Celebrating Rural Georgia in Tifton

Celebrating Rural Georgia provided a forum for many of the state's business leaders, policy makers and elected officials to bring attention to the specific opportunities and challenges in Georgia. The day included the announcement of new Georgia Rural Development Council members and a swearing-in ceremony by Governor Nathan Deal. The day also included a keynote luncheon address by Agriculture Commissioner Gary Black, and a Leadership Panel moderated by Laura Meadows (Interim Director of CVIOG) featuring Commissioner Black, DCA Commissioner Mike Beatty, Labor Commissioner Mark Butler, and Governor's Office of Workforce Development Executive Director Tricia Pridemore during the afternoon. The Department looks forward to working with the Council and other state agencies to strengthen and enhance the communities and people of the resource-rich, agriculturally-strong rural areas of our state.

Consolidated Annual Performance and Evaluation Report: CAPER

We all know that state and federal government programs are full of acronyms. Here's another one that's worth knowing: CAPER, or the Consolidated Annual Performance and Evaluation Report. The Department's state fiscal year 2011 report details how Georgia spent $72,433,372 in federal funds from the Department of Housing and Urban Development (HUD). The CAPER outlines how the Department helped Georgia meet these goals:

- Improving and providing the Three A's of housing:
  - Accessibility
  - Affordability
  - Availability
- Creating suitable living environments for citizens statewide
- Promoting economic opportunity for citizens statewide

The report details how the Department, local governments and non-profit agencies used the following funds:

- Community Development Block Grant (CDBG)
- HOME Investment Partnership Programs (HOME)
- Emergency Shelter Grant (ESG)
- Housing Opportunities for People with AIDS (HOPWA)

Governor Deal Announces Rural Development Policy Center in Tifton

Governor Nathan Deal announced the opening of the OneGeorgia Rural Policy Center at the Agriculture Innovation Center on the University of Georgia Tifton Campus to provide a hub for research and innovation for rural development and foster success for rural Georgia. Many of Georgia's most important resources are located in rural areas: prime agricultural land, historic and natural resource attractions, and hard working and creative citizens. However, rural Georgia faces many challenges, and is ready for a multi-disciplinary approach to make the most of its assets.

Key to the new OneGeorgia Rural Policy Center is the partnership between the Georgia Department of Community Affairs and the University System of Georgia's Carl Vinson Institute of Government. Together with the OneGeorgia Authority, which will provide support through the state's tobacco settlement funds, the OneGeorgia Rural Policy Center will bring together the people and resources needed to keep rural Georgia a strong component in Georgia's economic

**Enterprise and Opportunity Zones:**
**Tools for Local Governments**

The Department oversees and provides technical assistance for two economic development tools for local governments: [Opportunity Zones](#) and [Enterprise Zones](#). An Opportunity Zone is an area designated by a local government to encourage job creation. When a new or existing business in the Opportunity Zone creates at least two jobs, that business is eligible for a Georgia State Job Tax Credit of $3,500 per job. Because many small businesses pay less than $7,000 in state income taxes, Georgia law allows corporations to apply the tax credit to their Payroll Taxes as well. This combined savings can make a substantial difference to business owners' annual budgets. An Enterprise Zone, like an Opportunity Zone, is a locally-designated area created to encourage job creation. In Enterprise Zones, local governments have the authority to abate property taxes for businesses in the zone.

When local governments combine both Enterprise and Opportunity Zones, businesses that invest in them can save substantial amounts of money. During these tough economic times, many local governments have chosen to create these zones to foster investment in less affluent areas. Commissioner Mike Beatty announced the [Cobb County Six Flags Opportunity Zone](#) earlier this month, bringing Georgia's total statewide to 62. "I really like this program," says Commissioner Beatty. "The Opportunity Zone incentive allows us to cut an expanding business' state taxes in exchange for investment and job creation. I believe former congressman Jack Kemp, who was a champion of this type of initiative, would be proud of our efforts." For additional information regarding Opportunity and Enterprise Zones, please contact Dawn Sturbaum at (404) 679-1585 or dawn.sturbaum@dca.ga.gov.
