Re: Application Market Study for Meadowood Park Apartments, located in Dublin, Laurens County, Georgia

Dear Thompson Gooding:

At your request, Novogradac & Company LLP doing business under the brand name Novogradac Consulting (Novogradac), performed a study of the multifamily rental market in the Dublin, Laurens County, Georgia area relative to the above-referenced Low-Income Housing Tax Credit (LIHTC) project. We are concurrently preparing an appraisal on the Subject.

The purpose of this market study is to assess the viability of the renovation of an existing 80-unit general tenancy LIHTC project. It will be a newly renovated affordable LIHTC project, with 78 revenue generating units, restricted to households earning 60 percent of the Area Median Income (AMI) or less. The following report provides support for the findings of the study and outlines the sources of information and the methodologies used to arrive at these conclusions.

The scope of this report meets the requirements of Georgia Department of Community Affairs (DCA), including the following:

- Inspecting the site of the proposed Subject and the general location.
- Analyzing appropriateness of the proposed unit mix, rent levels, available amenities and site.
- Estimating market rent, absorption and stabilized occupancy level for the market area.
- Investigating the health and conditions of the multifamily market.
- Calculating income bands, given the proposed Subject rents.
- Estimating the number of income eligible households.
- Reviewing relevant public records and contacting appropriate public agencies.
- Analyzing the economic and social conditions in the market area in relation to the proposed project.
- Establishing the Subject Primary and Secondary Market Area(s) if applicable.
- Surveying competing projects, Low-Income Housing Tax Credit (LIHTC) and market rate.

Novogradac adheres to the market study guidelines promulgated by the National Council of Housing Market Analysts (NCHMA).

This report contains, to the fullest extent possible and practical, explanations of the data, reasoning, and analyses that were used to develop the opinions contained herein. The report also includes a thorough analysis of the scope of the study, regional and local demographic and economic studies, and market analyses including conclusions. The depth of discussion contained in the report is specific to the needs of the client. Information included in this report is accurate and the report can be relied upon by DCA as a true assessment of the low-income housing rental market. This report is completed in accordance with DCA market study guidelines. We inform the reader that other users of this document may underwrite the LIHTC rents to a different standard than contained in this report.

Thompson Gooding Ambling Property Investments May 17, 2023

The Stated Purpose of this assignment is for tax credit application. You agree not to use the Report other than for the Stated Purpose, and you agree to indemnify us for any claims, damages or losses that we may incur as the result of your use of the Report for other than the Stated Purpose. Without limiting the general applicability of this paragraph, under no circumstances may the Report be used in advertisements, solicitations and/or any form of securities offering.

The authors of this report certify that we are not part of the development team, owner of the Subject property, general contractor, nor are we affiliated with any member of the development team engaged in the development of the Subject property or the development's partners or intended partners. Please do not hesitate to contact us if there are any questions regarding the report or if Novogradac can be of further assistance. It has been our pleasure to assist you with this project.

Respectfully submitted, Novogradac

B. EXECUTIVE SUMMARY

1. Project Description

Meadowood Park Apartments is an existing family LIHTC property located at 1015 Martin Luther King Drive in Dublin, Laurens County, Georgia. The Subject consists of 10, two-story garden-style residential buildings. The Subject was originally constructed in 1999. Renovations will occur with tenants in place. Therefore, buildings will be placed back in service on a rolling basis. Renovations on the Subject are expected to be completed in May 2025. Hard costs of renovations are expected to be \$6,863,999 or \$85,800 per unit.

| PROPOSED RENTS | | | | | | | | | | | |
|----------------|-----------|----------|--------|---------------|-------|--------------------------|---------------|--|--|--|--|
| Unit Type | Unit Size | Number | Asking | Utility | Gross | 2022 LIHTC Maximum | 2023 HUD Fair | | | | |
| om type | (SF) | of Units | Rent | Allowance (1) | Rent | Allowable Gross Rent (2) | Market Rents | | | | |

| 2BR / 2BA | 1,041 | 2 | - | - | - | - | - | | | | |
| | | 80 | | | | | | | | | |

The following table illustrates the proposed unit mix.

Notes (1) Source of Utility Allowance provided by the Developer.

Notes (2) Maximum Allowable Rents reflect national non-metropolitan rents due to the Subject's rural location as designated by USDA.

The Subject's location is designated as rural by the US Department of Agriculture and is therefore eligible to use the national non-metro maximum allowable LIHTC rents. All proposed Subject rents are below the maximum allowable levels. The Subject will offer generally similar in-unit amenities in comparison to the LIHTC and market rate comparable properties and similar to superior property amenities. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market.

2. Site Description/Evaluation

The Subject site is located in the southern portion of Dublin. The Subject's surrounding neighborhood is mixeduse in character, with a mix of single and multifamily residential uses, commercial uses and institutional uses such as houses of worship and schools. Immediately north of the Subject is Dublin Truck Parts and singlefamily homes in average condition. Further to the north is Susie Dasher Elementary School and a fire station. Land uses to the east of the Subject consist of Dublin Headstart and Waterford Estates, a LIHTC property that has been used as a comparable in this report. To the southeast of the Subject is Riverview Heights Apartments, a Section 8 development that has been excluded from our analysis due to all units operating with projectbased rental assistance. Land uses to the south of the Subject consist of a Sunoco gas station and Shamrock Village Apartments, a Section 8 multifamily property that has been excluded from our analysis due to all units operating with rental assistance. Land uses to the west of the Subject consists of a house of worship and vacant, undeveloped land. Based on our inspection of the neighborhood, retail appeared to be 85 to 90 percent occupied. The Subject site is considered "Car Dependent" by WalkScore with a rating of 12 out of 100. The Subject site is considered a desirable building site for rental housing. Most desirable locational amenities are located within 4.6 miles from the Subject property, including a hospital, schools, a grocery store, and a pharmacy. The Subject is located in a mixed-use neighborhood and is a compatible use within the existing neighborhood.

The Subject site can be accessed from Martin Luther King Junior Drive, which is a two-lane, neighborhood street. Martin Luther King Junior Drive provides southbound access to Interstate 16, approximately 2.5 miles to the south. Interstate 16 provides eastbound access to the Savannah area and westbound access to the Macon area and Interstate 75. Overall, access and traffic flow are considered good. The Subject has good visibility from Martin Luther King Junior Drive.

Total crime indices in the PMA are above the national average, and below the surrounding SMA. Both geographic areas feature crime indices above the overall nation. The Subject's security features include limited access, perimeter fencing, and video surveillance. The Subject's video surveillance will be added during renovation and the current limited access system will undergo repair. The majority of comparable properties lack security features. Overall, we believe the Subject's security features are market-oriented.

3. Market Area Definition

The PMA is defined by the Laurens County-Wilkinson County and Laurens County-Johnson County lines to the north, Laurens County-Johnson County and Laurens County-Treutlen County lines to the east, Interstate 16 the south, and Chappell Mill Road to the west. This area includes the majority of the city of Dublin and surrounding rural areas. The distances from the Subject to the farthest boundaries of the PMA in each direction are listed as follows:

North: 13.7 miles East: 15.7 miles South: 2.7 miles West: 15.0 miles

The PMA is defined based on interviews with the local housing authority, and property managers at comparable properties. Property managers indicated that a small portion of their tenants come from out of state. Of those residents coming from within Georgia most are coming from the Dublin area. While we do believe the Subject will experience leakage from outside the PMA boundaries, per the 2023 market study guidelines, we do not account for leakage in our demand analysis found later in this report. The farthest PMA boundary from the Subject is approximately 15.7 miles. The Secondary Market Area (SMA) for the Subject is the Dublin, GA Micropolitan Statistical Area and encompasses 1,226 square miles.

4. Community Demographic Data

Historical population growth in the PMA remained relatively stable between 2000 and 2010. Population growth in the PMA slowed between 2010 and 2022, and was similar to the SMA. Growth in both geographic areas remained below the nation during the same time period. According to ESRI demographic projections, annualized PMA growth is expected to decrease slightly through market entry and 2027, similar to the SMA and below the nation. The current population of the PMA is 37,522 and is expected to be 37,564 in 2025. The current number of households in the PMA is 14,754 and is expected to be 14,787 in 2025. Approximately 32.9 percent of renter households in the PMA are earning incomes between \$20,000 and \$49,999, which is comparable to the 30.2 percent of renter households in the SMA in 2022. The Subject will target tenants earning between \$26,469 and \$46,200; therefore, the Subject should be well-positioned to service this market. Overall, while population growth has been modest, the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

5. Economic Data

Employment in the PMA is concentrated in the healthcare/social assistance, retail trade, and accommodation/food services industries, which collectively comprise 46.8 percent of local employment. The large share of PMA employment in retail trade and accommodation/food services is notable as both industries are historically volatile, and prone to contraction during recessionary periods. However, the PMA also has a significant share of employment in the healthcare industry, which is historically known to exhibit greater stability during recessionary periods. For the 12-month period ending in December 2022 total employment in the SMA decreased 3.2 percent, which compares to a 2.0 percent increase in the nation as a whole for the same period of analysis. In 2022 year-to-date, the SMA has exhibited a decrease in employment of 2.4 percent, which compares to a national increase of 3.7 percent. Continued interest rate increases could further slow the current rate of employment growth. Based on the performance of the SMA economy during the COVID-19 pandemic, we believe that the SMA will likely continue to underperform the national economy in the near term.

Employment in the PMA is concentrated in the healthcare/social assistance, retail trade, and accommodation/food services industries, which collectively comprise 46.8 percent of local employment. The large share of PMA employment in retail trade and accommodation/food services is notable as both industries are historically volatile, and prone to contraction during recessionary periods. However, the PMA also has a significant share of employment in the healthcare industry, which is historically known to exhibit greater stability during recessionary periods. Relative to the overall nation, the PMA features comparatively greater employment in the healthcare/social assistance, retail trade, and accommodation/food services industries. Conversely, the PMA is underrepresented in the professional/scientific/technical services, finance/insurance, and wholesale trade industries.

6. Affordability and Demand Analysis

The following table illustrates the demand and capture rates for the Subject's proposed units.

| AMI | Unit | Minimum | Maximum | Units | Total | Supply | Net | Capture | Proposed | | | |
|---------------|------|----------|----------|----------|--------|--------|--------|---------|-----------|--|--|--|
| Level | Туре | Income | Income | Proposed | Demand | Supply | Demand | Rate | Rents | | | |
| @60% | 2BR | \$26,469 | \$38,520 | 54 | 231 | 21 | 210 | 25.7% | \$645-715 | | | |
| | 3BR | \$29,863 | \$46,200 | 24 | 129 | 12 | 117 | 20.5% | \$715-785 | | | |
| Overall Total | | \$26,469 | \$46,200 | 78 | 360 | 33 | 327 | 23.9% | - | | | |

CAPTURE RATE ANALYSIS CHART

We believe these calculated capture rates are reasonable, particularly as these calculations do not consider demand from outside the PMA or standard rental household turnover.

7. Competitive Rental Analysis

The rental rates at the LIHTC properties are compared to the Subject's proposed 60 percent AMI rents in the following tables.

| LIHTC RENT COMPARISON @60% | | | | | | | | | |
|----------------------------|-------|-------|---------------|--|--|--|--|--|--|
| Property Name | 2BR | 3BR | Rents at Max? | | | | | | |
| Meadowood Park Apartments | \$645 | \$715 | No | | | | | | |
| Meadowood Park Apartments | \$715 | \$785 | No | | | | | | |
| LIHTC Maximum Rent (Net) | \$836 | \$956 | | | | | | | |
| Emerald Pointe Apartments | \$472 | \$594 | No | | | | | | |
| Hillcrest Apartments | \$467 | \$501 | No | | | | | | |
| Waterford Estates | - | \$667 | No | | | | | | |
| Average | \$470 | \$587 | | | | | | | |

The Subject's proposed post-renovation LIHTC rents at 60 percent of AMI are set below the maximum allowable levels. Of note, the lower proposed 60 percent of AMI rents are intended to transition the Subject's current 50 percent of AMI rents until the Subject operates with a new LURA that no longer restricts units to the 50 percent of AMI level. Following this point these units can operate with rents in line with the remaining 60 percent of AMI units at the property. As seen in the previous table, none of the LIHTC properties reported rents at the maximum allowable levels for the 60 percent of AMI levels. The Subject will offer a competitive amenities package relative to the comparables post-renovation, including a more comprehensive property amenities package relative to all LIHTC comparables. The Subject will offer similar to superior condition relative to these properties, which are generally in average to good condition. Based on the limited vacancy at the LIHTC properties and the presence of waiting lists, it does not appear that the LIHTC properties are fully testing the market. We believe the developer's proposed rents are reasonable and achievable. These rents would also offer an advantage to current unrestricted market rents.

