Objective

- The requirements for fully completing the HSONline Organizational Information of the 2020 ESG Application

Background

□ Why do we collect this information?

Title 50. State Government

Chapter 20. Relations with Nonprofit Contractors

§50-20-1. Legislative intent

The General Assembly finds that the state has a right and a duty to monitor nonprofit organizations which contract with the state to ensure that their activities are in the public interest and to ensure that the public funds are used for proper purposes.

Background

□ Why do we collect this information?

§ 50-20-3. Requirements from nonprofit contractors; audits; political activities

(a) Before entering into a financial agreement with a nonprofit organization, the head of the contracting state organization shall require the nonprofit organization to furnish financial and such other information as he or she may deem necessary to establish whether or not the nonprofit organization is financially viable and capable of providing services contemplated in the contract and that the agreement does not violate Chapter 10 of Title 45 related to conflicts of interest. Such information may include financial statements, Internal Revenue Service exempt status determination letters, Internal Revenue Service exempt organization information returns, and other related materials.

Background

□ § 50-20-2. Definitions

(5) "Nonprofit organization" means any corporation, trust, association, cooperative, or other organization that is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest; is not organized primarily for profit; and uses its net proceeds to maintain, improve, or expand its operations. The term nonprofit organization includes nonprofit institutions of higher education and hospitals. For financial reporting purposes guidelines issued by the American Institute of Certified Public Accountants should be followed in determining nonprofit status.

Section 6: Organizations – Capacity Considerations

DCA is required by state law to perform due diligence around organizational capacity before making awards to nonprofit organizations. Funding decisions for non-profit agencies will be based, in part, on a review of the following:

- ❑ The complexity or nature of the request;
- ❑ Organizational structure, operating processes and capacity;
- ❑ The extent to which the organization operates under the authority of a diversified, involved, volunteer, community-based board of directors;
- ❑ Professional management;
- ❑ The consistency of the organization's identity or its mission to the provision of homeless or HIV (as applicable) services;

Section 6: Organizations – Capacity Considerations

- ❑ The extent to which the organization utilizes networks to avoid duplication of housing and services;
- ❑ Participation in appropriate provider groups and Continuums of Care;
- ❑ Sound operating procedures, accounting policy and controls;
- ❑ The presence and accuracy of financial management systems, accounts, funds, reports, tax returns, etc.;
- ❑ Unrestricted financial resources available to the agency; and
- ❑ Organizational and financial policy, controls, stability and capacity.

From the ESG regulations, "emergency shelter means any facility, the primary purpose of which is to provide a temporary shelter for the homeless in general or for specific populations of the homeless and which does not require occupants to sign leases or occupancy agreements." In limited cases emergency shelter may include hotel/motel vouchers. Shelter stays should be avoided, if possible, and when not possible, limited to the shortest time necessary to help participants regain permanent housing. Emergency shelter projects should be closely linked to an array of projects within the community in order to accomplish this goal of stable permanent housing including, but not limited to, rapid re-housing, transitional housing, affordable housing placement, and employment. Linkages should also be made to applicable mainstream projects such as SOAR, SNAP, TANF, etc

Applicants may apply for up to \$60,000 in funding.

ESG Guidelines

- ❑ ESG Application Guideline Manual will be emailed and placed on the ESG Page on the DCA website
- ❑ DCA will reserve a minimum of 80% of federal funds to be awarded to the DCA ESG entitlements area.
- ❑ State Housing Trust Fund ESG funds are not prioritized to service providers operating in the DCA ESG Entitlement, but are available to applicants across the state.

Fair Housing

- It is the policy of the Georgia Department of Community Affairs (DCA) to comply fully with all federal, state, and local nondiscrimination laws and to operate in accordance with the rules and regulations governing Fair Housing and Equal Opportunity in housing and employment. Specifically, DCA shall not on account of race, color, sex, religion, national origin, family status, disability or age deny any family or individual the opportunity to apply for or receive assistance under HUD's Program.

Homeless Participation

- To the maximum extent practicable (see also conflicts of interest prohibitions), grantees must involve homeless individuals and families in constructing, renovating, maintaining, and operating facilities assisted under ESG, in providing services assisted under ESG, and in providing services for occupants of facilities assisted under ESG.
- This involvement may include *employment or volunteer services*.

Affirmative Outreach

- ...grantees must make known that use of the facilities, assistance, and services are available to all on a nondiscriminatory basis. If it is unlikely that the procedures that the grantee intends to use to make known the availability of the facilities, assistance, and services will reach persons of any particular race, color, religion, sex, age, national origin, familial status, or disability who may qualify for those facilities and services, grantee must establish additional procedures that ensure that those persons are made aware of the facilities, assistance, and services.

Language Barriers

- ...ensure effective communication with persons with disabilities including, but not limited to, adopting procedures that will make available to interested persons information concerning the location of assistance, services, and facilities that are accessible to persons with disabilities. Consistent with Title VI and Executive Order 13166, grantees are also required to take reasonable steps to ensure meaningful access to programs and activities for limited English proficiency (LEP) persons.
