Mr. Joel Reed, AICP Southeast Market President Gorman & Company 200 N Main Oregon, WA 53575

Re: Application Market Study for 141 Sams Street (Subject), located in Decatur, Dekalb County, Georgia

Dear Mr. Reed:

At your request, Novogradac Consulting LLP performed a study of the multifamily rental market in the Decatur, Dekalb County, Georgia area relative to the above-referenced Low-Income Housing Tax Credit (LIHTC) project.

The purpose of this market study is to assess the viability of the proposed 58-unit family LIHTC project. It will be a newly constructed affordable LIHTC project, with 58 revenue generating units, restricted to households earning 50 and 60 percent of the Area Median Income (AMI) or less. The following report provides support for the findings of the study and outlines the sources of information and the methodologies used to arrive at these conclusions.

The scope of this report meets the requirements of Georgia Department of Community Affairs (DCA), including the following:

- Inspecting the site of the proposed Subject and the general location.
- Analyzing appropriateness of the proposed unit mix, rent levels, available amenities and site.
- Estimating market rent, absorption and stabilized occupancy level for the market area.
- Investigating the health and conditions of the multifamily market.
- Calculating income bands, given the proposed Subject rents.
- Estimating the number of income eligible households.
- Reviewing relevant public records and contacting appropriate public agencies.
- Analyzing the economic and social conditions in the market area in relation to the proposed project.
- Establishing the Subject Primary and Secondary Market Area(s) if applicable.
- Surveying competing projects, Low-Income Housing Tax Credit (LIHTC) and market rate.

Novogradac Consulting LLP adheres to the market study guidelines promulgated by the National Council of Housing Market Analysts (NCHMA).

This report contains, to the fullest extent possible and practical, explanations of the data, reasoning, and analyses that were used to develop the opinions contained herein. The report also includes a thorough analysis of the scope of the study, regional and local demographic and economic studies, and market analyses including conclusions. The depth of discussion contained in the report is specific to the needs of the client. Information included in this report is accurate and the report can be relied upon by DCA as a true assessment of the low-income housing rental market. This report is completed in accordance with DCA market study guidelines. We inform the reader that other users of this document may underwrite the LIHTC rents to a different standard than contained in this report.

MR. JOEL REED GORMAN & COMPANY MAY 19, 2021

The Stated Purpose of this assignment is for tax credit application. You agree not to use the Report other than for the Stated Purpose, and you agree to indemnify us for any claims, damages or losses that we may incur as the result of your use of the Report for other than the Stated Purpose. Without limiting the general applicability of this paragraph, under no circumstances may the Report be used in advertisements, solicitations and/or any form of securities offering.

The COVID-19 coronavirus has caused an international pandemic and we have seen governments across the globe take dramatic efforts to slow the spread and flatten the infection curve in order to reduce the strain on our health care system. We are already seeing these efforts result in extensive impacts to economic activity. However, governments are also implementing significant economic stimulus packages to help with the economic disruption. At this point is it unclear how successful the stimulus packages will be in terms of blunting the impact from the emergency measures. Further, it is unclear as to how these measures will impact the local housing market, although some general trends are observed:

- Clients and market participants throughout the country report April through February collections that were better than expected for all types of multifamily properties. According to a report from the National Multifamily Housing Council, February 2021 rent collections were down by 1.9 percentage points year-over-year from February 2020. Note that the apartments in this sample are market rate apartments in multifamily buildings and do not include affordable units. Through February 6, 2021, 9.2 percent of households made full or partial rent payments for February, according to the National Multifamily Housing Council. Although one-in-four renters did not pay their rent in the first week of the month, the majority of these missed payments are made up with late payments by the end of the month. A significant change in the market is not yet discernible and we continue to be relatively optimistic about the market's ability to weather the current economic storm.
- Based upon various conversations with market participants and published articles and webinars many believe that multifamily real estate will be impacted but significantly less so than other sectors. Further, the impact is expected be shorter lived. Many view multifamily as a safer haven during this period of uncertainty. The Subject will not be completed until February 2024, at which point the market is expected to be stabilized or have less uncertainty.
- Despite a surge in COVID-19 cases in Georgia in early July, the state has not placed restrictions on business closures during the pandemic. Notably, Governor Brian Kemp was one of the first governors to reopen his state. He also pushed back on local mask mandates but has since backtracked, allowing places like Atlanta to implement mask mandates. Mr. Kemp has continued extending the state's public health emergency and a shelter-in-place order for some medically vulnerable populations. As of January 2021; retail stores, restaurants, hair salons, barbershops, houses of worship, bowling alleys, theaters, private social clubs, large venues, bars, nightclubs, and gyms are open in Georgia.
- As of December 2020, unemployment is at 6.5 percent nationally. Historically the metropolitan statistical area has generally outpaced the nation in terms of employment growth and trailed the nation in terms of the unemployment rate. The impacts of the COVID-19 pandemic and associated economic downturn appear to have impacted the metropolitan statistical area as total employment contracted by 6.3 percent and the unemployment rate increased by 2.9 percentage points to 5.8 percent since December 2020, which is less than the nationwide employment contraction (5.6 percent) and increase in the unemployment rate (3.1 percent). Overall, the local economy has been impacted by the COVID-19 pandemic. However, nationwide, state, and city assistance programs both

for employees and businesses have reportedly and are expected to continue to mitigate these impacts.

- The impact of COVID-19 broadly on apartment operations in this market does not appear to have been significant as of the date of this report. One of the ten comparables reported an increase in tenants making late payments due to the pandemic, while the remaining nine comparables reported no significant impact to collections, occupancy, or traffic during the COVID-19 pandemic. The long-term impacts of COVID-19 on this market are yet to be seen; however, in the short-term the impact has been minimal.
- In March 2020, Congress passed a \$2 trillion stimulus bill to respond to the COVD-19 pandemic, with cash and assistance for households and businesses impacted by the virus. In December 2020, Congress passed an additional \$900 billion stimulus bill in further response to the pandemic. Additionally, the Biden administration has proposed \$1.9 trillion in further stimulus initiatives.

The authors of this report certify that we are not part of the development team, owner of the Subject property, general contractor, nor are we affiliated with any member of the development team engaged in the development of the Subject property or the development's partners or intended partners. Please do not hesitate to contact us if there are any questions regarding the report or if Novogradac Consulting LLP can be of further assistance. It has been our pleasure to assist you with this project.

Respectfully submitted, Novogradac Consulting LLP

#### **EXECUTIVE SUMMARY**

#### 1. Project Description

141 Sams Street (Subject) will be a newly constructed family property located at 141 Sams Street in Decatur, Dekalb County, Georgia, which will consist of one, six-story elevator serviced residential building in excellent condition. The following table illustrates the proposed unit mix.

#### **PROPOSED RENTS**

				_			
Unit Type	Unit Size (SF)	Number of Units	Asking Rent	Utility Allowance ( <b>1</b> )	Gross Rent	2020 LIHTC Maximum Allowable Gross Rent	HUD Fair Market Rents
			@50	%			
1BR / 1BA	700	5	\$674	\$101	\$775	\$775	\$465
2BR / 2BA	850	6	\$804	\$127	\$931	\$931	\$612
3BR / 2BA	1,100	1	\$914	\$161	\$1,075	\$1,075	\$818
			@609	%			
1BR / 1BA	700	18	\$829	\$101	\$930	\$930	\$465
2BR / 2BA	850	25	\$990	\$127	\$1,117	\$1,117	\$612
3BR / 2BA	1,100	3	\$1,129	\$161	\$1,290	\$1,290	\$818
		58					

Notes (1) Source of Utility Allowance provided by DCA - North Region, effective 1/1/2021

The Subject's proposed rents are set at the maximum allowable levels for each unit type and AMI level. The Subject will offer similar to slightly superior in-unit and community amenities in comparison to the LIHTC and market rate comparable properties. The Subject will offer in-unit washer/dryers and microwaves, as well as a swimming pool, which many of the LIHTC comparables will lack. In addition, the Subject will offer community Wi-Fi and adult education classes, which the majority of the comparables do not offer. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market.

#### 2. Site Description/Evaluation

North of the Subject site are commercial uses in average condition. Farther north, is the Avondale Transit Station and single-family homes in average. East of the Subject site is Cortland Decatur East in excellent condition. For the purpose of this report, Cortland Decatur East is included as a comparable. Farther east, is Derrydown Quads & Houses, a multifamily complex in average condition, followed by commercial uses in average condition, and single-family homes in average condition. For the purposes of this report, Derrydown Quads & Houses was not included as a comparable due to the condition of the property. South of the Subject site are commercial uses in average. Farther south is Talley Street Upper Elementary School, public administration buildings in excellent condition, and single-family homes in average to good condition. West of the Subject site are commercial uses in average condition. Based on our inspection of the neighborhood, retail appeared to be 90 percent occupied. The Subject site is considered "Somewhat Walkable" by *Walkscore* with a rating of 59 out of 100. However, the Subject site has close proximity to the Avondale Transit Station, approximately 0.1 mile from the Subject site. The Subject site is considered a desirable building site for rental housing. The Subject site is located in a mixed-use neighborhood. The uses surrounding the Subject are in average condition and the site has good proximity to locational amenities, most of which are within 1.5 miles of the Subject site.

#### 3. Market Area Definition

The PMA consists of a portion of central Dekalb county, with boundaries generally defined by State Route 236 to the north, Interstate 285 to the east, Interstate 20 to the south, and State Route 42 and U.S. Route 23 to the west. The PMA boundaries are supported by interviews with local property managers and the average drive time of individuals in the PMA. The distances from the Subject to the farthest boundaries of the PMA in each direction are listed as follows:

North: 4.1 miles East: 4.5 miles South: 4.6 miles West: 4.3 miles

The PMA is defined based on interviews with the local housing authority and property managers at comparable properties. Many property managers indicated that a significant portion of their tenants come from outside the county. While we do believe the Subject will experience leakage from outside the PMA boundaries, per the 2021 market study guidelines, we do not account for leakage in our demand analysis found later in this report. The farthest PMA boundary from the Subject is approximately 4.6 miles. The SMA is defined as the Atlanta-Sandy Springs-Alpharetta, GA Metropolitan Statistical Area (MSA), which consists of 30 counties in northwest Georgia and encompasses 8,726 square miles.

#### 4. Community Demographic Data

Between 2010 and 2020, there was approximately 0.8 percent annual growth in population in the PMA, which was less than that of the MSA and generally similar to that of the national population over the same time period. Total population in the PMA is projected to increase at a rate of 1.2 annually from 2020 through projected market entry and 2025, which is a growth rate below that of the MSA and above the nation as a whole during the same time period. The current population of the PMA is 149,182 and is expected to be 158,426 in 2025. The current number of households in the PMA is 62,803 and is expected to be 67,088 in 2025. Renter households are concentrated in the lowest income cohorts, with 32.2 percent of renters in the PMA earning between \$10,000 and \$39,999 annually. The Subject will target households earning between \$25,611 and \$51,660. Therefore, the Subject should be well-positioned to service this market. Overall, population growth in the PMA and the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

According to *RealtyTrac* statistics, one in every 11,464 housing units nationwide was in some stage of foreclosure as of April 2021. The City of Decatur is experiencing a foreclosure rate of one in every 8,710 homes, while Dekalb County is experiencing foreclosure rate of one in every 12,824 homes and Georgia experienced one foreclosure in every 10,889 housing units. Overall, Decatur is experiencing a higher foreclosure rate than Dekalb County the state of Georgia, and the overall nation. The Subject's neighborhood does not have a significant amount of abandoned or vacant structures that would impact the marketability of the Subject.

#### 5. Economic Data

Employment in the PMA is concentrated in the educational services, professional/scientific/technical services, and healthcare/social services industries, which collectively comprise 45.8 percent of local employment. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, professional/scientific/technical services, and healthcare/social services industries. Conversely, the PMA is underrepresented in the manufacturing, retail trade, and construction industries. The overconcentration of healthcare/social services and educational services employment will make the Subject area less susceptible to employment losses from the ongoing COVID-19 pandemic than the nation overall. Further, the location within a large and diversified metropolitan area should provide stability to the area workforce.

Prior to the national recession, average employment growth in the MSA generally exceeded the nation. Annual job growth in the MSA outpaced the nation in every year between 2004 and 2007. The effects of the recession were particularly pronounced in the MSA, which suffered a 6.3 percent contraction in employment growth (2007-2010), well above the 4.9 percent contraction reported by the nation as a whole (2007-2010). Employment in the MSA recovered and surpassed pre-recessionary levels in 2014, the same year as the overall nation. Since 2012, job growth in the MSA generally exceeded the nation. Due to the COVID-19 pandemic, employment totals in the 12-month period prior to December 2020 saw a decrease of 4.4 percent, compared to a decrease of 5.6 percent experienced by the nation over the same length of time. Employment growth is expected to be limited in the coming months as a result of the COVID-19 pandemic. Despite a surge in COVID-19 cases in Georgia in early July, the state has not placed restrictions on business closures during the pandemic. Notably, Governor Brian Kemp was one of the first governors to reopen his state. He also pushed back on local mask mandates but has since backtracked, allowing places like Atlanta to implement mask mandates. Mr. Kemp has continued extending the state's public health emergency and a shelter-in-place order for some medically vulnerable populations. A return to full economic potential is unlikely while the global health crisis continues.

The MSA experienced a lower average unemployment rate relative to the overall nation during the years preceding the recession. The effects of the recession were more pronounced in the MSA, which experienced a 5.6 percentage point increase in unemployment, compared to only a 5.0 percentage point increase across the overall nation. Since 2012, the MSA generally experienced a higher unemployment rate compared to the overall nation. As a result of the COVID- 19 pandemic and stay-at-home orders, record national unemployment claims began in March 2020 and will likely continue in the near future. We anticipate the unemployment rate in the MSA will remain elevated in the coming months. It is unclear how severely the regional economy has been affected and how temporary in nature any increase in unemployment will be for the MSA.

Beginning in March 2020, the international pandemic caused by the COVID-19 coronavirus resulted in governments across the globe taking dramatic efforts to slow the spread and flatten the infection curve in order to reduce the strain on our health care system. Consequently, over the past two months there has been a sharp and dramatic increase in layoffs due to the economic restrictions related to the emergency response. However, governments have passed significant economic stimulus packages to help in offsetting the economic impact. Local governments have begun to lift or loosen restrictions and the stimulus passed thus far has blunted some of the impact from the emergency measures. It remains unclear as to how these measures will impact the housing market long term. However, based on the data available through 12 months, which indicates some multifamily real estate transactions have continued to close without repricing and rent collection losses during this period have declined less than projected, the governmental response has offset a significant portion of the economic losses presented by the emergency. There is evidence that, despite the significant level of recent layoffs, many other area employers are hiring. Overall, we anticipate that the elevated layoff pace will subside now that economic restrictions have been loosened in the Subject's market area. We believe that the Subject's affordable operation will make it more likely to weather the current economic challenges due to COVID-19 better than average (as compared with other multifamily developments).

#### 6. Project-Specific Affordability and Demand Analysis

The following table illustrates the demand and capture rates for the Subject's proposed units.

