Open Space Preservation
Environmental Protection
Heritage Preservation
Sense of Place
Regional Identity
Regional Cooperation
Shared Solutions

Implementation Strategies
Principal Applicable Community Policies (Including Applicable Implementation Strategies)
Proactively Manage/Guide Growth
Rural Character Preservation
Natural Resource Protection
Compatible Economic Use/Opportunities
Park/Recreational Facilities Development

Critical Strategies
Zoning/supportive land use regulation
Conserve open spaces/landscapes and natural resources
Local/state recreational, natural area, and parks development

**Interstate Interchanges**

**Vision.** The Interstate Interchanges (Aline and Pulaski) outside of Metter would be distinctive commercial and industrial nodal developments located at the Georgia 57/I-16 (Exit 98) and the Excelsior Church Road/I-16 (Exit 111) interchanges. The development of these interchanges would be well regulated and of high quality guided by a unified plan. Development would be aesthetically pleasing, and conducive of attracting visitors and accommodating multi-uses. Public infrastructure to stimulate and encourage the appropriate development of the interchanges would be sought and established.

**Development Patterns.** Development within these areas should be planned and coordinated to meet economic development and commercial needs while providing an attractive and appealing appearance. There should be signage control, shared parking, landscaping, interparcel access frontage roads, a bicycle and pedestrian friendly atmosphere, and other measures designed to cluster and coordinate development, accommodate multi-uses, and enhance the areas as inviting community gateways. There should be clear transition and buffers to adjacent rural areas.

**Primary Land Uses.**
- Commercial and Retail Uses
- Industrial (with sewer)
- Transportation/Communications/Utilities
- Public/Institutional

**Consistent Quality Community Objectives**
- Growth Preparedness
- Heritage Preservation
- Sense of Place
- Appropriate Businesses
Employment Options
Transportation Alternatives
Regional Identity
Regional Cooperation

Community Guidance
Seek/Promote Compatible/Supportive Development
Transportation Improvements
Utilize Infrastructure to Guide Growth
Coordinate and Share/Consolidate Services

Critical Strategies

Zoning/supportive land use regulation
Utilize community facilities and infrastructure to guide growth and development
Cooperatively providing sewer service to I-16 interchanges
Coordinated land use planning, regulation, and code enforcement
Landscaping/appearance improvements
Pedestrian/bicycle development/improvements
Metter

Georgia Highway 121/129 I-16 Gateway Interchange

Vision. This I-16 Metter Interchange (Exit 104) would be a high-density node of primarily commercial development to serve both the needs of the I-16 traveling public as well as those of local residents. Quality development of additional shopping and service uses would be encouraged to develop greater choices and economic opportunities while preserving the uniqueness of Metter, and establishing an attractive gateway encouraging further community exploration. Development would be made even more attractive through coordinated regulation of signage, landscaping, and layout, and establishment of appropriate public facilities including sidewalks and other pedestrian and visitor amenities. The community would invest in the necessary infrastructure to encourage additional compatible quality growth and development south of I-16.

Development Patterns. Development of additional commercial, retail, and other compatible uses would continue but with greater planning, coordination, attention to landscaping/appearance, and attraction to pedestrian/bicyclists. Interparcel connectivity and a more inviting transition to downtown Metter and other points of community interest would be encouraged. A more inviting and unique community gateway would result.

Primary Land Uses
- Commercial and Retail Uses
- Transportation/Communications/Utilities
- Park/Recreational
- Public/Institutional
- Industrial
- Planned Mixed Use
Consistent Quality Community Objectives

Growth Preparedness
Heritage Preservation
Sense of Place
Infill Development
Environmental Protection
Appropriate Businesses
Employment Options
Transportation Alternatives
Regional Identity
Regional Cooperation
Shared Solutions

Implementation Strategies

Principal Applicable Community Policies (Including Applicable Implementation Strategies)

Proactively Manage/Guide Growth
Local/Regional/State Cooperation
New Business/Industry Attraction
Maximize Infrastructure Investment
Improve Appearance/Aesthetics of Gateways/Corridors/Streetscapes/New Developments
Community Guidance
Seek/Promote Compatible/Supportive Development
Transportation Improvements
Utilize Infrastructure to Guide Growth
Coordinate and Share/Consolidate Services
Critical Strategies

- Zoning/supportive land use regulation
- Landscaping/appearance/signage improvements
- Pedestrian/bicycle development improvements
- Sewer service expansion
- Coordinated land use planning, regulation, and code enforcement
- Streetscape improvements
- Infill development
- Tourism development

Industrial Park/Airport

Vision. The Industrial Park/Airport Character Area is intended to be the important center of the community’s employment and transportation activity and vitality. This area would be a well-landscaped, attractive, and vibrant component of the community with improved and buffered access. It would offer modern facilities to accommodate and stimulate further economic diversity and abundant high quality job opportunities in an aesthetically pleasing campus environment. Appropriate public infrastructure and amenities would be extended and developed to accomplish the desired business, continue necessary improvements, and achieve the expected appearance and function. The airport will continue to be upgraded with a new control tower, hangar space, and other improvements as necessary to maintain its status as a modern facility contributing to transportation and economic development of the community.

Development Patterns. Development within this area will be limited to industrial and other compatible uses in a managed, landscaped and coordinated campus coordinated primarily by the Industrial Authority. The airport will be the community’s center of air transportation and outside connectivity for economic development and other uses. Development close to the airport will be controlled and compatible to continued and enhanced airport functioning and will be encouraging and supporting of existing and future appropriate economic development. Access will be enhanced, made more direct, and less disruptive of other nearby development. The area
will be appropriately buffered and landscaped to lessen negative visual and other impacts on adjacent and transition uses.

**Primary Land Uses**
- Industrial
- Transportation/Communications/Utilities
- Public/Institutional

**Consistent Quality Community Objectives**
- Growth Preparedness
- Infill Development
- Appropriate Businesses
- Employment Opportunities
- Regional Identity
- Regional Cooperation
- Shared Solutions
- Transportation Alternatives
- Open Space Preservation

**Implementation Strategies**

Principal Applicable Community Policies (Including Applicable Implementation Strategies)

- Proactively Manage/Guide Growth
- Local/Regional/State Cooperation
- Business/Industry Retention/Attraction
- Industrial Park Infrastructure Development
- Transportation Improvements
- Enhance Economic Development Marketing
- Seek/Promote Compatible/Supportive Development
- Community Guidance
- Utilize Infrastructure to Guide Growth

CV-27
Coordinated Planning

**Critical Strategies**

- Zoning/supportive land use regulation
- Utilize community facilities and infrastructure to guide growth and development
- Infrastructure expansion to industrial park
- Water/sewer service expansion south of I-16
- Coordinated land use planning, regulation and code enforcement
- Landscaping/appearance/signage improvements
- Access/frontage road to serve industrial park
- Upgrading of Metter/Candler County Airport

**Downtown Metter**

**Vision.** Downtown Metter would be a continuing focal point of community uniqueness, and a vibrant center of economic, social, cultural, and governmental activity. Downtown Metter will be a National Register listed commercial district of revitalized buildings, ongoing businesses, enhanced streetscapes and other landscapes, as well as one accommodating tourist and other appropriate services and retail centers. The uniqueness of Metter’s downtown park and landscaped entrances would be nurtured and expanded. Multiple uses in a pedestrian and bicycle-friendly rich visual environment, similar and compatible to existing development, will be encouraged.

**Development Patterns.** Development should be a mix of uses which reinforce and reaffirm Downtown Metter as the economic, social, governmental, and cultural focal point of the community at large. The existing historic building stock should be maintained and reused, the traditional development scale and patterns retained, and any new development should accommodate and enhance current amenities and architectural styles. Development should encourage and enhance pedestrian and bicycle use, current landscaping and street patterns, and more residential use, particularly of upper floors.
Primary Land Uses
- Commercial and Retail
- Office
- Public/Institutional
- Transportation/Communication/Utilities
- Mixed Use
- Park

Consistent Quality Community Objectives
- Growth Preparedness
- Heritage Preservation
- Infill Development
- Sense of Place
- Appropriate Businesses
- Employment Options
- Housing Opportunities
- Transportation Alternatives
- Open Space Preservation
- Regional Identity
- Regional Cooperation
- Shared Solutions

Implementation Strategies

Principal Applicable Community Policies (Including Applicable Implementation Strategies)
- Business Retention/Attraction
- Downtown Revitalization
- Improve Appearance/Aesthetics
- Transportation Improvements
- Historic Resources Utilization/Preservation
- Encourage Diverse Housing
Community Guidance
Maximize Infrastructure Investment
Local/Regional Cooperation
Coordinated Planning

**Critical Strategies**
- Zoning/supportive land use regulation
- Coordinated planning/codes enforcement
- Enhance landscaping/aesthetics
- Streetscape improvements
- Infrastructure improvements
- Provide sidewalks/bike paths
- Georgia 46 upgrades
- Support local businesses/entrepreneurs
- Develop and utilize incentives
- Encourage/support hospitality businesses
- Better Hometown Program
- Reactivate Downtown Development Authority
- Utilize Downtown Revolving Loan Programs
- National Register Listing
- Encourage historic rehabilitation
- Adaptive use/reuse of landmarks
- Utilize/encourage compatible infill development

**Georgia Highway 46 East**

**Vision.** This area would be an extension of Downtown Metter, and would be a revitalized corridor of redeveloped and new commercial, industrial, public, and other compatible uses. Enhanced landscaping and sidewalks/bike paths would provide further community connectivity and unification. The rail system and existing industrial and commercial buildings would be redeveloped and utilized to be important, contributing assets and components of the local community and economy. The rail system would be expanded as appropriate to increase access
and serve new industry. The corridor would also be a welcoming and accommodating transition to residential and rural areas east of Fifteenmile Creek, and would be aesthetically pleasing and attractive.

