Section VI Implementation Policies 71
Introduction

Organization of the Comprehensive Plan

The Clay County Joint Comprehensive Plan consists of three documents. The first document is the Community Assessment which provides a detailed analysis of Clay County and the Cities of Bluffton and Fort Gaines. It includes the following:

- a list of potential issues and opportunities;
- analysis of existing development patterns;
- a character area map;
- evaluation of current community policies, activities, and development patterns for consistency with the Quality Community Objectives;
- analysis of data and information to check the validity of the above evaluations and the potential issues and opportunities.

The second document is the Community Participation program that describes Clay County’s plan for ensuring adequate public and stakeholder involvement in the preparation of the Community Agenda portion of the plan.

Both of these documents were reviewed by the Lower Chattahoochee Regional Development Center and the Georgia Department of Community Affairs. This document, the third of three, is the Community Agenda and contains the “plan” portion of the Comprehensive Plan.

Community Vision

Clay County Vision Statement

We aspire to become a place of unity and total citizen involvement. We want a safe, healthy, drug-free community to achieve academic success. We desire to maintain a community with rural character and a clean, healthy living environment through quality growth planning principals. We look for better communication within the community through a local media outlet. We want adequate housing, job opportunities, recreational facilities, and cultural events for all residents. We want local healthcare facilities treating citizen’s medical needs. We want environmentally friendly businesses that support the population and facilities, events, and activities that take advantage of the natural and historic resources to boost tourism.

Bluffton Vision Statement

The City of Bluffton is dedicated to increasing the quality of life for all citizens while maintaining our friendly, small town, rural lifestyle. Protect the agricultural community. Encourage the construction of warehouses to take advantage of trucking on U.S. 27 as well as other general, commercial and business activities. Protect the Bluff and develop a walking trail and picnic area at that location. Utilize the existing horse arena more with the development of a rodeo. Maintain existing single-family housing and encourage new single-family development. Construct sidewalks and install decorative...
street lights. Clean up abandoned lots and junk cars. Encourage small businesses such as antique shops and convenience stores. Encourage tourism in the county taking advantage of the lake and other natural resources. Install markers for historic buildings such as the Clubhouse, Courthouse, Old Jail, Bluff, and historic houses and churches.

**Fort Gaines Vision Statement**

The City of Fort Gaines is dedicated to increasing the quality of life for all citizens while maintaining our friendly, small-town, rural lifestyle. Downtown Fort Gaines will evolve into a vital pedestrian, bicycle, and golf cart friendly community with a healthy mix of retail, services, restaurants, and residences. We are committed to fostering a spirit of communication and cooperation between the governing bodies to achieve our goals: broadening the tax base with environmentally friendly business and industry; providing more employment options to allow citizens to both live and work within the community; and increase the educated workforce. We aspire to become a place of unity and total community involvement where all citizens are actively engaged in shaping the community’s future.
Defining Narrative
Quality Community Objectives

Clay County and the Cities of Bluffton and Fort Gaines have reviewed the Georgia Department of Community Affairs' established Statewide Goals and Quality Community Objectives. These objectives were adopted to guide this Joint Comprehensive Plan and the future growth, development and redevelopment of Clay County and its municipalities. Clay County and the Cities of Bluffton and Fort Gaines will use these as they evaluate land use decisions. These objectives will assist community leaders in making local government decisions that affect the counties and cities' future land use patterns, environmental and historical resources, and economic development. The objectives will provide the framework needed in order to make well-informed decisions.

Traditional Neighborhoods:
Traditional neighborhood development patterns should be encouraged, including use of more human scale development, compact development, mixing of uses within easy walking distance of one another, and facilitating pedestrian activity.

Infill Development:
Communities should maximize the use of existing infrastructure and minimize the conversion of undeveloped land at the urban periphery by encouraging development or redevelopment of sites closer to the downtown or traditional urban core of the community.

Sense of Place:
Traditional downtown areas should be maintained as the focal point of the community or, for newer areas where this is not possible, the development of activity centers that serve as community focal points should be encouraged. These community focal points should be attractive, mixed-use, pedestrian-friendly places where people choose to gather for shopping, dining, socializing, and entertainment.

Transportation Alternatives:
Alternatives to transportation by automobile, including mass transit, bicycle routes, and pedestrian facilities, should be made available in each community. Greater use of alternate transportation should be encouraged.

Regional Identity:
Each region should promote and preserve a regional "identity," or regional sense of place, defined in terms of traditional architecture, common economic linkages that bind the region together, or other shared characteristics.

Heritage Preservation:
The traditional character of the community should be maintained through preserving and revitalizing historic areas of the community, encouraging new development that is...
compatible with the traditional features of the community, and protecting other scenic or natural features that are important to defining the community's character.

**Open Space Preservation:**
New development should be designed to minimize the amount of land consumed, and open space should be set aside from development for use as public parks or as greenbelts/wildlife corridors. Compact development ordinances are one way of encouraging this type of open space preservation.

**Environmental Protection:**
Environmentally sensitive areas should be protected from negative impacts of development, particularly when they are important for maintaining traditional character or quality of life of the community or region. Whenever possible, the natural terrain, drainage, and vegetation of an area should be preserved.

**Growth Preparedness:**
Each community should identify and put in place the pre-requisites for the type of growth it seeks to achieve. These might include infrastructure (roads, water, sewer) to support new growth, appropriate training of the workforce, ordinances and regulations to manage growth as desired, or leadership capable of responding to growth opportunities and managing new growth when it occurs.

**Appropriate Businesses:**
The businesses and industries encouraged to develop or expand in a community should be suitable for the community in terms of job skills required, long-term sustainability, linkages to other economic activities in the region, impact on the resources of the area, and future prospects for expansion and creation of higher-skill job opportunities.

**Employment Options:**
A range of job types should be provided in each community to meet the diverse needs of the local workforce.

**Housing Choices:**
A range of housing size, cost, and density should be provided in each community to make it possible for all who work in the community to also live in the community (thereby reducing commuting distances), to promote a mixture of income and age groups in each community, and to provide a range of housing choice to meet market needs.

**Educational Opportunities:**
Educational and training opportunities should be readily available in each community – to permit community residents to improve their job skills, adapt to technological advances, or to pursue entrepreneurial ambitions.
Local Self-determination:
Communities should be allowed to develop and work toward achieving their own vision for the future. Where the state seeks to achieve particular objectives, state financial and technical assistance should be used as the incentive to encourage local government conformance to those objectives.

Regional Cooperation:
Regional cooperation should be encouraged in setting priorities, identifying shared needs, and finding collaborative solutions, particularly where it is critical to success of a venture, such as protection of shared natural resources or development of a transportation network.

Character Areas
For the purposes of this document Character Areas are a specific geographic area within the community that has unique or special characteristics to be preserved or enhanced; has the potential to evolve into a unique area with more intentional guidance; or requires special attention due to unique development issues. The Character Area Vision Statement, is not meant to conflict with the Community-Wide Vision Statements given previously but are meant to give additional guidance to planning commissioners and elected officials in updating and reviewing land use regulations and in reviewing and approving new developments. Each character area is a planning sub-area within the county and/or its cities where more detailed, small area planning and implementation of certain policies, investments, incentives and/or regulations may be applied in order to preserve, improve or otherwise influence its future development patterns in a manner consistent with the community vision.

For all character areas there are several overarching policies which should be followed.

- Encourage and support the review of all development ordinances such as zoning, subdivision regulations, historic preservation ordinances, building codes, etc. to ensure that there is no conflict in any of the ordinances.
- Protect residential areas and their residents from incompatible land uses and their activities.
  - Discourage incompatible land uses, adjacent or within residential areas.
  - Encourage safe, effective and aesthetically pleasing residential developments.
  - Prohibit the disposal of hazardous waste within Clay County and the Cities of Bluffton and Fort Gaines.
- Protect residents from significant hazards to life, health and property.
  - Prohibit structural uses in areas where significant hazards to health, safety, life and property exist.
  - Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.
Operate and maintain a sound and efficient planning system which guides and assists in continued development.

- Pursue, promote and encourage a close relationship between Clay County, the Cities of Bluffton and Fort Gaines and other agencies and authorities regarding mutual growth and development concerns including, but not limited to: comprehensive planning, zoning, subdivision regulations, extension of public water and sanitary sewer services, storm drainage, annexation, and other related matters,
- Pursue, promote and encourage coordination of the plans of several public boards, agencies, commissions, and other authorities in accordance with the policies and programs of Clay County and its municipalities, to enhance mutual understanding and improve decision-making.

Improve and extend the street and highway system to promote safe, efficient and well-maintained access to property in Clay County, Bluffton and Fort Gaines and on through routes for local and regional travelers.

- Minimize conflicts between local and through traffic using every available means.
- Provide for timely maintenance and improvement of streets

Vision:
Clay County will ensure proper management of developed and undeveloped land on both sides of U.S. Hwy 27 by controlling land uses, points of ingress and egress, encouraging landscaping, minimizing impervious surfaces, encouraging frontage roads/ access roads, and land use connectivity.

Description:
- Buildings will be architecturally integrated with the site and one another.
- New parking areas will be landscaped to minimize visual impact on adjacent roads and uses.
- The majority of new parking will be located at the rear or side of buildings to minimize visibility from the highway.
- New parking lots will incorporate on-site stormwater mitigation or retention features, such as pervious pavements.
- Landscaped tree islands and medians will be used to break up large expanses of paved parking.
- Site plans, building design and landscaping will be sensitive to the natural features of the site, including topography and views.
- Infrastructure availability will be limited in order to steer development away from areas of natural, cultural, and environmentally sensitive areas.