$C \setminus DT$	IIDE D	ATC /	ANALYSIS	CUADT
CAFI		41E #	AINALISIS	CHARI

Unit Type	Minimum Income	Maximum Income	Units Proposed	Total Demand	Supply	Net Demand	Capture Rate	Proposed Rents
1BR @50%	¢06 574	¢22.400	5	1 100	0	1.198	0.4%	\$674
	\$26,571	\$33,100		1,198	-	,	_	• -
1BR @60%	\$31,886	\$34,740	18	1,327	61	1,266	1.4%	\$829
1BR Overall	\$26,571	\$34,740	23	1,690	61	1,629	1.4%	-
2BR @50%	\$31,920	\$37,250	6	973	0	973	0.6%	\$804
2BR @60%	\$38,297	\$44,700	25	1,077	107	970	2.6%	\$990
2BR Overall	\$31,920	\$44,700	31	1,372	107	1,265	2.5%	-
3BR @50%	\$36,857	\$44,700	1	476	0	476	0.2%	\$814
3BR @60%	\$44,229	\$53,640	3	527	51	476	0.6%	\$1,129
3BR Overall	\$36,857	\$53,640	4	672	51	621	0.6%	-
@50% Overall	\$26,571	\$44,700	12	2,647	0	2,647	0.5%	-
@60% Overall	\$31,886	\$53,640	46	2,932	219	2,713	1.7%	-
Overall	\$26,571	\$53,640	58	3,734	219	3,515	1.7%	

We believe these calculated capture rates are reasonable, particularly as these calculations do not consider demand from outside the PMA or standard rental household turnover. All capture rates are within Georgia DCA thresholds.

#### 7. Competitive Rental Analysis

Comparable properties are examined on the basis of physical characteristics, i.e. building type, age/quality, level of common amenities, absorption, as well as similarity in rent. We attempted to compare the Subject to complexes from the competing market to provide a broader picture of the health and available supply in the market. Our competitive survey includes 14 "true" comparable properties containing 2,188 units.

The availability of LIHTC data is considered good. We included seven LIHTC comparables in our analysis, all of which are located within the PMA, between 1.6 and 4.0 miles of the Subject. The comparables were built or renovated between 1999 and 2020.

The availability of market rate data is considered good. The Subject is located in Decatur and there are many market rate properties in the area. We included seven market rate properties located between 0.3 and 1.6 miles from the Subject site, all of which are located within the PMA. These comparables were built or renovated between the 2000 and 2019. Overall, we believe the market rate properties we used in our analysis are the most comparable. Other market rate properties were excluded based on proximity, condition, and unit mix.

When comparing the Subject's rents to the average comparable rent, we do not include surveyed rents at lower AMI levels given that this artificially lowers the average surveyed rent. Including rents at lower AMI levels does not reflect an accurate average rent for rents at higher income levels. For example, if the Subject offers rents at the 50 and 60 percent of AMI levels, and there is a distinct difference at comparable properties between rents at the two AMI levels, we do not include the 50 percent of AMI rents in the average comparable rent for the 60 percent of AMI comparison.

The overall average and the maximum and minimum adjusted rents for the comparable properties surveyed are illustrated in the table below in comparison with net rents for the Subject.

SUBJECT	COMPARISO	N TO MA	RKET RENTS
JUDIECI	CUMPARISO		KINEI KENIS

Unit Type	Rent Level	Subject Pro Forma Rent	Surveyed Min	Surveyed Max	Surveyed Average	Subject Rent Advantage
1BR / 1BA	@50%	\$674	\$653	\$2,104	\$1,233	-45%
2BR / 2BA	@50%	\$804	\$721	\$2,317	\$1,446	-44%
3BR / 2BA	@50%	\$914	\$815	\$3,144	\$1,643	-44%
1BR / 1BA	@60%	\$829	\$779	\$2,104	\$1,335	-38%
2BR / 2BA	@60%	\$990	\$798	\$2,317	\$1,556	-36%
3BR / 2BA	@60%	\$1,129	\$1,061	\$3,144	\$1,826	-38%

As illustrated, the Subject's proposed 50 and 60 percent rents are below the surveyed average when compared to the comparables. These rents offer an advantage of 36 to 45 percent over the surveyed average of the comparable properties.

The Place On Ponce is achieving the highest unrestricted rents in the market. The Subject will be inferior to The Place On Ponce as a market rate property. The Place On Ponce was built in 2015 and exhibits good condition, which is slightly inferior to the anticipated excellent condition of the Subject upon completion. The Place On Ponce is located 1.0 miles from the Subject site and offers a slightly superior location. The Place On Ponce offers superior in-unit amenities compared to the Subject, but similar property amenities in comparison to the Subject. The Place On Ponce offers superior unit sizes to the Subject. The lowest one, two, and three-bedroom rents at The Place On Ponce are approximately 91 to 165 percent higher than the Subject's proposed rents at 60 percent of the AMI. Overall, we believe that the Subject's proposed rents are achievable in the market and will offer an advantage when compared to the average rents being achieved at comparable properties.

#### 8. Absorption/Stabilization Estimate

The following table details absorption data in the area.

#### **ABSORPTION**

Property name	Туре	Tenancy	Year Built	Number of Units	Units Absorbed / Month
Gardenside At The Villages Of East Lake	LIHTC	Family	2020	108	11
Oakview Walk	LIHTC	Family	2019	34	4
Cortland Decatur East	Market	Family	2019	378	12
The Point On Scott	Market	Family	2016	250	13
The Reserve At Decatur	Market	Family	2016	298	14
Columbia Mill	LIHTC	Family	2014	100	20
Retreat At Edgewood Phase II	LIHTC	Family	2012	40	12
Retreat At Edgewood	LIHTC	Family	2011	100	20
Average				164	13

Per DCA guidelines, we calculated the absorption to 93 percent occupancy. The properties experienced absorption rates ranging from four to 20 units per month, with an average of 13 units per month. Based upon the surveyed properties, we expect the Subject to experience an absorption pace of nine to 10 units per month, which equates to an absorption period of approximately five to six months for the Subject to reach 93 percent occupancy. It should be noted that construction on the Subject is not anticipated to be completed until February 2024, which is considered outside of the primary window from the COVID-19 pandemic.

#### 9. Overall Conclusion

Based upon our market research, demographic calculations and analysis, we believe there is adequate demand for the Subject property as proposed. Total vacancy at the LIHTC and mixed-income comparables is low, at 1.8 percent. It should be noted that management at Columbia Village reported that units are being held offline for proposed renovations. Excluding this property, the overall vacancy among the LIHTC comparables is 0.2 percent. Further, five of the seven LIHTC comparables reported being fully occupied. These factors indicate significant demand for affordable housing in the area. The Subject will offer similar to slightly superior in-unit and community amenities in comparison to the LIHTC and market rate comparable properties. The Subject will offer in-unit washer/dryers and microwaves, as well as a swimming pool, which many of the LIHTC comparables will lack. In addition, the Subject will offer community Wi-Fi and adult education classes, which the majority of the comparables do not offer. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As new construction, the Subject will be in excellent condition upon completion and will be considered similar to superior in terms of condition to the majority of the comparable properties. The Subject's proposed unit sizes will be competitive with the comparable properties. Additionally, the Subject's proposed rents are among the lowest in the market. Given the Subject's anticipated superior condition relative to the competition and the demand for affordable housing evidenced by waiting lists and low vacancy at several LIHTC comparable properties, we believe that the Subject is reasonable as proposed. We believe that it will fill a void in the market and will perform well. Further, we believe that the Subject's affordable operation will make it more likely to weather the current economic challenges due to COVID-19 better than average (as compared with other multifamily developments). The timing of the Subject's construction will further insulate it from the current COVID-19 pandemic.

#### **PROJECT DESCRIPTION**

1. Project Address and The Subject site is located at 141 Sams Street in Decatur, Dekalb **Development Location:** 

County, Georgia 30030. The Subject site is currently improved with

an office building set for demolition.

2. Construction Type: The Subject will consist of one, six-story elevator serviced building.

The Subject will be new construction.

3. Occupancy Type: Families.

4. Special Population Target: None.

5. Number of Units by Bedroom

Type and AMI Level:

See following property profile.

6. Unit Size, Number of Bedrooms

and Structure Type:

**10. Scope of Renovations:** The Subject will be new construction.

**11. Placed in Service Date:** Construction on the Subject is expected to begin in October 2022 and

be completed in February 2024.

Conclusion: The Subject will be an excellent-quality -six-story, elevator serviced

apartment complex, similar or superior to most of the inventory in the area. As new construction, the Subject will not suffer from deferred maintenance, functional obsolescence, or physical deterioration.

**1.** Date of Site Visit and Name of Jay Cole visited the site on May 13, 2021. Inspector:

2. Physical Features of the Site: The following illustrates the physical features of the site.

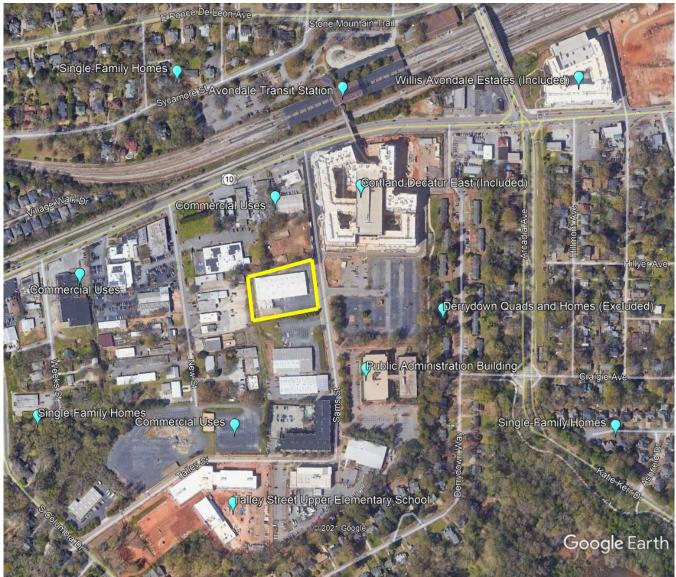

Frontage: The Subject site has frontage along the west side of Sams Street.

Visibility/Views: Visibility and views from the site will be good and initially will include

the Cortland Decatur East, a multifamily property in good condition, to the east and commercial uses in average to good condition to the

north, south, and west.

**Surrounding Uses:** The following map illustrates the surrounding land uses.

The Subject site is located along the west side of Sams Street. The Subject site is currently improved with an office building set for demolition. North of the Subject site are commercial uses in average condition. East of the Subject site is Cortland Decatur East in excellent condition. For the purpose of this report, Cortland Decatur East is included as a comparable. South of the Subject site are commercial uses in average. West of the Subject site are commercial uses in average condition. Based on our inspection of the neighborhood, retail appeared to be 90 percent occupied. The Subject site is considered "Somewhat Walkable" by Walkscore with a rating of 59 out of 100. However, the Subject site has close proximity to the Avondale Transit Station, approximately 0.1 mile from the Subject site. The Subject site is considered a desirable building site for rental housing. The Subject site is located in a mixed-use neighborhood. The uses surrounding the Subject are in average to excellent condition and the site has good proximity to locational amenities, most of which are within 1.5 miles of the Subject site.

Positive/Negative Attributes of Site:

The Subject's proximity to retail and other locational amenities as well as its surrounding uses, which are in average to excellent condition, are considered positive attributes. Additionally, the Subject site is within close proximity to the Avondale Transit Station, which provide convenient access to employment centers in the area. No detrimental uses were identified during our inspection of the site.

3. Physical Proximity to Locational Amenities:

The Subject site is located within 2.4 miles of all locational amenities, most of which are within one mile.

4. Pictures of Site and Adjacent Uses:

The following are pictures of the Subject site and adjacent uses.

#### 5. Proximity to Locational Amenities:

The following table details the Subject's distance from key locational amenities.

#### **LOCATIONAL AMENITIES**

Map #	Service or Amenity	Service or Amenity  Distance from Map # Subject (Crow)		Service or Amenity	Distance from Subject (Crow)
1	Bus Stop	0.1 miles	9	Post Office	0.8 miles
2	Talley Street Upper Elementary School	0.2 miles	10	CVS Pharmacy	0.9 miles
3	Avondale Transit Station	0.2 miles	11	Carl G. Renfroe Middle School	1.0 miles
4	Chevron	0.4 miles	12	<b>Emory Decatur Hospital</b>	1.3 miles
5	Decatur Fire Department	0.6 miles	13	Walmart Supercenter	1.4 miles
6	DeKalb County Public Library	0.6 miles	14	Kroger	1.5 miles
7	Decatur High School	0.8 miles	15	BB&T	1.7 miles
8	Avondale Park	0.8 miles	16	Dekalb County Police Department	2.4 miles

#### 6. Description of Land Uses

North of the Subject site are commercial uses in average condition. Farther north, is the Avondale Transit Station and single-family homes in average. East of the Subject site is Cortland Decatur East in excellent condition. For the purpose of this report, Cortland Decatur East is included as a comparable. Farther east, is Derrydown Quads & Houses, a multifamily complex in average condition, followed by commercial uses in average condition, and single-family homes in average condition. For the purposes of this report, Derrydown Quads & Houses was not included as a comparable due to the condition of the property. South of the Subject site are commercial uses in average. Farther south is Talley Street Upper Elementary School, public administration buildings in excellent condition, and singlefamily homes in average to good condition. West of the Subject site are commercial uses in average condition. Based on our inspection of the neighborhood, retail appeared to be 90 percent occupied. The Subject site is considered "Somewhat Walkable" by Walkscore with a rating of 59 out of 100. However, the Subject site has close proximity to the Avondale Transit Station, approximately 0.1 mile from the Subject site. The Subject site is considered a desirable building site for rental housing. The Subject site is located in a mixed-use neighborhood. The uses surrounding the Subject are in average condition and the site has good proximity to locational amenities, most of which are within 1.5 miles of the Subject site.

#### 7. Crime:

The following table illustrates crime statistics in the Subject's PMA compared to the MSA.

#### 2020 CRIME INDICES

20	20 OILIME INDIGEO	
		Atlanta-Sandy Springs-
	PMA	Alpharetta, GA Metropolitan
		Statistical Area
Total Crime*	244	134
Personal Crime*	213	124
Murder	290	149
Rape	167	86
Robbery	299	154
Assault	175	113
Property Crime*	249	136
Burglary	263	144
Larceny	233	129
Motor Vehicle Theft	340	169

Source: Esri Demographics 2020, Novogradac Consulting LLP, April 2021

Total crime risk indices in the PMA are above the national average, and the surrounding MSA. Both geographic areas feature crime risk indices above the overall nation. The Subject will offer controlled access and video surveillance in terms of security amenities. All of the comparables offer at least one security feature, similar to the Subject. Thus, we believe the Subject's security features are market-oriented.

<sup>\*</sup>Unweighted aggregations

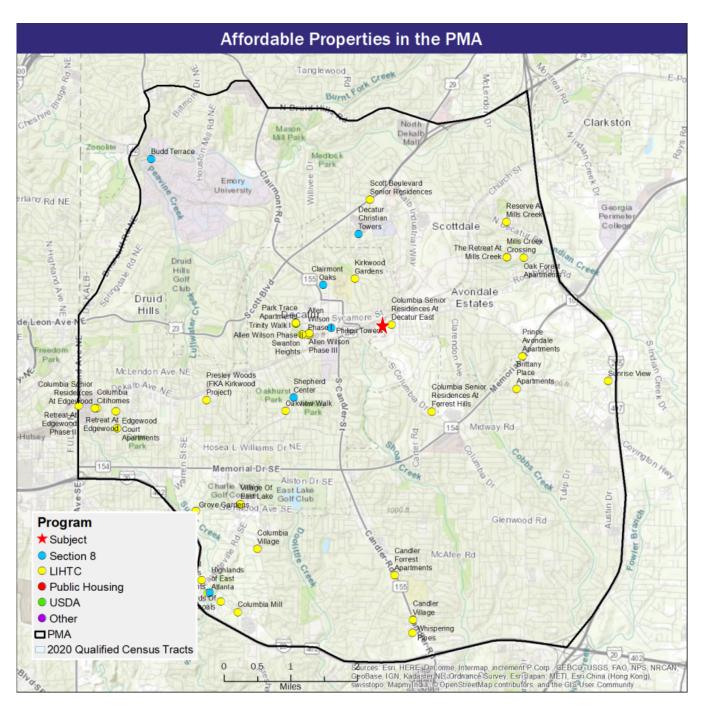

#### **Property Map:**

8. Existing Assisted Rental Housing The following map and list identifies all assisted rental housing properties in the PMA.