**Development Patterns.** Development would be a continuation/extension of downtown Metter, but in a less dense pattern more oriented to vehicles than pedestrian and including industrial uses. Development should be clustered into nodal developments, where possible. Streetscape and pedestrian and bicycle improvements would provide a connection and compatible transition/gateway into downtown, and also a transition to surrounding residential areas. Landscaping and other enhancements will be made to improve appearance/aesthetics. The existing rail corridor will be utilized to a greater extent for economic development/industrial purposes, but will contribute to improved aesthetics and an inviting gateway. Abandoned or underutilized structures will be rehabilitated and adapted into attractive, contributing uses.

**Primary Land Uses**
- Commercial
- Office
- Industrial
- Public/Institutional
- Transportation/Communications/Utilities
- High Density Residential
- Mixed Use

**Consistent Quality Community Objectives**
- Growth Preparedness
- Heritage Preservation
- Infill Development
- Appropriate Businesses
- Employment Options
- Sense of Place
- Housing Opportunities
- Transportation Alternatives
Regional Identity

Local/Regional Cooperation

Critical Strategies

Zoning/supportive land use regulation
Coordinated land use planning regulation, and codes enforcement
Streetscape improvements
Infrastructure improvements
Georgia 46 upgrades
Enhance landscaping/aesthetics
Encourage historic rehabilitation
Adaptive use/reuse of landmarks
Pedestrian/bicycle development/improvements
Utilize/encourage compatible infill development
Support local businesses/entrepreneurs
Develop and utilize incentives for new business/industry
Seek to develop rail served industrial areas

**Georgia Highway 46 West**

**Vision.** This area would be another aesthetically pleasing entrance and gateway into downtown Metter with enhanced commercial, possible industrial, and other mixed uses. Landscaping, community connectivity, and pedestrian scale developments will be important concepts in encouraging compatible development/redevelopment. This corridor, while likely to receive less development than the 121 Gateway or Georgia 46 East, will be especially important if the proposed new state rest stop is built west of Metter along I-16.

**Development Patterns.** Development in this corridor should be a landscaped, connected mix of uses in a more neighborhood-oriented density which retains residential and office uses while invitably transitioning into downtown Metter. The area should offer new economic development opportunities while retaining a feel of surrounding residential neighborhoods.

**Primary Land Uses**
- Residential
- Office
- Commercial (More Neighborhood Oriented)
- Mixed Use
- Public/Institutional
- Transportation/Communications/Utilities

**Consistent Quality Community Objectives**
- Growth Preparedness
- Heritage Preservation
- Infill Development
- Sense of Place

Historic Metter

Vision. These intown areas of historic housing stock include the National Register listed South Metter Residential Historic District and surrounding area along Georgia 121 and adjacent
streets south of downtown, as well as another area north of downtown. These areas are the principal locations of the historic tree-lined medians and streetscapes for which Metter is best known. The residential use and nature of these areas should be strictly maintained, although the north area historically also accommodates public uses which can and should be maintained as well. The unique streetscapes and pedestrian friendly scale should be enhanced and extended. Any infill development should complement the existing scale, setback, style, and landscaping of existing structures. The historic nature of these areas should be protected, preserved, and promoted for tourism.

Development Patterns. The South Metter Residential District should be strictly maintained as a single-family residential neighborhood, while the north area can be an area of more mixed neighborhood use, still principally of residential and public institutional use. Any infill development should be of compatible and similar use, pattern, scale, and style.

Primary Land Uses

Single-family Residential
Public/Institutional

Critical Strategies

Zoning/supportive land use regulation
Utilize code enforcement
Better Hometown Program
Enhance landscaping/aesthetics
Continue active Metter Tree Board
Streetscape improvements

Urban Metter

Vision. This character area is the remainder of the City of Metter with a mix of various urban uses, but primarily one of stable neighborhoods of all types and some undeveloped lands. It is a place for residential uses of all types, with convenient public, institutional, educational, health, shopping, park/recreational, and industrial activities. Infill development of compatible scale and use will be encouraged, while existing development will be rehabilitated, revitalized, and made more attractive. Stability of existing uses as well as increased use by pedestrians/bicyclists will be promoted and encouraged. Public infrastructure will be maintained, upgraded and expanded as appropriate to improve livability and appearance.

Development Patterns. Development within this area will primarily be infill development on scattered lots and primarily, single-family residential. Any development should be of compatible scale and use, and should support continuing stability of existing neighborhoods and uses. Compatible mixed-use, or multi-family residential uses, or some other urban uses could be allowed in undeveloped fringes or appropriate locations with proper planning and buffering of existing uses. All development and redevelopment should encourage connectivity and pedestrian/bicycle uses.

Primary Land Uses

Community Agenda

Candler County Joint Comprehensive Plan

Improve Housing Stock
Address Substandard Housing/Blight
Encourage Diverse Housing
Encourage Use of State/Federal Programs
Recreational Facilities Development/Enhancement
Promote Availability of Land
Protect Property Values/Existing Uses

Critical Strategies
Zoning/supportive land use regulation
Coordinated codes enforcement
Utilize GICH participation/assistance
Enhance landscaping/aesthetics
Encourage infill locations first
Market housing needs/land availability
Utilize community facilities and infrastructure to guide growth and development
Expand/upgrade water/sewer to serve all areas of Metter
Pedestrian/bicycle development/improvements
Pursue expansion of recreational facilities
Maintain/construct new school facilities
Encourage intense growth/development to locate in/near Metter
Conserve open spaces/landscapes and natural resources
Coordinate service delivery

Greater Metter

Vision. This area is the growth area for the City of Metter to continue complementary
development of a similar scale and mix, but at a slightly less density than the urban core.
Additional development will be encouraged to take advantage of existing community investment
in public infrastructure. Surrounding residential development will be encouraged to locate near
existing development and to be respectful of the rural character and natural environment. Growth
would be managed and controlled through regulation, annexation, and careful infrastructure
extension designed to implement and enhance the overall community vision and comprehensive plan. The small town rural character and existing quality of life would be maintained.

Development Patterns. Development in this area should generally be that of a suburban nature, primarily residential, with more intense uses located in or near current city limits and transitioning gradually to the traditional patterns of rural residential and agricultural/forestry uses of rural Candler County. Open space preservation, protection of natural and cultural resources, and maintenance of agricultural and forestry uses should be encouraged to the extent possible. The small town rural character and existing quality of life should be maintained or enhanced by all development.

Primary Land Uses
- Residential
- Agricultural
- Forestry
- Conservation
- Park/Recreational
- Public/Institutional
- Transportation/Communications/Utilities
- Supportive Commercial, Industrial, or Mixed Uses, especially Nodal Development

Prioritized road paving
Coordinated land use planning, regulation, and code enforcement
Local/state recreational, natural area, and parks development
Pulaski

Old Pulaski

**Vision.** Old Pulaski is essentially the existing developed, historic area of the Town of Pulaski. This area would continue in essentially the same configuration and uses with rehabilitated and thriving utilization. Any infill development would be compatible in scale, style and use and would blend in seamlessly, while supporting the vitality of existing development. Supporting regulation and investment in enhanced public infrastructure and facilities would help realize this thriving small town.

**Development Patterns.** Development in this area should principally be rehabilitation and maintenance of the historic structures and uses, primarily residential and public/institutional. Any infill development should have compatibility and support of existing uses as first priority. Infill development should be of similar size, scale, use, and intensity. Greater pedestrian/bicycle use and connectivity should be encouraged.

**Primary Land Uses**
- Single-family Residential
- Public/Institutional
- Park/Recreation

**Consistent Quality Community Objectives**
- Growth Preparedness
- Heritage Preservation
- Infill Development
- Sense of Place
- Open Space Preservation
- Traditional Neighborhood

- Historic properties reuse
- Landscaping/appearance improvements
- Pedestrian/bicycle development/improvements

Pulaski Fringes

Vision. The relatively undeveloped remainder of Pulaski would be utilized for compatible new low-density residential development and supportive neighborhood type commercial and
public use. Supportive small business, public/institutional, recreation and transportation/communications/utilities uses may be established. Future Pulaski will likely contain a fire station and a recreational park. When feasible, a sewerage system should be added. Annexation, regulation, and public investment in infrastructure will be needed to make Pulaski the small town service center for residential growth in the surrounding East Candler Growth Area, and for desired community development of the Excelsior Church Road/I-16 interchange (Exit 111). Georgia 46 through Pulaski would be the center of controlled, nodal supporting commercial development. All development would be compatible with, and respectful of, the small town character of Pulaski and the rural character of the surrounding countryside.

**Development Patterns.** Development in this area would be primarily new low-density residential development and supportive neighborhood type commercial, public/institutional, and other uses to support Pulaski as a thriving small town and to support the surrounding East Candler Growth Area as a small town village center. Uses and architecture should be compatible and supportive of existing uses and Old Pulaski, while encouraging infill development, community interaction, pedestrian/bicycle use and accommodating slightly higher intensity of uses. Such development should also be respectful of, and easily transition to, surrounding rural residential, agricultural, forestry, and open space uses.

**Primary Land Uses**
- Single-family Residential
- Neighborhood, Small-Scale Commercial/Retail
- Public/Institutional
- Park/Recreation
- Transportation/Communications/Utilities

Community Issues and Opportunities

The following issues and opportunities are those agreed upon by the local governments of Candler County and its municipalities as needed to address in its Community Agenda. These issues and opportunities are generalized summaries of the more detailed issues and opportunities identified in the Community Assessment. The community participation process, including the input of the Local Plan Coordination Committee, the local governments, and the general public confirmed the applicability and desire to broadly address the identified potential issues and opportunities. Addressing the issues and opportunities identified below are key to achieving the articulated community vision and this comprehensive plan. The desired future Candler County of a growing, progressive community of new residents and businesses and rural leadership which maintains its rural landscapes, open spaces, charms, and quality of life requires action on these identified issues and opportunities. The identified community issues and opportunities are presented by recommended elements of a true comprehensive plan. The Implementation Program identifies the long term policies and accompanying implementation strategies on an overall community basis to reflect local preference and reality of local governmental function. However, the critical needs, policies, and strategies for each character area of the community are identified in the defining narratives of each character area.