Land Uses or Zoning Categories to be allowed:
Agricultural, residential (including low-density single-family and a mix of high-density residential including single-family and multi-family residential), commercial, industrial and limited public/institutional. Public water and sewer or private package treatment systems are required for high density development in this area. Preferred land use categories include: A-1, R-R, R-1, C-1, I-1.

Quality Community Objectives addressed:
Growth Preparedness, Appropriate Business, Employment Opportunities, Housing Choices, Regional Identity, Cooperation, and Solutions

Implementation Measures and Strategies:
- Promote and enhance U.S. Highway 27 in Clay County.
  - Encourage the implementation of a Gateways Program in Clay County.
  - Encourage landscaping of parking areas and incorporation of on-site stormwater mitigation or retention features, such as pervious pavements.
  - Encourage and support the adoption or review of all development ordinances such as zoning, subdivision regulations, historic preservation ordinances, etc. to ensure that there is no conflict in any of the ordinances.
  - Encourage and support the development of a Joint Code Enforcement Program between Clay County and Bluffton which will provide for a Building Inspector/ Code Enforcement official.
  - Encourage and support the development of a uniform building permit process including application forms and review criteria.
- Support economic development that is compatible with the highway service industry.
  - Promote an adequate, efficient and appropriate mix of goods at the main intersections along US Hwy 27.
  - Encourage development on sites that are already served by water and sewer.
• Support regional/state tourism alliances to promote existing and future natural, historic, and cultural resources to increase the number of visitors.

■ Maintain a natural vegetation buffer along corridors at least 50 feet in width along the corridor.
  • Ensure all new developments are set back behind the buffer with access roads, shared driveways or inter-parcel road connections providing alternate access to these developments and reducing curb cuts and traffic on the main highways.
  • Encourage and support the development of a Sign Ordinance for Clay County.
  • Adopt highway corridor/overlay district to regulate parking, signage, landscaping and points of ingress and egress.
Clay County Chattahoochee River Corridor

Vision:
Clay County will protect the Chattahoochee River through sound and wise planning and the use of best management practices. Clay County will encourage economic development in the area, including limited industrial growth, by promoting a variety of recreational uses within the River Corridor and encouraging the development of businesses to serve the people utilizing the Chattahoochee.

Description:
- Limited development in this area in order to maintain its existing natural state.
- Conservation easements will be encouraged.
- Environmentally sensitive areas will be preserved by setting them aside as public parks, trails, or greenbelts.
- Subdivision designs will incorporate a significant amount of open space.
- Wherever possible, developments will connect to greenspace and trails, available to pedestrians and bicyclists for both tourism and recreational purposes.
- Site plans, building design and landscaping that are sensitive to the natural features of the site, including topography and views, will be encouraged.

Land Uses or Zoning Categories to be allowed:
Agriculture/forestry, parks/recreation/conervation, low density residential, limited industrial and public/institutional in a very limited manner. Preferred land use categories include: A-1, R-R, R-1, and PUD.

Quality Community Objectives addressed:
Open Space Preservation, Environmental Protection, Regional Cooperation, Transportation Alternatives, Regional Identity, Traditional Character

Implementation Measures and Strategies:
- Conserve, maintain and promote the natural, historic and cultural resources of Clay County.
  - Encourage maximum use of the county’s natural resources while maintaining sound environmental protection practices.
  - Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
- Conserve, maintain and promote the cultural, historic and natural resources to provide a variety of educational and recreational experiences.
  - Encourage local schools to use these facilities as outdoor classrooms.
  - Support the development of additional cultural resources that will aid in the understanding of local heritage.
  - Encourage the further development of eco-tourism initiatives.
  - Support regional tourism alliances with other counties and other facilities to promote existing and future natural, historic and cultural resources to increase the number of visitors.
  - Encourage the development of the Clay/Quitman/Stewart/Calhoun County’s GA Hwy 39 Scenic Byways Designation.
Conserve, maintain and promote the natural, historic, and cultural resources in order to make Clay County an attractive place in which to live, work and enjoy.

- Prohibit the systematic neglect of structures that lead to the blight and decay of the countryside.
- Discourage the obstruction of scenic views and sites in the county.

Promote and Enhance the Outdoor Recreation Industry.

- Encourage the development of additional campsites.
- Encourage additional boat ramps along the Chattahoochee River.
- Encourage the development of Private Hunting Lodges.
- Encourage large property owners to lease their land to hunters.
- Encourage the development of service facilities to meet the needs of this sector of the economy.
- Establish natural habitats for a variety of wildlife.
- Encourage the safe, wise and legal use of firearms and other hunting techniques.
- Develop and promote additional competitions and festivals targeted to this market.

Conserve and maintain shared green spaces for recreation and natural resources preservation.

- Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.

Protect residential areas and their residents from incompatible land uses and their activities.

- Discourage incompatible land uses, adjacent or within residential areas.
- Encourage safe, effective, and aesthetically pleasing residential developments.
- Prohibit the disposal of hazardous waste within Clay County.

Improve and expand the existing housing stock for all income levels.

- Support continued improvement of existing housing conditions through all available public and private means.
- Strive to improve the quality of development along the Chattahoochee River as recreational second homes.
- Strive for the elimination of housing discrimination and promote fair housing practices.
- Discourage residential development in areas designated as having critical environmental hazards such as floodplain and severe slopes.
- Promote and encourage more affordable housing opportunities.
- Encourage owners of substandard units to improve their properties through the use of every available means.
Vision:
Clay County will ensure that all undeveloped land along the route of GA Highway 39 having significant natural, historic, and/or cultural features and scenic or pastoral views are protected.

Description:
- Limited development in this area in order to maintain its existing natural state.
- Conservation easements will be encouraged.
- Environmentally sensitive areas will be preserved by setting them aside as public parks, trails, or greenbelts.
- Subdivision designs will incorporate a significant amount of open space.
- Wherever possible, developments will connect to greenspace and trails, available to pedestrians and bicyclists for both tourism and recreational purposes.
- Site plans, building design and landscaping that are sensitive to the natural features of the site, including topography and views, will be encouraged to protect viewsheds as identified on a case by case basis.

Land Uses or Zoning Categories to be allowed:
Agriculture/forestry, low-density single-family residential, commercial development including but not limited to, transportation, related retail establishments, office buildings and other service related uses. Commercial development will be encouraged at highway intersections. Zoning categories preferred include: A-1, R-1, RR, and C-1.

Quality Community Objectives addressed:
Transportation Alternatives, Regional Identity, Resource Conservation, Open Space Preservation, Environmental Protection, Appropriate Businesses, Housing Choices and Regional Cooperation

Implementation Measures and Strategies:
- Establish and enforce guidelines to protect characteristics deemed to have scenic value.
  - Require compatible landscaping and architectural designs that enhances the scenic value of the corridor.
  - Encourage and support the development of a Sign Ordinance for Clay County.
- Manage flow of traffic; using directory signage to clustered developments.
  - Provide pedestrian linkages to adjacent and nearby residential or commercial districts.
  - Encourage the implementation of a Gateways Program in Clay County.
  - Maintain a natural vegetation buffer along corridors at least 50 feet in width along the corridor.
  - Ensure all new developments are set back behind the buffer with access roads, shared driveways or inter-parcel road connections providing alternate access to these developments and reducing curb cuts and traffic on the main highways.
  - Adopt highway corridor/overlay district to regulate parking, signage, landscaping and points of ingress and egress.
Vision:
Clay County will protect its natural and cultural resources, local and state parks, conservation areas, and other significant preserves. Clay County's natural resources should be conserved and maintained and their sound and wise use promoted in support of the local economy and the health and welfare of local residents.

Description:
- Limit development in this area (only including agricultural use, bike/pedestrian paths or other low-impact recreation facilities such as baseball or softball fields, and low-density residential) in order to maintain its existing rural nature.
- Conservation easements will be encouraged.
- Roadways will be widened only when absolutely necessary with careful designs.
- Environmentally sensitive areas will be preserved by setting them aside as public parks, trails, or greenbelts.
- Infrastructure availability will be limited in order to steer development away from areas of natural, cultural, and environmentally sensitive areas.
- Promote areas as passive use tourism and recreational destinations.

Land Uses or Zoning Categories to be allowed:
Agriculture/forestry, parks/recreation/conservation, low-density residential, and public/institutional in a very limited manner. Preferred land use categories include: A-1 and R-R.

Quality Community Objectives addressed:
Traditional Neighborhood, Open Space Preservation, Environmental Protection, Regional Cooperation

Implementation Measures and Strategies:
- Conserve, maintain and promote the natural, historic and cultural resources of Clay County.
  - Encourage maximum use of the county's natural resources while maintaining sound environmental protection practices.
  - Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
- Conserve, maintain and promote the cultural, historic and natural resources to provide a variety of educational experiences.
  - Encourage local schools to use these facilities as outdoor classrooms.
  - Support the development of additional cultural resources that will aid in the understanding of local heritage.
  - Encourage the further development of Bagby State Park, Lake Walter F. George, the Meadowlinks, Sutton's Corner Museum, the Clay County Archives, the Phenomenon Trail.
  - Support regional tourism alliances with other counties and other facilities (such as Florence Marina State Park or Providence Canyon) to promote existing and future natural, historic and cultural resources to increase the number of visitors.
  - Encourage the development of the Clay/Quitman/Stewart/Calhoun County’s Scenic Byways Designation.
Conserve, maintain and promote the natural, historic, and cultural resources in order to make Clay County an attractive place in which to live, work and enjoy.
- Prohibit the systematic neglect of structures that lead to the blight and decay of the countryside.
- Discourage the obstruction of scenic views and sites in the county.