Based on the quality of the surveyed comparable properties and the anticipated quality of the Subject, we conclude that the Subject's proposed rents, are below the achievable market rates for the Subject's area. The table below illustrates the comparison of the market rents.

| Unit Type | Rent | Subject Pro | Surveyed | Surveyed | Surveyed | Achievable | Subject Rent | | | | | |
|-----------|-------|-------------|----------|----------|----------|-------------|--------------|--|--|--|--|--|
| onic type | Level | Forma Rent | Min | Max | Average | Market Rent | Advantage | | | | | |
| 2BR / 2BA | @60% | \$645 | \$546 | \$1,410 | \$865 | \$800 | 24% | | | | | |
| 2BR / 2BA | @60% | \$715 | \$546 | \$1,410 | \$865 | \$800 | 12% | | | | | |
| 3BR / 2BA | @60% | \$715 | \$742 | \$1,059 | \$940 | \$925 | 29% | | | | | |
| 3BR / 2BA | @60% | \$785 | \$742 | \$1,059 | \$940 | \$925 | 18% | | | | | |

SUBJECT COMPARISON TO MARKET RENTS

The Subject's pro forma LIHTC rents are within the range of the surveyed comparables and similar to below the surveyed average. Of the unrestricted comparables, we believe that the Subject will be most similar to Claxton Pointe and Woodlawn West Apartment Homes.

Claxton Pointe is a 150-unit, garden-style development located 2.3 miles northwest of the Subject site, in a neighborhood considered slightly superior relative to the Subject's location. This property was constructed in 1976 and renovated in 2021. We consider the condition of this property slightly inferior relative to the renovated Subject, which was built in 1999 and will be renovated in 2025. The manager at Claxton Pointe reported a vacancy rate of 6.7 percent, indicating the current rents are accepted in the market. The following table compares the Subject with Claxton Pointe.

| Unit Type | Rent Level | Subject Pro Forma Rent | Square Feet | Subject RPSF | Claxton Pointe Rent | Square Feet | Claxton Pointe RPSF | Subject Rent Advantage | | | | |
|-----------|---------------|---------------------------|----------------|-----------------|------------------------|----------------|------------------------|---------------------------|--|--|--|--|
| 2BR / 2BA | @60% | \$645 | 1,041 | \$0.72 | \$971 | 1,250 | \$0.78 | 34% | | | | |
| 2BR / 2BA | @60% | \$715 | 1,041 | \$0.72 | \$971 | 1,250 | \$0.78 | 26% | | | | |
| 3BR / 2BA | @60% | \$715 | 1,151 | \$0.81 | \$1,059 | 1,500 | \$0.71 | 32% | | | | |
| 3BR / 2BA | @60% | \$785 | 1,151 | \$0.81 | \$1,059 | 1,500 | \$0.71 | 26% | | | | |

SUBJECT COMPARISON TO CLAXTON POINTE

Claxton Pointe offers balconies/patios, hardwood flooring, and disposals, all of which the Subject lacks. However, the Subject offers exterior storage, microwaves, a business center, a community room, basketball courts, a playground, a swimming pool, and recreational areas, none of which are provided by Claxton Pointe. On balance, we believe the in-unit and property amenity packages offered by Claxton Pointe to be similar and inferior relative to the Subject, respectively. In overall terms, we believe the renovated Subject to be a slightly superior product relative to Claxton Pointe. However, we also considered unit size differences in our determination of market rents. As such, our concluded market rents are below rents at Claxton Pointe.

Woodlawn West Apartment Homes is a 104-unit, garden-style development located 2.0 miles northwest of the Subject site, in a neighborhood considered similar relative to the Subject's location. The property was built in 2019/2021, and currently exhibits superior condition relative to the renovated Subject, which was built in 1999 and will be renovated in 2025. The manager at Woodlawn West Apartment Homes reported the property as fully occupied, indicating the current rents are well accepted in the market. The following table compares the Subject with Woodlawn West Apartment Homes.

| Unit Type | Rent Level | Subject Pro Forma Rent | Square Feet | Subject RPSF | Woodlawn West Apartment Homes Rent | Square Feet | Woodlawn West Apartment Homes RPSF | Subject Rent Advantage |
|-----------|---------------|---------------------------|----------------|-----------------|------------------------------------------|----------------|------------------------------------------|---------------------------|
| 2BR / 2BA | @60% | \$645 | 1,041 | \$0.72 | \$1,410 | 1,341 | \$1.05 | 54% |
| 2BR / 2BA | @60% | \$715 | 1,041 | \$0.72 | \$1,410 | 1,341 | \$1.05 | 49% |
| 3BR / 2BA | @60% | \$715 | 1,151 | \$0.81 | - | - | - | - |
| 3BR/2BA | @60% | \$785 | 1,151 | \$0.81 | - | - | - | - |

SUBJECT COMPARISON TO WOODLAWN WEST APARTMENT HOMES

Woodlawn West Apartment Homes offers balconies/patios, disposals, a fitness center, and a theatre, all of which the Subject lacks. However, the Subject offers exterior storage, walk-in closets, a business center, basketball courts, and a playground, none of which are provided by Woodlawn West Apartment Homes. On balance, we believe the in-unit and property amenity packages offered by Woodlawn West Apartment Homes to be slightly inferior and similar relative to the Subject, respectively. In overall terms, we believe the Subject to be an inferior product relative to the Woodlawn West Apartment Homes. We also considered unit size differences in our determination of market rents. As such, our concluded market rents are similar to slightly below rents at Woodlawn West Apartment Homes.

Overall, we believe that the Subject can achieve rents below those achieved at Claxton Pointe and those currently achieved at Woodlawn West Apartment Homes. Thus, we concluded to market rents of **\$800** and **\$925** for the Subject's two and three-bedroom units, respectively. Thus, the Subject's achievable LIHTC rents will offer a rent advantage ranging from 12 to 29 percent below achievable market rents.

8. Absorption/Stabilization Estimate

We were able to obtain absorption information from one of the comparables, Platform Dublin, which opened in 2022. Management at the property reported that the property had an absorption rate of 15 units per month. Per DCA guidelines, we have calculated the absorption to 93 percent occupancy. Thus, if the Subject was hypothetically 100 percent vacant and had to re-lease units, we would estimate an absorption rate of approximately 10 to 15 units per month, which results in an absorption period of approximately five to eight months to reach 93 percent occupancy and our concluded stabilized occupancy of 95 percent. The Subject is currently stabilized, with 92.5 percent occupancy based on a May 3, 2023 rent roll, and will not require lease up; therefore, our estimate of absorption is hypothetical.

9. Interviews

Interviews with local property managers are included in the profiles in the Existing Competitive Rental Analysis portion of this report.

10. Overall Conclusion

Based upon our market research, demographic calculations, and analysis, we believe there is adequate demand for the Subject property as proposed. The Subject is an existing LIHTC development that will be renovated on a rolling basis with limited tenant displacement. The comparables reported vacancy rates ranging from zero to 9.8 percent, with an overall weighted average of 2.4 percent. Managers at all three of the LIHTC properties reported being fully occupied. The seven market rate properties reported a slightly higher average vacancy rate of 3.2 percent. The average LIHTC vacancy rate of zero percent is considered exceptionally low, and indicative of supply constrained conditions. These factors indicate demand for affordable housing. The Subject will offer generally similar in-unit amenities in comparison to the LIHTC and market rate comparable properties and similar to superior property amenities. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As a newly renovated development, the Subject will be in good condition upon completion and will be considered similar to superior in terms of condition to the majority of the comparable properties. Given the Subject's anticipated condition relative to the competition upon renovation and the demand for affordable housing evidenced by waiting lists and low vacancy at several LIHTC comparable properties, we believe that the Subject is reasonable as

proposed. We believe that it will continue to perform well as newly renovated affordable housing in the Dublin area.

C. PROJECT DESCRIPTION

PROJECT DESCRIPTION

- 1. Project Address and
Development Location:The Subject is located at 1015 Martin Luther King Drive in Dublin,
Laurens County, Georgia 31021. The Subject is existing.
- **2. Construction Type:** The Subject consists of 10, two-story garden-style residential buildings. The Subject will be a rehabilitation of an existing property.
- 3. Occupancy Type: Families.
- 4. Special Population Target: None.
- **5. Number of Units by Bedroom** See following property profile. **Type and AMI Level:**
- 6. Unit Size, Number of Bedrooms See following property profile. and Structure Type:
- 7. Rents and Utility Allowances: See following property profile for Subject rents. Tenants are responsible for all electric costs, including cooking, hot water, heating, and general electric use including air conditioning, along with cold water and sewer service. The landlord is responsible for the cost trash removal and all common area utilities. There will be no changes to the Subject's utility structure as part of the renovation. Comparable properties have slightly differing utility structures when compared to the Subject and received appropriate utility adjustments. These adjustments are based on the utility allowance schedule provided by the Georgia Department of Community Affairs (South Region), effective January 1, 2023, which are displayed in the following table.

| UTILITY AND SOURCE | Paid By | 2BR | 3BR |
|---------------------------------|--------------|-------|-------|
| Heating - Electric Heat Pump | Tenant | \$5 | \$6 |
| Cooking - Electric | Tenant | \$9 | \$12 |
| Other Electric | Tenant | \$27 | \$33 |

HOUSING AUTHORITY UTILITY ALLOWANCE

Source: Georgia DCA, effective 1/2023

The developer's estimates of tenant paid utilities are far below the housing authority's estimates. Housing authority estimates are used to adjust the comparable properties with differing utility structures to the Subject's utility structure for an "apples-to-apples" comparison.

Comments

The utility allowances for the property are \$127 for two-bedroom units, and \$156 for three-bedroom units.

10. Scope of Renovations:

The Subject is existing and will be renovated. Hard costs of renovations are expected to be \$6,863,999 or \$85,800 per unit. The scope of renovations is detailed as follows:

- Renovate all unit kitchens with new cabinetry, countertops and flooring, addition of microwaves, removal of disposals
- Replace unit appliances
- Renovate bathrooms, with new vanities, flooring and fixtures
- Replace all unit flooring (LVT in place of carpeting), doors, windows and repaint all rooms
- Seal all exterior brick
- Paint all exterior railings
- Upgrade property signage
- Landscaping, pavement and overall site upgrades
- Addition of a computer lab

Current Rents:

The following table details the current asking rents at the Subject.

RENT ROLL ANALYSIS

Source: Rent roll dated May 3, 2023

11. Placed in Service Date:

The Subject was originally constructed in 1999. Renovations will occur with tenants in place. Therefore, buildings will be placed back in service on a rolling basis. Renovations on the Subject are expected to be completed in May 2025.

Conclusion:The Subject will be a good-quality multifamily development,
comparable to most of the inventory in the area. As a newly
renovated property, the Subject will not suffer from deferred
maintenance, functional obsolescence, or physical deterioration.

D. SITE EVALUATION

- **1.** Date of Site Visit and Name of Lauren Marino visited the site on April 25, 2023. Inspector:
- 2. Physical Features of the Site: The following illustrates the physical features of the site.

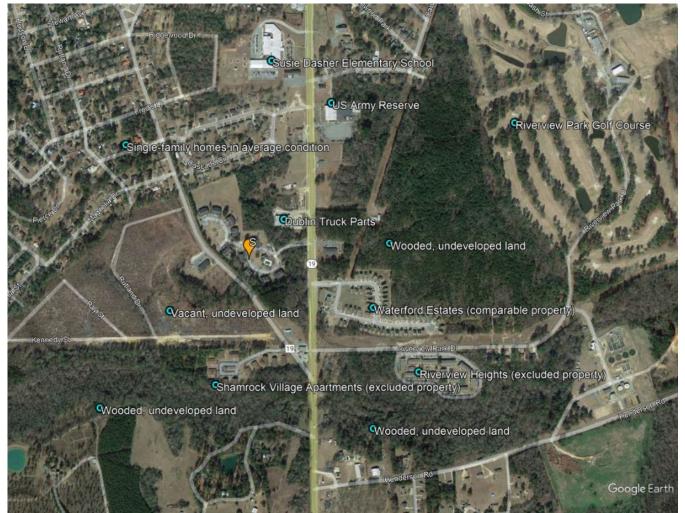

Frontage: The Subject site has frontage along the west side of Martin Luther King Junior Drive and the east side of South Jefferson Street.