Economic Development

- Local and regional cooperation
- Retention of local graduates
- Education levels/job skills improvements
- High drop-out rates
- Business/industry retention
- Attraction of new economic development
- Small business/entrepreneurial development
- Improvement of existing industrial park
- Transportation improvements
- Tourism development/promotion
- Enhanced economic development marketing
- Community aesthetics/appearance improvements
- Downtown Metter commercial area revitalization
- Rural character/Quality of Life preservation
• Marketing of agricultural/forestry uses
• Growth management
• Increasing migrant population
• Attraction of retirees/quality of life
• Historic district/sites promotion/maintenance
• Enhanced leadership
• Promotion of location on I-16
• County-wide access to DSL/fiber optic
• Woodpecker/Wiregrass Trail promotion
• I-16 interchange development

Natural and Cultural Resources

• Compatible, supportive development
• Natural resources conservation/protection
• Wildlife management area/outdoor recreation development
• Compatible economic utilization/opportunities
• Historic resources preservation/utilization
• Growth management/regulation
• Community aesthetics/appearance improvements

Housing

• Improvement of housing quality
• Need for additional affordable housing
• Need to improve substandard housing/eliminate blight
• Diversity of housing mix
• Utilization of state/federal programs
• Need to guide/plan residential development
• Community aesthetics/appearance improvements
• Need for land use/subdivision/zoning regulation and code enforcement
• Need for Housing Alliance

Land Use

• Need for planning/growth management/regulation
• Need for land use/subdivision/zoning regulation and code enforcement
• Rural character/Quality of Life preservation
• Maintenance of agricultural/forestry uses
• Recreational/leisure facilities development
• Downtown Metter commercial area revitalization
• Infill development and location of use management
• Gateways/entranceways
• Community appearance/aesthetics improvements
• Metter landscaping
Community Agenda

- Increase in land values/land for sale
- Access/frontage road development
- Explore need for Pulaski annexation
- Extension of water/sewer access south of I-16

Community Facilities and Services

- Infrastructure expansion/maintenance/upgrade
- Utilization of infrastructure to guide growth
- Extension of water/sewer access south of I-16
- Highway improvements/upgrades
- Bicycle/pedestrian facility improvements
- More county road/city street paving
- Airport upgrade
- Education facilities/services improvements
- Park/recreational facilities development
- Recycling/solid waste services improvements
- Health care system improvements
- Cultural facilities/services enhancements
- Public safety enhancements
- Fire service improvements
- Pulaski sewer feasibility/expansion to I-16

Intergovernmental Coordination

- Local and regional cooperation
- Services sharing/cooperation/consolidation
- Coordinated planning/growth management
- Examine feasibility of tax relief
IMPLEMENTATION PROGRAM

The Candler County Joint Comprehensive Plan, as has been stated in the Community Assessment, is a joint comprehensive plan prepared under the Georgia Department of Community Affairs’ Local Planning Requirements established under the Georgia Planning Act of 1989. The plan has been developed under an extensive community participation program to truly be a reflection of the community’s concerns and desires for the future.

Now that the community has been inventoried and analyzed in the Community Assessment; the community has finalized its issues and opportunities it wishes to address; and has enunciated its community vision and delineated special character areas, the next step is the implementation program. In a sense, the implementation program is the heart of the plan as it outlines the steps, policies, and strategies chosen by the community to carry out the comprehensive plan, and bring about its desired vision and future.

The implementation program is the overall strategy for achieving the Community Vision and for addressing the identified Community Issues and Opportunities. This implementation program consists of Long Term Policies to guide community decision-making, Implementation Strategies to delineate steps and actions to achieve policies, and a Short Term Work Program for each local government which identifies specific implementation activities to be undertaken in the first five years of plan implementation. There is also a Long Term Work Program for each local government which identifies ongoing activities, programs, and projects of implementation which may not have an ending date or would be undertaken or end later than the first five years. A Report of Accomplishments is also included for each local government which identifies the achievements and status of work items in the most recent Short Term Work Program of the previous comprehensive plan.

The implementation program identifies the long term policies and accompanying, chosen implementation strategies, on an overall community basis to reflect local preference and the reality of local government function and the fact that many basic policies and strategies apply.
across the whole community and not particular areas. Despite this given, to understand the community’s intentions and desires for implementation, the reader should also review the Community Vision section and the defining narratives for each character area. This will provide better understanding of the community’s desired development patterns, and how and which implementation items are expected to impact each character area. This is especially true for the principal policies and critical implementation strategies identified and referenced under each character area. To further this understanding and integration of implementation, each jurisdiction’s short and long term work programs have an identification column for each item which references the applicable character areas. Regardless of particular needs, implementation of this plan and achievement of the desired community vision, both on an overall basis and for particular character areas, will require dedication and action by many community stakeholders, and not just that of the local governments.

**Long Term Policies**

**Economic Development**

The community will cooperate and coordinate with existing local, regional, and state agencies to improve all of Candler County

The community will work together to develop, support, and promote programs which will enhance opportunities for local graduates to both live and work in the community upon graduation

The community will work together to improve educational and skills levels to ensure a better qualified workforce for existing and future employers

The community will collaboratively support the local school system and otherwise develop cooperative efforts to reduce the local drop-out rate, and to engage students to remain in school

The community will support and promote programs for the retention and expansion of existing local industries and entrepreneurs in its support and quest of business/industry retention and growth

The community will actively recruit new industry and commercial/retail development compatible with, and supportive of, the resources, infrastructure, existing economy, and the natural environments of the county

The community will work to develop the necessary infrastructure and industrial park improvements to facilitate and accommodate desired commercial and industrial growth
The community will continue to seek transportation improvements (highway, airport, rail, bicycle, and pedestrian) to enhance and support economic development efforts.

The community will seek to enhance and grow tourism as an important component of the local economy through festivals, recreation and leisure facilities/activities, agri-tourism, and nature-based tourism.

The community will cooperate to promote appropriate infill development, upgrade commercial areas and substandard housing, and otherwise improve the appearance and aesthetics of the county and its municipalities.

The community will work to enhance economic development marketing efforts through the Industrial Authority, Chamber of Commerce, Metter Better Hometown program, and other regional/state agencies.

The community will continue to revitalize/maintain downtown Metter as a vibrant, functioning commercial, governmental, and social center through the Better Hometown Program and other means.

The community will seek development compatible with its existing rural character and quality of life.

The community will maintain agriculture/forestry as viable economic uses through traditional and alternative enterprises, such as agri-tourism and nature-based tourism.

The community will direct, manage, and guide its future growth and development through coordinated planning, land use regulation, and code enforcement.

The community will work to accommodate the increasing migrant population utilizing existing social and other government programs as appropriate.

The community will seek to attract new residents and retirees through promotion of location and quality of life.

The community will protect, maintain, utilize, promote, and preserve its heritage, and will seek to encourage public and private adaptive use/reuse of its historic buildings, historic districts, and landmark structures.

The community will develop and support leadership programs to encourage citizen involvement.

The community will increase its promotion of its location on I-16 and facilitate desired interchange development.

The community will promote the availability of county-wide access to DSL/fiber optic communications.
The community will continue to promote the Woodpecker and Wiregrass trails as interstate alternatives.

Natural and Cultural Resources

The community will seek and promote development which is respectful, compatible, and maintains and supports the existing rural character, open spaces, and landscapes of Candler County.

The community will seek to conserve and protect the Canoochee and Ohoopee rivers, the Floridan Aquifer, the county’s significant groundwater recharge areas, wetlands, other important natural resources, and the open spaces and landscapes of the county.

The community will capitalize on its economic opportunities associated with its open spaces and natural and cultural resources, and will seek to promote, develop, and cultivate additional compatible uses of these resources.

The community will protect, maintain, utilize, promote and preserve its heritage, and will seek to encourage public and private adaptive use/reuse of its historic buildings, historic districts, and landmark structures.

The community will proactively manage and guide its growth and development, and protect and conserve its important natural and cultural resources through community investment and appropriate regulation.

The community will work to improve its appearance and aesthetics through code enforcement and other means.

The community will seek the State to develop a wildlife management area, and will work to pursue additional public and private outdoor recreation or nature venues.

Housing

The community will seek to encourage a diverse mix of safe, quality housing, including affordable, rental, elderly, and compatible workforce housing.

The community will address substandard housing and concentrations of blight, including manufactured housing developments, and will cooperatively upgrade their quality and appearance through rehabilitation, removal, code enforcement and regulation.

The community will encourage the use of state and federal programs to improve availability of quality housing, and to encourage homeownership.

The community will seek to encourage and manage new residential location within the County which is compatible with its community vision and rural character.
The community will provide guidance to and for location of compatible housing developments through planning, infrastructure location, and regulation.

The community will upgrade its appearance and the quality of its housing developments through the adoption and use of coordinated construction codes, property maintenance codes, subdivision regulations, and countywide zoning ordinance(s).

The community will seek establishment of a local Housing Alliance to address housing related issues and concerns.

The community will encourage and support the development of infill housing of appropriate types, particularly in Metter and Pulaski.

**Land Use**

The community will plan, manage, and guide its future growth and development, and encourage growth compatible with its existing character and community vision.

The community will cooperate to implement and enforce coordinated, comprehensive quality development standards, consistent code enforcement, and countywide zoning to implement its community vision and protect its rural character and quality of life.

The community will encourage growth which supports and maintains forestry and agriculture as viable, functioning land uses.