Promote and Enhance the Outdoor Recreation Industry.
- Encourage the further development of the Cotton Hill Campground.
- Encourage the development of additional campsites.
- Encourage additional boat ramps along the Chattahoochee River and Lake Walter F. George.
- Encourage the development of Hunting Lodges.
- Encourage large property owners to lease their land to hunters.
- Encourage the development of service facilities to meet the needs of this sector of the economy.
- Establish natural habitats for a variety of wildlife.
- Encourage the safe, wise and legal use of firearms and other hunting techniques.
- Develop and promote additional competitions and festivals targeted to this market.
Vision:
Clay County will promote new housing developments in areas of the county that have infrastructure available. Agriculture and forestry will continue to be a part of Clay County’s economy. Existing residential areas in Clay County will be maintained for the continuation of family-centered living. A balanced diversity of age groups and social and economic backgrounds among residents will continue to be encouraged for the good of Clay County and its people.

Description:
- Subdivision designs will incorporate a significant amount of open space.
- Wherever possible, housing will connect to greenspace and trails, available to pedestrians and bicyclists for both tourism and recreational purposes.
- Very large minimum lot size requirements will be used to limit development density and protect the farmland and rural character.
- Site plans, building design and landscaping that are sensitive to the natural features of the site, including topography and views, will be encouraged.
- Promote the use of conservation easements by land owners.
- Widen roadways only when absolutely necessary and with careful designs.

Land Uses or Zoning Categories to be allowed:
Agriculture/forestry, low density residential, transportation/communication/utility, and public institutional in a limited manner. With an approved public water and/or sewer system minimum lot size shall be three quarters (3/4) acre and one (1) acre without either water or sewer. Preferred land use categories include: A-1, RR, and R-1.

Quality Community Objectives addressed:
Transportation Alternatives, Regional Identity, Traditional Character, Preservation of Open Space, Protection of Environmentally Sensitive Areas

Implementation Measures and Strategies:
- Conserve and maintain shared green spaces for recreation and natural resources preservation in expanding residential neighborhoods.
  - Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.
- Protect residential areas and their residents from incompatible land uses and their activities.
  - Discourage incompatible land uses, adjacent or within residential areas.
  - Encourage safe, effective, and aesthetically pleasing residential developments.
  - Prohibit the disposal of hazardous waste within Clay County and the Cities of Bluffton and Fort Gaines.
- Improve and expand the existing housing stock for all income levels.
  - Support continued improvement of existing housing conditions through all available public and private means.
  - Strive to improve the quality of development along Lake Walter F. George and the Chattahoochee River as recreational second homes.
  - Strive for the elimination of housing discrimination and promote fair housing practices.
  - Discourage residential development in areas designated as having critical environmental hazards such as floodplains and severe slopes.
• Promote and encourage more affordable housing opportunities.
• Encourage owners of substandard units to improve their properties through the use of every available means.
Vision:
Clay County will protect Lake Walter F. George through sound and wise planning and the use of best management practices. Clay County will encourage the use of the Lake as a location for primary homes, second homes, and lakeside related commercial and high-density housing while reserving adequate public access.

Description:
- Public access to the Lake will be preserved.
- Environmentally sensitive areas will be preserved by setting them aside as public parks, trails, or greenbelts.
- Subdivision designs will incorporate a significant amount of open space.
- Wherever possible, developments will connect to greenspace and trails, available to pedestrians and bicyclists for both tourism and recreational purposes.
- Site plans, building design and landscaping that are sensitive to the natural features of the site, including topography and views, will be encouraged.
- Preferred residential development will be stick built and modular. Manufactured Housing Units will be discouraged.

Land Uses or Zoning Categories to be allowed:
Agriculture/forestry, parks/recreation/conservation, low and high density stick built or modular residential and commercial development as part of a PUD or R-1 zoning classification and public/institutional in a very limited manner. All high-density development must have public water and/or sewer or include a private package treatment system. Preferred land use categories include: A-1, R-R, R-1, and PUD.

Quality Community Objectives addressed:
Open Space Preservation, Environmental Protection, Regional Cooperation, Transportation Alternatives, Regional Identity, Traditional Character

Implementation Measures and Strategies:
- Conserve, maintain and promote the natural, historic and cultural resources of Clay County.
  - Encourage maximum use of the county’s natural resources while maintaining sound environmental protection practices.
  - Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
- Conserve, maintain and promote the cultural, historic and natural resources to provide a variety of educational and recreational experiences.
  - Encourage local schools to use these facilities as outdoor classrooms.
  - Encourage the further development of eco-tourism initiatives.
- Conserve, maintain and promote the natural, historic, and cultural resources in order to make Clay County an attractive place in which to live, work and enjoy.
  - Prohibit the systematic neglect of structures that lead to the blight and decay of the countryside.
  - Discourage the obstruction of scenic views and sites in the county.
- **Promote and Enhance the Outdoor Recreation Industry.**
  - Encourage the development of additional campsites.
  - Encourage additional boat ramps along the Lake.
  - Encourage the development of service facilities to meet the needs of this sector of the economy.
  - Establish natural habitats for a variety of wildlife.
  - Develop and promote additional competitions and festivals targeted to this market.

- **Conserve and maintain shared green spaces for recreation and natural resources preservation.**
  - Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.

- **Protect residential areas and their residents from incompatible land uses and their activities.**
  - Discourage incompatible land uses, adjacent or within residential areas.
  - Encourage safe, effective, and aesthetically pleasing residential developments.
  - Prohibit the disposal of hazardous waste within Clay County.

- **Improve and expand the existing housing stock for all income levels.**
  - Support continued improvement of existing housing conditions through all available public and private means.
  - Strive to improve the quality of development along the Lake as recreational second homes.
  - Strive for the elimination of housing discrimination and promote fair housing practices.
  - Discourage residential development in areas designated as having critical environmental hazards such as floodplain and severe slopes.
  - Encourage owners of substandard units to improve their properties through the use of every available means.
  - Encourage stick built and modular residential development.
  - Discourage Manufactured Housing Unit.
Lakeside Suburban Area

Vision:
This area will be a focal point for the county offering a concentration of activities to include low, moderate and high-density housing and appropriate public and open space uses, which will all be easily accessible by pedestrians. An attractive, residential, mixed-use, pedestrian-friendly place where people choose to live due to its proximity and connection to the lake and government facilities, shopping, dining, socializing and entertainment facilities in Fort Gaines.

Description:
- Public access to the Lake will be preserved.
- Environmentally sensitive areas will be preserved by setting them aside as public parks, trails, or greenbelts.
- Subdivision designs will incorporate a significant amount of open space.
- Wherever possible, developments will connect to greenspace and trails, available to pedestrians and bicyclists for both tourism and recreational purposes.
- Site plans, building design and landscaping that are sensitive to the natural features of the site, including topography and views, will be encouraged.

Land Uses or Zoning Categories preferred:
Land Use categories preferred include mixed-residential (stick built, modular, and manufactured housing units) and commercial and public uses, parks, etc. Zoning classifications preferred include A-1, RR, R-1, C-1, PUD. Public water and sewer or approved septic tanks are required for development in this area. Public water and sewer is necessary for higher density development.

Quality Community Objectives for this Area:
Transportation Alternatives, Heritage Preservation, Sense of Place, Infill Development, Housing Choices and Environmental Protection.

Implementation Measures/Strategies:
- Add sidewalks and provide amenities such as benches and streetlights to new developments and existing higher density areas.
- Encourage a mix of residential and community facilities at small enough scale and proximity to encourage walking between destinations.
- Improve and expand the existing housing stock for all income levels.
  - Support continued improvement of existing housing conditions.
  - Strive for the elimination of housing discrimination and promote fair housing practices.
  - Promote and encourage more affordable housing opportunities.
  - Encourage owners of substandard units to improve their properties.
- Promote mixed, residential uses, blending residential development with schools, parks, recreation, linked in a compact pattern that encourages walking and minimizes the need for auto trips within the subdivision.
- Promote strong connectivity and continuity between developments.
- Establish good vehicular and pedestrian/bike connections to retail/commercial services as well as internal street connectivity; connectivity to adjacent properties/subdivisions, and multiple site access points.
- Wherever possible, connect to region network of greenspace and trails, available to pedestrians, bicyclists and equestrians for both tourism and recreational purposes.
- Promote street design that fosters traffic calming such as narrower residential streets, on-street parking and addition of bicycle and pedestrian facilities.
- Where feasible retrofit subdivisions to better conform to user sensitive design.
- Promote infill development where possible.
- Encourage adaptive re-use of historic structures.
- Preserve historic and cultural buildings and monuments.
- Create usable spaces by renovating deteriorating structures and tearing down dilapidated structures.
Vision:
Bluffton will protect historic structures and promote the area as a tourist destination. The historic structures include City Hall/Community Center/Old School, Bluffton United Methodist Church, Bluffton Baptist Church, the Old Courthouse/voting precinct, the Old Jail, and the Bluff.

Description:
- Bluffton will have sidewalks, street lamps, and other pedestrian amenities.
- Bluffton will restore or rehabilitate historic structures.
- Bluffton will develop a historic district with markers to promote the culture and heritage of the area.

Land Uses or Zoning Categories to be allowed:
Public/institutional, cultural, single-family residential (1 ½ acre minimum lot size).

Quality Community Objectives addressed:
Transportation Alternatives, Heritage Preservation, Sense of Place

Implementation Measures and Strategies:
- Protect culturally important areas from incompatible land uses and activities.
  - Discourage incompatible land uses and signage within historic areas.
  - Place the area on the Natural Register of Historic Places.
  - Develop ordinances and local incentives to encourage maintenance of historic buildings.
  - Provide for timely maintenance and improvement of streets, sidewalks, street lamps, and pedestrian amenities to encourage use of the area.
Vision:
The Residential Neighborhoods of Bluffton will be majority owner-occupied and serve as a continuing example of well-maintained, stable neighborhoods with sidewalks, bike trails, and limited vacant properties/structures.