- 9. Road, Infrastructure or Proposed Improvements:
- We did not witness any road, infrastructure or proposed improvements during our field work.
- 10. Access, Ingress-Egress and Visibility of Site:

The Subject site will be accessible from Sams Street, which is a lightly-trafficked road that traverse north and south and provides access to U.S. Route 278 (College Avenue) approximately 0.1 mile north of the Subject site. U.S. Route 278 is a highly trafficked U.S. Highway that traverses northwest and southeast and provides access

to Interstate 285 approximately two miles northeast of the Subject site and downtown Atlanta approximately six miles to the west. Additionally, Interstate 285 is a major thoroughfare that circumnavigates the Atlanta metropolitan area and provides access to many employment centers in the area. Additionally, Interstate 285 provides access to Interstate 20 approximately five miles to the southeast, and to Interstate 75 approximately 13 miles northwest of the Subject site. Overall, access and visibility are considered good.

11. Conclusion:

The Subject site is located along Sams Street, just south of U.S. Route 278 (College Avenue). The Subject site is considered "Somewhat Walkable" by Walkscore with a rating of 59 out of 100. Total crime risk indices in the PMA are above the national average, and the surrounding MSA. Both geographic areas feature crime risk indices above the overall nation. The uses surrounding the Subject range from average to excellent condition. The Subject site is located in a mixed-use neighborhood, with many single-family homes and commercial uses nearby. The Subject's locational amenities are located within 2.4 miles of the Subject site. The Subject site is considered an excellent building site for rental housing given its close proximity to commercial uses, major arteries, transportation, and new construction residential development.

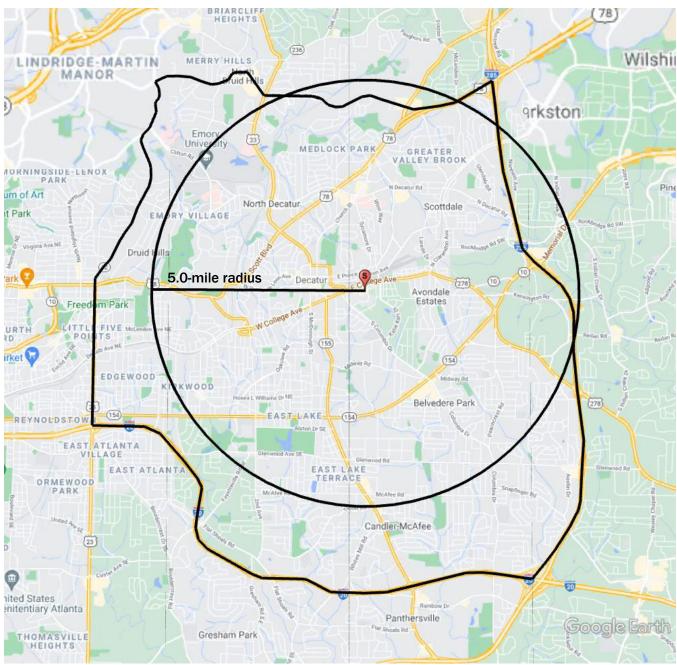

#### **PRIMARY MARKET AREA**

For the purpose of this study, it is necessary to define the market area, or the area from which potential tenants for the project are likely to be drawn. In some areas, residents are very much "neighborhood oriented" and are generally very reluctant to move from the area where they have grown up. In other areas, residents are much more mobile and will relocate to a completely new area, especially if there is an attraction such as affordable housing at below market rents.

#### **Primary Market Area Map**

Source: Google Earth, May 2021

The following sections will provide an analysis of the demographic characteristics within the market area. Data such as population, households and growth patterns will be studied, to determine if the Primary Market Area (PMA) and the MSA are areas of growth or contraction.

The PMA consists of a portion of central Dekalb county, with boundaries generally defined by State Route 236 to the north, Interstate 285 to the east, Interstate 20 to the south, and State Route 42 and U.S. Route 23 to the west. The PMA boundaries are supported by interviews with local property managers and the average drive time of individuals in the PMA. The distances from the Subject to the farthest boundaries of the PMA in each direction are listed as follows:

North: 4.1 miles East: 4.5 miles South: 4.6 miles West: 4.3 miles

The PMA is defined based on interviews with the local housing authority and property managers at comparable properties. Many property managers indicated that a significant portion of their tenants come from outside the county. While we do believe the Subject will experience leakage from outside the PMA boundaries, per the 2021 market study guidelines, we do not account for leakage in our demand analysis found later in this report. The farthest PMA boundary from the Subject is approximately 4.6 miles. The SMA is defined as the Atlanta-Sandy Springs-Alpharetta, GA Metropolitan Statistical Area (MSA), which consists of 30 counties in northwest Georgia and encompasses 8,726 square miles.

## F. COMMUNITY DEMOGRAPHIC DATA

#### **COMMUNITY DEMOGRAPHIC DATA**

The following sections will provide an analysis of the demographic characteristics within the market area. Data such as population, households and growth patterns will be studied to determine if the Primary Market Area (PMA) and Atlanta-Sandy Springs-Alpharetta, GA MSA are areas of growth or contraction. The discussions will also describe typical household size and will provide a picture of the health of the community and the economy. The following demographic tables are specific to the populations of the PMA and MSA. The Subject's anticipated completion is in February 2024.

#### **1. Population Trends**

The following tables illustrate Total Population and Population by Age Group within the population in the MSA, the PMA and nationally from 2000 through 2025.

#### **Total Population**

The following table illustrates the total population within the PMA, MSA and nation from 2000 through 2025.

#### **POPULATION**

	Atlanta-Sandy Springs-								
Year	PMA		Alpharetta, GA Metropolitan		USA				
	Statistical Area								
	Number	Annual Change	Number	Annual Change	Number	Annual Change			
2000	153,003	-	4,240,804	-	280,304,282	-			
2010	137,833	-1.0%	5,286,728	2.5%	308,745,538	1.0%			
2020	149,182	0.8%	6,049,686	1.4%	333,793,107	0.8%			
Projected Mkt Entry	155.807	1.2%	6.364.210	1.5%	342.556.632	0.7%			
February 2024	133,007	1.270	0,504,210	1.570	342,330,032	0.1 70			
2025	158,426	1.2%	6,488,557	1.5%	346,021,282	0.7%			

Source: Esri Demographics 2020, Novogradac Consulting LLP, May 2021

Between 2010 and 2020, there was approximately 0.8 percent annual growth in population in the PMA, which was less than that of the MSA and generally similar to the national population over the same time period. Total population in the PMA is projected to increase at a rate of 1.2 annually from 2020 through projected market entry and 2025, which is a growth rate below that of the MSA and above the nation as a whole during the same time period. Overall, we believe that population growth in the PMA and MSA is a positive indication of demand for the Subject's proposed units.

# **Total Population by Age Group**

The following table illustrates the total population within the PMA and MSA and nation from 2000 to 2025.

POPULATION BY AGE GROUP

Between 2010 and 2020, the PMA experienced positive household growth at a rate below that of the MSA and above the nation. Over the next five years, households in the PMA are expected to grow at a rate of 1.4 percent, which is a growth rate slightly below that of the MSA and above that of the nation as a whole during the same time period. The average household size in the PMA is smaller than the national average at 2.25 persons in 2020. Over the next five years, the average household size is projected to remain relatively similar.

#### **Households by Tenure**

The table below depicts household growth by tenure from 2000 through 2025.

#### **TENURE PATTERNS PMA**

Year	Owner-Occupied Units	Percentage Owner-Occupied	Renter-Occupied Units	Percentage Renter-Occupied
2000	34,732	58.4%	24,739	41.6%
2020	31,324	49.9%	31,479	50.1%
Projected Mkt Entry February 2024	32,024	48.6%	33,850	51.4%
2025	32,301	48.1%	34,787	51.9%

Source: Esri Demographics 2020, Novogradac Consulting LLP, May 2021

As the table illustrates, households within the PMA reside in mostly renter-occupied residences. Nationally, approximately two-thirds of the population resides in owner-occupied housing units, and one-third resides in renter-occupied housing units. Therefore, there is a significantly higher percentage of renters in the PMA compared to the nation. Further, this percentage and the number of renter-occupied households is projected to increase slightly over the next five years. The large percentage of renter-occupied residences in the PMA bodes well for the Subject.

#### **Household Income**

The following table depicts renter household income in the PMA in 2020, market entry, and 2025.

RENTER HOUSEHOLD INCOME DISTRIBUTION - PMA

The Subject will target tenants earning between \$26,571 and \$53,640. As the table above depicts, approximately 32.2 percent of renter households in the PMA are earning incomes between \$10,000 and \$39,999, which is less than the 34.4 percent of renter households in the MSA in 2020. For the projected market entry date of February 2024, these percentages are projected to slightly decrease to 28.8 and 31.4 percent in the PMA and MSA.

### Renter Households by Number of Persons in the Household

The following table illustrates household size for all households in 2020, market entry and 2025. To determine the number of renter households by number of persons per household, the total number of households is adjusted by the percentage of renter households.

**RENTER HOUSEHOLDS BY NUMBER OF PERSONS - PMA** 

			Projected Mi	kt Entry February		
Household Size	20	)20	2	2024	2	2025
	Number	Percentage	Number	Percentage	Number	Percentage

Source: HISTA Data / Ribbon Demographics 2020, Novogradac Consulting LLP, May 2021

The majority of renter households in the PMA are one to three-person households, indicating the presence of families.

#### **Conclusion**

Between 2010 and 2020, there was approximately 0.8 percent annual growth in population in the PMA, which was less than that of the MSA and generally similar to that of the national population over the same time period. Total population in the PMA is projected to increase at a rate of 1.2 annually from 2020 through projected market entry and 2025, which is a growth rate below that of the MSA and above the nation as a whole during the same time period. The current population of the PMA is 149,182 and is expected to be 158,426 in 2025. The current number of households in the PMA is 62,803 and is expected to be 67,088 in 2025. Renter households are concentrated in the lowest income cohorts, with 32.2 percent of renters in the PMA earning between \$10,000 and \$39,999 annually. The Subject will target households earning between \$26,571 and \$53,640. Therefore, the Subject should be well-positioned to service this market. Overall, population growth in the PMA and the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

### **Employment Trends**

Dekalb County encompasses the city of Decatur, which is easily accessed via Interstates 75, 285, 85 and 20. The largest industries in the PMA are the educational services, professional/scientific/technical services, and healthcare/social services industries. These industries account for 45.8 percent of total employment within the PMA. Many of Dekalb County's major employers are within close proximity of the subject site. Renal Division-Emory University, Emory University, and Emory Clinic are the three largest employers in the county, each with more than 10,000 employed at several locations throughout the county.

## 1. Covered Employment

The following table illustrates the total jobs (also known as "covered employment") in Dekalb County, Georgia. Note that the data below is the most recent data available.

COVERED EMPLOYMENT Dekalb County, Georgia

YTD as of May 2021

As illustrated in the table above, DeKalb County experienced a weakening economy during the national recession. Employment growth in DeKalb County started recovering in 2011 and has continued to increase through 2019. Total employment in DeKalb County surpassed pre-recessionary levels in 2017. In the period between March 2020 and March 2021, total employment in DeKalb County decreased 1.5 percent. Total employment data suggests the economy of DeKalb County has fully recovered from the most recent national recession and was in an expansionary phase prior to the COVID-19 pandemic, which is discussed and analyzed in further detail following in this sections.

# 2. Total Jobs by Industry

The following table illustrates the total jobs by employment sectors within Dekalb County as of the fourth quarter of 2019. Note that the data below is the most recent data available.

TOTAL JOBS BY INDUSTRY DeKalb County, GA - Q4 2019

	Number	Percent

Source: Esri Demographics 2020, Novogradac Consulting LLP, May 2021

Employment in the PMA is concentrated in the educational services, professional/scientific/technical services, and healthcare/social services industries, which collectively comprise 45.8 percent of local employment. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, professional/scientific/technical services, and healthcare/social services industries. Conversely, the PMA is underrepresented in the manufacturing, retail trade, and construction industries. The overconcentration of healthcare/social services and educational services employment will make the Subject area less susceptible to employment losses from the ongoing COVID-19 pandemic than the nation overall. Further, the location within a large and diversified metropolitan area should provide stability to the area workforce.

# 3. Major Employers

The table below shows the largest employers in Dekalb County, Georgia.

# MAJOR EMPLOYERS DEKALB COUNTY

Employer Name	Industry	# Of Employees
Renal Division-Emory University	Healthcare/Social Assistance	10,000+
Emory University	Healthcare/Social Assistance	10,000+
Emory Clinic	Healthcare/Social Assistance	5,000 to 9,999
<b>Emory Decatur Hospital Pharmacy</b>	Healthcare/Social Assistance	1,000 to 4,999
Dekalb County Police	Public Administration	1,000 to 4,999
Centers For Disease Control	Healthcare/Social Assistance	1,000 to 4,999
Georgia State University Perimeter	<b>Educational Services</b>	1,000 to 4,999
Emory Decatur Hospital	Healthcare/Social Assistance	1,000 to 4,999
Fisher Investments	Finance/Insurance	1,000 to 4,999
Intercontinental Hotels Group	Accommodation/Food Services	1,000 to 4,999

Source: Georgia Department of Labor, May 2021

Major employers in DeKalb County include companies in the healthcare/social assistance, education, public administration, finance/insurance, and accommodation/food services industries. Healthcare, education, and public administration are historically stable industries. The significant employment in the healthcare/social assistance and educational services sectors should provide stability to the area workforce during the current pandemic.

#### **Expansions/Contractions**

The following table illustrates the layoffs and closures of significance that occurred or were announced since January 1, 2018 in DeKalb County according to the Georgia Department of Labor.

Source: Georgia Department of Labor, May 2021.

As illustrated in the above table, there have been 2,983 employees in the area impacted by layoffs or closures since 2018. However, beginning in March 2020, the international pandemic caused by the COVID-19 coronavirus resulted in governments across the globe taking dramatic efforts to slow the spread and flatten the infection curve in order to reduce the strain on our health care system. Consequently, over the past year there has been a sharp and dramatic increase in layoffs due to the economic restrictions related to the emergency response.

However, governments have passed significant economic stimulus packages to help in offsetting the economic impact. Local governments have begun to lift or loosen restrictions and the stimulus passed thus far has

blunted some of the impact from the emergency measures. It remains unclear as to how these measures will impact the housing market long term. However, based on the data available through 14 months, which indicates some multifamily real estate transactions have continued to close without repricing and rent collection losses during this period have declined less than projected, the governmental response has offset a significant portion of the economic losses presented by the emergency. There is evidence that, despite the significant level of recent layoffs, many other area employers are hiring. Overall, we anticipate that the elevated layoff pace will subside now that economic restrictions have been loosened in the Subject's market area.

We previously spoke with Toyasha Vaughn of the Development Authority of DeKalb County. Ms. Vaughn provided us with a list of recent business expansions. Further, the list is compiled using a variety of sources, including the Atlanta Business Chronicle, the Atlanta Journal-Constitution, company websites, the Georgia Department of Economic Development, Georgia Power Community & Economic Development, the Metro Atlanta Chamber, and economic development organizations throughout the metro Atlanta area. Additionally, we conducted independent research on various online sources highlighting business expansions in the area. Business development in DeKalb County is listed below.