Visibility/Views:

The Subject is located on Martin Luther King Junior Drive. The Subject has good visibility from Martin Luther King Junior Drive. Visibility and views from the site will be average and include undeveloped land, commercial uses, and surrounding multifamily uses.

Surrounding Uses:

The following map illustrates the surrounding land uses.

Source: Google Earth, May 2023.

The Subject site is located in the southern portion of Dublin. The Subject's surrounding neighborhood is mixed-use in character, with a mix of single and multifamily residential uses, commercial uses and institutional uses such as houses of worship and schools. Immediately north of the Subject is Dublin Truck Parts and single-family homes in average condition. Further to the north is Susie

Dasher Elementary School and a fire station. Land uses to the east of the Subject consist of Dublin Headstart and Waterford Estates, a LIHTC property that has been used as a comparable in this report. To the southeast of the Subject is Riverview Heights Apartments, a Section 8 development that has been excluded from our analysis due to all units operating with project-based rental assistance. Land uses to the south of the Subject consist of a Sunoco gas station and Shamrock Village Apartments, a Section 8 multifamily property that has been excluded from our analysis due to all units operating with rental assistance. Land uses to the west of the Subject consists of a house of worship and vacant, undeveloped land. Based on our inspection of the neighborhood, retail appeared to be 85 to 90 percent occupied. The Subject site is considered "Car Dependent" by WalkScore with a rating of 12 out of 100. The Subject site is considered a desirable building site for rental housing.

- **Positive/Negative Attributes of** Site: The Subject's proximity to retail and other locational amenities as well as its surrounding uses, which are in average condition, are considered positive attributes. Additionally, the Subject site is within close proximity to Interstate 16, which provides convenient access to other employment centers. There were no significant negative attributes of the Subject that were identified.
- **3. Physical Proximity to Locational** The Subject is located within 4.6 miles of the locational amenities. **Amenities:**

6. Description of Land Uses

The Subject site is located in the southern portion of Dublin. The Subject's surrounding neighborhood is mixed-use in character, with a mix of single and multifamily residential uses, commercial uses and institutional uses such as houses of worship and schools.

Immediately north of the Subject is Dublin Truck Parts and singlefamily homes in average condition. Further to the north is Susie Dasher Elementary School and a fire station. Land uses to the east of the Subject consist of Dublin Headstart and Waterford Estates, a LIHTC property that has been used as a comparable in this report. To the southeast of the Subject is Riverview Heights Apartments, a Section 8 development that has been excluded from our analysis due to all units operating with project-based rental assistance. Land uses to the south of the Subject consist of a Sunoco gas station and Shamrock Village Apartments, a Section 8 multifamily property that has been excluded from our analysis due to all units operating with rental assistance. Land uses to the west of the Subject consists of a house of worship and vacant, undeveloped land. Based on our inspection of the neighborhood, retail appeared to be 85 to 90 percent occupied. The Subject site is considered "Car Dependent" by WalkScore with a rating of 12 out of 100. The Subject site is considered a desirable building site for rental housing.

7. Crime: The following table illustrates crime statistics in the Subject's PMA compared to the SMA.

| | РМА | Dublin, GA Micropolitan Statistical Area |
|---------------------|-----|---------------------------------------------|
| Total Crime* | 142 | 108 |
| Personal Crime* | 118 | 94 |
| Murder | 79 | 75 |
| Rape | 103 | 91 |
| Robbery | 101 | 71 |
| Assault | 129 | 106 |
| Property Crime* | 145 | 110 |
| Burglary | 144 | 124 |
| Larceny | 156 | 112 |
| Motor Vehicle Theft | 59 | 47 |

2022 CRIME INDICES

Source: Esri Demographics 2022, Novogradac, May 2023

*Unweighted aggregations

Total crime indices in the PMA are above the national average, and below the surrounding SMA. Both geographic areas feature crime indices above the overall nation. The Subject's security features include limited access, perimeter fencing, and video surveillance. The Subject's video surveillance will be added during renovation and the current limited access system will undergo repair. The majority of comparable properties lack security features. Overall, we believe the Subject's security features are market-oriented.

8. Existing Assisted Rental Housing Property Map:

The following map and list identify all assisted rental housing properties in the PMA.

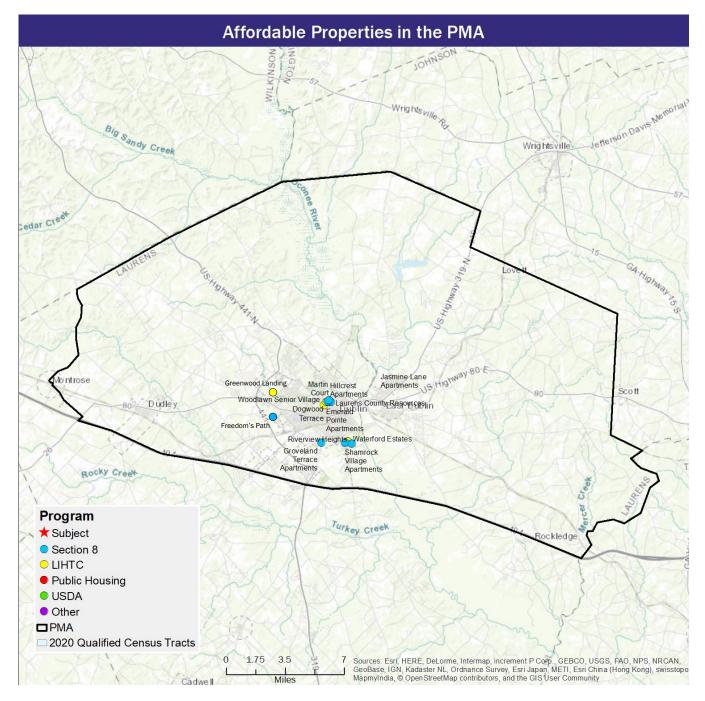

| Property Name | Program | Location | Tenancy | # of Units | Distance from Subject | Map Color | | |

AFFORDABLE PROPERTIES IN THE PMA

.....

- 9. Road, Infrastructure or Proposed Improvements:
- 10. Access, Ingress-Egress and Visibility of Site:

We did not witness any road, infrastructure or proposed improvements during our field work.

The Subject site can be accessed from Martin Luther King Junior Drive, which is a two-lane, neighborhood street. Martin Luther King Junior Drive provides southbound access to Interstate 16, approximately 2.5 miles to the south. Interstate 16 provides eastbound access to the Savannah area and westbound access to the Macon area and Interstate 75. Overall, access and traffic flow are considered good. The Subject has good visibility from Martin Luther King Junior Drive.

11. Conclusion:

The Subject site is located in the southern portion of Dublin. The Subject's surrounding neighborhood is mixed-use in character, with a mix of single and multifamily residential uses, commercial uses and institutional uses such as houses of worship and schools. The Subject's neighborhood appears to be a good location for multifamily development. Most desirable locational amenities are located within 4.6 miles from the Subject property, including a hospital, schools, a grocery store, and a pharmacy. The Subject is located in a mixed-use neighborhood and is a compatible use within the existing neighborhood.

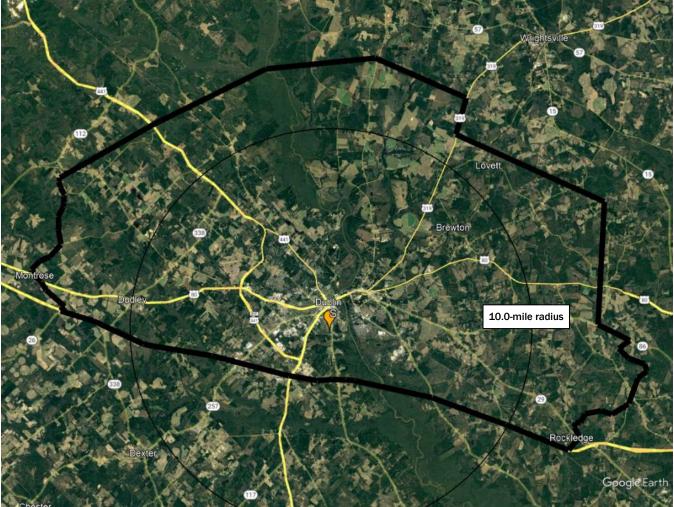

PRIMARY MARKET AREA

For the purpose of this study, it is necessary to define the market area, or the area from which potential tenants for the project are likely to be drawn. In some areas, residents are very much "neighborhood oriented" and are generally very reluctant to move from the area where they have grown up. In other areas, residents are much more mobile and will relocate to a completely new area, especially if there is an attraction such as affordable housing at below market rents.

Primary Market Area Map

Source: Google Earth, May 2023

The following sections will provide an analysis of the demographic characteristics within the market area. Data such as population, households and growth patterns will be studied, to determine if the Primary Market Area (PMA) and the SMA are areas of growth or contraction.

The PMA is defined by the Laurens County-Wilkinson County and Laurens County-Johnson County lines to the north, Laurens County-Johnson County and Laurens County-Treutlen County lines to the east, Interstate 16 the south, and Chappell Mill Road to the west. This area includes the majority of the city of Dublin and surrounding rural areas. The distances from the Subject to the farthest boundaries of the PMA in each direction are listed as follows:

North: 13.7 miles East: 15.7 miles

South: 2.7 miles West: 15.0 miles

The PMA is defined based on interviews with the local housing authority, and property managers at comparable properties. Property managers indicated that a small portion of their tenants come from out of state. Of those residents coming from within Georgia most are coming from the Dublin area. While we do believe the Subject will experience leakage from outside the PMA boundaries, per the 2023 market study guidelines, we do not account for leakage in our demand analysis found later in this report. The farthest PMA boundary from the Subject is approximately 15.7 miles. The Secondary Market Area (SMA) for the Subject is the Dublin, GA Micropolitan Statistical Area and encompasses 1,226 square miles.

F. COMMUNITY DEMOGRAPHIC DATA

COMMUNITY DEMOGRAPHIC DATA

The following sections will provide an analysis of the demographic characteristics within the market area. Data such as population, households and growth patterns will be studied to determine if the Primary Market Area (PMA) and Dublin, GA Micropolitan Statistical Area (SMA) are areas of growth or contraction. The discussions will also describe typical household size and will provide a picture of the health of the community and the economy. The following demographic tables are specific to the populations of the PMA and Dublin, GA Micropolitan Statistical Area (SMA). Construction on the Subject is anticipated to be completed in May 2025, which will be used as the estimated market entry time in this section of the report according to DCA guidelines.

1. Population Trends

The following tables illustrate Total Population, Population by Age Group, within the population in the SMA, the PMA and nationally from 2000 through 2027.

Total Population

The following table illustrates the total population within the PMA, SMA and nation from 2000 through 2027.

| | | PC | PULATION | | | | |
|---------------------------------|--------|---------------|---------------------------------------------|---------------|-------------|---------------|--|
| Year | РМА | | Dublin, GA Micropolitan Statistical Area | | USA | | |
| | Number | Annual Change | Number | Annual Change | Number | Annual Change | |
| 2000 | 32,439 | - | 67,500 | - | 281,250,431 | - | |
| 2010 | 36,438 | 1.2% | 65,299 | -0.3% | 308,738,557 | 1.0% | |
| 2022 | 37,522 | 0.2% | 65,161 | 0.0% | 335,707,629 | 0.7% | |
| Projected Mkt Entry May 2025 | 37,564 | 0.0% | 65,061 | -0.1% | 338,084,742 | 0.2% | |
| 2027 | 37,596 | 0.0% | 64,985 | -0.1% | 339,902,535 | 0.2% | |

Source: Esri Demographics 2022, Novogradac, May 2023

Historical population growth in the PMA exceeded the SMA between 2000 and 2010. The PMA experienced population growth greater than the nation whereas the SMA underperformed national growth rates. Population growth in the PMA slowed between 2010 and 2022, and was similar to the SMA. Growth in both geographic areas remained below the nation during the same time period. According to ESRI demographic projections, annualized PMA growth is expected to remain stable through market entry and 2027, similar to projected growth in the SMA. However, growth in both geographic areas is expected to trail the nation.