Description:
- Bluffton will have infill development on vacant sites close to the center of town as long as water and sewer requirements are met.
- Sites with existing infrastructure in place should be used for new development, matching character of surrounding neighborhood in lieu of development on Greenfield sites.
- Residential areas will have sidewalks, street lamps, and other pedestrian amenities.
- Bluffton will have a distribution of affordably priced homes (consisting of single-family stick built and modular construction on various size lots).
- New developments that accommodate residents' commercial and service needs will be allowed.
- Commercial structures will be located near the street front, consistent with the character of the neighborhood and will be landscaped appropriately.
- Landscaping of parking areas to minimize visual impact on adjacent streets and uses will be encouraged.

Land Uses or Zoning Categories to be allowed:
Residential, public/institutional in a limited manner, and preferred commercial areas will be located at previously operated commercial facilities or sites. Without an approved public sewer system minimum lot size shall be two (2) acres.

Quality Community Objectives addressed:
Traditional Neighborhoods, Transportation Alternatives, Housing Opportunities, Growth Preparedness, Environmental Protection

Implementation Measures and Strategies:
- Protect residential areas and their residents from incompatible land uses and activities.
  - Discourage incompatible land uses within residential neighborhoods with the exception of existing and previously operated commercial sites.
  - Encourage infill residential development within established neighborhoods that is architecturally compatible with existing housing.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
  - Review all proposed transportation rights-of-way, utilities extension and land uses and development to assure they are consistent with overall county policies and fulfill the express function, purpose and character for which they are proposed and planned.
- Encourage and support construction of new housing citywide to meet local housing demand.
  - Encourage innovative housing citywide that is compatible with Bluffton’s policies.
  - Encourage and promote development and construction of desirable infill housing, such as cottages, designed to fit the context of the existing neighborhood, so long as all other basic development criteria may be met.
  - Promote affordable housing as long as it meets preferred design guidelines.
• Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.

■ Make balanced and efficient use of land appropriate with the resource base and the health, safety and welfare of the residents.
  • Prohibit the disposal of hazardous waste within Bluffton.

■ Operate and maintain a sound and efficient planning system which guides and assists in continued development.
  • Pursue, promote and encourage a close relationship between Clay County, Bluffton and Fort Gaines regarding mutual growth and development concerns including, but not limited to: comprehensive planning, zoning, subdivision regulations, extension of public water and sanitary sewer services, storm drainage, annexation, and other related matters,
  • Pursue, promote and encourage coordination of the plans of several public boards, agencies, commissions, and other authorities in accordance with Clay County and its municipalities’ policies and programs, to enhance mutual understanding and improve decision-making.

■ Improve and extend the street and highway system to promote safe, efficient and well-maintained access to property in the Community and on through routes for local and regional travelers.
  • Minimize conflicts between local and through traffic using every available means.
  • Provide for timely maintenance and improvement of streets.
Bluffton Recreational and Public Facilities Area

Vision:
Bluffton will encourage the use of local parks and other significant areas to support the local economy and the health and welfare of local residents.

Description:
- Limit development in this area (only including bike/pedestrian paths or other low impact recreation facilities such as baseball or softball fields, tennis courts, horse arenas, or public facilities).
- Roadways will be widened only when absolutely necessary with careful designs.
- Infrastructure will be improved to promote more and better use of the area.
- Promote areas as tourism and recreational destinations.

Land Uses or Zoning Categories to be allowed:
Parks/recreation/conservation/limited public facilities/utility.

Quality Community Objectives addressed:
Traditional Neighborhood, Open Space Preservation, Environmental Protection, Regional Cooperation

Implementation Measures and Strategies:
- Conserve, maintain and promote the Bluffton Recreation Area.
  - Encourage maximum use of the city’s natural resources while maintaining sound environmental protection practices.
  - Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
- Conserve, maintain and promote the cultural, historic and natural resources to provide a variety of educational and recreational experiences.
  - Encourage local schools to use these facilities as outdoor classrooms.
  - Encourage the further development of the Bluffton Recreation Area.
  - Support regional/state tourism alliances to increase the number of visitors.
- Conserve, maintain and promote the natural, historic, and cultural resources in order that Bluffton continues to be an attractive place in which to live, work and enjoy.
  - Prohibit the systematic neglect of structures that lead to the blight and decay of the countryside.
  - Discourage the obstruction of scenic views and sites in Bluffton.
- Promote and Enhance the Outdoor Recreation Industry.
  - Encourage the further development of the Bluffton Arena.
  - Encourage the development of additional amenities.
  - Establish natural habitats for a variety of wildlife.
  - Develop and promote additional competitions and festivals targeted to this market.
  - Create community connectivity by adding sidewalks and bike trails to connect to existing recreational amenities and public facilities.
The Bluff at Bluffton

Vision:
Bluffton will protect its natural and cultural resources. Bluffton’s natural resources should be conserved and maintained and their sound and wise use promoted in support of the local economy and the health and welfare of local residents.

Description:
■ Limited development in this area in order to maintain its existing rural nature.
■ Conservation easements will be encouraged.
■ Roadways will be widened only when absolutely necessary with careful designs.
■ The Bluff will be preserved by setting the area aside as a passive-use park with a walking trail, picnic tables, pavilion, and other pedestrian amenities.
■ Infrastructure availability will be limited in order to steer development away from the Bluff.

Land Uses or Zoning Categories to be allowed:
Parks/recreation/conservation, low-density single-family residential on a minimum 1½ acre lot, and public/institutional in a very limited manner.

Quality Community Objectives addressed:
Open Space Preservation, Environmental Protection, Regional Cooperation

Implementation Measures and Strategies:
■ Conserve, maintain and promote the Bluff to provide recreational and educational experiences.
  • Encourage maximum use of the Bluff while maintaining sound environmental protection practices.
  • Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types found around the Bluff.
  • Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
  • Encourage local schools to use the Bluff facilities as an outdoor classroom.
■ Conserve, maintain and promote the Bluff in order to add to Bluffton’s attractiveness as a place in which to live, work and enjoy.
  • Prohibit the systematic neglect of structures that lead to the blight and decay of the city.
  • Discourage the obstruction of scenic views and sites at the Bluff.
  • Establish natural habitats for a variety of wildlife.
Bluffton Bypass

Vision:
The City of Bluffton will ensure proper management of developed and undeveloped land on both sides of U.S. Hwy 27 by controlling land uses, points of ingress and egress, encouraging landscaping, minimizing impervious surfaces, encouraging frontage roads/access roads, and land use connectivity.

Description:
- Buildings will be architecturally integrated with the site and one another.
- New parking areas will be landscaped to minimize visual impact on adjacent roads and uses.
- The majority of new parking will be located at the rear or side of buildings to minimize visibility from the highway.
- New parking lots will incorporate on-site stormwater mitigation or retention features, such as pervious pavements.
- Landscaped tree islands and medians will be used to break up large expanses of paved parking.
- Site plans, building design and landscaping will be sensitive to the natural features of the site, including topography and views.
- Infrastructure availability will be limited in order to steer development away from areas of natural, cultural, and environmentally sensitive areas.

Land Uses or Zoning Categories to be allowed:
Agricultural, residential (including low-density single-family on a minimum 1 ½ acre), commercial, industrial and limited public/institutional on a minimum 5 acre tract.

Quality Community Objectives addressed:
Growth Preparedness, Appropriate Business, Employment Opportunities, Housing Choices, Regional Identity, Cooperation, and Solutions

Implementation Measures and Strategies:
- Promote and enhance U.S. Highway 27 in the City of Bluffton.
  - Encourage the implementation of a Gateways Program in Bluffton.
  - Encourage landscaping of parking areas and incorporation of on-site stormwater mitigation or retention features, such as pervious pavements.
  - Encourage and support the adoption or review of all development ordinances such as zoning, subdivision regulations, historic preservation ordinances, etc. to ensure that there is no conflict in any of the ordinances.
  - Encourage and support the development of a Joint Code Enforcement Program between Clay County and Bluffton which will provide for a Building Inspector/Code Enforcement official.
  - Encourage and support the development of a uniform building permit process including application forms and review criteria.
- Support economic development that is compatible with the highway service industry.
  - Promote an adequate, efficient and appropriate mix of goods at the main intersections along US Hwy 27.
  - Support regional/state tourism alliances to increase the number of visitors.
- Maintain a natural vegetation buffer along corridors at least 50 feet in width along the corridor.
  - Ensure all new developments are set back behind the buffer with access roads, shared driveways or inter-parcel road connections providing alternate access to these developments and reducing curb cuts and traffic on the main highways.
• Encourage and support the development of a Sign Ordinance for Bluffton.
• Adopt highway corridor/overlay district to regulate parking, signage, landscaping and points of ingress and egress.
Fort Gaines Central Business District

Vision:
Fort Gaines will have a vibrant and active downtown that has been fully restored with viable businesses and active streets.

Description:
- The traditional downtown areas of Fort Gaines will be maintained as the focal point of the city and county. Downtown Fort Gaines will be attractive, mixed-use (residential/commercial), pedestrian-friendly places where people choose to gather for shopping, dining, socializing, and entertainment.
- Fort Gaines will improve the appearance of sidewalks and streets and provide amenities such as benches, street lights, sidewalks, street furniture and aesthetically pleasing landscaping.
- Vacant sites close to downtown Fort Gaines will be used for infill development and will be developed to match the quality characteristics of surrounding neighborhoods.
- Development in Downtown Fort Gaines will contain a mix of residential, commercial uses and community facilities at small enough scale and proximity to encourage walking between destinations.

Land Uses or Zoning Categories to be allowed:
Single-Family high density (12,000 sq. ft. minimum lot size) residential and commercial (no minimum lot size). Public water and sewer are required for development in this area. Preferred land use categories are R-1, RO, C-1, and C-2.