Source: Development Authority of DeKalb County, May 2021

- An AllOnGeorgia article dated August 13, 2020 highlighted Zillow's decision to make DeKalb County its Southeastern Hub, bringing 200 new jobs to the area.
- The Home Depot is expecting to open a 615,000 square foot flatbed delivery center warehouse in 2021 located in Stonecrest. The facility is one of three planned in the Atlanta area, and is anticipated to bring 1,000 new jobs to DeKalb, Fulton, and Henry Counties between the three facilities.
- On March 6, 2020, Governor Brian Kemp announced that Sugar Bowl Bakery will locate its first east coast location in DeKalb County. The company is anticipated to bring 411 new jobs and invest \$37 million over the next five years at its new Tucker facility.
- Amazon is adding distribution centers in Gwinnett and DeKalb Counties, adding 1,000 jobs to the area.

- Dollar General is adding a distribution center in the City of Atlanta/DeKalb County, which will bring 75
  new jobs to the area.
- Ondot Systems, a FinTech/Mobile Payment Services company, is opening a branch office in DeKalb County that will add 40 jobs to the area.
- ELOKON, a manufacturer of safety and assistance systems for industrial trucks, is opening a branch office in DeKalb County and plans to add 25 new jobs to the area.
- Aristocrat Technologies, a provider of gaming machines, social gaming and casino management systems, is opening a branch office and adding 20 jobs to DeKalb County.
- Circa of America, a leather goods manufacturer, has chosen DeKalb County for its corporate headquarters. The company will add 15 new jobs to the area.
- Southern Sky Aviation is adding four jobs to the area with a new branch office in DeKalb County.
- Autter provides rideshare services for teenagers. The company is placing its corporate headquarters in DeKalb County. The number of new jobs to be added has not been specified.
- CHRIS 180, an educational services company, is building a new facility in DeKalb County. The number of new jobs was not disclosed.
- WeWork is planning to add a co-working space in DeKalb County, the number of jobs that will be added was not specified.
- Blackhall Global Partners, LLC, announced its plan to build a studio facility on its 155-acres adjacent
  to the current Blackhall Studios property in the southwest part of the county. The group says the \$250
  million expansion project would create an impact of over \$1 billion to the county, and will add nearly
  5,900 jobs.

# 4. Employment and Unemployment Trends

Source: U.S. Bureau of Labor Statistics, May 2021

Prior to the national recession, average employment growth in the MSA generally exceeded the nation. Annual job growth in the MSA outpaced the nation in every year between 2004 and 2007. The effects of the recession were particularly pronounced in the MSA, which suffered a 6.3 percent contraction in employment growth (2007-2010), well above the 4.9 percent contraction reported by the nation as a whole (2007-2010). Employment in the MSA recovered and surpassed pre-recessionary levels in 2014, the same year as the overall nation. Since 2012, job growth in the MSA generally exceeded the nation. Due to the COVID-19 pandemic, employment totals in the 12-month period prior to December 2020 saw a decrease of 4.4 percent, compared to a decrease of 5.6 percent experienced by the nation over the same length of time. Employment growth is expected to be limited in the coming months as a result of the COVID-19 pandemic. Despite a surge in COVID-19 cases in Georgia in early July, the state has not placed restrictions on business closures during the pandemic. Notably, Governor Brian Kemp was one of the first governors to reopen his state. He also pushed back on local mask mandates but has since backtracked, allowing places like Atlanta to implement mask mandates. Mr. Kemp has continued extending the state's public health emergency and a shelter-in-place order for some medically vulnerable populations. A return to full economic potential is unlikely while the global health crisis continues.

The MSA experienced a lower average unemployment rate relative to the overall nation during the years preceding the recession. The effects of the recession were more pronounced in the MSA, which experienced a 5.6 percentage point increase in unemployment, compared to only a 5.0 percentage point increase across the overall nation. Since 2012, the MSA generally experienced a higher unemployment rate compared to the overall nation. As a result of the COVID- 19 pandemic and stay-at-home orders, record national unemployment claims began in March 2020 and will likely continue in the near future. We anticipate the unemployment rate in the MSA will remain elevated in the coming months. It is unclear how severely the regional economy has been affected and how temporary in nature any increase in unemployment will be for the MSA.

# 5. Map of Site and Major Employment Concentrations

The following map and table details the largest employers in Dekalb County, Georgia.

# MAJOR EMPLOYERS DEKALB COUNTY

#	Employer Name	Industry	# Of Employees
1	Renal Division-Emory University	Healthcare/Social Assistance	10,000+
2	Emory University	Healthcare/Social Assistance	10,000+
3	Emory Clinic	Healthcare/Social Assistance	5,000 to 9,999
4	Emory Decatur Hospital Pharmacy	Healthcare/Social Assistance	1,000 to 4,999
5	Dekalb County Police	Public Administration	1,000 to 4,999
6	Centers For Disease Control	Healthcare/Social Assistance	1,000 to 4,999
7	Georgia State University Perimeter	<b>Educational Services</b>	1,000 to 4,999
8	<b>Emory Decatur Hospital</b>	Healthcare/Social Assistance	1,000 to 4,999
9	Fisher Investments	Finance/Insurance	1,000 to 4,999
10	Intercontinental Hotels Group	Accommodation/Food Services	1,000 to 4,999

#### 6. Conclusion

Employment in the PMA is concentrated in the educational services, professional/scientific/technical services, and healthcare/social services industries, which collectively comprise 45.8 percent of local employment. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, professional/scientific/technical services, and healthcare/social services industries. Conversely, the PMA is underrepresented in the manufacturing, retail trade, and construction industries. The overconcentration of healthcare/social services and educational services employment will make the Subject area less susceptible to employment losses from the ongoing COVID-19 pandemic than the nation overall. Further, the location within a large and diversified metropolitan area should provide stability to the area workforce.

Prior to the national recession, average employment growth in the MSA generally exceeded the nation. Annual job growth in the MSA outpaced the nation in every year between 2004 and 2007. The effects of the recession were particularly pronounced in the MSA, which suffered a 6.3 percent contraction in employment growth (2007-2010), well above the 4.9 percent contraction reported by the nation as a whole (2007-2010). Employment in the MSA recovered and surpassed pre-recessionary levels in 2014, the same year as the overall nation. Since 2012, job growth in the MSA generally exceeded the nation. Due to the COVID-19 pandemic, employment totals in the 12-month period prior to December 2020 saw a decrease of 4.4 percent, compared to a decrease of 5.6 percent experienced by the nation over the same length of time. Employment growth is expected to be limited in the coming months as a result of the COVID-19 pandemic. Despite a surge in COVID-19 cases in Georgia in early July, the state has not placed restrictions on business closures during the pandemic. Notably, Governor Brian Kemp was one of the first governors to reopen his state. He also pushed back on local mask mandates but has since backtracked, allowing places like Atlanta to implement mask mandates. Mr. Kemp has continued extending the state's public health emergency and a shelter-in-place order for some medically vulnerable populations. A return to full economic potential is unlikely while the global health crisis continues.

The MSA experienced a lower average unemployment rate relative to the overall nation during the years preceding the recession. The effects of the recession were more pronounced in the MSA, which experienced a 5.6 percentage point increase in unemployment, compared to only a 5.0 percentage point increase across the overall nation. Since 2012, the MSA generally experienced a higher unemployment rate compared to the overall nation. As a result of the COVID- 19 pandemic and stay-at-home orders, record national unemployment claims began in March 2020 and will likely continue in the near future. We anticipate the unemployment rate in the MSA will remain elevated in the coming months. It is unclear how severely the regional economy has been affected and how temporary in nature any increase in unemployment will be for the MSA.

Beginning in March 2020, the international pandemic caused by the COVID-19 coronavirus resulted in governments across the globe taking dramatic efforts to slow the spread and flatten the infection curve in order to reduce the strain on our health care system. Consequently, over the past two months there has been a sharp and dramatic increase in layoffs due to the economic restrictions related to the emergency response. However, governments have passed significant economic stimulus packages to help in offsetting the economic impact. Local governments have begun to lift or loosen restrictions and the stimulus passed thus far has blunted some of the impact from the emergency measures. It remains unclear as to how these measures will impact the housing market long term. However, based on the data available through 12 months, which indicates some multifamily real estate transactions have continued to close without repricing and rent collection losses during this period have declined less than projected, the governmental response has offset a significant portion of the economic losses presented by the emergency. There is evidence that, despite the significant level of recent layoffs, many other area employers are hiring. Overall, we anticipate that the elevated layoff pace will subside now that economic restrictions have been loosened in the Subject's market area. We believe that the Subject's affordable operation will make it more likely to weather the current economic challenges due to COVID-19 better than average (as compared with other multifamily developments).

# H. AFFORDABILITY AND DEMAND ANALYSIS

## **DEMAND ANALYSIS**

The following demand analysis evaluates the potential amount of qualified households, which the Subject would have a fair chance at capturing. The structure of the analysis is based on the guidelines provided by DCA.

#### 1. Income Restrictions

LIHTC rents are based upon a percentage of the Area Median Gross Income ("AMI"), adjusted for household size and utilities. The Georgia Department of Community Affairs ("DCA") will estimate the relevant income levels, with annual updates. The rents are calculated assuming that the maximum net rent a household will pay is 35 percent of its household income at the appropriate AMI level.

According to DCA, household size is assumed to be 1.5 persons per bedroom for LIHTC rent calculation purposes. For example, the maximum rent for a four-person household in a two-bedroom unit is based on an assumed household size of three persons (1.5 per bedroom). For income determination purposes, the maximum income is assumed to be 1.5 persons per bedroom rounded up to the nearest whole number. For example, maximum income for a one-bedroom unit is based on an assumed household size of two persons (1.5 persons per bedroom, rounded up).

To assess the likely number of tenants in the market area eligible to live in the Subject, we use Census information as provided by ESRI Information Systems, to estimate the number of potential tenants who would qualify to occupy the Subject as a LIHTC project.

The maximum income levels are based upon information obtained from the Rent and Income Limits Guidelines Table as accessed from the DCA website.

# 2. Affordability

As discussed above, the maximum income is set by DCA while the minimum is based upon the minimum income needed to support affordability. This is based upon a standard of 35 percent. Lower and moderate-income families typically spend greater than 30 percent of their income on housing. These expenditure amounts can range higher than 50 percent depending upon market area. However, the 30 to 40 percent range is generally considered a reasonable range of affordability. DCA guidelines utilize 35 percent for families. We will use these guidelines to set the minimum income levels for the demand analysis.

**Minimum** Maximum **Minimum** Maximum **Unit Type Allowable Allowable Allowable Allowable** Income Income Income Income @50% @60% 1BR \$26,571 \$33,100 \$31,886 \$39,720 2BR \$31,920 \$37,250 \$38,297 \$44,700 \$36,857 \$44,700 \$44,229 3BR \$53,640

**FAMILY INCOME LIMITS** 

#### 3. Demand

The demand for the Subject will be derived from three sources: new households, existing households and elderly homeowners likely to convert to rentership. These calculations are illustrated in the following tables.

### **Demand from New Households**

The number of new households entering the market is the first level of demand calculated. We utilized 2024, the anticipated date of market entry, as the base year for the analysis. Therefore, 2020 household population

estimates are inflated to 2024 by interpolation of the difference between 2020 estimates and 2025 projections. This change in households is considered the gross potential demand for the Subject property. This number is adjusted for income eligibility and renter tenure. This is calculated as an annual demand number. In other words, this calculates the anticipated new households in 2024. This number takes the overall growth from 2020 to 2024 and applies it to its respective income cohorts by percentage. This number does not reflect lower income households losing population, as this may be a result of simple dollar value inflation.

#### **Demand from Existing Households**

Demand for existing households is estimated by summing two sources of potential tenants. The first source is tenants who are rent overburdened. These are households who are paying over 35 percent of their income in housing costs. This data is interpolated using ACS data based on appropriate income levels.

The second source is households living in substandard housing. We will utilize this data to determine the number of current residents that are income eligible, renter tenure, overburdened and/or living in substandard housing and likely to consider the Subject. In general, we will utilize this data to determine the number of current residents that are income eligible, renter tenure, overburdened and/or living in substandard housing and likely to consider the Subject.

## Demand from Elderly Homeowners likely to Convert to Rentership

An additional source of demand is also seniors likely to move from their own homes into rental housing. This source is only appropriate when evaluating senior properties and is determined by interviews with property managers in the PMA. As such, we have not accounted for any senior conversion to rentership.

#### 3d. Other

Per the 2021 GA DCA Qualified Allocation Plan (QAP) and Market Study Manual, GA DCA does not consider demand from outside the Primary Market Area (PMA), including the Secondary Market Area (SMA). Therefore, we do not account for leakage from outside the PMA boundaries in our demand analysis.

DCA does not consider household turnover to be a source of market demand. Therefore, we do not account for household turnover in our demand analysis.

We calculated all of our capture rates based on household size. DCA guidelines indicate that properties with over 20 percent of their proposed units in three and four-bedroom units need to be adjusted to considered larger household sizes. Our capture rates incorporate household size adjustments for all of the Subject's units.

#### **Net Demand**

The following pages will outline the overall demand components added together (3(a), 3(b)) and (3(c)) less the supply of competitive developments awarded and/or constructed or placed in service from 2018 to the present.

# **Additions to Supply**

Additions to supply will lower the number of potential qualified households. Pursuant to our understanding of DCA guidelines, we deduct the following units from the demand analysis.

- Comparable/competitive LIHTC and bond units (vacant or occupied) that were funded, are under construction, or are in properties that have not yet reached stabilized occupancy
- Comparable/competitive conventional or market rate units that are proposed, are under construction, or are in properties that have not yet reached stabilized occupancy. As the following discussion will demonstrate, competitive market rate units are those with rent levels that are comparable to the proposed rents at the Subject.

Per GA DCA guidelines, competitive units are defined as those units that are of similar size and configuration and provide alternative housing to a similar tenant population, at rent levels comparative to those proposed for the Subject development.

According to the Georgia Department of Community Affairs allocations lists from 2018 to 2020, there have been two properties awarded LIHTC funding in the PMA.

- Kensington Pointe was allocated tax credits in 2020. The development will consist of 130 one and two-bedroom units targeted to seniors earning 30, 50, and 80 percent of the AMI, or less. In addition, 19 units will benefit from rental subsidies. The development will be located at 3391 Kensington Road in Decatur, approximately 1.7 miles east of the Subject site. As the development will target seniors, it will not directly compete with the Subject upon completion.
- Phoenix Station was allocated in 2020 for the new construction of 244 units targeting families in Decatur, approximately 1.8 miles east of the Subject. Upon completion, the property will offer 244 one, two, and three-bedroom units restricted to 60 percent of the AMI. In addition, 25 units will benefit from rental subsidies. The 219 non-subsidized units at 60 percent of the AMI will directly compete with the Subject and these units have been deducted in our demand analysis.

#### **PMA Occupancy**

Per DCA's guidelines, we have determined the average occupancy rate based on all available competitive conventional and LIHTC properties in the PMA. We have provided a combined average occupancy level for the PMA based on the average occupancy rates reported as illustrated in the following table.

	PMA OCCUPA	ANCY			
Property Name	Program	Location	Tenancy	# of Units	Occupancy
Allen Wilson Phase I	LIHTC/PBRA	Decatur	Family	40	N/A

Vineyards Of Flat Shoals	LIHTC/ Market	Atlanta	Family	225	100.0%
Whispering Pines	LIHTC/ Market	Decatur	Family	40	97.5%
Total/Average				4,210	99.4%

As shown in the table above, the average occupancy rate of competitive developments in the PMA is 99.4 percent.

### Rehab Developments and PBRA

For any properties that are rehab developments, the capture rates will be based on those units that are vacant, or whose tenants will be rent burdened or over income as listed on the Tenant Relocation Spreadsheet.