The community will invest in extension of access to water/sewer in all areas of the city of Metter, and particularly south of I-16.

The community will seek to enhance existing recreation and leisure facilities and develop new facilities/uses which will complement/promote tourism and the community’s character/visions.

The community will continue pursuing revitalization of downtown Metter as an important, functioning economic, social, and governmental center.

The community will maximize utilization of the public and private investment in infrastructure and facilities of its industrial park, commercial areas, and other developed areas through infill and other compatible developments.

The community will continue to maintain and improve ongoing landscaping/beautification efforts in Metter.

The community will work to improve its appearance, including enhancing gateways/entranceways through appropriate signage, landscaping, and pedestrian/bicycle facilities.

The community will promote the availability of appropriate land for economic development, resident, and retiree attraction.
The community will work, both locally and with the state, to protect property values and existing uses so as to encourage/support continued viable agriculture, forestry, and other open space uses.

The community will seek to develop an access/frontage road to serve the industrial park expansion and other areas as appropriate.

The community will support exploring the feasibility of annexation into Pulaski, and the expansion of its public infrastructure system.

**Community Facilities and Services**

The community will maintain, upgrade, and expand its existing infrastructure and services to enhance the quality of life, to facilitate its community vision, and to attract desired, compatible growth and development.

The community will guide growth and development to areas of existing infrastructure and will plan and develop expansions to help bring about its community vision and desired patterns of growth.

The community will invest in extension of access to water/sewer in all areas of the city of Metter, and particularly south of I-16.

The community will pursue, develop, and promote transportation improvements of all types (highway, airport, rail, bicycle, and pedestrian) that are compatible with and supportive of the community’s desired economic development, future growth, and quality of life.

The community will seek to continue to enhance educational and technological opportunities by continuing to maintain and upgrade its educational facilities and programs.

The community will enhance and promote existing parks and establish new parks/recreational facilities to serve existing and future populations, and to further cultivate/support tourism in accordance with the community’s character/vision.

The community will enhance the county’s solid waste and recycling facilities and initiatives, in conjunction with other efforts to improve community appearance.

The community will work together to maintain and upgrade its health care facilities and services conducive to economic development and a high quality of life.

The community will encourage and support the maintenance, enhancement, and promotion of existing cultural facilities and opportunities, and will further develop cultural facilities and assets to pursue and promote additional venues/activities.
The community will continue to improve public safety services and facilities to support an expanding population, improve quality of service, and better coordinate in times of emergency and disasters.

The community will work to improve fire service county-wide, including possible facilities additions in Pulaski and elsewhere.

The community will explore the feasibility of establishing a sewerage and wastewater treatment system for the Town of Pulaski.

The community will explore the feasibility of cooperatively providing sewer service to serve the Exit 111 I-16 interchange/Pulaski area.

**Intergovernmental Coordination**

The community will continue to cooperate locally and regionally to improve, develop, and plan for the desired future Candler County expressed and outlined in its community vision and comprehensive plan.

The community will utilize regional collaboration and efforts with surrounding cities and counties as a principal strategy in its economic development and development of infrastructure and services.

The community will coordinate efforts in the delivery of services where appropriate.

The community will investigate the possibility of shared and consolidated services where appropriate and feasible.

The community will explore the feasibility of full consolidation of Candler County and both its municipalities.

The community will cooperate in coordinated land use planning and regulation and code enforcement to manage and guide its future growth and development.

The community will work, both locally and with the state, to develop a tax structure and tax policies which will encourage the continued viability of agriculture, forestry, and open spaces, and which otherwise implements the community vision, while providing tax relief where appropriate.

**Implementation Strategies for Long Term Policies**

**Economic Development**

**Local/Regional/State Cooperation Policy**

Continue participation in existing Middle Coastal Unified Development Authority.
Maintain strong Industrial Authority contacts/interaction with state and federal agencies and developers

Continue active participation in the Heart of Georgia Altamaha Regional Development Center

Support and cooperate with Swainsboro Tech to expand facilities and services

Pursue collaborative between Ogeechee Tech and Swainsboro Tech to establish a joint campus and provide basic programs, possibly in conjunction with Candler County Board of Education

Support and participate in Magnolia Midlands Travel Region and statewide tourism initiatives

Continue cooperation between city and county governments, Industrial Authority, and other local entities to develop additional infrastructure and industrial park improvements to attract new growth

**Local Graduate Retention Policy**

Establish a community collaborative of the school system, STC, the Chamber of Commerce, the Industrial Authority, existing businesses/industries, and other agencies as appropriate to establish programs and policies to help local graduates find viable employment at home

Cooperatively support, expand, and enhance local efforts to retain graduates

Support and utilize Teacher Cadet program and other efforts to have teachers live locally

**Educational/Skill Levels Improvement Policy**

Maintain/upgrade existing school facilities as needed

Continue and enhance cooperation and expand programs between the school system, Swainsboro Tech, Ogeechee Tech, Georgia Southern University, East Georgia College, and with other post-secondary institutions

Support facilities and program expansions at Swainsboro Tech, Ogeechee Tech, Georgia Southern University, and East Georgia College

Utilize and actively participate with Region 9 WIA Program

Utilize existing state programs (such as QuickStart) for expanding existing and new businesses
Reduction of Drop-Out Rate Policy

Develop a community collaborative of the school system, STC, Family Connections, the Chamber of Commerce, and other agencies as appropriate to establish programs and policies to keep youth in school

Seek to establish and support 21st Century Program to provide safe after school environment and mentoring for students

Cooperatively support, expand, and enhance existing local school system efforts to retain students

Business/Industry Retention/Attraction Policy

A. Existing Business/Industry Retention

Continue utilization of existing Industrial Authority programs and seek development of new programs as needed

Continue to utilize existing available state programs (such as BREP)

Examine potential incentives for retention of existing business and industry and implement as appropriate

Work with existing industry to determine specific workforce needs

Support local businesses/entrepreneurs with improvement/expansion efforts

B. New Business/Industry Attraction

Develop and utilize incentives to attract new business/industry, including new commercial and retail development, compatible with existing industry and natural resources

Continue active participation in the state’s entrepreneur programs and maintain state designation as an “Entrepreneur Friendly Community”

Seek and maintain “Workforce Readiness” status under the State program

Support efforts to increase tourism/visitors to Candler County

Work to improve educational levels and workforce skills levels and work ethics in the County

Continue infrastructure improvements (transportation, water/sewer, technology, airport, rail, etc.) to attract and support economic development
Utilize and promote rail and airport access as well as I-16 and Savannah port proximity in recruitment efforts

Industrial Park Infrastructure Development Policy

Pursue the extension of infrastructure to the industrial park expansion area

Seek to continue infrastructure improvements and improve the attractiveness of the county’s industrial park

Strive toward maintaining availability of at least one speculative building at all times

Seek to develop access/frontage road to industrial park expansion area

Seek to develop rail served areas along GA 46 East

Transportation Improvements Policy

Seek funding to upgrade Metter-Candler County’s airport, including constructing additional hangars, expanding the terminal building, a new control tower, and other improvements as necessary and appropriate

Encourage and promote expansion of rail service and facilities to assist the development and attraction of new industry

Pursue upgrades to Georgia Highway 46 to upgrade capacity, complement downtown and the existing street layout, enhance entranceways, and improve landscaping and aesthetics

Develop local bike paths/routes connecting public facilities within Metter and to connect to regional and state bike routes and important recreational/natural resource facilities within the county, but also including George L. Smith State Park

Pursue feasibility of a perimeter road around Metter

Tourism Development Policy

Work to expand and improve the Another Bloom’n Festival and establish other festivals

Expand community sponsorship and promotion of existing events, and develop other special events/activities designed to attract visitors

Utilize and promote Guido Gardens and the other natural and cultural resources of the County for nature-based, agri-tourism, and heritage tourism
Continue to participate in regional and state efforts to improve and promote the Woodpecker and Wiregrass Trails as tourism focal points and alternatives for interstate travelers

**Improve Appearance/Aesthetics Policy**

Pursue downtown and general revitalization efforts in Metter and Pulaski

Continue development of recycling activities countywide

Continue to utilize and enhance landscaping along community gateways, Downtown Metter Park, and other areas as appropriate

Utilize supportive land use regulation and cooperative code enforcement efforts as appropriate

Continue to maintain active Tree Board in Metter and expand as needed

**Downtown Metter Revitalization Policy**

Reactivate and utilize the Metter Downtown Development Authority as a guiding/implementing vehicle

Utilize GMA and DCA Downtown Revolving Loan programs and other sources, as appropriate, to assist with downtown improvement projects

Continue active participation in Better Hometown program

Seek National Register listing for Downtown Metter Historic District

Utilize codes enforcement by the City of Metter to legally enforce revitalization plans and encourage private rehabilitation

Continue pursuit of public streetscape and downtown park improvements in Metter through Transportation Enhancement or other grant sources

Encourage and support hospitality businesses, such as restaurants, to locate in downtown area

Promote and encourage use of historic rehabilitation tax incentives for private rehabilitation of historic downtown structures in Metter

**Rural Character Policy**

Work to conserve and protect the natural and cultural resources of the County
Support and promote agricultural/forestry enterprises and uses which maintain the continued viability of these uses, including nature-based/heritage tourism/agri-tourism

Develop and promote natural and cultural resources and facilities which promote nature-based, agri-tourism, heritage tourism and other compatible economic development

Develop and enforce zoning and other supportive land use regulation countywide

Seek new developments compatible with the existing resources and rural character of the county

Proactively Manage Growth Policy

Utilize community facilities and infrastructure extensions and locations to guide growth and development

Develop and enforce zoning and other supportive land use regulation and codes countywide

Develop/Support Leadership Programs Policy

Participate in the Region 9 Regional Economic Development Academy

Re-establish/participate in a local or joint county Leadership Candler

Work with Cooperative Extension and school system to develop/establish youth leadership program(s)