Quality Community Objectives addressed:
Transportation Alternatives, Heritage Preservation, Sense of Place, Appropriate Business Opportunities

Implementation Measures and Strategies:
- Promote and preserve the existing sense of place in Fort Gaines.
  - Develop tours of historic places such as the National Register Historic District, the Pioneer Cemetery, the Frontier Village, the Coleman Museum and Sutton’s Corner Museum.
  - Maintain existing historic structures.
- Support economic development that is compatible with existing businesses and the tourist industry.
  - Promote and encourage recruitment of a diversity of businesses to provide a broad economic base.
  - Promote an adequate, efficient and appropriate mix of goods and services in the Central Business Districts.
  - Encourage the rehabilitation of storefronts in the Central Business District.
- Promote the Central Business District in Fort Gaines.
  - Encourage and support the efforts of Fort Gaines to make improvements to the downtown including streetscapes, landscape, signage, addition of bicycle lanes and racks, and renovation/restoration of public and private properties.
  - Support the location and maintenance of desirable and suitable entertainment facilities downtown.
  - Encourage cultural events, i.e. art shows, mini fairs, and other attractions in the Central Business Districts.
  - Encourage adaptive re-use of historic structures.
  - Preserve historic and cultural buildings and monuments.
  - Provide daily clean-up services in the downtown areas.
Encourage citizens to shop locally.
- Make business hours more compatible to fit the needs of local shoppers.
- Encourage merchants to sell items that are bought most frequently.
- Encourage merchants to sell items unique to Clay County and/or the State of Georgia.
Vision:
Fort Gaines Stable Residential Neighborhoods will be majority owner-occupied single-family homes, stick-built or manufactured housing units and serve as a continuing example of well-maintained, stable neighborhoods with many sidewalks to encourage pedestrian access, street lighting, and limited vacant properties.

Description:
- Fort Gaines will promote infill development on vacant sites.
- Sites with existing infrastructure in place are used for new development, matching character of surrounding neighborhood in lieu of development on Greenfield sites.
- Traffic calming measures and pedestrian/multi-modal amenities will be used.
- Fort Gaines will have a distribution of affordably priced homes.

Land Uses or Zoning Categories to be allowed:
Single-Family Low and medium density residential, with densities between ¼ acre and ½ acre. High density residential will be allowed in designated areas. Commercial uses and residential office allowed along GA Hwy 39 and Washington Street. Preferred land use categories are R-1, R-2, C-2, RO, and I-1.

Quality Community Objectives addressed:
Traditional Neighborhoods, Transportation Alternatives, Housing Opportunities, Growth Preparedness

Implementation Measures and Strategies:
- Protect residential areas and their residents from incompatible land uses and activities.
  - Discourage incompatible land uses within residential neighborhoods.
  - Encourage infill residential development within established neighborhoods that is architecturally compatible with existing housing.
- Encourage and support construction of new housing citywide to meet local housing demand.
  - Develop and support more housing opportunities citywide to help Fort Gaines become more desirable as a place of residence.
  - Encourage innovative housing citywide that is compatible with each city’s policies.
  - Encourage and promote development and construction of desirable infill housing, such as duplexes and cottages, designed to fit the context of the exiting neighborhood, so long as all other basic development criteria may be met.
  - Promote affordable housing.
Fort Gaines Declining Residential Neighborhoods

Vision:
The decline of neighborhoods is stopped before it becomes necessary to redevelop the neighborhood.

Description:
- New development will match typical densities of older centers of the community. Infill development on vacant sites will be encouraged.
- Sites with existing infrastructure in place will be used for new development, matching the character of the surrounding neighborhood in lieu of development on greenfield sites.
- A well-designed development that blends into existing neighborhoods by disguising its density (e.g., small scale apartment buildings, multi-family that looks like a single residence from the street, etc.).
- Facilities for bicycles and alternative modes of transportation, including special lanes, frequent storage racks, etc. will be included.
- Sidewalks will be used for easy access to nearby shopping, schools and other areas where residents travel daily.
- There will be a distribution of affordably priced homes throughout the city.
- Houses will be located near the street, with large front porches that encourage interaction with neighbors.
- New residential development that matches the mix of housing types and styles of older homes will be required.
- New developments will reflect traditional neighborhood design (TND) principles, such as smaller lots, orientation to street, mix of housing types, pedestrian access to neighborhood commercial centers.
- The availability of infrastructure will be used to steer development away from areas of natural, cultural, and environmentally sensitive resources.
- Existing neighborhoods will be retrofitted to improve access by pedestrians and alternative modes of transportation and connectivity with nearby commercial areas.

Land Uses or Zoning Categories to be allowed:
Low and medium density single-family and multi-family, stick built and manufactured housing units, including duplexes, townhouses, apartments, and condominiums at a minimum density of ¼ of an acre residential. Higher density residential is to be allowed in designated areas where water and public sewer is available and areas where existing higher density units exists. Commercial uses allowed along East Hancock Street, Washington Street, and GA Hwy 39. Preferred land use categories include R-1, R-2, C-2, I-1, and MHD.

Quality Community Objectives addressed:
Traditional Neighborhood, Transportation Alternatives, Housing Opportunities

Implementation Measures and Strategies:
- Improve and expand the existing housing stock for all income levels.
  - Support continued improvement of existing housing conditions through all available public and private means.
• Strive for the elimination of housing discrimination and promote fair housing practices.
• Encourage owners of substandard housing units to improve their properties through use of every available means including providing public technical assistance and seeking public financial support.

- Conserve existing housing stock insofar as practical through rehabilitation and improvement of substandard housing units that are suitable for repair.
  • Encourage and support the development of a Joint Code Enforcement Program between Clay County and Fort Gaines which will provide for a Building Inspector/Code Enforcement official.
  • Support enforcement of existing building codes and nuisance ordinances.
  • Support continued improvement of existing housing conditions through every available means.
  • Encourage and support owners of substandard housing units to improve their properties through the use of every available means, including public technical assistance and seeking public financing support.
Fort Gaines Recreational and Conservation Area

Vision:
Due to flooding potential and other environmental concerns, Fort Gaines will encourage the use of local parks and other significant areas to help protect natural resources, provide recreational opportunities, and support the local economy and the health and welfare of local residents.

Description:
- Limit development in this area (only including bike/ pedestrian paths or other low impact recreation facilities such as tennis courts or multi-purpose recreation fields).
- Roadways will be widened only when absolutely necessary with careful designs.
- Infrastructure will be improved to promote more and better use of the area.
- Promote areas as tourism and recreational destinations.

Land Uses or Zoning Categories to be allowed:

Quality Community Objectives addressed:
Open Space Preservation, Environmental Protection, Regional Cooperation

Implementation Measures and Strategies:
- Conserve, maintain and promote the Fort Gaines Recreation Area.
  - Encourage maximum use of the city’s natural resources while maintaining sound environmental protection practices.
  - Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
- Conserve, maintain and promote the cultural, historic and natural resources to provide a variety of educational and recreational experiences.
  - Encourage local schools to use these facilities as outdoor classrooms.
  - Encourage the further development of the Fort Gaines Recreation Area.
  - Support regional tourism alliances with other counties and other facilities to increase the number of visitors.
- Conserve, maintain and promote the natural, historic, and cultural resources in order to make Fort Gaines an attractive place in which to live, work and enjoy.
  - Prohibit the systematic neglect of structures that lead to the blight and decay of the countryside.
  - Discourage the obstruction of scenic views and sites in Fort Gaines.
- Promote and Enhance the Outdoor Recreation Industry.
  - Encourage the further development of the Fort Gaines Recreational Area.
  - Encourage the development of additional amenities.
  - Establish natural habitats for a variety of wildlife.
• Develop and promote additional competitions and festivals targeted to this market.
Vision:
Maintaining agriculture and forestry practices that are a part of Fort Gaines’ development vision and economy. The goal is to promote the agricultural based economy while allowing limited residential development.

Description:
- Limited new development.
- Protect farmland/forest land and open space.
- Maintain appropriate size lot.
- Promote use of conservation easements by landowners.
- Limit the development of residential subdivision.
- Require compatible architectural designs that maintain the rural character.
- Widening roadways only when absolutely necessary and with careful designs.
- Any residential development should be done on 1+ acre tracts.

Land Uses or Zoning Categories allowed:
Agriculture/forestry, low-density single-family residential (including manufactured homes) on a minimum 1 acre, transportation/communication/utility and limited public institutional use. Preferred land use categories include A-1, R-1, C-2, and I-1.

Quality Community Objectives addressed:
Transportation Alternatives, Regional Identity, Traditional Character, Preservation of Open Space, and Protection of Environmentally Sensitive Areas, Resource Conservation

Implementation Measures and Strategies:
- Conserve and maintain shared green spaces for natural resources and recreation.
  - Require that construction designs minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.
- Protect residential areas and residents from incompatible land uses and their activities.
  - Discourage incompatible land uses, adjacent or within residential areas.
  - Encourage safe, effective, aesthetically conforming residential developments.
  - Prohibit the disposal of hazardous waste within Fort Gaines.
Vision:
The City of Fort Gaines will have a vibrant and active downtown that has been fully restored with viable businesses and active streets while protecting all undeveloped land along the route of GA Highway 39 having significant natural, historic, and/or cultural features and scenic or pastoral views.