Units that are subsidized with PBRA or whose rents are more than 20 percent lower than the rent for other units of the same bedroom size in the same AMI band and comprise less than 10 percent of total units in the same AMI band will not be used in determining project demand. In addition, any units, if priced 30 percent lower than the average market rent for the bedroom type in any income segment, will be assumed to be leasable in the market and deducted from the total number of units in the project for determining capture rates.

## **Capture Rates**

The above calculations and derived capture rates are illustrated in the following tables. Note that the demographic data used in the following tables, including tenure patterns, household size and income distribution through the projected market entry date of 2024 are illustrated in the previous section of this report.

## **CAPTURE RATE ANALYSIS CHART**

Our demand analysis is used to determine a base of demand for the Subject as a tax credit property. Several factors affect the indicated capture rates and are discussed following.

- The number of households in the PMA is expected to increase by 1.4 percent annually between 2020 and 2024.
- This demand analysis does not measure the PMA's or Subject's ability to attract additional or latent demand into the market from elsewhere by offering an affordable option. We believe this to be moderate and therefore the demand analysis is somewhat conservative in its conclusions because this demand is not included.

The following table illustrates demand and net demand for the Subject's units. Note that these capture rates are not based on appropriate bedroom types, as calculated previously.

#### **DEMAND AND NET DEMAND**

@60% Overall	\$31,886	\$53,640	46	2,932	219	2,713	1.7%	-	-	-	-
Overall	\$26,571	\$53,640	58	3,734	219	3,515	1.7%	-	-	-	-

As the analysis illustrates, the Subject's capture rates at the 50 percent AMI level range from 0.2 to 0.6 percent, with an overall capture rate of 0.5 percent. The Subject's 60 percent AMI capture rates range from 0.6 to 2.6 percent, with an overall capture rate of 1.7 percent. The overall capture rate for the project's 50 and 60 percent units is 1.7 percent. Therefore, we believe there is adequate demand for the Subject. All capture rates are within Georgia DCA thresholds.

# I. COMPETITIVE RENTAL ANALYSIS

### **Competitive Rental Analysis**

Comparable properties are examined on the basis of physical characteristics, i.e. building type, age/quality, level of common amenities, absorption, as well as similarity in rent. We attempted to compare the Subject to complexes from the competing market to provide a broader picture of the health and available supply in the market. Our competitive survey includes 14 "true" comparable properties containing 2,188 units.

The availability of LIHTC data is considered good. We included seven LIHTC comparables in our analysis, all of which are located within the PMA, between 1.6 and 4.0 miles of the Subject. The comparables were built or renovated between 1999 and 2020.

The availability of market rate data is considered good. The Subject is located in Decatur and there are many market rate properties in the area. We included seven market rate properties located between 0.3 and 1.6 miles from the Subject site, all of which are located within the PMA. These comparables were built or renovated between the 2000 and 2019. Overall, we believe the market rate properties we used in our analysis are the most comparable. Other market rate properties were excluded based on proximity, condition, and unit mix.

A detailed matrix describing the individual competitive properties as well as the proposed Subject is provided on the following pages. A map illustrating the location of the Subject in relation to comparable properties is also provided on the following pages. The properties are further profiled in the following write-ups. The property descriptions include information on vacancy, turnover, absorption, age, competition, and the general health of the rental market, when available.

# **Excluded Properties**

### Columbia Citihomes

Effective Rent Date 4/30/2021

Location 165 Marion Place NE

Atlanta, GA 30307 Dekalb County

Distance N/A
Units 84
Vacant Units 1
Vacancy Rate 1.2%

Type Various (2 stories)
Year Built/Renovated 2003 / N/A

Marketing Began N/A
Leasing Began N/A
Last Unit Leased N/A

Major Competitors Villages of East Lake, City View

Tenant Characteristics Mixed tenancy including single parent households from the immediate area

Contact Name Hyeatha'
Phone 404-223-1020

Premium None Other
Gazebo and badminton

#### Comments

The property manager stated rents have decreased due to an increase in utility allowances. The contact reported that the property is not currently experiencing an impact to collections or occupancy due to the COVID-19 pandemic. Management noted a strong demand for affordable housing in the area.

2021

The contact reported that the property does not maintain a waiting list although the property typically stays near full occupancy throughout the year. LIHTC rents increased to maximum allowable levels, while market rate rents remained unchanged. During the COVID-19 pandemic, the property has experienced a decrease in collections. Traffic slowed due to the closing of the office, but virtual tours have been provided. There has been no change in occupancy during the pandemic.

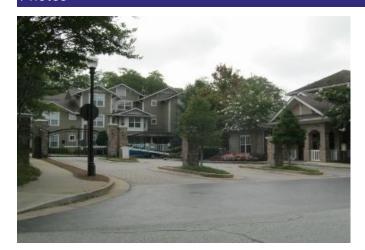

The contact reported that the property is not currently experiencing an impact to collections or occupancy due to the COVID-19 pandemic.

Management noted a strong demand for affordable housing in Atlanta and does not maintain a waiting list due to administrative burden.

The property manager stated rents have decreased due to an increase in utility allowances. The contact reported that the property is not currently experiencing an impact to collections or occupancy due to the COVID-19 pandemic. Management noted a strong demand for affordable housing in the area.

#### Comments

The property will start renovating units as the become vacant and the property manager attributed the high vacancy to holding the units vacant for the renovations. Renovations include new flooring, appliances, and light fixtures. The rents portrayed in the profile above represent non-renovated units as renovations have not started yet. Overall, the contact did not report any significant impact to the property as a result of the COVID-19 pandemic. Further, the contact stated that demand for affordable housing in the area is high.

## Trend: Comments

2017	This is a proposed family project that will be known as Columbia Fayetteville. This family development will offer 75 one, two, and three-bedroom
	units at 50 and 60 percent of the AMI as well as 33 unrestricted market units. The 2017 utility allowance for the property is \$122 for the one-
	bedroom units, \$172 for the two-bedroom units, and \$229 for the three-bedroom units.

2Q18 N/A

- The contact reported strong demand for affordable housing in the area. The contact noted the first tenants at the property moved in August 17, 2020, although the majority of the buildings are still under construction. According to the contact, all units that are online are occupied.
- The contact reported strong demand for affordable housing in the area. Overall, the contact did not report any significant impact to the property as a result of the COVID-19 pandemic.

### Trend: Comments

- The contact noted that the vacant unit is pre-leased. Management maintains a waiting list of an undisclosed length. The contact stated that the waiting list is currently closed. According to the contact, there is strong demand for affordable housing in the area. During the COVID-19 pandemic, the property has seen a slight increase in tenants making late payments. However, the property has not seen a decrease in traffic or number of inquiries for the units.
- The contact noted that the vacant units are pre-leased. The contact stated that the waiting list is currently closed. According to the contact, there is strong demand for affordable housing in the area. During the COVID-19 pandemic, the property has seen a slight increase in tenants making late payments. However, the property has not seen a decrease in traffic or number of inquiries for the units. Additionally, the contact noted an increase in phone call inquiries during the pandemic.

Management maintains a waiting list of an undisclosed length. The contact stated that the waiting list is currently closed. During the COVID-19 pandemic, the property has experienced a slight increase in tenants making late payments. However, the property has not seen a decrease in traffic or number of inquiries on units. According to the contact, there is strong demand for affordable housing in the area.

\$2,300

The vacant unit is being processed from the waiting list. The contact stated that the waiting list is currently closed. During the COVID-19 pandemic, the property has experienced a slight increase in tenants making late payments. However, the property has not seen a decrease in traffic or number of inquiries on units. According to the contact, there is strong demand for affordable housing in the area.

1Q21 N/A

According to the property manager, the property has experienced no significant impact from the COVID-19 pandemic. Further, the demand for rental housing in the area is high.

### **Trend: Comments**

\$1,200 - \$1,435

2Q18 The contact reported a typical spike in the occupancy rate during May which last throughout most of the summer months before stabilizing in late August. The property does not accept Housing Choice Vouchers. Surface parking is free but a gated lot is an additional \$35 per month and covered parking is \$50 per month.

\$1,200 - \$1,435 \$1,200 - \$1,435

- This property does not accept Housing Choice Vouchers. Surface off-street parking is included in the monthly rental rate, while carport parking and garage parking are available to tenants for an addition \$35 and \$50 per month, respectively. The contact reported the occupancy rate is lower than usual due to unexpected moveouts and stated typical occupancy rate is 95 percent or higher.
- This property does not accept Housing Choice Vouchers. Surface off-street parking is included in the monthly rental rate, while carport parking and garage parking are available to tenants for an additional \$30 and \$50 per month, respectively. The contact stated typical occupancy rate is 95 percent or higher. Management had no additional comments regarding the impact of the COVID-19 pandemic to the property.
- This property does not accept Housing Choice Vouchers. Surface off-street parking is included in the monthly rental rate, while carport parking and garage parking are available to tenants for an additional \$30 and \$50 per month, respectively. The contact stated typical occupancy rate is 95 percent or higher. Overall, the contact did not report any significant impact to the property as a result of the COVID-19 pandemic.

### 2. Housing Choice Vouchers

We spoke with Ms. Alroi L. Anderson, the Housing Assistant Director with the Housing Authority of the City of Decatur, about the issuance of Housing Choice Vouchers in the area. Ms. Anderson indicated that both the Housing Authority of DeKalb County and the Decatur Housing Authority administer Housing Choice Vouchers in the Subject's area. Ms. Anderson reported that the Housing Authority of the City of Decatur issues a total of 868 vouchers. Additionally, the Housing Authority of City of Decatur has issued 390 project-based and tenant-based vouchers. The waiting list for tenant-based vouchers is currently closed and there are approximately 4,000 households on the waiting list. The following table illustrates voucher usage at the comparables.

### **TENANTS WITH VOUCHERS**

Property Name	Rent Structure	Tenancy	Housing Choice Voucher Tenants
Columbia Citihomes	LIHTC/ Market	Family	12%
Columbia Mill	LIHTC/ Market	Family	17%
Columbia Village	LIHTC	Family	30%
Gardenside At The Villages Of East Lake	LIHTC/ Market	Family	N/A
Oakview Walk	LIHTC	Family	12%
Retreat At Edgewood	LIHTC	Family	0%
Retreat At Edgewood Phase II	LIHTC/ Market	Family	40%
1133 On The Square	Market	Family	0%
Cortland Decatur East	Market	Family	0%
Ice House Lofts	Market	Family	0%
The Place On Ponce	Market	Family	0%
The Point On Scott	Market	Family	0%
The Reserve At Decatur	Market	Family	0%
Willis Avondale Estates	Market	Family	0%

Housing Choice Voucher usage in this market ranges from zero to 40 percent. It should be noted Gardenside At The Villages Of East Lake did not provide the percentage of Housing Choice Voucher tenants. None of the market rate properties reported voucher usage. All but one of the LIHTC properties reported voucher usage, with an average utilization of 19 percent. Based on the performance of the LIHTC comparables, we expect the Subject will operate with voucher usage of approximately 20 percent.

### 3. Phased Developments

The Subject is not part of a multi-phase development.

### **Lease Up History**

The following table details absorption data in the area.

### **ABSORPTION**

Property name	Туре	Tenancy	Year Built	Number of Units	Units Absorbed / Month
Gardenside At The Villages Of East Lake	LIHTC	Family	2020	108	11
Oakview Walk	LIHTC	Family	2019	34	4
Cortland Decatur East	Market	Family	2019	378	12
The Point On Scott	Market	Family	2016	250	13
The Reserve At Decatur	Market	Family	2016	298	14
Columbia Mill	LIHTC	Family	2014	100	20
Retreat At Edgewood Phase II	LIHTC	Family	2012	40	12
Retreat At Edgewood	LIHTC	Family	2011	100	20
Average				164	13

Per DCA guidelines, we calculated the absorption to 93 percent occupancy. The properties experienced absorption rates ranging from four to 20 units per month, with an average of 13 units per month. Based upon the surveyed properties, we expect the Subject to experience an absorption pace of nine to 10 units per month, which equates to an absorption period of approximately five to six months for the Subject to reach 93 percent occupancy. It should be noted that construction on the Subject is not anticipated to be completed until February 2024, which is considered outside of the primary window from the COVID-19 pandemic.

The Subject will offer similar to slightly superior in-unit and community amenities in comparison to the LIHTC and market rate comparable properties. The Subject will offer in-unit washer/dryers and microwaves, as well as a swimming pool, which many of the LIHTC comparables will lack. In addition, the Subject will offer community Wi-Fi and adult education classes, which the majority of the comparables do not offer. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market.

### 6. Comparable Tenancy

The Subject will target families. All of the comparable properties also target families.

### Vacancy

The following table illustrates the vacancy rates in the market.

### OVERALL VACANCY

Property Name	Rent Structure	Tenancy	Total Units	Vacant Units	Vacancy Rate
Columbia Citihomes	LIHTC/ Market	Family	84	1	1.2%
Columbia Mill	LIHTC/ Market	Family	100	0	0.0%
Columbia Village	LIHTC	Family	100	9	9.0%
Gardenside At The Villages Of East Lake	LIHTC/ Market	Family	108	0	0.0%
Oakview Walk	LIHTC	Family	34	0	0.0%
Retreat At Edgewood	LIHTC	Family	100	0	0.0%
Retreat At Edgewood Phase II	LIHTC/ Market	Family	40	0	0.0%
1133 On The Square	Market	Family	167	1	0.6%
Cortland Decatur East	Market	Family	378	30	7.9%
Ice House Lofts	Market	Family	98	3	3.1%
The Place On Ponce	Market	Family	234	2	0.9%
The Point On Scott	Market	Family	250	15	6.0%
The Reserve At Decatur	Market	Family	298	6	2.0%
Willis Avondale Estates	Market	Family	197	5	2.5%
Total LIHTC			566	10	1.8%
Total Market Rate			1,622	62	3.8%
Overall Total			2,188	72	3.3%

Overall vacancy in the market is low at 3.3 percent. Total vacancy at the LIHTC and mixed-income comparables is also low, at 1.8 percent. It should be noted that management at Columbia Village reported that units are being held offline for proposed renovations. Excluding this property, the overall vacancy among the LIHTC comparables is 0.2 percent. Further, five of the seven LIHTC comparables reported being fully occupied. These factors indicate significant demand for affordable housing in the area.

The vacancy rates among the market rate comparable properties range from 0.6 to 7.9 percent, averaging 3.8 percent, which is considered low. The low vacancy rates among the market rate comparables indicates strong demand for conventional housing in the area. As a new construction property, we anticipate that the Subject would perform with a vacancy rate of five percent or less. Per DCA guidelines, properties are considered stabilized upon reaching 93 percent occupancy; however, the Subject is anticipated to maintain a stabilized occupancy rate of 95 percent or less. Based on the low vacancy rates among the LIHTC and market rate comparables, as well as the presence of waiting lists among the LIHTC comparables, we believe that there is sufficient demand for additional affordable housing in the market. We do not believe that the Subject will impact the performance of the existing LIHTC properties if allocated. Overall, we believe the Subject will operated with an overall vacancy rate of five percent or less upon stabilization.

### 7. Properties Under Construction and Proposed

The following section details properties currently planned, proposed or under construction.

### **Broadstone at Pullman Yards**

- a. Location: 105 Rogers St NE, Atlanta, GA
- b. Owner: Alliance Residential Company (Developer)
- c. Total number of units: 355 units
- d. Unit configuration: Studio, one, and two-bedroom units
- e. Rent structure: Market
- f. Estimated market entry: June 2022
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

### 1010 E Ponce De Leon Avenue

- a. Location: 1010 E Ponce De Leon Avenue, Decatur, GA
- b. Owner: Alliance Residential Company (Developer)
- c. Total number of units: 270 units
- d. Unit configuration: Unknown
- e. Rent structure: Market
- f. Estimated market entry: July 2022

### 8. Rental Advantage

The following table illustrates the Subject's similarity to the comparable properties. We inform the reader that other users of this document may underwrite the LIHTC rents to a different standard than contained in this report.