Strengthen and utilize educational systems (BOE, Swainsboro Tech, Ogeechee Tech, Georgia Southern University, East Georgia College) to coordinate and further local programs

Enhance Economic Development Marketing Efforts Policy

Formalize local incentives policy for existing and new businesses

Seek a formal study by Georgia Tech, or other appropriate agency, to determine a niche or focus for local business recruitment

See Local/Regional/State Cooperation Policy under Economic Development

Utilize the community’s I-16 location, proximity to Savannah’s port, as well as airport and rail access, and DSL/fiber optic/wireless connectivity capacity in marketing efforts
Accommodate Migrant Population Policy

Utilize Telamon and other appropriate agencies to identify the population and the specific assistance needed

Develop appropriate programs through a consortium of local, regional, and state agencies and utilization of the Adult Learning Center

New Resident and Retirees Attraction Policy

Develop appropriate marketing materials through a community effort organized through the Chamber of Commerce/Industrial Authority

Utilize the Metter/Candler County Welcome Center to distribute marketing materials and otherwise promote the community

Identify and utilize appropriate advertising venues, including print and an active website

Historic Resources Utilization/Preservation Policy

See under Natural and Cultural Resources

Natural and Cultural Resources

Seek/Promote Compatible/Supportive Development Policy

Encourage intense growth/development to locate in/near Metter

Utilize infrastructure development/expansion to guide development in/near Metter and Pulaski

Promote/develop natural/cultural resources to maintain rural character (see Rural Character Policy under Economic Development)

See Strategies of Tourism and Rural Character Policies under Economic Development

Develop and enforce supportive, countywide zoning and other supportive land use regulations

Natural Resource Protection Policy

Develop/enforce an Environmental Conservation Ordinance to conserve and protect the Ohooppee and Canoochee rivers, significant groundwater recharge areas, and wetlands in Candler County

See strategies of Rural Character Policy under Economic Development
Pursue development of a state wildlife management area or other significant public or private nature areas or outdoor recreation venues

**Capitalizes on Compatible Economic Use/Opportunities Policy**

Utilize/promote nature-based, agri-tourism, and heritage tourism

Support and promote agriculture/forestry enterprises and uses which maintain the continued viability of these uses, both traditionally and otherwise

Support and encourage adaptive use and reuse of historic landmarks and properties, both public and private

Continue to support and encourage local, state, and private recreational facility and parks development, wildlife management area, and other alternative use and leisure enterprises

**Historic Resources Utilization/Preservation Policy**

Support and encourage adaptive use and reuse of historic landmarks and properties, both public and private

Continue to rehabilitate the old Metter High School/develop the Candler County Historical Society Museum as a museum/tourist venue

Work to keep the Candler County Courthouse, Metter Depot, Wilcox Auditorium, Pulaski’s downtown commercial buildings, and other historic buildings as preserved, functioning landmarks

Pursue preservation of historic gyms in Metter and Pulaski

See Downtown Metter Revitalization Policy under Economic Development

**Proactively Manage/Guide Growth Policy**

See Strategies of Proactively Manage Growth Policy under Economic Development

Conserve the open spaces/landscapes, natural resources, and agricultural/forestry uses of the county through guidance, community facility/infrastructure extension/location control, land use regulation and code enforcement, as appropriate

**Improve Appearance/Aesthetics Policy**

See Strategy of Improve Appearance/Aesthetics Policy under Economic Development

See Strategy of Solid Waste/Recycling/Appearance Policy under Community Facilities and Services
Housing

Improving Housing Stock Policy

A. Improve Quality

Utilize GICH participation as a guiding force in identifying and meeting housing needs

Utilize state and federal programs/grants for housing rehabilitation and to encourage homeownership

Utilize code enforcement to upgrade existing housing and prevent further deterioration and substandard housing

Develop and enforce zoning and other supportive land use regulations which encourage quality housing investment

Continue to enforce manufactured home/park regulations

Further develop subdivision regulations in all jurisdictions

Develop and enforce construction code regulations countywide

Complete GICH Housing Needs Study and utilize recommendations as appropriate

B. Increase Quantity

Promote and encourage utilization of existing programs by developers and individuals

Seek funding and provide infrastructure in/near municipalities to encourage/guide residential development in desired locations

Market housing needs and land availability to the private sector

Address Substandard Housing/Blight Policy

See Strategies of “Improve Quality” of Improving Housing Stock Policy above

Establish programs to remove dilapidated manufactured homes/housing units countywide

Utilize property maintenance codes and other code enforcement efforts to improve housing conditions and aesthetics
Prepare a redevelopment plan as an initial strategy and guide for redeveloping blighted and substandard housing areas within Metter

**Encourage Diverse Housing Policy**

Seek funding and provide infrastructure in/near the municipalities to encourage/guide residential development of all types in desired locations

Develop zoning and other appropriate land use regulations countywide, and enforce existing regulations in Metter and Pulaski, which encourage/guide location of residential development of all types

Utilize GICH Study to define needs, identify possible solutions/programs, and help provide implementation assistance

Promote and encourage utilization of existing state and federal programs by developers and individuals

Market housing needs, land availability, and potential residential/retiree location

Seek to develop a more diverse mix of workforce and elderly housing, including additional rental properties

**Encourage Use of State/Federal Programs Policy**

Utilize the Chamber, Housing Authority, and a local Housing Alliance for education, promotion, and marketing of quality housing and to encourage homeownership

Seek the assistance of DCA’s Office of Housing

Utilize DCA, USDA Rural Development, and other state/federal programs, as appropriate

**Encourage Compatible Residential Location Policy**

Utilize infrastructure extension (including road paving) to encourage/guide growth and development in desired locations

Develop and enforce zoning and other supportive land use regulations countywide

Continue to enforce manufactured home/park regulations

Further develop subdivision regulations in all jurisdictions

Expand infrastructure and enforce land use regulations in Metter which encourage/guide residential development
Utilize Metter’s formal infill development policy and other measures to encourage residential development on available vacant lots already served by infrastructure within Metter, and utilize similar efforts in Pulaski

Community Guidance Policy

Jointly cooperate as a community on compatible planning and infrastructure extensions

Utilize the comprehensive plan to express the community vision and desired growth and development patterns and locations and promote infill development

Utilize infrastructure extension to encourage/guide growth and development in desired locations and promote infill development

Develop and enforce supportive and coordinated zoning/land use/manufactured home/park/subdivision regulations and construction codes

Evolve the GICH Committee into a formal Housing Alliance to address housing related issues and concerns

Upgrade Appearance/Quality of Housing Developments Policy

See Strategies of “Improve Quality” of Improving Housing Stock Policy above

Adopt landscaping and other requirements in subdivision and other land use regulations as appropriate

See Strategies of Improve Appearance/Aesthetics Policy in Economic Development

Land Use

Plan/Manage Future Growth Policy

See Strategies of Rural Character Policy under Economic Development

Develop and enforce zoning and other supportive land use regulation countywide

See strategies of Downtown Metter Revitalization Policy under Economic Development

Rural Character Policy

See Strategies of Rural Character Policy under Economic Development

Continue to support and encourage local and state recreational facility and parks development, including possible development of a wildlife management area
Recreation Facilities Development/Enhancement Policy

Continue to support and encourage local and state recreational facilities, programs, and wildlife management area/parks development

Utilize/promote nature-based, agri-tourism, and heritage tourism

Pursue expansion of recreational facilities as needed to attract additional tournaments and other special events

Encourage and support the private sector development of additional recreational/leisure facilities

Downtown Metter Revitalization Policy

Reactivate and utilize the Metter Downtown Development Authority as a guiding/implementing vehicle

Utilize Better Hometown program to promote existing events and develop other special events/activities designed to attract visitors

Utilize codes enforcement by the City of Metter to legally enforce revitalization plans and encourage private rehabilitation

Continue pursuit of public streetscape improvements in Metter through Transportation Enhancement or other grant sources

Encourage and support hospitality businesses, such as restaurants, to locate in downtown area

Promote and encourage use of historic rehabilitation tax incentives for private rehabilitation of historic downtown structures in Metter

Maximize Infrastructure Investment Policy

Encourage new developments to first consider infill locations where community infrastructure and service areas already exist

See Strategies of Proactively Manage Growth Policy of Economic Development

See Strategies of Seek/Promote Compatible/Supportive Development Policy of Natural and Cultural Resources

See Strategies of Encourage Compatible Residential Location Policy under Land Use
Improve Appearance/Aesthetics of Gateways/Corridors/Streetscapes/New Developments Policy

Upgrade and improve landscaping/appearance/signage of entranceways into both Metter and Pulaski

Continue to upgrade appearance of the streetscapes in Metter and Pulaski

Maintain and provide additional sidewalks and bicycle paths in Metter, Pulaski, and Candler County

Maintain and improve the landscaping and beautification efforts in Metter

See the Upgrade Appearance/Quality of Housing Developments Policy under Housing

Promote Availability of Land Policy

See Enhanced Economic Development Marketing and New Resident and Retirees Attraction Policies under Economic Development

Utilize the Housing Alliance, Chamber, and Housing Authority in promotion and marketing

Protect Property Values/Existing Uses Policy

Promote utilization of existing state tax relief programs and use agreements for conservation/agricultural uses

Seek state level tax policies/programs which provide agricultural/forestry/open space property tax relief, and avoid assessments which discourage their continued viability

Utilize the local county wide zoning ordinance to protect agricultural/forestry uses and control unfettered subdivision development contrary to the Community Vision

Community Facilities and Services

Maintain/Upgrade/Expand Infrastructure Policy

Expand/upgrade water/sewer to areas of need in Metter

Promote availability of DSL/fiber optic/wireless connectivity access

Expand water/sewer south of I-16

Study the feasibility of providing sewerage service to the Town of Pulaski
Utilize Infrastructure to Guide Growth Policy