Description:
- Limited development in unimproved areas in order to maintain its existing natural state.
- Conservation easements will be encouraged.
- Environmentally sensitive areas will be preserved by setting them aside as public parks, trails, or greenbelts.
- Vacant sites close to downtown Fort Gaines will be used for infill development and will be developed to match the quality characteristics of surrounding neighborhoods.
- The traditional downtown areas of Fort Gaines will be maintained as the focal point of the city and county with attractive, mixed-use (residential/commercial), pedestrian-friendly places where people choose to gather for shopping, dining, socializing, and entertainment.
- Fort Gaines will improve the appearance of sidewalks and streets and provide amenities such as benches, street lights, sidewalks, street furniture and aesthetically pleasing landscaping.
- Site plans, building design and landscaping that are sensitive to the natural features of the site, including topography and views, will be encouraged to protect viewsheds as identified on a case by case basis.

Land Uses or Zoning Categories to be allowed:
Agriculture/forestry, low-density single-family residential (where public water and sewer are unavailable), commercial development including but not limited to, transportation, related retail establishments, office buildings and other service related uses. Where public water and sewer are available, single-family high density (12,000 sq. ft. minimum lot size) residential and commercial (no minimum lot size) will be allowed. Commercial development will be encouraged at highway intersections. Preferred land use categories preferred include R-1, RO, RR, C-1, and C-2.

Quality Community Objectives addressed:
Transportation Alternatives, Regional Identity, Resource Conservation, Open Space Preservation, Environmental Protection, Appropriate Businesses, Housing Choices and Regional Cooperation

Implementation Measures and Strategies:
- Establish and enforce guidelines to protect characteristics deemed to have scenic value.
  - Require compatible landscaping and architectural designs that enhances the scenic value of the corridor.
  - Encourage and support the development of a Sign Ordinance for Fort Gaines.
- Manage flow of traffic; using directory signage to clustered developments.
  - Provide pedestrian linkages to adjacent and nearby residential or commercial districts.
  - Encourage the implementation of a Gateways Program in Fort Gaines.
  - Adopt highway corridor/overlay district to regulate parking, signage, landscaping and points of ingress and egress.
- Promote and preserve the existing sense of place in Fort Gaines.
  - Encourage adaptive re-use of historic structures.
- Preserve historic and cultural buildings and monuments.
  - Support economic development that is compatible with existing businesses and the tourist industry.
    - Promote and encourage recruitment of a diversity of businesses to provide a broad economic base.
    - Promote an adequate, efficient and appropriate mix of goods and services along GA Hwy 39.
    - Encourage the rehabilitation of storefronts along GA Hwy 39.
  - Promote the Central Business District in Fort Gaines.
    - Encourage and support the efforts of Fort Gaines to make improvements to the downtown including streetscapes, landscape, signage, addition of bicycle lanes and racks, and renovation/restoration of public and private properties.
    - Provide daily clean-up services along GA Hwy 39 in downtown Fort Gaines.
Vision:
The City of Fort Gaines will protect the Chattahoochee River through sound and wise planning and the use of best management practices. Fort Gaines will encourage economic development in the area, including limited industrial growth, by promoting a variety of recreational uses within the River Corridor and encouraging the development of businesses to serve the people utilizing the Chattahoochee.

Description:
- Limited development in this area in order to maintain its existing natural state.
- Conservation easements will be encouraged.
- Environmentally sensitive areas will be preserved by setting them aside as public parks, trails, or greenbelts.
- Subdivision designs will incorporate a significant amount of open space.
- Wherever possible, developments will connect to greenspace and trails, available to pedestrians and bicyclists for both tourism and recreational purposes.
- Site plans, building design and landscaping that are sensitive to the natural features of the site, including topography and views, will be encouraged.

Land Uses or Zoning Categories to be allowed:
Agriculture/forestry, parks/recreation/conservation, low density residential, limited industrial and public/institutional in a very limited manner. Preferred land use categories include: A-1, R-1, and I-1.

Quality Community Objectives addressed:
Open Space Preservation, Environmental Protection, Regional Cooperation, Transportation Alternatives, Regional Identity, Traditional Character

Implementation Measures and Strategies:
- Conserve, maintain and promote the natural, historic and cultural resources of Fort Gaines.
  - Encourage maximum use of the county’s natural resources while maintaining sound environmental protection practices.
  - Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
- Conserve, maintain and promote the cultural, historic and natural resources to provide a variety of educational and recreational experiences.
  - Encourage local schools to use these facilities as outdoor classrooms.
  - Support the development of additional cultural resources that will aid in the understanding of local heritage.
  - Encourage the further development of eco-tourism initiatives.
  - Support regional tourism alliances with other counties and other facilities to promote existing and future natural, historic and cultural resources to increase the number of visitors.
  - Encourage the development of the Clay/Quitman/Stewart/Calhoun County’s GA Hwy 39 Scenic Byways Designation.
Conserve, maintain and promote the natural, historic, and cultural resources in order to make Fort Gaines an attractive place in which to live, work and enjoy.
- Prohibit the systematic neglect of structures that lead to the blight and decay of the countryside.
- Discourage the obstruction of scenic views and sites in the county.

Promote and Enhance the Outdoor Recreation Industry.
- Encourage additional boat ramps along the Chattahoochee River.
- Encourage the development of service facilities to meet the needs of the Outdoor Recreation Industry.
- Establish natural habitats for a variety of wildlife.
- Develop and promote additional competitions and festivals targeted to this market.

Conserve and maintain shared green spaces for recreation and natural resources preservation.
- Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.

Protect residential areas and their residents from incompatible land uses and their activities.
- Discourage incompatible land uses, adjacent or within residential areas.
- Encourage safe, effective, and aesthetically pleasing residential developments.
- Prohibit the disposal of hazardous waste within Fort Gaines.

Improve and expand the existing housing stock for all income levels.
- Support continued improvement of existing housing conditions through all available public and private means.
- Strive to improve the quality of development along the Chattahoochee River as recreational second homes.
- Strive for the elimination of housing discrimination and promote fair housing practices.
- Discourage residential development in areas designated as having critical environmental hazards such as floodplain and severe slopes.
- Promote and encourage more affordable housing opportunities.
- Encourage owners of substandard units to improve their properties through the use of every available means.
Vision:
Clay County and the Cities of Bluffton and Fort Gaines will continue to have public schools, public housing, cemeteries, parks, and other public buildings and recreational facilities. These are public land uses that are not likely to change over the planning period.

Description:
- Landscaped buffers between the roadways and pedestrian walkways will be constructed.
- Addition of public buildings on appropriate infill sites to serve surrounding neighborhoods.
- Parks and other recreational facilities will have facilities for bicycles, including bikeways or bike lanes, frequent storage racks, etc. will be added.
- Public Housing developments will offer a mix of housing types (single-family homes, town homes, live/work units, lofts, over-the shop, and apartments).
- Public Housing developments will have a healthy mix of uses (corner groceries, barbershops, drugstores) within easy walking distance of residences.
- Parking areas will be landscaped to minimize visual impact on adjacent streets and uses.
- Cemeteries will have fences and be landscaped.
- New community facilities will be accommodated by the reuse of existing vacant or under-utilized structures (e.g. commercial centers, office space, and warehouse).

Land Uses or Zoning Categories to be allowed:
Public/Institutional

Quality Community Objectives addressed:
Transportation Alternatives, Educational Opportunities, Growth Preparedness

Implementation Measures and Strategies:
- Conserve, maintain and promote existing recreation areas.
  - Encourage maximum use of natural resources while maintaining sound environmental protection practices.
  - Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Encourage and promote the design and engineering of roads and other facilities to fit, rather than dominate, topography and other site conditions.
- Improve and extend the public water systems to better serve the current and future population.
  - Encourage those water system extensions that would support or encourage new development in areas appropriate for such activities by reason of policy and the health, safety and welfare of residents and employees.
  - Develop and maintain a water system maintenance program for each public water system to increase efficiency and operational longevity.
- Maintain existing sewerage systems and serve all adjacent development areas.
  - Develop and maintain public sewer system maintenance programs to increase the efficiency and operational longevity.
• Encourage those sanitary sewer system extensions that would support or encourage new development in areas appropriate for such activities by reason of policy and the health, safety and welfare of residents and employees.
• Encourage coordination between Fort Gaines and Clay County for the expansion of the public sewer system.

- Improve and extend the street and highway system to promote safe, efficient and well-maintained access to property in the county and the cities and on through routes for local and regional travelers.
  • Provide for safe, efficient movement of people, goods and services in and around Clay County and the Cities of Bluffton and Fort Gaines.
  • Minimize conflicts between local and through traffic using available means.
  • Provide for timely maintenance and improvement of streets.
  • Support and encourage the addition of bicycle lanes whenever streets are repaved and it is economically feasible.

- Encourage and Support the provision of educational opportunities for residents of Clay County and the Cities of Bluffton and Fort Gaines.
  • Encourage and support the expansion of Adult Education opportunities in Clay County.
  • Encourage and support the expansion of services at the library in Fort Gaines.
  • Encourage and support the activities of the Clay County School System to educate the children of Clay County.

- Support and encourage the provision of recreational and fine arts opportunities for the residents of Clay County and the Cities of Bluffton and Fort Gaines.
  • Encourage collaboration between the Clay County Board of Education and the Clay County Board of Commissioners on the use of school system facilities for county recreation i.e. ball fields, gymnasiums, etc.
  • Encourage and support the development of a Clay County Recreational Program that will provide opportunities for Little League baseball, football, basketball and other sports.
  • Encourage and support the development of opportunities to share the fine arts with the community, i.e. art shows, theatrical presentations, musicals, etc.

Issues and Opportunities

This section identifies issues and opportunities that Clay County and its municipalities are facing in the next 20 years. There are sections on population, economic development, housing, natural and culture resources, land use, transportation and inter-governmental coordination.

Population

Issues:
- Providing Infrastructure for a growing population (water, sewer, schools, transportation, etc.).
- Paying for Growth.
- Integrating New Comers with Old Timers.
- Increasing Property Values and potentially increasing Taxes.