### SIMILARITY MATRIX

ш	Duamanti Nama	Duartus	Tananan	Property	Unit	Location	Age /	Unit	Overall

### **LIHTC RENT COMPARISON @60%**

	1BR	2BR	3BR	Rents at Max?
141 Sams Street	\$829	\$990	\$1,129	Yes
2020 LIHTC Maximum Rent (Net)	\$829	\$990	\$1,129	
Columbia Citihomes	-	\$798	-	Yes
Columbia Mill	\$847	\$1,000	\$1,140	Yes
Columbia Village	-	\$971	\$1,093	Yes
Gardenside At The Villages Of East Lake	\$808	\$945	\$1,061	Yes
Oakview Walk	\$779	\$931	-	Yes
Retreat At Edgewood	\$812	\$939	\$1,117	Yes
Retreat At Edgewood Phase II	\$812	-	\$1,117	Yes
Average	\$812	\$931	\$1,106	
Achievable LIHTC Rent	\$829	\$990	\$1,129	

The Subject's proposed one, two, and three-bedroom rents at 50 and 60 percent AMI are set at maximum allowable levels. All of the comparables offering units at 50 and 60 percent AMI report achieving maximum allowable levels for their one, two, and three-bedroom units. However, the rents at these properties appear to be slightly above or below the maximum allowable levels. This is likely due to differing utility allowances.

Columbia Mill is located 4.0 miles from the Subject in Atlanta and offers a slightly superior location. This property was constructed in 2014 and exhibits good condition, which is considered slightly inferior to the anticipated excellent condition of the Subject. Columbia Mill offers slightly similar in-unit and property amenities and larger unit sizes compared to the Subject. The property is achieving maximum allowable levels for its one, two, and three-bedroom units at 50 and 60 percent AMI. Columbia Mill is 100 percent occupied, indicating maximum allowable levels are achievable in the market. Overall, Columbia Mill is considered slightly superior to the proposed Subject.

All of the comparables offering units at 50 and 60 percent AMI report achieving maximum allowable levels for their one, two, and three-bedroom units. Total vacancy at the LIHTC and mixed-income comparables is low, at 1.8 percent. Further, four of the affordable comparables maintain waiting lists. These factors indicate significant demand for affordable housing in the area. Therefore, we believe that the Subject's proposed rents are reasonable based on the anticipated excellent condition and competitive amenities that the Subject will offer.

#### **Analysis of "Market Rents"**

Per DCA's market study guidelines, "average market rent is to be a reflection of rents that are achieved in the market. In other words, the rents the competitive properties are currently receiving. Average market rent is not 'Achievable unrestricted market rent.'" In an urban market with many tax credit comparables, the average market rent might be the weighted average of those tax credit comparables. In cases where there are few tax credit comparables, but many market rate comparables with similar unit designs and amenity packages, then the average market rent might be the weighted average of those market rate comparables. In a small rural market there may be neither tax credit comparables nor market rate comparables with similar positioning as the subject. In a case like that the average market rent would be a weighted average of whatever rents were present in the market.

When comparing the Subject's rents to the average comparable rent, we do not include surveyed rents at lower AMI levels given that this artificially lowers the average surveyed rent. Including rents at lower AMI levels does not reflect an accurate average rent for rents at higher income levels. For example, if the Subject offers rents at the 50 and 60 percent of AMI levels, and there is a distinct difference at comparable properties between rents at the two AMI levels, we do not include the 50 percent of AMI rents in the average comparable rent for the 60 percent of AMI comparison.

The overall average and the maximum and minimum adjusted rents for the comparable properties surveyed are illustrated in the table below in comparison with net rents for the Subject.

Unit Type	Rent Level	Subject Pro Forma Rent	Surveyed Min	Surveyed Max	Surveyed Average	Subject Rent Advantage
1BR / 1BA	@50%	\$674	\$653	\$2,104	\$1,233	83%
2BR / 2BA	@50%	\$804	\$721	\$2,317	\$1,446	80%
3BR / 2BA	@50%	\$914	\$815	\$3,144	\$1,643	80%
1BR / 1BA	@60%	\$829	\$779	\$2,104	\$1,335	61%
2BR / 2BA	@60%	\$990	\$798	\$2,317	\$1,556	57%
3BR / 2BA	@60%	\$1,129	\$1,061	\$3,144	\$1,826	62%

#### SUBJECT COMPARISON TO MARKET RENTS

As illustrated, the Subject's proposed 50 and 60 percent rents are below the surveyed average when compared to the comparables. These rents offer an advantage of 57 to 83 percent over the surveyed average of the comparable properties.

The Place On Ponce is achieving the highest unrestricted rents in the market. The Subject will be inferior to The Place On Ponce as a market rate property. The Place On Ponce was built in 2015 and exhibits good condition, which is slightly inferior to the anticipated excellent condition of the Subject upon completion. The Place On Ponce is located 1.0 miles from the Subject site and offers a slightly superior location. The Place On Ponce offers superior in-unit amenities compared to the Subject, but similar property amenities in comparison to the Subject. The Place On Ponce offers superior unit sizes to the Subject. The lowest one, two, and three-bedroom rents at The Place On Ponce are approximately 91 to 165 percent higher than the Subject's proposed rents at 60 percent of the AMI. Overall, we believe that the Subject's proposed rents are achievable in the market and will offer an advantage when compared to the average rents being achieved at comparable properties.

#### 9. LIHTC Competition - DCA Funded Properties within the PMA

Capture rates for the Subject are considered low for all bedroom types and AMI levels. All of the Subject's capture rates are within Georgia DCA thresholds. Total vacancy at the LIHTC and mixed-income comparables is low, at 1.8 percent. It should be noted that management at Columbia Village reported that units are being held offline for proposed renovations. Excluding this property, the overall vacancy among the LIHTC comparables is 0.2 percent. Further, five of the seven LIHTC comparables reported being fully occupied. These factors indicate significant demand for affordable housing in the area.

According to Georgia Department of Community Affairs LIHTC allocation lists, there have been two developments allocated funding within the Subject's PMA since 2018. Given the low vacancy rates and presence of waiting lists among the LIHTC properties in the market, it appears that there is strong demand for additional LIHTC housing in the market. We do not believe that the addition of the Subject to the market will impact the existing LIHTC properties in the PMA that are in overall average condition and currently performing well.

#### 10. Rental Trends in the PMA

The table below depicts household growth by tenure from 2000 through 2025.

#### **TENURE PATTERNS PMA**

Year	Owner-Occupied Units	Percentage Owner-Occupied	Renter-Occupied Units	Percentage Renter-Occupied
2000	34,732	58.4%	24,739	41.6%
2020	31,324	49.9%	31,479	50.1%
Projected Mkt Entry February 2024	32,024	48.6%	33,850	51.4%
2025	32,301	48.1%	34,787	51.9%

Source: Esri Demographics 2020, Novogradac Consulting LLP, May 2021

As the table illustrates, households within the PMA reside in mostly renter-occupied residences. Nationally, approximately two-thirds of the population resides in owner-occupied housing units, and one-third resides in renter-occupied housing units. Therefore, there is a higher percentage of renters in the PMA compared to the nation. This percentage and number of renter occupied units are projected to increase slightly over the next five years. The large percentage of renter-occupied residences in the PMA bodes well for the Subject.

#### **Historical Vacancy**

The following table details historical vacancy levels for the properties included as comparables.

#### **CHANGE IN VACANCY RATES**

Comparable Property	Туре	Total Units	2016	2017	2018	2019	2020	1QTR 2021	2QTR 2021
Columbia Citihomes	LIHTC/ Market	84	N/A	0.6%	3.0%	0.0%	1.2%	1.2%	1.2%
Columbia Mill	LIHTC/ Market	100	0.0%	4.0%	1.0%	0.0%	0.0%	0.0%	0.0%
Columbia Village	LIHTC	100	0.0%	1.1%	1.0%	4.0%	0.0%	N/A	9.0%
Gardenside At The Villages Of East Lake	LIHTC/ Market	108	N/A	N/A	N/A	N/A	88.9%	N/A	0.0%
Oakview Walk	LIHTC	34	N/A	N/A	N/A	N/A	0.0%	0.0%	0.0%
Retreat At Edgewood	LIHTC	100	0.5%	0.0%	10.0%	9.0%	1.5%	2.0%	0.0%
Retreat At Edgewood Phase II	LIHTC/ Market	40	1.7%	0.0%	8.8%	7.5%	1.3%	2.5%	0.0%
1133 On The Square	Market	167	N/A	N/A	5.4%	N/A	2.2%	N/A	0.6%
Cortland Decatur East	Market	378	N/A	N/A	N/A	N/A	38.8%	N/A	7.9%
Ice House Lofts	Market	98	4.6%	6.2%	6.5%	N/A	3.1%	N/A	3.1%
The Place On Ponce	Market	234	3.4%	3.4%	3.8%	7.3%	1.8%	2.6%	0.9%
The Point On Scott	Market	250	N/A	74.0%	0.8%	N/A	2.0%	N/A	6.0%
The Reserve At Decatur	Market	298	N/A	28.5%	13.1%	N/A	1.8%	N/A	2.0%
Willis Avondale Estates	Market	197	N/A	N/A	N/A	N/A	3.6%	N/A	2.5%
		2,188	2.8%	10.8%	4.7%	4.6%	6.5%	1.4%	3.3%

The historical vacancy rates at all of the comparable properties for the past several years are illustrated in the previous table. In general, the comparable properties experienced very low vacancy from 2016 through 2021. We believe that the current performance of the LIHTC comparable properties, as well as their historically low vacancy rates, indicate demand for affordable rental housing in the Subject's market.

#### **Change in Rental Rates**

The following table illustrates rental rate increases as reported by the comparable properties.

#### **RENT GROWTH**

Property Name	Rent Structure	Tenancy	Rent Growth
Columbia Citihomes	LIHTC/ Market	Family	Kept at max
Columbia Mill	LIHTC/ Market	Family	Kept at max; Increased up to six percent
Columbia Village	LIHTC	Family	Kept at max
Gardenside At The Villages Of East Lake	LIHTC/ Market	Family	Market rent increased eight percent
Oakview Walk	LIHTC	Family	Kept at max
Retreat At Edgewood	LIHTC	Family	Increased three percent
Retreat At Edgewood Phase II	LIHTC/ Market	Family	Increased four percent since 2Q2020
1133 On The Square	Market	Family	Decreased 2% to increased 5%
Cortland Decatur East	Market	Family	Changes daily; Yieldstar
Ice House Lofts	Market	Family	Increased up to three percent
The Place On Ponce	Market	Family	Changes daily
The Point On Scott	Market	Family	Changes daily; LRO
The Reserve At Decatur	Market	Family	Changes Daily
Willis Avondale Estates	Market	Family	None reported

All of the surveyed LIHTC properties reported rents increased or kept at the maximum allowable levels. Five of the comparables offering market rate units reported fluctuating rents, one reported increased rents, and one reported no change in rents for their unrestricted units. We anticipate that the Subject will be able to achieve moderate rent growth in the future as a LIHTC property.

#### 11. Impact of Foreclosed, Abandoned and Vacant Structures

According to *RealtyTrac* statistics, one in every 11,464 housing units nationwide was in some stage of foreclosure as of April 2021. The City of Decatur is experiencing a foreclosure rate of one in every 8,710 homes, while Dekalb County is experiencing foreclosure rate of one in every 12,824 homes and Georgia experienced one foreclosure in every 10,889 housing units. Overall, Decatur is experiencing a higher foreclosure rate than Dekalb County the state of Georgia, and the overall nation. The Subject's neighborhood does not have a significant amount of abandoned or vacant structures that would impact the marketability of the Subject.

#### 12. Effect of Subject on Other Affordable Units in Market

According to Georgia Department of Community Affairs LIHTC allocation lists, there have been two developments allocated within the Subject's PMA since 2018. Kensington

- Kensington Pointe was allocated tax credits in 2020. The development will consist of 130 one and two-bedroom units targeted to seniors earning 30, 50, and 80 percent of the AMI, or less. In addition, 19 units will benefit from rental subsidies. The development will be located at 3391 Kensington Road in Decatur, approximately 1.7 miles east of the Subject site. As the development will target seniors, it will not directly compete with the Subject upon completion.
- Phoenix Station was allocated in 2020 for the new construction of 244 units targeting families in Decatur, approximately 1.8 miles east of the Subject. Upon completion, the property will offer 244

one, two, and three-bedroom units restricted to 60 percent of the AMI. In addition, 25 units will benefit from rental subsidies. The 219 non-subsidized units at 60 percent of the AMI will directly compete with the Subject and these units have been deducted in our demand analysis.

Total vacancy at the LIHTC and mixed-income comparables is low, at 1.8 percent. It should be noted that management at Columbia Village reported that units are being held offline for proposed renovations. Excluding this property, the overall vacancy among the LIHTC comparables is 0.2 percent. Further, five of the seven LIHTC comparables reported being fully occupied. These factors indicate significant demand for affordable housing in the area. In summary, the performance of the comparable LIHTC properties and the existence of waiting lists for affordable units indicates that the Subject will not negatively impact the existing or proposed affordable rental units in the market.

#### **Conclusions**

Based upon our market research, demographic calculations and analysis, we believe there is adequate demand for the Subject property as proposed. Total vacancy at the LIHTC and mixed-income comparables is low, at 1.8 percent. It should be noted that management at Columbia Village reported that units are being held offline for proposed renovations. Excluding this property, the overall vacancy among the LIHTC comparables is 0.2 percent. Further, five of the seven LIHTC comparables reported being fully occupied. These factors indicate significant demand for affordable housing in the area. The Subject will offer similar to slightly superior in-unit and community amenities in comparison to the LIHTC and market rate comparable properties. The Subject will offer in-unit washer/dryers and microwaves, as well as a swimming pool, which many of the LIHTC comparables will lack. In addition, the Subject will offer community Wi-Fi and adult education classes, which the majority of the comparables do not offer. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As new construction, the Subject will be in excellent condition upon completion and will be considered similar to superior in terms of condition to the majority of the comparable properties. The Subject's proposed unit sizes will be competitive with the comparable properties. Additionally, the Subject's proposed rents are among the lowest in the market. Given the Subject's anticipated superior condition relative to the competition and the demand for affordable housing evidenced by waiting lists and low vacancy at several LIHTC comparable properties, we believe that the Subject is reasonable as proposed. We believe that it will fill a void in the market and will perform well. Further, we believe that the Subject's affordable operation will make it more likely to weather the current economic challenges due to COVID-19 better than average (as compared with other multifamily developments). The timing of the Subject's construction will further insulate it from the current COVID-19 pandemic.

## J. ABSORPTION AND STABILIZATION RATES

#### **ABSORPTION AND STABILIZATION RATES**

The following table details absorption data in the area.

#### **ABSORPTION**

Property name	Туре	Tenancy	Year Built	Number of Units	Units Absorbed / Month
Gardenside At The Villages Of East Lake	LIHTC	Family	2020	108	11
Oakview Walk	LIHTC	Family	2019	34	4
Cortland Decatur East	Market	Family	2019	378	12
The Point On Scott	Market	Family	2016	250	13
The Reserve At Decatur	Market	Family	2016	298	14
Columbia Mill	LIHTC	Family	2014	100	20
Retreat At Edgewood Phase II	LIHTC	Family	2012	40	12
Retreat At Edgewood	LIHTC	Family	2011	100	20
Average				164	13

Per DCA guidelines, we calculated the absorption to 93 percent occupancy. The properties experienced absorption rates ranging from four to 20 units per month, with an average of 13 units per month. Based upon the surveyed properties, we expect the Subject to experience an absorption pace of nine to 10 units per month, which equates to an absorption period of approximately five to six months for the Subject to reach 93 percent occupancy. It should be noted that construction on the Subject is not anticipated to be completed until February 2024, which is considered outside of the primary window from the COVID-19 pandemic.