Total Population by Age Group

The following table illustrates the total population within the PMA and SMA and nation from 2000 to 2027.

| | POPULATION BY AGE GROUP PMA | | | | | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|

POPULATION BY AGE GROUP

Source: Esri Demographics 2022, Novogradac, May 2023

The largest age cohorts in the PMA are between 5 and 9, 10 to 14, and 60 and 64, which indicates the presence of families.

2. Household Trends

The following tables illustrate (a) Total Households and Average Household Size, (b) Household Tenure, (c) Households by Income, (d) Renter Households by Size, within the population in the SMA, the PMA and nationally from 2000 through 2027.

Total Number of Households and Average Household Size

The following tables illustrate the total number of households and average household size within the PMA, SMA and nation from 2000 through 2027.

| HOUSEHOLDS | | | | | | |
|---------------------------------|--------|---------------|--------|-------------------------------|-------------|---------------|
| Year | l | PMA | | A Micropolitan stical Area | U | SA |
| | Number | Annual Change | Number | Annual Change | Number | Annual Change |

Source: Esri Demographics 2022, Novogradac, May 2023

Historical household growth in the PMA exceeded the SMA between 2000 and 2010. The PMA experienced household growth greater than the overall nation whereas the SMA underperformed national growth rates. Household growth in the PMA slowed between 2010 and 2022, and was similar to the SMA. Growth in both geographic areas remained below the nation during the same time period. According to ESRI demographic projections, annualized PMA growth is expected to decline to 0.1 percent through market entry and 2027, similar to projected growth in the SMA. However, growth in both geographic areas is expected to trail the nation.

Households by Tenure

The table below depicts household growth by tenure from 2000 through 2027.

| TENURE PATTERNS PMA | | | | | | |
|---------------------------------|----------------|----------------|-----------------|-----------------|--|--|
| N | Owner-Occupied | Percentage | Renter-Occupied | Percentage | | |
| Year | Units | Owner-Occupied | Units | Renter-Occupied | | |
| 2000 | 8,873 | 70.9% | 3,638 | 29.1% | | |
| 2010 | 8,745 | 62.1% | 5,337 | 37.9% | | |
| 2022 | 9,048 | 61.3% | 5,706 | 38.7% | | |
| Projected Mkt Entry May 2025 | 9,101 | 61.5% | 5,686 | 38.5% | | |
| 2027 | 9,142 | 61.7% | 5,671 | 38.3% | | |

Source: Esri Demographics 2022, Novogradac, May 2023

The preceding table details household tenure patterns in the PMA since 2000. The percentage of renter households in the PMA increased slightly between 2010 and 2022, and is estimated to be 38.7 percent as of 2022. This is more than the estimated 35.0 percent of renter households across the overall nation. According to ESRI demographic projections, the percentage of renter households in the PMA is expected to decrease slightly through market entry and 2027.

Household Income

The following table depicts renter household income in the PMA in 2022, market entry, and 2027.

| RENTER HOUSEHOLD INCOME DISTRIBUTION - PMA | | | | | | | |

Source: HISTA Data / Ribbon Demographics 2021, Novogradac, May 2023

The Subject will target tenants earning between \$26,469 and \$46,200. As the table above depicts, approximately 32.9 percent of renter households in the PMA are earning incomes between \$20,000 and \$49,999, which is comparable to the 30.2 percent of renter households in the SMA in 2022. For the projected market entry date of May 2025, these percentages are projected to slightly increase to 33.4 percent and 30.5 percent for the PMA and SMA, respectively.

Renter Households by Number of Persons in the Household

The following table illustrates household size for all households in 2022, market entry and 2027. To determine the number of renter households by number of persons per household, the total number of households is adjusted by the percentage of renter households.

| Household Size | 2022 | | Projected Mkt | Projected Mkt Entry May 2025 | | 2027 | |
|------------------|--------|------------|---------------|------------------------------|--------|------------|--|
| | Number | Percentage | Number | Percentage | Number | Percentage | |

RENTER HOUSEHOLDS BY NUMBER OF PERSONS - PMA

Source: HISTA Data / Ribbon Demographics 2021, Novogradac, May 2023

The majority of renter households in the PMA are one to three-person households.

Conclusion

Historical population growth in the PMA remained relatively stable between 2000 and 2010. Population growth in the PMA slowed between 2010 and 2022, and was similar to the SMA. Growth in both geographic areas remained below the nation during the same time period. According to ESRI demographic projections, annualized PMA growth is expected to decrease slightly through market entry and 2027, similar to the SMA and below the nation. The current population of the PMA is 37,522 and is expected to be 37,564 in 2025. The current number of households in the PMA is 14,754 and is expected to be 14,787 in 2025. Approximately 32.9 percent of renter households in the PMA are earning incomes between \$20,000 and \$49,999, which is comparable to the 30.2 percent of renter households in the SMA in 2022. The Subject will target tenants

earning between \$26,469 and \$46,200; therefore, the Subject should be well-positioned to service this market. Overall, while population growth has been modest, the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

2022 EMPLOYMENT BY INDUSTRY

Source: Esri Demographics 2022, Novogradac, May 2023

Employment in the PMA is concentrated in the healthcare/social assistance, retail trade, and accommodation/food services industries, which collectively comprise 46.8 percent of local employment. The large share of PMA employment in retail trade and accommodation/food services is notable as both industries are historically volatile, and prone to contraction during recessionary periods. However, the PMA also has a significant share of employment in the healthcare industry, which is historically known to exhibit greater stability during recessionary periods. Relative to the overall nation, the PMA features comparatively greater employment in the healthcare/social assistance, retail trade, and accommodation/food services industries. Conversely, the PMA is underrepresented in the professional/scientific/technical services, finance/insurance, and wholesale trade industries.

3. Major Employers

The table below shows the largest employers in Laurens County.

MAJOR EMPLOYERS

Source: Dublin-Laurens County Economic Development Authority, May 2023

Major employers in Laurens County include companies in the healthcare, manufacturing, and transportation/warehousing industries, among others. Healthcare is a historically stable industry.

Expansions/Contractions

We made several attempts to reach a representative with the Dublin-Laurens County Economic Development Corporation regarding recently announced employment expansions in the area; however, our calls have not been returned as of the date of this report. We conducted additional research regarding employment expansions in the area. We did not uncover evidence of any recent employment expansions in Dublin or surrounding Laurens County.

According to the Georgia Department of Labor there have been no Worker Adjustment and Retraining Notification (WARN) filings for employers in Laurens County from January 2022 through year-to-date 2023.

Source: U.S. Bureau of Labor Statistics, May 2023

As seen in the previous table, total employment in the SMA fluctuated from 2010 through 2019. Total employment in the SMA decreased in 2020 due to the onset of the COVID-19 pandemic. For the 12-month

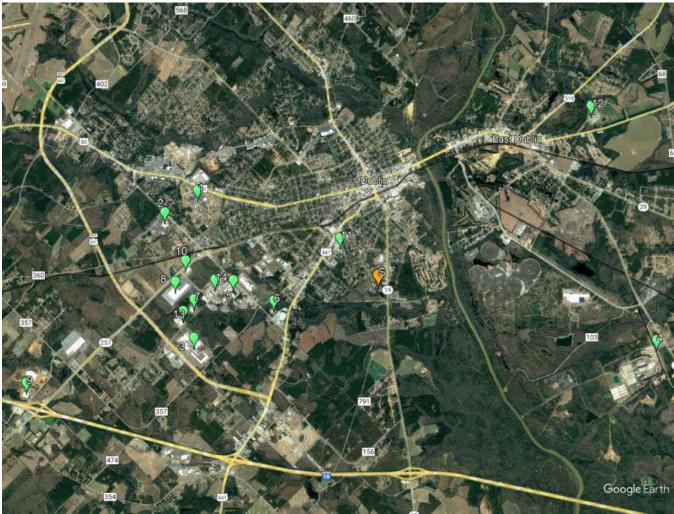

period ending in December 2022 total employment in the SMA decreased 3.2 percent, which compares to a 2.0 percent increase in the nation as a whole for the same period of analysis. In 2022 year-to-date, the SMA has exhibited a decrease in employment of 2.4 percent, which compares to a national increase of 3.7 percent. Continued interest rate increases could further slow the current rate of employment growth.

The unemployment rate in the SMA was 3.5 percent as of December 2022, which compares to a national unemployment rate of 3.3 for the nation. Based on the performance of the SMA economy during the COVID-19 pandemic, we believe that the SMA will likely continue to underperform the national economy in the near term.

6. Conclusion

Employment in the PMA is concentrated in the healthcare/social assistance, retail trade, and accommodation/food services industries, which collectively comprise 46.8 percent of local employment. The large share of PMA employment in retail trade and accommodation/food services is notable as both industries are historically volatile, and prone to contraction during recessionary periods. However, the PMA also has a significant share of employment in the healthcare industry, which is historically known to exhibit greater stability during recessionary periods. For the 12-month period ending in December 2022 total employment in the SMA decreased 3.2 percent, which compares to a 2.0 percent increase in the nation as a whole for the same period of analysis. In 2022 year-to-date, the SMA has exhibited a decrease in employment of 2.4 percent, which compares to a national increase of 3.7 percent. Continued interest rate increases could further slow the current rate of employment growth. Based on the performance of the SMA economy during the COVID-19 pandemic, we believe that the SMA will likely continue to underperform the national economy in the near term.

H. PROJECT-SPECIFIC AFFORDABILITY AND DEMAND ANALYSIS

The following demand analysis evaluates the potential amount of qualified households, which the Subject would have a fair chance at capturing. The structure of the analysis is based on the guidelines provided by DCA.

1. Income Restrictions

LIHTC rents are based upon a percentage of the Area Median Gross Income ("AMI"), adjusted for household size and utilities. The Georgia Department of Community Affairs ("DCA") will estimate the relevant income levels, with annual updates. The rents are calculated assuming that the maximum net rent a household will pay is 35 percent of its household income at the appropriate AMI level.

According to DCA, household size is assumed to be 1.5 persons per bedroom for LIHTC rent calculation purposes. For example, the maximum rent for a four-person household in a two-bedroom unit is based on an assumed household size of three persons (1.5 per bedroom). For income determination purposes, the maximum income is assumed to be 1.5 persons per bedroom rounded up to the nearest whole number. For example, maximum income for a one-bedroom unit is based on an assumed household size of two persons (1.5 persons per bedroom a ssumed household size of two persons (1.5 persons per bedroom, rounded up). However, very few senior households have more than two persons. Therefore, we assume a maximum household size of two persons in our analysis.

To assess the likely number of tenants in the market area eligible to live in the Subject, we use Census information as provided by ESRI Information Systems, to estimate the number of potential tenants who would qualify to occupy the Subject as a LIHTC project.

The maximum income levels are based upon information obtained from the Rent and Income Limits Guidelines Table as accessed from the DCA website.

2. Affordability

As discussed above, the maximum income is set by DCA while the minimum is based upon the minimum income needed to support affordability. This is based upon a standard of 35 percent. Lower and moderateincome families typically spend greater than 30 percent of their income on housing. These expenditure amounts can range higher than 50 percent depending upon market area. However, the 30 to 40 percent range is generally considered a reasonable range of affordability. DCA guidelines utilize 35 percent for families and 40 percent for seniors. We will use these guidelines to set the minimum income levels for the demand analysis.

| FAMILY INCOME LIMITS | | | | | | | | |
|----------------------|-----------|-----------|--|--|--|--|--|--|
| | Minimum | Maximum | | | | | | |
| Unit Type | Allowable | Allowable | | | | | | |
| | Income | Income | | | | | | |
| | @60% | | | | | | | |
| 2BR | \$26,469 | \$38,520 | | | | | | |
| 3BR | \$29,863 | \$46,200 | | | | | | |

3. Demand

The demand for the Subject will be derived from three sources: new households, existing households and elderly homeowners likely to convert to rentership. These calculations are illustrated in the following tables.

Demand from New Households

The number of new households entering the market is the first level of demand calculated. We utilized 2025, the anticipated date of market entry, as the base year for the analysis. Therefore, 2022 household population estimates are inflated to 2025 by interpolation of the difference between 2022 estimates and 2027 projections. This change in households is considered the gross potential demand for the Subject property. This number is adjusted for income eligibility and renter tenure. This is calculated as an annual demand number. In other words, this calculates the anticipated new households in 2025. This number takes the overall growth

from 2022 to 2025 and applies it to its respective income cohorts by percentage. This number does not reflect lower income households losing population, as this may be a result of simple dollar value inflation.