Opportunities:
- Diversifying the population.
- Expanding Tax base from new residential, commercial and industrial growth.
- Expanding local Job Opportunities.
- Expanding Community Investment.

Economic Development

Issues:
- Dependency on a small number of industries/business types results in high vulnerability to downturns in the dominate industry type.
- Business Recruitment Efforts are not effective and need to be changed.
- Community Economic Development programs are insufficient to meet the varied needs of the community.
- There are not enough jobs or economic opportunity to retain local residents.
- There is not enough affordable/workforce housing.

Opportunities:
- Providing a Business Recruitment and Retention Program (BREP).
- Investing in infrastructure and community resources to remain competitive in business recruitment.
- Conduct a survey of workforce capabilities, supply, quality, and training needs.
- Providing Educational and workforce training opportunities.
Housing

Issues:
- Lack of varied housing options available to meet resident needs at all stages of life.
- Existing sub-standard lots with no or declining infrastructure.
- Lack of zoning or building code enforcement.
- Abundance of substandard housing and blighted structures.
- No control over recreational vehicles (i.e. travel trailers and campers).

Opportunities:
- Increasing affordable housing options.
- Developing design guidelines for areas in need of revitalization.
- Provide opportunities for mixed-use developments.
- Provide incentives for rehabilitation of existing housing stock.

Natural and Cultural Resources

Issues:
- Lack of control over the Chattahoochee River
- Lack of regulation over hunters’ leases and camps.
- No recreation facilities for local residents.
- No full-time game warden.
- Preserving water quality.

Opportunities:
- Participate in state/local discussions on water quality.
- Insure local governments have appropriate planning tools to protect streams, flora, and fauna.
- Establish an archives to protect historic artifacts and documents.
- Protect W. Town Branch – Cemochechobee Creek.
- Develop ecotourism and agritourism opportunities.
- Use best management practices related to Quality Deer Management
- Develop an arts inventory of local craftspersons.

Community Facilities

Issues:
- Providing Infrastructure for a growing population (water, sewer, schools, transportation, etc.).
- Paying for Growth.
- Lack of medical facilities and medical professionals.
- Lack of recycling programs and facilities.
- Preserving water quality.
Opportunities:
- Expanding Tax base from new residential, commercial and industrial growth.
- Improving the perception of existing medical care and recruiting new medical personnel and facilities.
- Improving educational opportunities for all age-groups.
- Improving recreational facilities and opportunities for all age-groups.
- Maintaining and improving existing park facilities.
- Preserving water quality by providing sewer to lake developments.

Land Use

Issues:
- Determine if any brownfields exists; connect developers to the federal and state incentives for cleaning up brownfields sites.
- Aid to struggling areas while creating opportunities for reinvestment and redevelopment in deteriorating areas.
- Land use mix is heavily favored towards agricultural use and residential use need to diversify land use base.

Opportunities:
- Provide water and sewer to most densely developed areas in the northern part of the county.
- Encourage traditional neighborhood development. Traditional neighborhoods should be required when developing adjacent to or within a historic district.
- Protect natural resources within developments. Promote the use of the conservation subdivision ordinance. Create incentives to conserve greenspace.
- Develop Phenomenon Trail.

Transportation

Issues:
- Lack of paved roads and multi-modal trails.
- Poor maintenance of roads.
- Low lake levels reduce navigation opportunities.
- Lack of funding sources, needed equipment, and trained personnel.

Opportunities:
- Regionalize the local transit system.
- Providing facilities for boats navigating the lake and river.
- Constructing the Phenomenon Trail.
- Expanding multi-modal opportunities.
- Designating GA Hwy 39 as a Scenic Byway.
• Four-laning US Hwy 27

Inter-Governmental Coordination

Issues:
• Working relationship among local governments is strained.
• Important to keep line of communication open with neighboring jurisdictions in Georgia.
• No communication or coordination with neighboring jurisdictions in Alabama.
• Actively participate in regional authorities and in regional planning efforts.
• Lack of citizen participation in leadership training efforts.

Opportunities:
• In order to bring growth and needed services to area counties and cities an opportunity exists for communities to develop stronger working relationships and to share resources when necessary.
• Solicit citizen and elected official participation in regional leadership training.
• Consolidation of some county and city services.
• The Service Delivery Strategy will need to be updated as party of the Comprehensive Plan process.
## Implementation Program

**Clay County: Report of Accomplishments 2002 – 2006**

### Community Facilities

<table>
<thead>
<tr>
<th>Activity</th>
<th>Status</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Continue in subsidizing public transportation system in the county</td>
<td>Ongoing</td>
<td>Clay County has contracted with Resource Management, Inc. to operate its 5311 program.</td>
</tr>
<tr>
<td>Continue paving CR 52 and 60 in the Garnersville community and other dirt roads in the county.</td>
<td>Complete</td>
<td>This item will be removed from the new STWP.</td>
</tr>
<tr>
<td>Continue maintenance program for governmental buildings</td>
<td>Ongoing</td>
<td>Clay County added this line item to the SPLOST.</td>
</tr>
<tr>
<td>Continue to work with the City of Fort Gaines and Bagby Park in the development of a nature and biking trail known as the Phenomenon Trail</td>
<td>Ongoing</td>
<td>Clay County received TE funding for Phase 1 of the Phenomenon Trail development.</td>
</tr>
<tr>
<td>Continue to support the Clay County Volunteer Fire Department</td>
<td>Ongoing</td>
<td>Clay County has applied for a Homeland Security grant for a truck and equipment.</td>
</tr>
<tr>
<td>Implement a public water system in the northern area of the county</td>
<td>Complete</td>
<td>Clay County used USDA and CDBG funds to construct the public water system.</td>
</tr>
<tr>
<td>Work with the Clay County-Fort Gaines Recreation Committee on gymnasium improvements and other needed recreation improvements.</td>
<td>Ongoing</td>
<td>Clay County is working with a structural engineer on the gym improvements. Light poles have been erected at the ball field. Lights have been purchased, but have not yet been put on the poles.</td>
</tr>
<tr>
<td>Widen the Bluffton-Fort Gaines Road (CR 130)</td>
<td>Complete</td>
<td>This item will be removed from the new STWP.</td>
</tr>
<tr>
<td>Pursue a county-wide E-911 system</td>
<td>Complete</td>
<td>System is complete and began operation in 2004.</td>
</tr>
<tr>
<td>Continue to provide full-time Emergency Medical Service to the county and municipalities</td>
<td>Ongoing</td>
<td>Clay County has applied for a Homeland Security grant for a vehicle and equipment.</td>
</tr>
<tr>
<td>Expand the Clay County Library</td>
<td>Ongoing</td>
<td>The Library has added archive storage space and expanded its collection.</td>
</tr>

Implementation Policies

Clay County and the Cities of Bluffton and Fort Gaines have adopted the following policies to provide ongoing guidance and direction to officials for making decisions consistent with achieving Clay County’s Vision and addressing identified Issues and Opportunities. These policies will guide Clay County and the Cities of Bluffton and Fort Gaines in future development decisions. The framework for decisions to be made about the future development of Clay County and its municipalities by investors and public officials will be provided by these policies. This section is organized with a broad community goal statement followed by policies for guidance.

- Protect residents from significant hazards to life, health and property.
  - Prohibit structural uses in areas where significant hazards to health, safety, life and property exist.
  - Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.
  - Encourage infill residential development within established neighborhoods that is architecturally compatible with existing housing.
  - Encourage owners of substandard housing units to improve their properties through use of every available means, including providing public technical assistance and seeking public financial support.
  - Encourage and support the development of an ordinance that will require owners of deteriorating unoccupied structures to either demolish or remove the structure or pay a fine sufficient to cover the cost of demolishing/removing the structure.
  - Encourage and support the removal of deteriorating unoccupied structures that serve as a fire hazard and a magnet for crime and drugs.

- Operate and maintain a sound and efficient planning system which guides and assists in continued development.
  - Pursue, promote and encourage a close relationship between Clay County and the Cities of Bluffton and Fort Gaines and other agencies and authorities regarding mutual growth and development concerns including, but not limited to: comprehensive planning, zoning, subdivision regulations, extension of public water and sanitary sewer services, storm drainage, annexation, the environment, cultural resources, and other related matters.
  - Pursue, promote and encourage coordination of the plans of several public boards, agencies, commissions, and other authorities in accordance with Clay County and its municipalities’ policies and programs, to enhance mutual understanding and improve decision-making.
  - In Clay County, development plans (i.e. subdivisions, PUDs, etc.) should have architectural and site plans reviewed and approved by the planning and zoning commission prior to the granting of final approval.
- Make balanced and efficient use of land appropriate with the resource base and the health, safety and welfare of the residents.
  - Discourage incompatible land uses, adjacent or within residential areas.
  - Encourage safe, effective and aesthetically pleasing residential developments.
  - Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.
  - Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  - Discourage residential development in areas designated as having critical environmental hazards such as floodplain and severe slopes.
  - Prohibit the disposal of hazardous waste within Clay County and the Cities of Bluffton and Fort Gaines.

- Improve and extend the public water systems to better serve the current and future population.
  - Encourage those water system extensions that would support or encourage new development in areas appropriate for such activities by reason of policy and the health, safety and welfare of residents and employees.
  - Develop and maintain a water system maintenance program for each public water system to increase efficiency and operational longevity.

- Maintain existing sewerage systems to serve all adjacent development areas.
  - Develop and maintain public sewer system maintenance programs to increase the efficiency and operational longevity.
  - Encourage those sanitary sewer system extensions that would support or encourage new development in areas appropriate for such activities by reason of policy and the health, safety and welfare of residents and employees.
  - Encourage coordination between Clay County and Fort Gaines for the expansion of the public sewer system.