Expand/upgrade water/sewer to all areas of the City of Metter and particularly south of I-16

Continue to prioritize road paving to help in areas of development

Study the feasibility of providing sewerage service to the Town of Pulaski

See Strategies of Maximize Infrastructure Investment Policy under Land Use

Transportation Improvements Policy

Reduce mileage of dirt roads in the county and its cities by upgrading or paving

Pursue funding to pave new roads and resurface and improve drainage on existing roads

Seek appropriate development of I-16 interchanges

Promote the Woodpecker and Wiregrass trails as interstate alternatives

Pursue the feasibility of a perimeter road around Metter

Continue to improve/upgrade Metter/Candler County airport including the construction of additional hangars, terminal building renovations, new control tower, and other improvements as needed

Encourage and promote expansion of rail service to assist the development and attraction of new industry

Continue pursuit of downtown streetscape improvements in Metter and Pulaski

Seek funding for sidewalk improvements and development of new sidewalks or other pedestrian facilities

Develop local bike paths/routes connecting public facilities within Metter, Pulaski, and Candler County and to connect to regional and state bike routes and important recreational/natural resource facilities within the county, but also including George L. Smith State Park

Pursue public streetscape improvements through Transportation Enhancement or other grant sources

Upgrade Educational Facilities/Services Policy

Maintain/construct new school facilities as needed
Support and cooperate with Swainsboro Tech, Ogeechee Tech, East Georgia College, and Georgia Southern University to expand facilities and services

Strengthen and utilize educational systems (BOE, Swainsboro Tech, Ogeechee Tech, EGC, GSU) to further local programs

See Strategies of Local Graduate Retention and Reduction of Drop-Out Rate policies under Economic Development

Parks/Recreational Facilities Enhancement/Development Policy

See Recreation Facilities Enhancement/Development Policy under Land Use

Pursue funding as needed to expand recreation facilities/programs/services

Continue to support and encourage local and state recreational facility, wildlife management area, and parks development

Solid Waste/Recycling/ Appearance Improvement Policy

Continue development of recycling activities countywide as funding permits

Pursue downtown and general revitalization efforts in Metter and Pulaski

Utilize supportive land use regulation and cooperative code enforcement efforts countywide as appropriate

Hospital and Health Care System Policy

Continue to cooperatively maintain and upgrade Candler County Hospital and the Health Department as modern, viable facilities

Continue to actively recruit needed and appropriate health care professionals

Maintain and expand, when appropriate, local nursing home facilities

Support the development of public and private facilities and services devoted to senior citizens

Develop/Promote Cultural Facilities Policy

Maintain/expand library facilities/services as needed

Develop new cultural facilities as appropriate to encourage/promote additional venues/activities

Continue to rehabilitate old Metter High School for use as Historical Society local/regional history museum
Work to keep the Candler County Courthouse, Metter Depot, Wilcox Auditorium, Pulaski’s downtown commercial buildings, and other historic buildings as preserved, functioning landmarks

Pursue preservation of historic gyms in Metter and Pulaski

Public Safety Policy

Seek to cooperate/coordinate response efforts among all local government entities and with surrounding counties in times of disasters or other local emergencies

Seek the improvement of fire protection service county wide, including possible facilities additions in Pulaski and elsewhere

Continue to maintain/upgrade all local public safety facilities, services, and equipment as appropriate

Intergovernmental Coordination

Local/Regional/State Cooperation Policy

See Local/Regional/State Cooperation Policy under Economic Development

Pursue the development of compatible zoning and land use regulations and a possible joint codes enforcement program

Seek to cooperate/coordinate response efforts among all local government entities in times of disasters or other local emergencies, including upgrading/improving mutual-aid agreements, both in and out-of-the county

Coordinate and Share/Consolidate Services Policy

Seek the improvement of fire protection service county wide, including possible facilities additions in Pulaski and elsewhere

Seek to coordinate service delivery efforts among all local governments where appropriate

Pursue joint planning and coordinated or joint codes enforcement, housing inspections, and zoning/land use regulation

Investigate the feasibility of full consolidation of local governments countywide as appropriate

Coordinated Planning Policy

See Strategies of Proactively Manage Growth Policy under Economic Development

IP-22
See Strategies of Community Guidance Policy under Housing

Investigate establishing a joint planning commission or other body to coordinate countywide land use and other planning

Pursue joint planning and coordinated joint codes enforcement, housing inspections, and zoning/land use regulation

Evolve the GICH Committee into a formal Housing Alliance to address housing related is

Supplemental Plans

Candler County, the City of Metter and the Town of Pulaski have previously developed a joint solid waste management plan under the Georgia Solid Waste Management Act of 1990 and the accompanying minimum planning standards established by the Georgia Department of Community Affairs. Because of a shift in certification dates by the state, this plan was developed prior to the comprehensive planning process, and has been approved and adopted. This solid waste management plan details the community’s efforts concerning solid waste management in all its aspects. The resulting plan, the *Candler County Joint Solid Waste Management Plan 2016*, is hereby incorporated by reference as part of the comprehensive plan. It is included as Appendix B.

Candler County Service Delivery Strategy Certification and Service Delivery Strategy Revised Forms
Candler County Service Delivery Strategy Update Certification
SERVICE DELIVERY STRATEGY UPDATE
CERTIFICATIONS

Instructions:
This two page form must, at a minimum, be signed by an authorized representative of the following governments: 1) the county, 2) the city serving as the county seat, 3) all cities having a 2020 population of over 9,000 residing within the county, and 4) no less than 50% of all other cities with a 2020 population of between 300 and 9,000 residing within the county. Cities with a 2020 population below 300 and local authorities providing services under the strategy are not required to sign this form, but are encouraged to do so.

UPDATED SERVICE DELIVERY STRATEGY FOR Candler COUNTY

We, the undersigned authorized representatives of the jurisdictions listed below, certify that:

1. We have reviewed our existing Service Delivery Strategy and have determined that:
   (Check only one box for question #1)
   □ A. Our Strategy continues to accurately reflect our preferred arrangements for providing local services throughout our county and no changes in our Strategy are needed at this time; or
   □ B. Our Strategy has been revised to reflect our preferred arrangements for providing local services.

   If Option A is selected, only this form, signed by the appropriate local government representatives must be provided to DCA.

   If Option B is selected, this form, signed by the appropriate local government representatives, must be submitted to DCA along with:
   • an updated “Summary of Service Arrangements” form (page 2) for each local service that has been revised/updated;
   • any supporting local agreements pertaining to each of those services that has been revised/updated; and
   • an updated service area map depicting the agreed upon service area for each provider if there is more than one service provider for each service that has been revised/updated within the county, and if the agreed upon service areas do not coincide with local political boundaries.

2. Each of our governing bodies (County Commission and City Councils) that are a party to this strategy have adopted resolutions agreeing to the Service Delivery arrangements identified in our strategy and have executed agreements for implementation of our service delivery strategy (O.C.G.A. 36-70-21);

3. Our service delivery strategy continues to promote the delivery of local government services in the most efficient, effective, and responsive manner for all residents, individuals and property owners throughout the county (O.C.G.A. 36-70-24(1));

4. Our service delivery strategy continues to provide that water or sewer fees charged to customers located outside the geographic boundaries of a service provider are reasonable and are not arbitrarily higher than the fees charged to customers located within the geographic boundaries of the service provider (O.C.G.A. 36-70-24 (2));

5. Our service delivery strategy continues to ensure that the cost of any services the county government provides (including those jointly funded by the county and one or more municipalities) primarily for the benefit of the unincorporated area of the county are borne by the unincorporated area residents, individuals, and property owners who receive such service (O.C.G.A. 36-70-24 (3));
6. Our Service Delivery Strategy continues to ensure that the officially adopted County and City land use plans of all local governments located in the County are compatible and nonconflicting (O.C.G.A. 36-70-24 (1)(A));

7. Our Service Delivery Strategy continues to ensure that the provision of extraterritorial water and sewer services by any jurisdiction is consistent with all County and City land use plans and ordinances (O.C.G.A. 36-70-24 (4)(B)); and

8. Our Service Delivery Strategy continues to contain an agreed upon process between the county government and each city located in the county to resolve land use classification disputes when the county objects to the proposed land use of an area to be annexed into a city within the county (O.C.G.A. 36-70-24 (4)(C)); and

9. DCA has been provided a copy of this certification and copies of all forms, maps and supporting agreements needed to accurately depict our agreed upon strategy (O.C.G.A. 36-70-27).

If the County does not have an Annexation/Land Use dispute resolution process with each of its cities, list the cities where no agreed upon process exists:

Candler County Service Delivery Strategy Revised Forms
I. GENERAL INSTRUCTIONS:

1. Only one set of these forms should be submitted per county. The completed forms should clearly present the collective agreement reached by all cities and counties that were party to the service delivery strategy.

2. List each local government and/or authority that provides services included in the service delivery strategy in Section II below.

3. List all services provided or primarily funded by each general purpose local government and authority within the county in Section III below. It is acceptable to break a service into separate components if this will facilitate description of the service delivery strategy.

4. For each service or service component listed in Section III, complete a separate Summary of Service Delivery Arrangements form (page 2).

5. Complete one copy of the Summary of Land Use Agreements form (page 3).

6. Have the Certifications form (page 4) signed by the authorized representatives of participating local governments. Please note that DCA cannot validate the strategy unless it is signed by the local governments required by law (see Instructions, page 4).

7. Mail the completed forms along with any attachments to:

   Georgia Department of Community Affairs  
   Office of Coordinated Planning  
   60 Executive Park South, N.E.  
   Atlanta, Georgia 30329

For answers to most frequently asked questions on Georgia's Service Delivery Act, links and helpful publications, visit DCA's website at www.dca.serviceldelivery.org, or call the Office of Coordinated Planning at (404) 679-3114.