Demand from Existing Households

Demand for existing households is estimated by summing two sources of potential tenants. The first source is tenants who are rent overburdened. These are households who are paying over 35 percent for family households and 40 percent for senior households of their income in housing costs. This data is interpolated using ACS data based on appropriate income levels.

The second source is households living in substandard housing. We will utilize this data to determine the number of current residents that are income eligible, renter tenure, overburdened and/or living in substandard housing and likely to consider the Subject. In general, we will utilize this data to determine the number of current residents that are income eligible, renter tenure, overburdened and/or living in substandard housing and likely to consider the Subject.

Demand from Elderly Homeowners likely to Convert to Rentership

An additional source of demand is also seniors likely to move from their own homes into rental housing. This source is only appropriate when evaluating senior properties and is determined by interviews with property managers in the PMA. It should be noted that per DCA guidelines, we lower demand from seniors who convert to homeownership to be at or below 2.0 percent of total demand.

3d. Other

Per the 2023 GA DCA Qualified Allocation Plan (QAP) and Market Study Manual, GA DCA does not consider demand from outside the Primary Market Area (PMA), including the Secondary Market Area (SMA). Therefore, we do not account for leakage from outside the PMA boundaries in our demand analysis.

DCA does not consider household turnover to be a source of market demand. Therefore, we do not account for household turnover in our demand analysis.

We calculated all of our capture rates based on household size. DCA guidelines indicate that properties with over 20 percent of their proposed units in three and four-bedroom units need to be adjusted to considered larger household sizes. Our capture rates incorporate household size adjustments for all of the Subject's units.

Net Demand

The following pages will outline the overall demand components added together less the supply of competitive developments awarded and/or constructed or placed in service from 2020 to the present.

Additions to Supply

Additions to supply will lower the number of potential qualified households. Pursuant to our understanding of DCA guidelines, we deduct the following units from the demand analysis.

- Comparable/competitive LIHTC and bond units (vacant or occupied) that were funded, are under construction, or are in properties that have not yet reached stabilized occupancy
- Comparable/competitive conventional or market rate units that are proposed, are under construction, or are in properties that have not yet reached stabilized occupancy. As the following discussion will demonstrate, competitive market rate units are those with rent levels that are comparable to the proposed rents at the Subject.

Per GA DCA guidelines, competitive units are defined as those units that are of similar size and configuration and provide alternative housing to a similar tenant population, at rent levels comparative to those proposed for the Subject development.

We made several attempts to reach individuals with the City of Dublin Planning Department; however, our calls have not been returned as of the date of this report. We conducted additional research regarding planned

additions to the area multifamily supply. We additionally consulted a May 2023 Costar report of under construction properties in the PMA as well as the Georgia DCA Program Awards Database. We identified no properties currently in development within the PMA.

According to Georgia Department of Community Affairs LIHTC allocation lists, there have been two properties awarded and/or constructed or placed in service in the PMA from 2020 to the present. The following table details these allocations.

| | | | | - | | | |
|-------------------|-------------------|-------------------|------------------|----------------|----------------------|------------------------|--|
| Property Name | Year Allocated | Rent Structure | Tenancy | Total Units | Competitive Units | Distance to Subject | |
| Greenwood Landing | 2021 | LIHTC/Workforce | Family | 64 | 33 | 5.9 miles | |
| Freedom's Path | 2020 | LIHTC/PBV | Veteran/Homeless | 44 | 0 | 3.9 miles | |
| | | | | 108 | 33 | | |

RECENT LIHTC ALLOCATIONS IN PMA

Source: Georgia DCA, May 2023

As all units at Freedom's Path will be studio and one-bedroom units that will target a veterans tenancy, with a preference for those at risk or formerly homeless, we do not anticipate any competitive overlap with the Subject. Further, all units at the property will operate with project-based subsidy. Greenwood Landing will offer 33 units that will have competitive overlap with the Subject, consisting of two and three-bedroom units at 60 percent of AMI. The remaining units will consist of differing bedroom types or differing AMI levels than the units to be offered at the Subject. As a result, 33 units have been deducted from our demand calculations.

The following table illustrates the total number of units removed based on existing properties as well as new properties to the market area that have been allocated or are not yet stabilized.

| ADDITIONS TO SUPPLY | | | | | | | | | |
|---------------------------|----|----|--|--|--|--|--|--|--|
| Unit Type 60% AMI Overall | | | | | | | | | |
| 2BR | 21 | 21 | | | | | | | |
| 3BR | 12 | 12 | | | | | | | |
| Total | 33 | 33 | | | | | | | |

Rehab Developments and PBRA

For any properties that are rehab developments, the capture rates will be based on those units that are vacant, or whose tenants will be rent burdened or over income as listed on the Tenant Relocation Spreadsheet.

Units that are subsidized with PBRA or whose rents are more than 20 percent lower than the rent for other units of the same bedroom size in the same AMI band and comprise less than 10 percent of total units in the same AMI band will not be used in determining project demand. In addition, any units, if priced 30 percent lower than the average market rent for the bedroom type in any income segment, will be assumed to be leasable in the market and deducted from the total number of units in the project for determining capture rates.

Capture Rates

The above calculations and derived capture rates are illustrated in the following tables. Note that the demographic data used in the following tables, including tenure patterns, household size and income distribution through the projected market entry date of 2025 are illustrated in the previous section of this report.

CAPTURE RATE ANALYSIS CHART

Our demand analysis is used to determine a base of demand for the Subject as a tax credit property. Several factors affect the indicated capture rates and are discussed following.

- The number of households in the PMA is expected to increase 0.1 percent annually between 2022 and the date of market entry in May 2025.
- This demand analysis does not measure the PMA's or Subject's ability to attract additional or latent demand into the market from elsewhere by offering an affordable option. We believe this to be moderate and therefore the demand analysis is somewhat conservative in its conclusions because this demand is not included.

The following table illustrates demand and net demand for the Subject's units. Note that these capture rates are not based on appropriate bedroom types, as calculated previously.

| DCA Conclusion Tables (Family) | HH at @60% AMI (\$26,469 to \$46,200) | All Tax Credit Households |
|-----------------------------------------------------------------------------------------------------|------------------------------------------|------------------------------|
| Demand from New Households (age and income appropriate) | 6 | 6 |
| PLUS | + | + |
| Demand from Existing Renter Households - Substandard Housing | 9 | 9 |
| PLUS | + | + |
| Demand from Existing Renter Housholds - Rent Overburdened Households | 610 | 610 |
| Sub Total | 625 | 625 |
| Demand from Existing Households - Elderly Homeowner Turnover (Limited to 2% where applicable) | 0 | 0 |
| Equals Total Demand | 625 | 625 |
| Less | - | - |
| Competitive New Supply | 33 | 33 |
| Equals Net Demand | 592 | 592 |

DEMAND AND NET DEMAND

| | CAPTURE RATE ANALYSIS CHART | | | | | | | | | | | | | | | | |
|----------|-----------------------------|----------|----------|----------|-----------|---------|--------------|---------|-------------|-------------|-------------|-----------|---------|---------|---------|---------|----------|
| AMI Unit | | AMI | Unit | Minimum | Minimum M | Minimum | Init Minimum | Maximum | Units | Total | Supply | Net | Capture | Average | Minimum | Maximum | Proposed |
| Level | Туре | Income | Income | Proposed | Demand | Supply | Demand | Rate | Market Rent | Market Rent | Market Rent | Rents | | | | | |
| 000% | 2BR | \$26,469 | \$38,520 | 54 | 231 | 21 | 210 | 25.7% | \$864 | \$546 | \$1,410 | \$645-715 | | | | | |
| @60% | 3BR | \$29,863 | \$46,200 | 24 | 129 | 12 | 117 | 20.5% | \$940 | \$742 | \$1,059 | \$715-785 | | | | | |
| Overal | l Total | \$26.469 | \$46.200 | 78 | 360 | 33 | 327 | 23.9% | - | - | - | - | | | | | |

As the analysis illustrates, the Subject's capture rates at the 60 percent AMI level will range from 20.5 to 25.7 percent, with an overall capture rate of 23.9 percent. The overall capture rate for the project's units is 23.9 percent as proposed. Therefore, we believe there is adequate demand for the Subject. All capture rates are within Georgia DCA thresholds.

I.COMPETITIVE RENTAL ENVIRONMENT

Survey of Comparable Projects

Comparable properties are examined on the basis of physical characteristics, i.e., building type, age/quality, level of common amenities, absorption, as well as similarity in rent structure. We attempted to compare the Subject to complexes from the competing market to provide a broader picture of the health and available supply in the market. Our competitive survey includes 10 "true" comparable properties containing 737 units.

The availability of LIHTC data is considered good. We included three LIHTC and mixed-income comparables in our analysis. All are located within the PMA, between 0.2 and 2.1 miles of the Subject. The comparables were built or converted to residential use between 1996 and 2010.

The availability of market rate data is considered good. The Subject is located in Dublin and there are several market rate properties in the area. We include seven conventional properties in our analysis of the competitive market. All of the market rate properties are located in the PMA, between 0.6 and 3.4 miles from the Subject site. These comparables were built or renovated between 1973 and 2022. Overall, we believe the market rate properties used in our analysis are the most comparable. Other market rate properties are excluded based on proximity, unit count, and condition.

A detailed matrix describing the individual competitive properties as well as the Subject is provided on the following pages. A map illustrating the location of the Subject in relation to comparable properties is also provided on the following pages. The properties are further profiled in the following write-ups. The property descriptions include information on vacancy, turnover, absorption, age, competition, and the general health of the rental market, when available.

Excluded Properties

The following table illustrates properties within the PMA that are excluded from our analysis along with their reason for exclusion.

| EXCLUDED PROPERTIES | | | | | | | | | | |
|------------------------------|-----------------|-----------------|-------------------------|--|--|--|--|--|--|--|

Comments

Management reported a strong demand for affordable rental housing in the area. Any vacancies are typically filled from a waiting list at the property. The contact was unable to provide the current contract rents for the units at 50 percent of AMI that operate with project-based rental assistance.

Comments

The property was allocated tax credits in 2018 and renovations took place in 2019 and 2020 which included a new playground, new siding, repaved parking lot, new sidewalks as needed, a new community room, and new computer room. Interior renovations included new flooring, cabinets, countertops, appliances, windows, doors, locks, fixtures, paint, bathroom sinks, and some bathtubs.

Comments

The property does not accept Housing Choice Vouchers. The rents for the two-bedroom units given are the most recently leased units, as none of them are currently available. The range in rents per unit type are due to the more expensive units being renovated.

Comments

The property was completed in four phases and it now offers a total of 104 multifamily units. Washers and dryers are available to tenants for \$75 per month. There is an additional utility fee of \$75 per month for one-bedroom units and \$85 per month for two-bedroom units. The contact stated that the various phases reached stabilization within six months of opening, which reflects an absorption pace of approximately nine units per month.

Woodlawn West Apartment Homes, continued

2. Housing Choice Vouchers

We made multiple attempts to contact the Georgia Department of Community Affairs in order to determine the number Housing Choice Vouchers currently in use in Laurens County; however, as of the date of this report our calls and emails have not been returned. The Subject's proposed rents are set below the current payment standards. Therefore, tenants with Housing Choice Vouchers will not pay out of pocket for rent.

| TENANTS WITH VOUCHERS | | | | | | | | | | | |
|-------------------------------|----------------|--------------------------------|--|--|--|--|--|--|--|--|--|
| Property Name | Rent Structure | Housing Choice Voucher Tenants | | | | | | | | | |
| Emerald Pointe Apartments | LIHTC/ Market | 6% | | | | | | | | | |
| Hillcrest Apartments | LIHTC | 17% | | | | | | | | | |
| Waterford Estates | LIHTC/ Market | 14% | | | | | | | | | |
| Brookington Apartments | Market | 0% | | | | | | | | | |
| Carriage Hills Of Dublin | Market | 0% | | | | | | | | | |
| Claxton Pointe | Market | 5% | | | | | | | | | |

| Windcrest Properties | Market | 0% | | | | | | | | | |
| Woodlawn West Apartment Homes | Market | 0% | | | | | | | | | |

The following table illustrates voucher usage at the comparables.