- Protect residential areas and their residents from incompatible land uses and their associated activities.
  - Encourage and support the review of all development ordinances such as zoning, subdivision regulations, historic preservation ordinances, building codes, etc. to ensure that there is no conflict in any of the ordinances.
  - Discourage incompatible land uses, adjacent or within residential areas.
  - Encourage safe, effective and aesthetically pleasing residential developments.
  - Prohibit the disposal of hazardous waste within Clay County and the Cities of Bluffton and Fort Gaines.

- Improve the existing built environment.
• Encourage and promote development and construction of desirable infill development designed to fit the context of the existing neighborhoods, so long as all other basic development criteria may be met.
• Encourage landscaping of new parking lots to minimize visual impact.
• Encourage revitalization of vacant or under-utilized buildings using public and/or private resources.

■ Encourage and support construction of new housing citywide to meet local housing demand
  • Promote affordable housing.
  • Develop and support more housing opportunities citywide to help the county become more desirable as a place of residence.
  • Encourage innovative housing citywide that is compatible with each city’s policies.
  • Encourage and promote development and construction of desirable infill housing, such as duplexes and cottages, designed to fit the context of the exiting neighborhood, so long as all other basic development criteria may be met.
  • Encourage mixed use developments in Fort Gaines’ downtown.

■ Improve and expand the existing housing stock for all income levels.
  • Strive for the elimination of housing discrimination and promote fair housing practices.
  • Promote and encourage more affordable housing opportunities.
  • Support continued improvement of existing housing conditions through all available public and private means.
  • Encourage owners of substandard units to improve their properties through the use of every available means including providing public technical assistance and seeking public financial support.
  • Conserve existing housing stock insofar as practical through rehabilitation and improvement of substandard housing units that are suitable for repair.
  • Encourage and support the development of a Joint Code Enforcement Program between Clay County and the Cities of Bluffton and Fort Gaines which will provide for a Building Inspector/ Code Enforcement program.
  • Support enforcement of existing building codes and nuisance ordinances.
  • Discourage residential development in areas designated as having critical environmental hazards such as floodplain and severe slopes.
  • Strive to improve the quality of development along the Chattahoochee River as recreational second homes.

■ Conserve and maintain shared green spaces for recreation and natural resources preservation in expanding residential neighborhoods.
  • Require construction practices designed to minimize soil erosion and sedimentation, including requirements for re-vegetation during and following construction.
• Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
• Discourage residential development in areas designated as having critical environmental hazards such as floodplain and severe slopes.

Improve and extend the street and highway system to promote safe, efficient and well-maintained access to property in Clay County and the Cities of Bluffton and Fort Gaines and on through routes for local and regional travelers.
• Encourage and promote the design and engineering of roads to fit, rather than dominate, topography and other site conditions. Encourage the development of bike paths and sidewalks throughout the neighborhoods.
• Provide for safe, efficient movement of people, goods and services in and around Clay County and the Cities of Bluffton and Fort Gaines.
• Minimize conflicts between local and through traffic using every available means.
• Provide for timely maintenance and improvement of streets.

Promote and enhance the highway and commercial corridors in Clay County
• Encourage the implementation of a Gateways Program in Bluffton and Fort Gaines.
• Encourage landscaping of parking areas and incorporation of on-site stormwater mitigation or retention features, such as pervious pavements.
• Encourage and support the development of a Sign Ordinance for Clay County and the City of Fort Gaines.
• Encourage and support the review of all development ordinances such as zoning, subdivision regulations, Historic Preservation Ordinances, etc. to ensure that there is no conflict in any of the ordinances.
• Encourage and support the development of a Joint Code Enforcement Program between Clay County and the Cities of Bluffton and Fort Gaines which will provide for a Building Inspector/Code Enforcement program.
• Encourage and support the development of a uniform building permit process including application forms and review criteria.

Support economic development that is compatible with the highway service industry.
• Promote an adequate, efficient and appropriate mix of goods at the main intersections along GA 39 and US Hwy 27.
• Encourage development on sites that are served by water and sewer.

Promote the Central Business District in the Fort Gaines as the primary commercial and cultural center of Clay County.
• Encourage and support the efforts of the Cities of Bluffton and Fort Gaines to make improvements to their downtowns including streetscapes, addition of bicycle lanes and racks, and renovation/restoration of public buildings.
• Support the location and maintenance of desirable and suitable entertainment facilities downtown.
• Encourage cultural events, i.e. art shows, fairs, and other attractions in the Central Business District.
• Encourage adaptive re-use of historic structures.
• Preserve historic and cultural buildings and monuments.
• Provide daily clean-up services in the downtown areas.
• Encourage Citizens to Shop Locally.

Make business hours more compatible to fit the needs of local shoppers.
  ▪ Encourage merchants to sell items that are bought most frequently.
  ▪ Encourage merchants to sell items unique to Clay County and/or the State of Georgia.

■ Promote and preserve the existing sense of place in the cities and county through the promotion of historic resources.
  • Support economic development that is compatible with existing businesses and the tourist industry.
  • Promote and encourage recruitment of a diversity of businesses to provide a broad economic base.
  • Promote an adequate, efficient and appropriate mix of goods and services in the Central Business District.
  • Encourage the rehabilitation of storefronts in the Central Business District.

■ Conserve, maintain and promote the natural, historic, and cultural resources in order to make Clay County an attractive place in which to live, work and enjoy.
  • Conserve, maintain and promote the natural, historic and cultural resources of Clay County and the Cities of Bluffton and Fort Gaines.
  • Encourage maximum use of the county’s natural resources while maintaining sound environmental protection practices.
  • Encourage and promote land use and development that respects natural limitation of flood plains, steep slopes, wetlands and limiting soil types.
  • Encourage the use of flood prone areas for passive recreation and other appropriate open space uses.
  • Discourage the obstruction of scenic views and sites in the county.
  • Promote and Enhance the Outdoor Recreation Industry through the development of additional campsites and boat ramps.
  • Encourage the development of Private Hunting Lodges.
  • Encourage large property owners to lease their land to hunters.
  • Encourage the development of service facilities to meet the needs of this sector of the economy.
  • Establish natural habitats for a variety of wildlife.
  • Encourage the safe, wise and legal use of firearms and other hunting techniques.
  • Develop and promote additional competitions and festivals targeted to this market.
  • Encourage the development of the Clay/Quitman/Stewart County’s Scenic Byways Designation.
• Prohibit the systematic neglect of structures that lead to the blight and decay of the countryside.

■ Conserve, maintain and promote the cultural, historic and natural resources to provide a variety of educational experiences.
• Support the development of additional cultural resources that will aid in the understanding of local heritage.
• Encourage the further development of Frontier Village, Coleman’s Opera House Museum and Sutton’s Corners Museum.
• Support regional tourism alliances with other counties and other facilities (such as Bagby State Park or Kolomoki Mounds State Park) to promote existing and future natural, historic and cultural resources to increase the number of visitors.
• Encourage local schools to use these facilities as outdoor classrooms.

■ Encourage and Support the provision of educational and recreational opportunities for residents of Clay County and the Cities of Bluffton and Fort Gaines.
• Encourage and support the expansion of Adult Education opportunities in Clay County.
• Encourage and support the expansion of services at the library in Fort Gaines.
• Encourage and support the activities of the Clay County School System to educate the children of Clay County.
• Support and encourage the provision of recreational and fine arts opportunities for the residents of Clay County and the Cities of Bluffton and Fort Gaines.
• Encourage the collaboration between the Clay County Board of Education and the Clay County Board of Commissioners on the use of School System facilities for County Recreation i.e. ball fields, gymnasiums, etc.
• Encourage and support the expansion of the Clay County Recreational Program to provide additional sports opportunities.
• Encourage and support the development of opportunities to share the fine arts with the community, i.e. art shows, theatrical presentations, musicals, etc.
• Encourage and support the efforts of the healthcare community in Clay County.
RESOLUTION

WHEREAS, the Fort Gaines City Council has completed the Community Agenda document as part of the twenty (20) year Comprehensive Plan Update; and

WHEREAS, these documents were prepared according to the Standards and Procedures for Local Comprehensive Planning effective May 1, 2005 and established by the Georgia Planning Act of 1989, and the required public hearing was held on May 4, 2009; and

NOW, THEREFORE BE IT RESOLVED, that the Fort Gaines City Council does hereby transmit the Community Agenda portion of the twenty (20) year Comprehensive Plan Update to the Lower Chattahoochee Regional Development Center and the Georgia Department of Community Affairs for official review.

Resolved this 22 day of June, 2009.

CLERK'S CERTIFICATE

I, the undersigned Clerk of the Board of Commissioners of Clay County, keeper of the records and seal thereof, hereby certify that the foregoing is a true and correct copy of a resolution adopted by the Board of Commissioners of Clay County in public meeting assembled on June 2nd, the original of which resolution has been entered in the official records of said political subdivision under my supervision and is in my official possession, custody and control.

Pamela Ward, County Administrator
RESOLUTION

WHEREAS, the Bluffton City Council has completed the Community Agenda document as part of the twenty (20) year Comprehensive Plan Update; and

WHEREAS, these documents were prepared according to the Standards and Procedures for Local Comprehensive Planning effective May 1, 2005 and established by the Georgia Planning Act of 1989; and

WHEREAS, the Minimum Standards and Procedures for Local Comprehensive Planning require that certain minimum public participation and other procedural requirements be met as part of updating local Comprehensive plans; with the final required public hearing held May 4, 2009; and

NOW, THEREFORE BE IT RESOLVED, that the Bluffton City Council does hereby transmit the Community Agenda portion of the twenty (20) year Comprehensive Plan Update to the Lower Chattahoochee Regional Development Center and the Georgia Department of Community Affairs for official review.

Resolved this 15 day of June, 2009.