Note: Any future changes to the service delivery arrangements described on these forms will require an official update of the service delivery strategy and submittal of revised forms and attachments to the Georgia Department of Community Affairs.

II. LOCAL GOVERNMENTS INCLUDED IN THE SERVICE DELIVERY STRATEGY:

In this section, list all local governments (including cities located partially within the county) and authorities that provide services included in the service delivery strategy.

Candler County, Metter, Pulaski, Metter-Candler County Airport Authority, Downtown Development Authority of Metter, Housing Authority of the City of Metter, Candler County Industrial Authority, Metter-Candler County Hospital Authority, Candler County Historical Society, Candler County Library Board, Candler County Health Department, Metter-Candler County Recreation Commission

III. SERVICES INCLUDED IN THE SERVICE DELIVERY STRATEGY:

For each service listed here, a separate Summary of Service Delivery Arrangements form (page 2) must be completed.

SERVICE DELIVERY STRATEGY
SUMMARY OF SERVICE DELIVERY ARRANGEMENTS

Instructions:

Make copies of this form and complete one for each service listed on page 1, Section III. Use exactly the same service names listed on page 1. Answer each question below, attaching additional pages as necessary. If the contact person for this service (listed at the bottom of the page) changes, this should be reported to the Department of Community Affairs.

County: Candler  Service: Agricultural Services

1. Check the box that best describes the agreed upon delivery arrangement for this service:

☐ Service will be provided countywide (i.e., including all cities and unincorporated areas) by a single service provider. (If this box is checked, identify the government, authority or organization providing the service.): Candler County (Farm Services Administration, Natural Resource Conservation Service, Cooperative Extension)

☐ Service will be provided only in the unincorporated portion of the county by a single service provider. (If this box is checked, identify the government, authority or organization providing the service.):

☐ One or more cities will provide this service only within their incorporated boundaries, and the service will not be provided in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service):

☐ One or more cities will provide this service only within their incorporated boundaries, and the county will provide the service in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service):

☐ Other (If this box is checked, attach a legible map delineating the service area of each service provider, and identify the government, authority, or other organization that will provide service within each service area):

2. In developing the strategy, were overlapping service areas, unnecessary competition and/or duplication of this service identified?

☐ Yes ☐ No

If these conditions will continue under the strategy, attach an explanation for continuing the arrangement (i.e., overlapping but higher levels of service (See O.C.G.A. 36-70-24(1)), overriding benefits of the duplication, or reasons that overlapping service areas or competition cannot be eliminated).

If these conditions will be eliminated under the strategy, attach an implementation schedule listing each step or action that will be taken to eliminate them, the responsible party and the agreed upon deadline for completing it.
3. List each government or authority that will help to pay for this service and indicate how the service will be funded (e.g., enterprise funds, user fees, general funds, special service district revenues, hotel/motel taxes, franchise taxes, impact fees, bonded indebtedness, etc.).

6. What other mechanisms (if any) will be used to implement the strategy for this service (e.g., ordinances, resolutions, local acts of the General Assembly, rate or fee changes, etc.), and when will they take effect?

None

7. Person completing form: Milton Futch, County Administrator
   Phone number: 912-685-2835
   Date completed: 4/7/08

8. Is this the person who should be contacted by state agencies when evaluating whether proposed local government projects are consistent with the service delivery strategy? ☑ Yes ☐ No

If not, provide designated contact person(s) and phone number(s) below:
Also, Joseph Mosley, Metter City Manager, 912-685-2627
Instructions:

Make copies of this form and complete one for each service listed on page 1, Section III. Use exactly the same service names listed on page 1. Answer each question below, attaching additional pages as necessary. If the contact person for this service (listed at the bottom of the page) changes, this should be reported to the Department of Community Affairs.

County: Candler
Service: Airport

1. Check the box that best describes the agreed upon delivery arrangement for this service:

☐ Service will be provided countywide (i.e., including all cities and unincorporated areas) by a single service provider. (If this box is checked, identify the government, authority or organization providing the service.): [Minter-Candler County Airport Authority]

☐ Service will be provided only in the unincorporated portion of the county by a single service provider. (If this box is checked, identify the government, authority or organization providing the service.):

☐ One or more cities will provide this service only within their incorporated boundaries, and the service will not be provided in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service):

☐ One or more cities will provide this service only within their incorporated boundaries, and the county will provide the service in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service):

☐ Other (If this box is checked, attach a legible map delineating the service area of each service provider, and identify the government, authority, or other organization that will provide service within each service area):

2. In developing the strategy, were overlapping service areas, unnecessary competition and/or duplication of this service identified?

☐ Yes ☑ No

If these conditions will continue under the strategy, attach an explanation for continuing the arrangement (i.e., overlapping but higher levels of service (See O.C.G.A. 36-70-24(1)), overriding benefits of the duplication, or reasons that overlapping service areas or competition cannot be eliminated).

If these conditions will be eliminated under the strategy, attach an implementation schedule listing each step or action that will be taken to eliminate them, the responsible party and the agreed upon deadline for completing it.
3. List each government or authority that will help to pay for this service and indicate how the service will be funded (e.g., enterprise funds, user fees, general funds, special service district revenues, hotel/motel taxes, franchise taxes, impact fees, bonded indebtedness, etc.).

1. Check the box that best describes the agreed upon delivery arrangement for this service:

- [ ] Service will be provided countywide (i.e., including all cities and unincorporated areas) by a single service provider. (If this box is checked, identify the government, authority or organization providing the service: ________________________).

- [ ] Service will be provided only in the unincorporated portion of the county by a single service provider. (If this box is checked, identify the government, authority or organization providing the service: ________________________).

- [ ] One or more cities will provide this service only within their incorporated boundaries, and the service will not be provided in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service: ________________________).

- [x] One or more cities will provide this service only within their incorporated boundaries, and the county will provide the service in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service: ________________________).

- [ ] Other (If this box is checked, attach a legible map delineating the service area of each service provider, and identify the government, authority, or other organization that will provide service within each service area: ________________________).

2. In developing the strategy, were overlapping service areas, unnecessary competition and/or duplication of this service identified?

- [ ] Yes  [x] No  The City of Metter is considered a higher level of service.

If these conditions will continue under the strategy, attach an explanation for continuing the arrangement (i.e., overlapping but higher levels of service (See O.C.G.A. 36-70-24(1)), overriding benefits of the duplication, or reasons that overlapping service areas or competition cannot be eliminated).

If these conditions will be eliminated under the strategy, attach an implementation schedule listing each step or action that will be taken to eliminate them, the responsible party and the agreed upon deadline for completing it.
3. List each government or authority that will help to pay for this service and indicate how the service will be funded (e.g., enterprise funds, user fees, general funds, special service district revenues, hotel/motel taxes, franchise taxes, impact fees, bonded indebtedness, etc.).

</tr>
</tbody>
</table>

4. How will the strategy change the previous arrangements for providing and/or funding this service within the county?

Fire protection service is currently provided county-wide by the City of Metter. The County contracts with Metter to provide the service to the unincorporated area, while Pulaski contracts with the County to have Metter provide the service in that jurisdiction. Funding from the County is derived exclusively from the unincorporated area. However, the County is currently considering the establishment of its own separate volunteer fire department that would cover the unincorporated area as well as Pulaski.

5. List any formal service delivery agreements or intergovernmental contracts that will be used to implement the strategy for this service:

If the contact person for this service (listed at the bottom of the page) changes, this should be reported to the Department of Community Affairs.

County: Candler  Service: Parking

1. Check the box that best describes the agreed upon delivery arrangement for this service:

☐ Service will be provided countywide (i.e., including all cities and unincorporated areas) by a single service provider. (If this box is checked, identify the government, authority or organization providing the service):

☐ Service will be provided only in the unincorporated portion of the county by a single service provider. (If this box is checked, identify the government, authority or organization providing the service):

☐ One or more cities will provide this service only within their incorporated boundaries, and the service will not be provided in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service): City of Matter

☐ One or more cities will provide this service only within their incorporated boundaries, and the county will provide the service in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service):

☐ Other (If this box is checked, attach a legible map delineating the service area of each service provider, and identify the government, authority, or other organization that will provide service within each service area):

2. In developing the strategy, were overlapping service areas, unnecessary competition and/or duplication of this service identified?
☐ Yes  ☑ No

If these conditions will continue under the strategy, attach an explanation for continuing the arrangement (i.e., overlapping but higher levels of service (See O.C.G.A. 36-70-24(1)), overriding benefits of the duplication, or reasons that overlapping service areas or competition cannot be eliminated).

If these conditions will be eliminated under the strategy, attach an implementation schedule listing each step or action that will be taken to eliminate them, the responsible party and the agreed upon deadline for completing it.
3. List each government or authority that will help to pay for this service and indicate how the service will be funded (e.g., enterprise funds, user fees, general funds, special service district revenues, hotel/motel taxes, franchise taxes, impact fees, bonded indebtedness, etc.).

- [x] One or more cities will provide this service only within their incorporated boundaries, and the county will provide the service in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service.):

  Candler County, City of Milledgeville, Town of Putnam, and incorporated as defined in item 4 below.

- [ ] Other (If this box is checked, attach a legible map delineating the service area of each service provider, and identify the government, authority, or other organization that will provide service within each service area.):

2. In developing the strategy, were overlapping service areas, unnecessary competition and/or duplication of this service identified?

- [x] Yes  [ ] No  The municipalities provide a higher level of service.

If these conditions will continue under the strategy, **attach an explanation for continuing the arrangement** (i.e., overlapping but higher levels of service (See O.C.G.A. 36-70-24(1)), overriding benefits of the duplication, or reasons that overlapping service areas or competition cannot be eliminated).