#### **Decatur Housing Authority**

We made numerous attempts to contact the Housing Authority of DeKalb County regarding the Housing Choice Voucher program. As of the date of this report, our calls have not been returned. However, we previously spoke with Ms. Tometia Smith with the Housing Authority of DeKalb County in March 2017 about the issuance of Housing Choice Vouchers in the area. Ms. Smith indicated that both the Housing Authority of DeKalb County and the Decatur Housing Authority administer Housing Choice Vouchers in the Subject's area. Ms. Smith reported that the Housing Authority of DeKalb County issues a total of 6,298 vouchers, of which 3,027 are tenant-based. Additionally, the Housing Authority of DeKalb County has issued 4,650 project-based and tenant-based vouchers. The waiting list for tenant-based vouchers is currently closed. The payment standards for DeKalb County are listed below.

#### PAYMENT STANDARDS

Unit type	Standard
One-Bedroom	\$1,160
Two-Bedroom	\$1,320
Three-Bedroom	\$1,680

Source: Housing Authority of Dekalb County, effective 5/2021

The Subject's proposed LIHTC rents are set below the current payment standards. Therefore, tenants with Housing Choice Vouchers would not pay out of pocket for rent.

#### **Planning**

We were unable to contact a representative with the Dekalb Planning Department. Thus, we consulted a CoStar new construction report and researched Georgia DCA's LIHTC allocation lists and found the following multifamily developments planned, proposed, or under construction in the Subject's PMA.

#### **Broadstone at Pullman Yards**

- a. Location: 105 Rogers St NE, Atlanta, GA
- b. Owner: Alliance Residential Company (Developer)
- c. Total number of units: 355 units
- d. Unit configuration: Studio, one, and two-bedroom units
- e. Rent structure: Market
- f. Estimated market entry: June 2022
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

#### 1010 E Ponce De Leon Avenue

- a. Location: 1010 E Ponce De Leon Avenue, Decatur, GA
- b. Owner: Alliance Residential Company (Developer)
- c. Total number of units: 270 units
- d. Unit configuration: Unknown
- e. Rent structure: Market
- f. Estimated market entry: July 2022
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

#### Motto

- a. Location: 2 Grove Place, Decatur, GA
- b. Owner: Toll Brothers, Inc. (Developer)
- c. Total number of units: 290 units
- d. Unit configuration: Studio, one, and two-bedroom units
- e. Rent structure: Market
- f. Estimated market entry: September 2022
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

#### **Modera Decatur**

- a. Location: 1363 Clairmont Avenue, Decatur, GA
- b. Owner: Mill Creek Residential Trust LLC (Developer)
- c. Total number of units: 194 units
- d. Unit configuration: Studio, one, two and three bedroom units
- e. Rent structure: Market
- f. Estimated market entry: October 2022
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

#### **East Decatur Station**

- a. Location: 743 E College Avenue
- b. Owner: Northwood Ravin (Developer)
- c. Total number of units: 410 units
- d. Unit configuration: One, two, and three bedroom units
- e. Rent structure: Market and 10 percent at 80 percent of the AMI
- f. Estimated market entry: November 2022
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

#### **Kensington Pointe**

- a. Location: 3391 Kensington Road, Decatur, GA
- b. Owner: Housing Authority of Dekalb County (Developer)
- c. Total number of units: 130 units
- d. Unit configuration: One and two-bedroom units
- e. Rent structure: 60 percent AMI, Project-Based Rental Assistance
- f. Estimated market entry: December 2022
- g. Relevant information: No units will directly compete with the Subject due to differing tenancy

#### **Phoenix Station**

- a. Location: 3337 Kensington Road, Decatur, GA
- b. Owner: LDG Development (Developer)
- c. Total number of units: 244 units
- d. Unit configuration: One, two and three-bedroom units
- e. Rent structure: 60 percent AMI, Project-Based Vouchers
- f. Estimated market entry: December 2023
- g. Relevant information: 219 units will directly compete with the Subject

#### 4159-4213 Memorial Drive

- a. Location: 4159-4213 Memorial Drive, Decatur, GA
- b. Owner: AHS Development Group (Developer)
- c. Total number of units: 448 units
- d. Unit configuration: Unknown
- e. Rent structure: Market
- f. Estimated market entry: February 2023
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

#### **Project Tulip**

- a. 285 Mayson Ave NE, Atlanta, GA
- b. Owner: Toll Brothers, Inc. (Developer)
- c. Total number of units: 414 units
- d. Unit configuration: One, two, and three-bedroom units
- e. Rent structure: Market
- f. Estimated market entry: March 2024
- g. Relevant information: Will not directly compete with the Subject as it is a market rate development

#### **Development Authority of DeKalb County**

We previously spoke with Toyasha Vaughn of the Development Authority of DeKalb County. Ms. Vaughn provided us with a list of recent business expansions. Further, the list is compiled using a variety of sources, including the Atlanta Business Chronicle, the Atlanta Journal-Constitution, company websites, the Georgia Department of Economic Development, Georgia Power Community & Economic Development, the Metro Atlanta Chamber, and economic development organizations throughout the metro Atlanta area. Additionally, we conducted independent research on various online sources highlighting business expansions in the area. Business development in DeKalb County is listed below.

## EXPANSIONS/NEW ADDITIONS DEKALB COUNTY, GA

Employer Name	Industry	# Of Employees
Amazon	Retail Trade	1,000
Sugar Bowl Bakery	Retail Trade	411
Zillow	Real Estate	200
Briggs & Stratton	Manufacturing	60
EAE Elektrik	Manufacturing	15

Source: Development Authority of DeKalb County, February 2021

- An AllOnGeorgia article dated August 13, 2020 highlighted Zillow's decision to make DeKalb County its Southeastern Hub, bringing 200 new jobs to the area.
- •The Home Depot is expecting to open a 615,000 square foot flatbed delivery center warehouse in 2021 located in Stonecrest. The facility is one of three planned in the Atlanta area, and is anticipated to bring 1,000 new jobs to DeKalb, Fulton, and Henry Counties between the three facilities.
- •On March 6, 2020, Governor Brian Kemp announced that Sugar Bowl Bakery will locate its first east coast location in DeKalb County. The company is anticipated to bring 411 new jobs and invest \$37 million over the next five years at its new Tucker facility.
- Amazon is adding distribution centers in Gwinnett and DeKalb Counties, adding 1,000 jobs to the area.
- Dollar General is adding a distribution center in the City of Atlanta/DeKalb County, which will bring 75 new jobs to the area.
- Ondot Systems, a FinTech/Mobile Payment Services company, is opening a branch office in DeKalb County that will add 40 jobs to the area.
- ELOKON, a manufacturer of safety and assistance systems for industrial trucks, is opening a branch office in DeKalb County and plans to add 25 new jobs to the area.

- Aristocrat Technologies, a provider of gaming machines, social gaming and casino management systems, is opening a branch office and adding 20 jobs to DeKalb County.
- Circa of America, a leather goods manufacturer, has chosen DeKalb County for its corporate headquarters. The company will add 15 new jobs to the area.
- Southern Sky Aviation is adding four jobs to the area with a new branch office in DeKalb County.
- Autter provides rideshare services for teenagers. The company is placing its corporate headquarters in DeKalb County. The number of new jobs to be added has not been specified.
- CHRIS 180, an educational services company, is building a new facility in DeKalb County. The number of new jobs was not disclosed.
- WeWork is planning to add a co-working space in DeKalb County, the number of jobs that will be added was not specified.
- Blackhall Global Partners, LLC, announced its plan to build a studio facility on its 155-acres adjacent to the current Blackhall Studios property in the southwest part of the county. The group says the \$250 million expansion project would create an impact of over \$1 billion to the county, and will add nearly 5,900 jobs.

## L. CONCLUSIONS AND RECOMMENDATIONS

#### **C**ONCLUSIONS

#### **Demographics**

Between 2010 and 2020, there was approximately 0.8 percent annual growth in population in the PMA, which was less than that of the MSA and generally similar to that of the national population over the same time period. Total population in the PMA is projected to increase at a rate of 1.2 annually from 2020 through projected market entry and 2025, which is a growth rate below that of the MSA and above the nation as a whole during the same time period. The current population of the PMA is 149,182 and is expected to be 158,426 in 2025. The current number of households in the PMA is 62,803 and is expected to be 67,088 in 2025. Renter households are concentrated in the lowest income cohorts, with 32.2 percent of renters in the PMA earning between \$10,000 and \$39,999 annually. The Subject will target households earning between \$25,611 and \$51,660. Therefore, the Subject should be well-positioned to service this market. Overall, population growth in the PMA and the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

#### **Employment Trends**

Employment in the PMA is concentrated in the educational services, professional/scientific/technical services, and healthcare/social services industries, which collectively comprise 45.8 percent of local employment. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, professional/scientific/technical services, and healthcare/social services industries. Conversely, the PMA is underrepresented in the manufacturing, retail trade, and construction industries. The overconcentration of healthcare/social services and educational services employment will make the Subject area less susceptible to employment losses from the ongoing COVID-19 pandemic than the nation overall. Further, the location within a large and diversified metropolitan area should provide stability to the area workforce.

Prior to the national recession, average employment growth in the MSA generally exceeded the nation. Annual job growth in the MSA outpaced the nation in every year between 2004 and 2007. The effects of the recession were particularly pronounced in the MSA, which suffered a 6.3 percent contraction in employment growth (2007-2010), well above the 4.9 percent contraction reported by the nation as a whole (2007-2010). Employment in the MSA recovered and surpassed pre-recessionary levels in 2014, the same year as the overall nation. Since 2012, job growth in the MSA generally exceeded the nation. Due to the COVID-19 pandemic, employment totals in the 12-month period prior to December 2020 saw a decrease of 4.4 percent, compared to a decrease of 5.6 percent experienced by the nation over the same length of time. Employment growth is expected to be limited in the coming months as a result of the COVID-19 pandemic. Despite a surge in COVID-19 cases in Georgia in early July, the state has not placed restrictions on business closures during the pandemic. Notably, Governor Brian Kemp was one of the first governors to reopen his state. He also pushed back on local mask mandates but has since backtracked, allowing places like Atlanta to implement mask mandates. Mr. Kemp has continued extending the state's public health emergency and a shelter-in-place order for some medically vulnerable populations. A return to full economic potential is unlikely while the global health crisis continues.

The MSA experienced a lower average unemployment rate relative to the overall nation during the years preceding the recession. The effects of the recession were more pronounced in the MSA, which experienced a 5.6 percentage point increase in unemployment, compared to only a 5.0 percentage point increase across the overall nation. Since 2012, the MSA generally experienced a higher unemployment rate compared to the overall nation. As a result of the COVID- 19 pandemic and stay-at-home orders, record national unemployment claims began in March 2020 and will likely continue in the near future. We anticipate the unemployment rate in the MSA will remain elevated in the coming months. It is unclear how severely the regional economy has been affected and how temporary in nature any increase in unemployment will be for the MSA.

Beginning in March 2020, the international pandemic caused by the COVID-19 coronavirus resulted in governments across the globe taking dramatic efforts to slow the spread and flatten the infection curve in order to reduce the strain on our health care system. Consequently, over the past two months there has been a sharp and dramatic increase in layoffs due to the economic restrictions related to the emergency response. However, governments have passed significant economic stimulus packages to help in offsetting the economic impact. Local governments have begun to lift or loosen restrictions and the stimulus passed thus far has blunted some of the impact from the emergency measures. It remains unclear as to how these measures will impact the housing market long term. However, based on the data available through 12 months, which indicates some multifamily real estate transactions have continued to close without repricing and rent collection losses during this period have declined less than projected, the governmental response has offset a significant portion of the economic losses presented by the emergency. There is evidence that, despite the significant level of recent layoffs, many other area employers are hiring. Overall, we anticipate that the elevated layoff pace will subside now that economic restrictions have been loosened in the Subject's market area. We believe that the Subject's affordable operation will make it more likely to weather the current economic challenges due to COVID-19 better than average (as compared with other multifamily developments).

#### **Capture Rates**

The following table illustrates the demand and capture rates for the Subject's proposed units.

#### **CAPTURE RATE ANALYSIS CHART**

Unit Type	Minimum Income	Maximum Income	Units Proposed	Total Demand	Supply	Net Demand	Capture Rate	Proposed Rents
1BR @50%	\$26,571	\$33,100	5	1,198	0	1,198	0.4%	\$674
1BR @60%	\$31,886	\$34,740	18	1,327	61	1,266	1.4%	\$829
1BR Overall	\$26,571	\$34,740	23	1,690	61	1,629	1.4%	-
2BR @50%	\$31,920	\$37,250	6	973	0	973	0.6%	\$804
2BR @60%	\$38,297	\$44,700	25	1,077	107	970	2.6%	\$990
2BR Overall	\$31,920	\$44,700	31	1,372	107	1,265	2.5%	-
3BR @50%	\$36,857	\$44,700	1	476	0	476	0.2%	\$814
3BR @60%	\$44,229	\$53,640	3	527	51	476	0.6%	\$1,129
3BR Overall	\$36,857	\$53,640	4	672	51	621	0.6%	-
@50% Overall	\$26,571	\$44,700	12	2,647	0	2,647	0.5%	-
@60% Overall	\$31,886	\$53,640	46	2,932	219	2,713	1.7%	-
Overall	\$26,571	\$53,640	58	3,734	219	3,515	1.7%	-

We believe these calculated capture rates are reasonable, particularly as these calculations do not consider demand from outside the PMA or standard rental household turnover. All capture rates are within Georgia DCA thresholds.

#### **Absorption**

The following table details absorption data in the area.

#### **ABSORPTION**

Property name	Туре	Tenancy	Year Built	Number of Units	Units Absorbed / Month
Gardenside At The Villages Of East Lake	LIHTC	Family	2020	108	11
Oakview Walk	LIHTC	Family	2019	34	4
Cortland Decatur East	Market	Family	2019	378	12
The Point On Scott	Market	Family	2016	250	13
The Reserve At Decatur	Market	Family	2016	298	14
Columbia Mill	LIHTC	Family	2014	100	20
Retreat At Edgewood Phase II	LIHTC	Family	2012	40	12
Retreat At Edgewood	LIHTC	Family	2011	100	20
Average				164	13

Per DCA guidelines, we calculated the absorption to 93 percent occupancy. The properties experienced absorption rates ranging from four to 20 units per month, with an average of 13 units per month. Based upon the surveyed properties, we expect the Subject to experience an absorption pace of nine to 10 units per month, which equates to an absorption period of approximately five to six months for the Subject to reach 93 percent occupancy. It should be noted that construction on the Subject is not anticipated to be completed until February 2024, which is considered outside of the primary window from the COVID-19 pandemic.

#### **Vacancy Trends**

The following table illustrates the vacancy rates in the market.