The comparable properties reported voucher usage ranging from zero to 17 percent. Three of the LIHTC properties reported voucher usage, with an average utilization of 12 percent. The highest voucher usage was reported by Hillcrest Apartments, a 48-unit LIHTC property located 2.0 miles north of the Subject. Based on the performance of the LIHTC comparables, we expect the Subject will operate with voucher usage of approximately 10 percent.

3. Phased Developments

The Subject is not part of a multi-phase development.

Lease Up History

We were able to obtain absorption information from one of the comparables, Platform Dublin, which opened in 2022. Management at the property reported that the property had an absorption rate of 15 units per month. Per DCA guidelines, we have calculated the absorption to 93 percent occupancy. Thus, if the Subject was hypothetically 100 percent vacant and had to re-lease units, we would estimate an absorption rate of approximately 10 to 15 units per month, which results in an absorption period of approximately five to eight months to reach 93 percent occupancy and our concluded stabilized occupancy of 95 percent. The Subject is currently stabilized, with 92.5 percent occupancy based on a May 3, 2023 rent roll, and will not require lease up; therefore, our estimate of absorption is hypothetical.

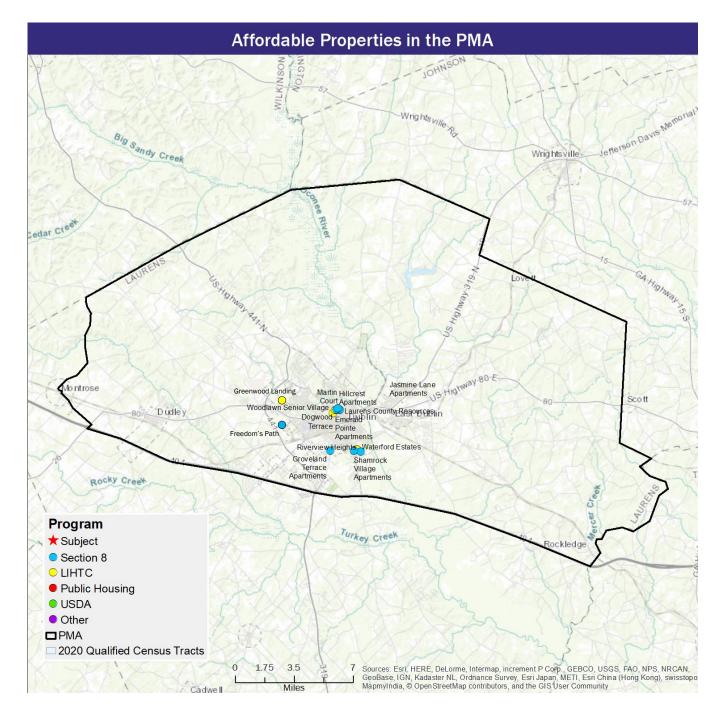

4. Competitive Project Map

| Property Name | Program | Location | Tenancy | # of Units | Occupancy | Map Color | | | | | |

The Subject will offer generally similar in-unit amenities in comparison to the LIHTC and market rate comparable properties and similar to superior property amenities. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market.

6. Comparable Tenancy

The Subject will target families. All of the comparable properties also target families.

Vacancy

The following table illustrates the vacancy rates in the market.

| OVERALL VACANCY | | | | | | | | | | |
|-------------------------------|----------------|-------------|--------------|--------------|--|--|--|--|--|--|
| Property Name | Rent Structure | Total Units | Vacant Units | Vacancy Rate | | | | | | |
| Emerald Pointe Apartments | LIHTC/ Market | 64 | 0 | 0.0% | | | | | | |
| Hillcrest Apartments | LIHTC | 48 | 0 | 0.0% | | | | | | |
| Waterford Estates | LIHTC/ Market | 56 | 0 | 0.0% | | | | | | |
| Brookington Apartments | Market | 96 | 0 | 0.0% | | | | | | |
| Carriage Hills Of Dublin | Market | 60 | 2 | 3.3% | | | | | | |
| Claxton Pointe | Market | 150 | 10 | 6.7% | | | | | | |
| Pecan Ridge | Market | 51 | 5 | 9.8% | | | | | | |
| Platform Dublin | Market | 80 | 1 | 1.3% | | | | | | |
| Windcrest Properties | Market | 28 | 0 | 0.0% | | | | | | |
| Woodlawn West Apartment Homes | Market | 104 | 0 | 0.0% | | | | | | |
| Total LIHTC | | 168 | 0 | 0.0% | | | | | | |
| Total Market Rate | | 569 | 18 | 3.2% | | | | | | |
| Overall Total | | 737 | 18 | 2.4% | | | | | | |

The comparables reported vacancy rates ranging from zero to 9.8 percent, with an overall weighted average of 2.4 percent. Management at Pecan Ridge, which reported that highest vacancy rate among the comparables was unable to provide further comment regarding the vacancy rate. However, rents increased somewhat significantly at the property over the past 12 months, which we believe may have contributed to elevated turnover and vacancy at the property. Managers at all three of the LIHTC properties reported being fully occupied. The seven market rate properties reported a slightly higher average vacancy rate of 3.2 percent. The average LIHTC vacancy rate of zero percent is considered exceptionally low, and indicative of supply constrained conditions. All of the market rate properties reported vacancy rates of 9.8 percent or lower.

According to a rent roll dated May 3, 2023, the Subject was 92.5 percent occupied. Based on audited financial statements for the Subject provided by the developer, the Subject operated with vacancy and collection loss ranging from 12.7 to 20.8 percent from 2020 through 2022. As a newly renovated property with a competitive amenity package, we anticipate that the Subject would perform with a vacancy rate of five percent or less. Based on these factors, we believe that there is sufficient demand for additional affordable housing in the market. We do not believe that the Subject will impact the performance of the existing LIHTC properties if allocated.

7. Properties Under Construction and Proposed

The following section details properties currently planned, proposed or under construction.

Greenwood Landing

- a. Location: Airport Road and Pilot Place, Dublin, GA
- b. Owner: IDP Properties LP (Developer)
- c. Total number of units: 64 units
- d. Unit configuration: One, two and three bedroom units
- e. Rent structure: 50, 60, 120 percent AMI
- f. Estimated market entry: Late 2023
- g. Relevant information: None

Freedom's Path

- a. Location: 1826 Veterans Boulevard, Dublin, GA
- b. Owner: Communities for Veterans (CFV) (Developer)
- c. Total number of units: 44 units
- d. Unit configuration: Studio and one bedroom units
- e. Rent structure: 30 percent AMI/Project-Based Rental Assistance
- f. Estimated market entry: Late 2023
- g. Relevant information: None

8. Rental Advantage

The following table illustrates the Subject's similarity to the comparable properties. We inform the reader that other users of this document may underwrite the LIHTC rents to a different standard than contained in this report.

| | | | | SIMILARI | | | | | |
|----|-----------------------------|------------------|---------|-----------------------|----------------------|----------------------|----------------------|----------------------|-----------------------|
| # | Property Name | Program | Tenancy | Property Amenities | Unit Features | Location | Age / Condition | Unit Sizes | Overall Comparison |
| 1 | Emerald Pointe | LIHTC/ Market | Family | Slightly Inferior | Similar | Similar | Inferior | Superior | -5 |
| 2 | Hillcrest Apartments | LIHTC | Family | Inferior | Similar | Similar | Similar | Inferior | -20 |
| 3 | Waterford Estates | LIHTC/ Market | Family | Slightly Inferior | Similar | Similar | Slightly Inferior | Superior | 0 |
| 4 | Brookington Apartments | Market | Family | Inferior | Similar | Superior | Inferior | Superior | 0 |
| 5 | Carriage Hills Of Dublin | Market | Family | Inferior | Similar | Similar | Inferior | Inferior | -30 |
| 6 | Claxton Pointe | Market | Family | Inferior | Similar | Slightly Superior | Slightly Inferior | Superior | 0 |
| 7 | Pecan Ridge | Market | Family | Inferior | Similar | Slightly Superior | Slightly Inferior | Inferior | -20 |
| 8 | Platform Dublin | Market | Family | Inferior | Slightly Inferior | Slightly Superior | Superior | Inferior | -10 |
| 9 | Windcrest Properties | Market | Family | Inferior | Similar | Similar | Inferior | Slightly Inferior | -25 |
| 10 | Woodlawn West | Market | Family | Similar | Slightly Inferior | Similar | Superior | Superior | 15 |

SIMILARITY MATRIX

*Inferior=-10, slightly inferior=-5, similar=0, slightly superior=5, superior=10.

The rental rates at the LIHTC properties are compared to the Subject's proposed 60 percent AMI rents in the following tables.

| LIHTC RENT C | LIHTC RENT COMPARISON @60% | | | | | | | | | | | |
|---------------------------|----------------------------|-------|---------------|--|--|--|--|--|--|--|--|--|
| Property Name | 2BR | 3BR | Rents at Max? | | | | | | | | | |
| Meadowood Park Apartments | \$645 | \$715 | No | | | | | | | | | |
| | \$715 | \$785 | No | | | | | | | | | |
| LIHTC Maximum Rent (Net) | \$836 | \$956 | | | | | | | | | | |
| Emerald Pointe Apartments | \$472 | \$594 | No | | | | | | | | | |
| Hillcrest Apartments | \$467 | \$501 | No | | | | | | | | | |
| Waterford Estates | - | \$667 | No | | | | | | | | | |
| Average | \$470 | \$587 | | | | | | | | | | |

The Subject's proposed post-renovation LIHTC rents at 60 percent of AMI are set below the maximum allowable levels. Of note, the lower proposed 60 percent of AMI rents are intended to transition the Subject's current 50 percent of AMI rents until the Subject operates with a new LURA that no longer restricts units to the 50 percent of AMI level. Following this point these units can operate with rents in line with the remaining 60 percent of AMI units at the property. As seen in the previous table, none of the LIHTC properties reported rents at the maximum allowable levels for the 60 percent of AMI levels. The Subject will offer a competitive amenities package relative to the comparables post-renovation, including a more comprehensive property amenities package relative to all LIHTC comparables. The Subject will offer similar to superior condition relative to these properties, which are generally in average to good condition. Based on the limited vacancy at the LIHTC properties and the presence of waiting lists, it does not appear that the LIHTC properties are fully testing the market. We believe the developer's proposed rents are reasonable and achievable. These rents would also offer an advantage to current unrestricted market rents.

Achievable Market Rents

Based on the quality of the surveyed comparable properties and the anticipated quality of the Subject, we conclude that the Subject's proposed rents, are below the achievable market rates for the Subject's area. The table below illustrates the comparison of the market rents.

| Unit Type | Rent Level | Subject Pro Forma Rent | Surveyed Min | Surveyed Max | Surveyed Average | Achievable Market Rent | Subject Rent Advantage | | | | | |
|-----------|---------------|---------------------------|-----------------|-----------------|---------------------|---------------------------|---------------------------|--|--|--|--|--|
| 2BR / 2BA | @60% | \$645 | \$546 | \$1,410 | \$865 | \$800 | 24% | | | | | |
| 2BR / 2BA | @60% | \$715 | \$546 | \$1,410 | \$865 | \$800 | 12% | | | | | |
| 3BR / 2BA | @60% | \$715 | \$742 | \$1,059 | \$940 | \$925 | 29% | | | | | |
| 3BR / 2BA | @60% | \$785 | \$742 | \$1,059 | \$940 | \$925 | 18% | | | | | |

SUBJECT COMPARISON TO MARKET RENTS

The Subject's pro forma LIHTC rents are within the range of the surveyed comparables and similar to below the surveyed average. Of the unrestricted comparables, we believe that the Subject will be most similar to Claxton Pointe and Woodlawn West Apartment Homes.

Claxton Pointe is a 150-unit, garden-style development located 2.3 miles northwest of the Subject site, in a neighborhood considered slightly superior relative to the Subject's location. This property was constructed in 1976 and renovated in 2021. We consider the condition of this property slightly inferior relative to the renovated Subject, which was built in 1999 and will be renovated in 2025. The manager at Claxton Pointe reported a vacancy rate of 6.7 percent, indicating the current rents are accepted in the market. The following table compares the Subject with Claxton Pointe.