If these conditions will be eliminated under the strategy, **attach an implementation schedule** listing each step or action that will be taken to eliminate them, the responsible party and the agreed upon deadline for completing it.
3. List each government or authority that will help to pay for this service and indicate how the service will be funded (e.g., enterprise funds, user fees, general funds, special service district revenues, hotel/motel taxes, franchise taxes, impact fees, bonded indebtedness, etc.).

</tr>
<tr>
<td>Town of Pulaski</td>
<td>SPLOST/LOST Contract with County</td>
</tr>
</tbody>
</table>

4. How will the strategy change the previous arrangements for providing and/or funding this service within the county?

Candler County and the City of Metter will fund and provide for this service within their own jurisdiction. However, the cost of maintaining county roads will be borne by all citizens of the county just not the unincorporated areas. Furthermore, the county will scrape all the City of Metter’s dirt roads, maintain (clip) the road shoulders as needed of all City of Metter streets, and assist the City of Metter with pothole and other street maintenance as agreed upon from time to time. This agreement is entered to settle the Lost Negotiations as per the Lost Certificate. The Town of Pulaski has an agreement with the county in which the county will provide this service in lieu of the Town receiving SPLOST/LOST funds.

5. List any formal service delivery agreements or intergovernmental contracts that will be used to implement the strategy for this service:

Instructions:

Make copies of this form and complete one for each service listed on page 1, Section III. Use exactly the same service names listed on page 1. Answer each question below, attaching additional pages as necessary. If the contact person for this service (listed at the bottom of the page) changes, this should be reported to the Department of Community Affairs.

**County:** Candler  **Service:** Solid Waste Collection

1. Check the box that best describes the agreed upon delivery arrangement for this service:

☐ Service will be provided countywide (i.e., including all cities and unincorporated areas) by a single service provider. (If this box is checked, identify the government, authority or organization providing the service.)

☐ Service will be provided only in the unincorporated portion of the county by a single service provider. (If this box is checked, identify the government, authority or organization providing the service.)

☐ One or more cities will provide this service only within their incorporated boundaries, and the service will not be provided in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service.)

☐ One or more cities will provide this service only within their incorporated boundaries, and the county will provide the service in unincorporated areas. (If this box is checked, identify the government(s), authority or organization providing the service.)

☐ Other (If this box is checked, attach a legible map delineating the service area of each service provider, and identify the government, authority, or other organization that will provide service within each service area.):

Candler County, City of Metter, Town of Pulaski

2. In developing the strategy, were overlapping service areas, unnecessary competition and/or duplication of this service identified?

☐ Yes ☐ No Metter provides curbside pick-up (higher level of service).

If these conditions will continue under the strategy, attach an explanation for continuing the arrangement (i.e., overlapping but higher levels of service (See O.C.G.A. 36-70-24(1)), overriding benefits of the duplication, or reasons that overlapping service areas or competition cannot be eliminated).

If these conditions will be eliminated under the strategy, attach an implementation schedule listing each step or action that will be taken to eliminate them, the responsible party and the agreed upon deadline for completing it.
3. List each government or authority that will help to pay for this service and indicate how the service will be funded (e.g., enterprise funds, user fees, general funds, special service district revenues, hotel/motel taxes, franchise taxes, impact fees, bonded indebtedness, etc.).

APPENDIX D

Local Government Transmittal Resolutions

Candler County Comprehensive Plan
City of Metter Comprehensive Plan
Town of Pulaski Comprehensive Plan
RESOLUTION

WHEREAS, the Georgia Planning Act of 1989 requires all local governments in Georgia to prepare a comprehensive plan; and

WHEREAS, the Georgia Department of Community Affairs has established new “Local Planning Requirements” under the Georgia Planning Act of 1989 for coordinated and comprehensive planning, including standards and procedures for the preparation of local comprehensive plans and implementation thereof, public participation, and coordinated review; and

WHEREAS, Candler County, Georgia has participated with the municipalities of Metter and Pulaski in a coordinated and comprehensive planning process under the Georgia Planning Act of 1989, and the Standards and Procedures for Local Comprehensive planning through the Candler County Comprehensive Plan Executive and Local Plan Coordination committees, and with the assistance of the Heart of Georgia Altamaha Regional Development Center to update its existing adopted comprehensive plan with a new full plan update; and

WHEREAS, this coordinated and comprehensive planning process thus far has resulted in the development of a new draft comprehensive plan, including an approved Community Assessment and an approved Community Participation Program, and now a draft Community Agenda for Candler County; and

WHEREAS, requirements for public participation in the development of this comprehensive plan component as mandated by the “Local Planning Requirements” have been met, including a joint public hearing held on April 1, 2008 in part to brief the public on the draft Community Agenda, and to receive further input prior to submission of the draft plan for review and comment; and
WHEREAS, Candler County has participated in the development, reviewed, and approved the Community Agenda, including a new, separate five-year short-term work program for Candler County, as part of its local comprehensive plan update under the Georgia Planning Act of 1989.

NOW, THEREFORE BE IT RESOLVED that the Candler County Board of Commissioners certifies that public participation and other requirements of the Standards and Procedures for Local Comprehensive Planning have been met, and that the Community Agenda of The Candler County Joint Comprehensive Plan is hereby authorized to be submitted to the Heart of Georgia Altamaha Regional Development Center and the Georgia Department of Community Affairs for formal review, comment, and recommendation before finalization and adoption of its local comprehensive plan update as mandated by Georgia law and the Georgia Department of Community Affairs.

SO RESOLVED, this 7th day of April, 2008.

CANDLER COUNTY BOARD OF COMMISSIONERS

RESOLUTION

WHEREAS, the Georgia Planning Act of 1989 requires all local governments in Georgia to prepare a comprehensive plan; and

WHEREAS, the Georgia Department of Community Affairs has established new "Local Planning Requirements" under the Georgia Planning Act of 1989 for coordinated and comprehensive planning, including standards and procedures for the preparation of local comprehensive plans and implementation thereof, public participation, and coordinated review; and

WHEREAS, the City of Metter, Georgia has participated with Candler County and the Town of Pulaski in a coordinated and comprehensive planning process under the Georgia Planning Act of 1989, and the Standards and Procedures for Local Comprehensive Planning through the Candler County Comprehensive Plan Executive and Local Plan Coordination committees, and with the assistance of the Heart of Georgia Altamaha Regional Development Center to update its existing adopted comprehensive plan with a new full plan update; and

WHEREAS, this coordinated and comprehensive planning process thus far has resulted in the development of a new draft comprehensive plan, including an approved Community Assessment and an approved Community Participation Program, and now a draft Community Agenda for the City of Metter; and

WHEREAS, requirements for public participation in the development of this comprehensive plan component as mandated by the "Local Planning Requirements" have been met, including a joint public hearing held on April 1, 2008 in part to brief the public on the draft Community Agenda, and to receive further input prior to submission of the draft plan for review and comment; and

WHEREAS, the City of Metter has participated in the development, reviewed, and approved the Community Agenda, including a new, separate five-year short-term work program for the City of Metter, as part of its local comprehensive plan update under the Georgia Planning Act of 1989.

NOW, THEREFORE BE IT RESOLVED that the Mayor and City Council of the City of Metter certify that public participation and other requirements of the Standards and Procedures for Local Comprehensive Planning have been met, and that the Community Agenda of The Candler County Joint Comprehensive Plan is hereby authorized to be submitted to the Heart of Georgia Altamaha Regional Development Center and the Georgia Department of Community Affairs for formal review, comment, and recommendation before finalization and adoption of its local comprehensive plan update as mandated by Georgia law and the Georgia Department of Community Affairs.

SO RESOLVED, this 14th day of April, 2008.

BY: [Signature] ATTEST: [Signature]
WHEREAS, the Georgia Planning Act of 1989 requires all local governments in Georgia to prepare a comprehensive plan; and

WHEREAS, the Georgia Department of Community Affairs has established new "Local Planning Requirements" under the Georgia Planning Act of 1989 for coordinated and comprehensive planning, including standards and procedures for the preparation of local comprehensive plans and implementation thereof, public participation, and coordinated review; and

WHEREAS, the Town of Pulaski, Georgia has participated with Candler County and the City of Metter in a coordinated and comprehensive planning process under the Georgia Planning Act of 1989, and the Standards and Procedures for Local Comprehensive Planning through the Candler County Comprehensive Plan Executive and Local Plan Coordination committees, and with the assistance of the Heart of Georgia Altamaha Regional Development Center to update its existing adopted comprehensive plan with a new full plan update; and

WHEREAS, this coordinated and comprehensive planning process thus far has resulted in the development of a new draft comprehensive plan, including an approved Community Assessment and an approved Community Participation Program, and now a draft Community Agenda for the Town of Pulaski; and

WHEREAS, requirements for public participation in the development of this comprehensive plan component as mandated by the "Local Planning Requirements" have been met, including a joint public hearing held on April 1, 2008 in part to brief the public on the draft Community Agenda, and to receive further input prior to submission of the draft plan for review and comment; and

WHEREAS, the Town of Pulaski has participated in the development, reviewed, and approved the Community Agenda, including a new, separate five-year short-term work program for the Town of Pulaski, as part of its local comprehensive plan update under the Georgia Planning Act of 1989.

NOW, THEREFORE BE IT RESOLVED that the Mayor and Town Council of the Town of Pulaski certify that public participation and other requirements of the Standards and Procedures for Local Comprehensive Planning have been met, and that the Community Agenda of The Candler County Joint Comprehensive Plan is hereby authorized to be submitted to the Heart of Georgia Altamaha Regional Development Center and the Georgia Department of Community Affairs for formal review, comment, and recommendation before finalization and adoption of its local comprehensive plan update as mandated by Georgia law and the Georgia Department of Community Affairs.

SO RESOLVED, this 14th day of April, 2008.