#### **OVERALL VACANCY**

OVERALE VACANCI									
Property Name	Rent Structure	Tenancy	Total Units	Vacant Units	Vacancy Rate				
Columbia Citihomes	LIHTC/ Market	Family	84	1	1.2%				
Columbia Mill	LIHTC/ Market	Family	100	0	0.0%				
Columbia Village	LIHTC	Family	100	9	9.0%				
Gardenside At The Villages Of East Lake	LIHTC/ Market	Family	108	0	0.0%				
Oakview Walk	LIHTC	Family	34	0	0.0%				
Retreat At Edgewood	LIHTC	Family	100	0	0.0%				
Retreat At Edgewood Phase II	LIHTC/ Market	Family	40	0	0.0%				
1133 On The Square	Market	Family	167	1	0.6%				
Cortland Decatur East	Market	Family	378	30	7.9%				
Ice House Lofts	Market	Family	98	3	3.1%				
The Place On Ponce	Market	Family	234	2	0.9%				
The Point On Scott	Market	Family	250	15	6.0%				
The Reserve At Decatur	Market	Family	298	6	2.0%				
Willis Avondale Estates	Market	Family	197	5	2.5%				
Total LIHTC			566	10	1.8%				
Total Market Rate			1,622	62	3.8%				
Overall Total			2,188	72	3.3%				

Overall vacancy in the market is low at 3.3 percent. Total vacancy at the LIHTC and mixed-income comparables is also low, at 1.8 percent. It should be noted that management at Columbia Village reported that units are being held offline for proposed renovations. Excluding this property, the overall vacancy among the LIHTC

comparables is 0.2 percent. Further, five of the seven LIHTC comparables reported being fully occupied. These factors indicate significant demand for affordable housing in the area.

The vacancy rates among the market rate comparable properties range from 0.6 to 7.9 percent, averaging 3.8 percent, which is considered low. The low vacancy rates among the market rate comparables indicates strong demand for conventional housing in the area. As a new construction property, we anticipate that the Subject would perform with a vacancy rate of five percent or less. Per DCA guidelines, properties are considered stabilized upon reaching 93 percent occupancy; however, the Subject is anticipated to maintain a stabilized occupancy rate of 95 percent or less. Based on the low vacancy rates among the LIHTC and market rate comparables, as well as the presence of waiting lists among the LIHTC comparables, we believe that there is sufficient demand for additional affordable housing in the market. We do not believe that the Subject will impact the performance of the existing LIHTC properties if allocated. Overall, we believe the Subject will operated with an overall vacancy rate of five percent or less upon stabilization.

#### **Strengths of the Subject**

The Subject will be the newest LIHTC development in the PMA upon completion and will exhibit excellent condition, which is superior to the majority of the existing LIHTC housing stock in the PMA. The Subject will offer a considerable rent advantage over the comparables; the Subject's proposed rents will be among the lowest in the market. Additionally, the Subject site is within close proximity to the Avondale Transit Station, which provides convenient access to employment centers in the area. Therefore, we believe the Subject will be well received in the market given its competitive advantage over the existing housing stock, competitive amenity packages, and rent advantage over the LIHTC and market-rate comparables.

#### **Conclusion**

Based upon our market research, demographic calculations and analysis, we believe there is adequate demand for the Subject property as proposed. Total vacancy at the LIHTC and mixed-income comparables is low, at 1.8 percent. It should be noted that management at Columbia Village reported that units are being held offline for proposed renovations. Excluding this property, the overall vacancy among the LIHTC comparables is 0.2 percent. Further, five of the seven LIHTC comparables reported being fully occupied. These factors indicate significant demand for affordable housing in the area. The Subject will offer similar to slightly superior in-unit and community amenities in comparison to the LIHTC and market rate comparable properties. The Subject will offer in-unit washer/dryers and microwaves, as well as a swimming pool, which many of the LIHTC comparables will lack. In addition, the Subject will offer community Wi-Fi and adult education classes, which the majority of the comparables do not offer. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As new construction, the Subject will be in excellent condition upon completion and will be considered similar to superior in terms of condition to the majority of the comparable properties. The Subject's proposed unit sizes will be competitive with the comparable properties. Additionally, the Subject's proposed rents are among the lowest in the market. Given the Subject's anticipated superior condition relative to the competition and the demand for affordable housing evidenced by waiting lists and low vacancy at several LIHTC comparable properties, we believe that the Subject is reasonable as proposed. We believe that it will fill a void in the market and will perform well. Further, we believe that the Subject's affordable operation will make it more likely to weather the current economic challenges due to COVID-19 better than average (as compared with other multifamily developments). The timing of the Subject's construction will further insulate it from the current COVID-19 pandemic.

#### **Recommendations**

We recommend the Subject as proposed.

# M. SIGNED STATEMENT REQUIREMENTS

I affirm that I (or one of the persons signing below) made a physical inspection of the market area and the Subject property and that information has been used in the full study of the need and demand for the proposed units. The report is written according to DCA's market study requirements, the information included is accurate and the report can be relied upon by DCA as a true assessment of the low-income housing rental market.

To the best of my knowledge, the market can support the project as shown in the study. I understand that any misrepresentation of this statement may result in the denial of further participation in DCA's rental housing programs. I also affirm that I have no interest in the project or relationship with the ownership entity and my compensation is not contingent on this project being funded.

DCA may rely on the representation made in the market study. The document is assignable to other lenders.

## **ADDENDUM A**

**Assumptions and Limiting Conditions** 

#### **ASSUMPTIONS AND LIMITING CONDITIONS**

- 1. In the event that the client provided a legal description, building plans, title policy and/or survey, etc., the market analyst has relied extensively upon such data in the formulation of all analyses.
- 2. The legal description as supplied by the client is assumed to be correct and the author assumes no responsibility for legal matters, and renders no opinion of property title, which is assumed to be good and merchantable.
- All encumbrances, including mortgages, liens, leases, and servitudes, were disregarded in this valuation
  unless specified in the report. It was recognized, however, that the typical purchaser would likely take
  advantage of the best available financing, and the effects of such financing on property value were
  considered.
- 4. All information contained in the report, which others furnished, was assumed to be true, correct, and reliable. A reasonable effort was made to verify such information, but the author assumes no responsibility for its accuracy.
- 5. The report was made assuming responsible ownership and capable management of the property.
- 6. The sketches, photographs, and other exhibits in this report are solely for the purpose of assisting the reader in visualizing the property. The author made no property survey, and assumes no liability in connection with such matters. It was also assumed there is no property encroachment or trespass unless noted in the report.
- 7. The author of this report assumes no responsibility for hidden or unapparent conditions of the property, subsoil or structures, or the correction of any defects now existing or that may develop in the future. Equipment components were assumed in good working condition unless otherwise stated in this report.
- 8. It is assumed that there are no hidden or unapparent conditions for the property, subsoil, or structures, which would render it more or less valuable. No responsibility is assumed for such conditions or for engineering, which may be required to discover such factors.
- 9. The investigation made it reasonable to assume, for report purposes, that no insulation or other product banned by the Consumer Product Safety Commission has been introduced into the Subject premises. Visual inspection by the market analyst did not indicate the presence of any hazardous waste. It is suggested the client obtain a professional environmental hazard survey to further define the condition of the Subject soil if they deem necessary.
- 10. Any distribution of total property value between land and improvements applies only under the existing or specified program of property utilization. Separate valuations for land and buildings must not be used in conjunction with any other study or market study and are invalid if so used.
- 11. Possession of the report, or a copy thereof, does not carry with it the right of publication, nor may it be reproduced in whole or in part, in any manner, by any person, without the prior written consent of the author particularly as to value conclusions, the identity of the author or the firm with which he or she is connected. Neither all nor any part of the report, or copy thereof shall be disseminated to the general public by the use of advertising, public relations, news, sales, or other media for public communication without the prior written consent and approval of the market analyst. Nor shall the market analyst, firm, or professional organizations of which the market analyst is a member be identified without written consent of the market analyst.

- 12. Disclosure of the contents of this report is governed by the Bylaws and Regulations of the professional organization with which the market analyst is affiliated.
- 13. The author of this report is not required to give testimony or attendance in legal or other proceedings relative to this report or to the Subject property unless satisfactory additional arrangements are made prior to the need for such services.
- 14. The opinions contained in this report are those of the author and no responsibility is accepted by the author for the results of actions taken by others based on information contained herein.
- 15. Opinions of value contained herein are estimates. There is no guarantee, written or implied, that the Subject property will sell or lease for the indicated amounts.
- 16. All applicable zoning and use regulations and restrictions are assumed to have been complied with, unless nonconformity has been stated, defined, and considered in the market study report.
- 17. It is assumed that all required licenses, permits, covenants or other legislative or administrative authority from any local, state, or national governmental or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
- 18. On all studies, Subject to satisfactory completion, repairs, or alterations, the report and conclusions are contingent upon completion of the improvements in a workmanlike manner and in a reasonable period of time.
- 19. All general codes, ordinances, regulations or statutes affecting the property have been and will be enforced and the property is not Subject to flood plain or utility restrictions or moratoriums, except as reported to the market analyst and contained in this report.
- 20. The party for whom this report is prepared has reported to the market analyst there are no original existing condition or development plans that would Subject this property to the regulations of the Securities and Exchange Commission or similar agencies on the state or local level.
- 21. Unless stated otherwise, no percolation tests have been performed on this property. In making the market study, it has been assumed the property is capable of passing such tests so as to be developable to its highest and best use.
- 22. No in-depth inspection was made of existing plumbing (including well and septic), electrical, or heating systems. The market analyst does not warrant the condition or adequacy of such systems.
- 23. No in-depth inspection of existing insulation was made. It is specifically assumed no Urea Formaldehyde Foam Insulation (UFFI), or any other product banned or discouraged by the Consumer Product Safety Commission has been introduced into the property. The market analyst reserves the right to review and/or modify this market study if said insulation exists on the Subject property.
- 24. Estimates presented in this report are assignable to parties to the development's financial structure.

#### V. Real Estate Assignments

A representative sample of Valuation or Consulting Engagements includes:

- In general, have managed and conducted numerous market analyses and appraisals for various types of commercial real estate since 2001, with an emphasis on multifamily housing and land.
- Have managed and conducted numerous market and feasibility studies for multifamily housing. Properties types include Section 42 Low Income Housing Tax Credit (LIHTC) Properties, Public Housing for RAD conversion, Section 18 disposition, Section 8, USDA and/or conventional. Local housing authorities, developers, syndicators, HUD and lenders have used these studies to assist in the financial underwriting and design of multifamily properties. Analysis typically includes; unit mix determination, demand projections, rental rate analysis, competitive property surveying, and overall market analysis. The Subjects include both new construction and rehabilitation properties in both rural and metro regions throughout the United States and its territories.
- Have managed and conducted numerous appraisals of multifamily housing. Appraisal
  assignments typically involved determining the as is, as if complete and the as if complete and
  stabilized values. Additionally, encumbered LIHTC and unencumbered values were typically
  derived. The three traditional approaches to value are developed with special methodologies
  included to value tax credit equity, below market financing and PILOT agreements.
- Completed numerous appraisals of public housing properties for RAD conversion, Section 18 disposition, and/or LIHTC application of housing authority owned properties.
- Performed market studies and appraisals of proposed new construction and existing properties under the HUD Multifamily Accelerated Processing (MAP) program. These reports meet the requirements outlined in HUD Handbook 4465.1 and Chapter 7 of the HUD MAP Guide for 221(d)(4) and 223(f) programs, as well as the LIHTC PILOT Program.
- Performed numerous market study/appraisals assignments for USDA RD properties in several states in conjunction with acquisition rehabilitation redevelopments. Documents are used by states, FannieMae, USDA, and the developer in the underwriting process. Market studies are compliant to State, FannieMae, and USDA requirements. Appraisals are compliant to FannieMae and USDA HB-1-3560 Chapter 7 and Attachments.

- Completed numerous FannieMae and FreddieMac appraisals of affordable and market rate multi-family properties for DUS Lenders.
- Managed and completed numerous Section 8 Rent Comparability Studies in accordance with HUD's Section 8 Renewal Policy and Chapter 9 for various property owners and local housing authorities.
- Managed and conducted various City and County-wide Housing Needs Assessments in order to determine the characteristics of existing housing, as well as determine the need for additional housing within designated areas.
- Performed numerous valuations of the General and/or Limited Partnership Interest in a real estate transaction, as well as LIHTC Year 15 valuation analysis.

#### VI. Speaking Engagements

A representative sample of industry speaking engagements follows:

- Novogradac & Company LLP: RAD Conferences, LIHTC, Developer and Bond Conferences
- Institute for Professional Education and Development (IPED): LIHTC and Year 15 Seminars
- Institute for Responsible Housing Preservation (IRHP): Annual Meetings
- Western FHA Mortgage Lenders Conference: Annual Meetings
- Midwest FHA Mortgage Lenders Conference: Annual Meetings
- Southwest FHA Mortgage Association Lenders Conference: Annual Meetings
- National Council of Housing Market Analysts (NCHMA): Seminars and Workshops
- National Council of State Housing Agencies: Housing Credit Connect Conferences
- National Leased Housing Association: Annual Meeting
- Nebraska's County Assessors: Annual Meeting
- AHF Live! Affordable Housing Finance Magazine Annual Conference
- Missouri Workforce Housing (MOWHA) Annual Conference
- Ohio Housing Council Symposium
- Kansas Housing Conference
- California Council for Affordable Housing (CCAH) Meetings

#### VII. Industry Engagements

Novogradac & Company LLP – Chairperson of Affordable Housing Developer and Investor Conferences

## STATEMENT OF PROFESSIONAL QUALIFICATIONS William C. Hoedl

#### I. EDUCATION

University of Denver - Denver, Colorado

Master of Science in Real Estate, 2009

University of Kansas - Lawrence, Kansas

Bachelor of Science in Finance, 2006

#### II. PROFESSIONAL EXPERIENCE

Senior Analyst - Novogradac & Company LLP
Asset Acquisitions Analyst - Madison Liquidity Investors, LLC
Investment Analyst - Resolute Investments, Inc.
Real Estate Analyst - Prior & Associates, LLC

#### III. REAL ESTATE ASSIGNMENTS

A representative sample of Due Diligence, Consulting, or Valuation Engagements includes:

- Prepared market studies for proposed Low-Income Housing Tax Credit, market rate, HOME financed, USDA Rural Development, and HUD subsidized properties, on a national basis. Analysis includes property screenings, market analysis, comparable rent surveys, demand analysis based on the number of income qualified renters in each market, supply analysis, and operating expenses analysis. Property types include proposed multifamily, senior independent living, large family, farmworker housing, and acquisition with rehabilitation.
- Prepared Rent Comparability Studies for expiring Section 8 contracts and USDA contracts for subsidized properties located throughout the United States. Engagements included site visits to the subject property, interviewing and inspecting potentially comparable properties, and the analyses of collected data including adjustments to comparable data to determine appropriate adjusted market rents using HUD form 92273.
- Assisted in appraisals of proposed new construction, rehabilitation, and existing Low- Income
  Housing Tax Credit and market rate properties. Analysis includes property screenings, valuation
  analysis, capitalization rate analysis, rent comparability studies, expense comparability analysis,
  determination of market rents, and general market analysis. Assisted in land appraisals for
  lenders and investment banks.
- Researched and analyzed local and national economy and economic indicators for specific projects throughout the United States. Research included employment industries analysis, employment historical trends and future outlook, and demographic analysis.
- Conducted over 100 site inspections for market studies and appraisals throughout the United States for various reports including proposed new construction and rehabilitation multifamily projects.

### **ADDENDUM F**

**NCHMA Certification and Checklist** 

This certificate verifies that

#### Rebecca Sue Arthur

Novogradac & Company LLP

Has completed NCHMA's Professional Designation Requirements and is hence an approved member in good standing of:

National Council of Housing Market Analysts 1400 16<sup>th</sup> St. NW Suite 420 Washington, DC 20036 202-939-1750

**Membership Term** 1/1/2021 to 12/31/2021

Thomas Amdur President, NCHMA

#### NCHMA Market Study Index

Introduction: Members of the National Council of Housing Market Analysts provide the following checklist referencing various components necessary to conduct a comprehensive market study for rental housing. By completing the following checklist, the NCHMA Analyst certifies that he or she has performed all necessary work to support the conclusions included within the comprehensive market study. By completion of this checklist, the analyst asserts that he/she has completed all required items per section.

		Section(s)
	Executive Summary	
1	Executive Summary	В
	Scope of Work