SUBJECT COMPARISON TO CLAXTON POINTE Subject Pro Subject **Claxton Pointe** Subject Rent Rent Square Square **Claxton Pointe** Unit Type Forma Rent Feet RPSF Rent Feet RPSF Advantage Level \$645 1,041 \$0.72 2BR / 2BA @60% \$971 1,250 \$0.78 34% 2BR / 2BA @60% \$715 1,041 \$0.72 \$971 1,250 \$0.78 26% 3BR / 2BA @60% \$715 1,151 \$0.81 \$0.71 \$1,059 1,500 32% @60% \$785 1,151 \$0.81 3BR / 2BA \$1,059 1,500 \$0.71 26%

Claxton Pointe offers balconies/patios, hardwood flooring, and disposals, all of which the Subject lacks. However, the Subject offers exterior storage, microwaves, a business center, a community room, basketball courts, a playground, a swimming pool, and recreational areas, none of which are provided by Claxton Pointe. On balance, we believe the in-unit and property amenity packages offered by Claxton Pointe to be similar and inferior relative to the Subject, respectively. In overall terms, we believe the renovated Subject to be a slightly superior product relative to Claxton Pointe. However, we also considered unit size differences in our determination of market rents. As such, our concluded market rents are below rents at Claxton Pointe.

Woodlawn West Apartment Homes is a 104-unit, garden-style development located 2.0 miles northwest of the Subject site, in a neighborhood considered similar relative to the Subject's location. The property was built in 2019/2021, and currently exhibits superior condition relative to the renovated Subject, which was built in 1999 and will be renovated in 2025. The manager at Woodlawn West Apartment Homes reported the property as fully occupied, indicating the current rents are well accepted in the market. The following table compares the Subject with Woodlawn West Apartment Homes.

| Unit Type | Rent Level | Subject Pro Forma Rent | Square Feet | Subject RPSF | Woodlawn West Apartment Homes Rent | Square Feet | Woodlawn West Apartment Homes RPSF | Subject Rent Advantage |
|-----------|---------------|---------------------------|----------------|-----------------|------------------------------------------|----------------|------------------------------------------|---------------------------|
| 2BR / 2BA | @60% | \$645 | 1,041 | \$0.72 | \$1,410 | 1,341 | \$1.05 | 54% |
| 2BR / 2BA | @60% | \$715 | 1,041 | \$0.72 | \$1,410 | 1,341 | \$1.05 | 49% |
| 3BR / 2BA | @60% | \$715 | 1,151 | \$0.81 | - | - | - | - |
| 3BR / 2BA | @60% | \$785 | 1,151 | \$0.81 | - | - | - | - |

SUBJECT COMPARISON TO WOODLAWN WEST APARTMENT HOMES

Woodlawn West Apartment Homes offers balconies/patios, disposals, a fitness center, and a theatre, all of which the Subject lacks. However, the Subject offers exterior storage, walk-in closets, a business center, basketball courts, and a playground, none of which are provided by Woodlawn West Apartment Homes. On balance, we believe the in-unit and property amenity packages offered by Woodlawn West Apartment Homes to be slightly inferior and similar relative to the Subject, respectively. In overall terms, we believe the Subject to be an inferior product relative to the Woodlawn West Apartment Homes. We also considered unit size differences in our determination of market rents. As such, our concluded market rents are similar to slightly below rents at Woodlawn West Apartment Homes.

Overall, we believe that the Subject can achieve rents below those achieved at Claxton Pointe and those currently achieved at Woodlawn West Apartment Homes. Thus, we concluded to market rents of **\$800** and **\$925** for the Subject's two and three-bedroom units, respectively. Thus, the Subject's achievable LIHTC rents will offer a rent advantage ranging from 12 to 29 percent below achievable market rents.

9. Rental Trends in the PMA

The table below depicts household growth by tenure from 2000 through 2027.

| TENURE PATTERNS PMA | | | | | | | |
|---------------------------------|----------------|----------------|-----------------|-----------------|--|--|--|
| Year | Owner-Occupied | Percentage | Renter-Occupied | Percentage | | | |
| Tear | Units | Owner-Occupied | Units | Renter-Occupied | | | |
| 2000 | 8,873 | 70.9% | 3,638 | 29.1% | | | |
| 2010 | 8,745 | 62.1% | 5,337 | 37.9% | | | |
| 2022 | 9,048 | 61.3% | 5,706 | 38.7% | | | |
| Projected Mkt Entry May 2025 | 9,101 | 61.5% | 5,686 | 38.5% | | | |
| 2027 | 9,142 | 61.7% | 5,671 | 38.3% | | | |

Source: Esri Demographics 2022, Novogradac, May 2023

The preceding table details household tenure patterns in the PMA since 2000. The percentage of renter households in the PMA increased slightly between 2010 and 2022, and is estimated to be 38.7 percent as of 2022. This is more than the estimated 35.0 percent of renter households across the overall nation. According to ESRI demographic projections, the percentage of renter households in the PMA is expected to decrease slightly through market entry and 2027.

Historical Vacancy

The following table details historical vacancy levels for the properties included as comparables.

| HISTORICAL VACANCY | | | | | | | | | | | |
|-------------------------------|----------------|-------|------|------|------|------|------|-------|-------------|------|------|
| | Rent Structure | Total | 1QTR | 2QTR | 2QTR | 2QTR | 3QTR | 4QTR | 3QTR | 4QTR | 2QTR |
| Comparable Property | | Units | 2014 | 2017 | 2018 | 2019 | 2019 | 2019 | 2020 | 2021 | 2023 |
| Emerald Pointe Apartments | LIHTC/ Market | 64 | - | 0.0% | - | - | 0.0% | 0.0% | 6.2% | - | 0.0% |
| Hillcrest Apartments | LIHTC | 48 | 0.0% | 0.0% | 0.0% | - | 0.0% | 14.6% | 83.3% | 2.1% | 0.0% |
| Waterford Estates | LIHTC/ Market | 56 | - | - | 0.0% | - | 0.0% | - | - | - | 0.0% |
| Brookington Apartments | Market | 96 | 0.0% | - | 0.0% | 0.0% | 0.0% | 0.0% | - | 0.0% | 0.0% |
| Carriage Hills Of Dublin | Market | 60 | 3.3% | 3.3% | 1.7% | 3.3% | 3.3% | 3.3% | 1.7% | 0.0% | 5.0% |
| Claxton Pointe | Market | 150 | 2.2% | 1.5% | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% | - | 6.7% |
| Pecan Ridge | Market | 51 | 3.9% | - | 3.9% | 3.9% | 0.0% | 0.0% | - | - | 9.8% |
| Platform Dublin | Market | 80 | - | - | - | - | - | - | - | - | 1.3% |
| Windcrest Properties | Market | 28 | 3.6% | - | - | 7.1% | 0.0% | 3.6% | - | 0.0% | 0.0% |
| Woodlawn West Apartment Homes | Market | 104 | - | - | - | - | - | - | 1.8% | 0.0% | 0.0% |

As seen in the previous table, the comparable properties reported generally low vacancy rates in recent quarters and years. The only exception is Hillcrest Apartments that reported elevated vacancy when the property was undergoing renovation. Overall, we believe that the current performance of the LIHTC comparable properties, as well as their historically low to moderate vacancy rates, indicate demand for affordable rental housing in the Subject's market.

Change in Rental Rates

The following table illustrates rental rate increases as reported by the comparable properties.

| RENT GROWTH | | | | | | | |
|-------------------------------|----------------|----------------------------------|--|--|--|--|--|
| Property Name | Rent Structure | Rent Growth | | | | | |
| Emerald Pointe Apartments | LIHTC/ Market | None | | | | | |
| Hillcrest Apartments | LIHTC | Increased 9.6 to 10.1 percent | | | | | |
| Waterford Estates | LIHTC/ Market | Increased 3.8 to 8.2 percent | | | | | |
| Brookington Apartments | Market | Increased 2.9 to 5.8 percent | | | | | |
| Carriage Hills Of Dublin | Market | increased 10-12 percent annually | | | | | |
| Claxton Pointe | Market | Increased 9.5 to 13.3% | | | | | |
| Pecan Ridge | Market | Increased 13.6-14.6% annually | | | | | |
| Platform Dublin | Market | None | | | | | |
| Windcrest Properties | Market | None | | | | | |
| Woodlawn West Apartment Homes | Market | Increased 6.8 to 7.7 percent | | | | | |

Two of the LIHTC comparables reported increasing rents over the past 12 months. The market rate properties reported moderate rent growth in some instances. We anticipate that the Subject will be able to achieve moderate rent growth in the future as a LIHTC property.

10. Impact of Foreclosed, Abandoned and Vacant Structures

According to *Realtor.com*, there are very few properties currently listed that are in the foreclosure process within the City of Dublin and surrounding Laurens County. Further, the Subject's neighborhood does not have a significant amount of abandoned or vacant structures that would impact the marketability of the Subject.

11. LIHTC Competition – DCA Funded Properties within the PMA

Capture rates for the Subject are considered low for all bedroom types and AMI levels. If allocated, the Subject will be slightly superior to superior to the existing LIHTC housing stock. The comparables reported vacancy rates ranging from zero to 9.8 percent, with an overall weighted average of 2.4 percent. Managers at all three of the LIHTC properties reported being fully occupied. The seven market rate properties reported a slightly

higher average vacancy rate of 3.2 percent. The average LIHTC vacancy rate of zero percent is considered exceptionally low, and indicative of supply constrained conditions. These factors indicate demand for affordable housing.

According to Georgia Department of Community Affairs LIHTC allocation lists, there have been two properties awarded and/or constructed or placed in service in the PMA from 2020 to the present. The following table details these allocations.

| Property Name | Year Allocated | Rent Structure | Tenancy | Total Units | Competitive Units | Distance to Subject |
|-------------------|-------------------|-------------------|------------------|----------------|----------------------|------------------------|
| Greenwood Landing | 2021 | LIHTC/Workforce | Family | 64 | 33 | 5.9 miles |
| Freedom's Path | 2020 | LIHTC/PBV | Veteran/Homeless | 44 | 0 | 3.9 miles |
| | | | | 108 | 33 | |

RECENT LIHTC ALLOCATIONS IN PMA

Source: Georgia DCA, May 2023

As all units at Freedom's Path will be studio and one-bedroom units that will target a veterans tenancy, with a preference for those at risk or formerly homeless, we do not anticipate any competitive overlap with the Subject. Further, all units at the property will operate with project-based subsidy. Greenwood Landing will offer 33 units that will have competitive overlap with the Subject, consisting of two and three-bedroom units at 60 percent of AMI. The remaining units will consist of differing bedroom types or differing AMI levels than the units to be offered at the Subject. As a result, 33 units have been deducted from our demand calculations.

There are no additional LIHTC units either proposed or under construction. Further, the Subject will be renovated on a rolling basis with tenants remaining in place. As such, we do not anticipate that the Subject will draw a significant number of tenants from other DCA-funded LIHTC properties in the area.

12. Effect of Subject on Other Affordable Units in Market

The Subject represents the preservation of existing affordable units in the market. As such, we do not believe that renovation of the Subject will have a significant impact on other affordable units in the market.

Conclusions

Based upon our market research, demographic calculations, and analysis, we believe there is adequate demand for the Subject property as proposed. The Subject is an existing LIHTC development that will be renovated on a rolling basis with limited tenant displacement. The comparables reported vacancy rates ranging from zero to 9.8 percent, with an overall weighted average of 2.4 percent. Managers at all three of the LIHTC properties reported being fully occupied. The seven market rate properties reported a slightly higher average vacancy rate of 3.2 percent. The average LIHTC vacancy rate of zero percent is considered exceptionally low, and indicative of supply constrained conditions. These factors indicate demand for affordable housing. The Subject will offer generally similar in-unit amenities in comparison to the LIHTC and market rate comparable properties and similar to superior property amenities. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As a newly renovated development, the Subject will be in good condition upon completion and will be considered similar to superior in terms of condition to the majority of the comparable properties. Given the Subject's anticipated condition relative to the competition upon renovation and the demand for affordable housing evidenced by waiting lists and low vacancy at several LIHTC comparable properties, we believe that the Subject is reasonable as proposed. We believe that it will continue to perform well as newly renovated affordable housing in the Dublin area.

J. ABSORPTION AND STABILIZATION RATES

ABSORPTION AND STABILIZATION RATES

We were able to obtain absorption information from one of the comparables, Platform Dublin, which opened in 2022. Management at the property reported that the property had an absorption rate of 15 units per month. Per DCA guidelines, we have calculated the absorption to 93 percent occupancy. Thus, if the Subject was hypothetically 100 percent vacant and had to re-lease units, we would estimate an absorption rate of approximately 10 to 15 units per month, which results in an absorption period of approximately five to eight months to reach 93 percent occupancy and our concluded stabilized occupancy of 95 percent. The Subject is currently stabilized, with 92.5 percent occupancy based on a May 3, 2023 rent roll, and will not require lease up; therefore, our estimate of absorption is hypothetical.

K. INTERVIEWS

Georgia Department of Community Affairs, Waycross Regional Office

We made multiple attempts to contact the Georgia Department of Community Affairs in order to determine the number Housing Choice Vouchers currently in use in Laurens County; however, as of the date of this report our calls and emails have not been returned. The payment standards for Laurens County are listed in the following table.

| PAYMENT STANDARDS | | | | | | | | |
|-------------------|------------------|--|--|--|--|--|--|--|
| Unit Type | Payment Standard | | | | | | | |
| Studio | \$663 | | | | | | | |
| One-Bedroom | \$667 | | | | | | | |
| Two-Bedroom | \$849 | | | | | | | |
| Three-Bedroom | \$1,170 | | | | | | | |
| Four-Bedroom | \$1,446 | | | | | | | |
| Five-Bedroom | \$1,663 | | | | | | | |

Source: Georgia DCA, effective January 2023

The Subject's proposed rents are set below the current payment standards. Therefore, tenants with Housing Choice Vouchers will not pay out of pocket for rent.

Planning

We made several attempts to reach individuals with the City of Dublin Planning Department; however, our calls have not been returned as of the date of this report. We conducted additional research regarding planned additions to the area multifamily supply. We additionally consulted a May 2023 Costar report of under construction properties in the PMA as well as the Georgia DCA Program Awards Database. We identified no properties currently in development within the PMA.

According to Georgia Department of Community Affairs LIHTC allocation lists, there have been two properties awarded and/or constructed or placed in service in the PMA from 2020 to the present. The following table details these allocations.

| Property Name | Year | Rent | Tenancy | Total | Competitive | Distance | | | | |
|-------------------|---------------------|-----------------|------------------|-------|-------------|-----------|--|--|--|--|
| Froperty Name | Allocated Structure | Tenancy | Units | Units | to Subject | | | | | |
| Greenwood Landing | 2021 | LIHTC/Workforce | Family | 64 | 33 | 5.9 miles | | | | |
| Freedom's Path | 2020 | LIHTC/PBV | Veteran/Homeless | 44 | 0 | 3.9 miles | | | | |
| | | | | 108 | 33 | | | | | |

RECENT LIHTC ALLOCATIONS IN PMA

Source: Georgia DCA, May 2023

As all units at Freedom's Path will be studio and one-bedroom units that will target a veterans tenancy, with a preference for those at risk or formerly homeless, we do not anticipate any competitive overlap with the Subject. Further, all units at the property will operate with project-based subsidy. Greenwood Landing will offer 33 units that will have competitive overlap with the Subject, consisting of two and three-bedroom units at 60 percent of AMI. The remaining units will consist of differing bedroom types or differing AMI levels than the units to be offered at the Subject. As a result, 33 units have been deducted from our demand calculations.

Dublin-Laurens County Economic Development Corporation

We made several attempts to reach a representative with the Dublin-Laurens County Economic Development Corporation regarding recently announced employment expansions in the area; however, our calls have not been returned as of the date of this report. We conducted additional research regarding employment expansions in the area. We did not uncover evidence of any recent employment expansions in Dublin or surrounding Laurens County.

Additional interviews can be found in the comments section of the property profiles.

L. CONCLUSIONS AND RECOMMENDATIONS

CONCLUSIONS

Demographics

Historical population growth in the PMA remained relatively stable between 2000 and 2010. Population growth in the PMA slowed between 2010 and 2022, and was similar to the SMA. Growth in both geographic areas remained below the nation during the same time period. According to ESRI demographic projections, annualized PMA growth is expected to decrease slightly through market entry and 2027, similar to the SMA and below the nation. The current population of the PMA is 37,522 and is expected to be 37,564 in 2025. The current number of households in the PMA is 14,754 and is expected to be 14,787 in 2025. Approximately 32.9 percent of renter households in the PMA are earning incomes between \$20,000 and \$49,999, which is comparable to the 30.2 percent of renter households in the SMA in 2022. The Subject will target tenants earning between \$26,469 and \$46,200; therefore, the Subject should be well-positioned to service this market. Overall, while population growth has been modest, the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

Employment Trends

Employment in the PMA is concentrated in the healthcare/social assistance, retail trade, and accommodation/food services industries, which collectively comprise 46.8 percent of local employment. The large share of PMA employment in retail trade and accommodation/food services is notable as both industries are historically volatile, and prone to contraction during recessionary periods. However, the PMA also has a significant share of employment in the healthcare industry, which is historically known to exhibit greater stability during recessionary periods. For the 12-month period ending in December 2022 total employment in the SMA decreased 3.2 percent, which compares to a 2.0 percent increase in the nation as a whole for the same period of analysis. In 2022 year-to-date, the SMA has exhibited a decrease in employment of 2.4 percent, which compares to a national increase of 3.7 percent. Continued interest rate increases could further slow the current rate of employment growth. Based on the performance of the SMA economy during the COVID-19 pandemic, we believe that the SMA will likely continue to underperform the national economy in the near term.

Capture Rates

The following table illustrates the demand and capture rates for the Subject's proposed units.

| CAPTURE RATE ANALYSIS CHART | | | | | | | | | | | |
|-----------------------------|------|----------|----------|------------------------|--------|----------------|--------|--------------|-----------|--|--|
| AMI | Unit | Minimum | Maximum | Units Total Supply Net | | al Net Capture | | Net Capture | | | |
| Level | Туре | Income | Income | Proposed | Demand | Supply | Demand | d Rate Rents | | | |
| @60% | 2BR | \$26,469 | \$38,520 | 54 | 231 | 21 | 210 | 25.7% | \$645-715 | | |
| | 3BR | \$29,863 | \$46,200 | 24 | 129 | 12 | 117 | 20.5% | \$715-785 | | |
| Overall Total | | \$26,469 | \$46,200 | 78 | 360 | 33 | 327 | 23.9% | - | | |

CADTUDE DATE ANALVEIS CUADT

We believe these calculated capture rates are reasonable, particularly as these calculations do not consider demand from outside the PMA or standard rental household turnover.

Absorption

We were able to obtain absorption information from one of the comparables, Platform Dublin, which opened in 2022. Management at the property reported that the property had an absorption rate of 15 units per month. Per DCA guidelines, we have calculated the absorption to 93 percent occupancy. Thus, if the Subject was hypothetically 100 percent vacant and had to re-lease units, we would estimate an absorption rate of approximately 10 to 15 units per month, which results in an absorption period of approximately five to eight months to reach 93 percent occupancy and our concluded stabilized occupancy of 95 percent. The Subject is currently stabilized, with 92.5 percent occupancy based on a May 3, 2023 rent roll, and will not require lease up; therefore, our estimate of absorption is hypothetical.

Vacancy Trends

The following table illustrates the vacancy rates in the market.

| OVERALL VACANCY | | | | | | | | | | |
|-------------------------------|----------------|-------------|--------------|--------------|--|--|--|--|--|--|
| Property Name | Rent Structure | Total Units | Vacant Units | Vacancy Rate | | | | | | |
| Emerald Pointe Apartments | LIHTC/ Market | 64 | 0 | 0.0% | | | | | | |
| Hillcrest Apartments | LIHTC | 48 | 0 | 0.0% | | | | | | |
| Waterford Estates | LIHTC/ Market | 56 | 0 | 0.0% | | | | | | |
| Brookington Apartments | Market | 96 | 0 | 0.0% | | | | | | |
| Carriage Hills Of Dublin | Market | 60 | 2 | 3.3% | | | | | | |
| Claxton Pointe | Market | 150 | 10 | 6.7% | | | | | | |
| Pecan Ridge | Market | 51 | 5 | 9.8% | | | | | | |
| Platform Dublin | Market | 80 | 1 | 1.3% | | | | | | |
| Windcrest Properties | Market | 28 | 0 | 0.0% | | | | | | |
| Woodlawn West Apartment Homes | Market | 104 | 0 | 0.0% | | | | | | |
| Total LIHTC | | 168 | 0 | 0.0% | | | | | | |
| Total Market Rate | | 569 | 18 | 3.2% | | | | | | |
| Overall Total | | 737 | 18 | 2.4% | | | | | | |

The comparables reported vacancy rates ranging from zero to 9.8 percent, with an overall weighted average of 2.4 percent. Management at Pecan Ridge, which reported that highest vacancy rate among the comparables was unable to provide further comment regarding the vacancy rate. However, rents increased somewhat significantly at the property over the past 12 months, which we believe may have contributed to elevated turnover and vacancy at the property. Managers at all three of the LIHTC properties reported being fully occupied. The seven market rate properties reported a slightly higher average vacancy rate of 3.2 percent. The average LIHTC vacancy rate of zero percent is considered exceptionally low, and indicative of supply constrained conditions. All of the market rate properties reported vacancy rates of 9.8 percent or lower.

According to a rent roll dated May 3, 2023, the Subject was 92.5 percent occupied. Based on audited financial statements for the Subject provided by the developer, the Subject operated with vacancy and collection loss ranging from 12.7 to 20.8 percent from 2020 through 2022. As a newly renovated property with a competitive amenity package, we anticipate that the Subject would perform with a vacancy rate of five percent or less. Based on these factors, we believe that there is sufficient demand for additional affordable housing in the market. We do not believe that the Subject will impact the performance of the existing LIHTC properties if allocated.

Strengths of the Subject

Strengths of the Subject will include its newly renovated condition and common area amenities. Post renovation, the Subject will offer similar to superior common area amenities when compared to other tax credit and market rate properties in the local market. As the demand analysis found later in this report will indicate, there is adequate demand for the Subject based on our calculations for the 60 percent AMI units.

Conclusion

Based upon our market research, demographic calculations, and analysis, we believe there is adequate demand for the Subject property as proposed. The Subject is an existing LIHTC development that will be renovated on a rolling basis with limited tenant displacement. The comparables reported vacancy rates ranging from zero to 9.8 percent, with an overall weighted average of 2.4 percent. Managers at all three of the LIHTC properties reported being fully occupied. The seven market rate properties reported a slightly higher average vacancy rate of 3.2 percent. The average LIHTC vacancy rate of zero percent is considered exceptionally low, and indicative of supply constrained conditions. These factors indicate demand for affordable housing. The Subject will offer generally similar in-unit amenities in comparison to the LIHTC and market rate comparable properties and similar to superior property amenities. Overall, we believe that the

proposed amenities will allow the Subject to effectively compete in the LIHTC market. As a newly renovated development, the Subject will be in good condition upon completion and will be considered similar to superior in terms of condition to the majority of the comparable properties. Given the Subject's anticipated condition relative to the competition upon renovation and the demand for affordable housing evidenced by waiting lists and low vacancy at several LIHTC comparable properties, we believe that the Subject is reasonable as proposed. We believe that it will continue to perform well as newly renovated affordable housing in the Dublin area.

Recommendations

We recommend the Subject as proposed.

M. SIGNED STATEMENT REQUIREMENTS

I affirm that I (or one of the persons signing below) have made a physical inspection of the market area and the Subject property and that information has been used in the full study of the need and demand for the proposed units. The report is written according to DCA's market study requirements, the information included is accurate and the report can be relied upon by DCA as a true assessment of the low-income housing rental market.

To the best of my knowledge, the market can support the project as shown in the study. I understand that any misrepresentation of this statement may result in the denial of further participation in DCA's rental housing programs. I also affirm that I have no interest in the project or relationship with the ownership entity and my compensation is not contingent on this project being funded.

DCA may rely on the representation made in the market study. The document is assignable to other lenders.

ADDENDUM A

Assumptions and Limiting Conditions

ASSUMPTIONS AND LIMITING CONDITIONS

- 1. In the event that the client provided a legal description, building plans, title policy and/or survey, etc., the market analyst has relied extensively upon such data in the formulation of all analyses.
- 2. The legal description as supplied by the client is assumed to be correct and the author assumes no responsibility for legal matters, and renders no opinion of property title, which is assumed to be good and merchantable.
- 3. All encumbrances, including mortgages, liens, leases, and servitudes, were disregarded in this valuation unless specified in the report. It was recognized, however, that the typical purchaser would likely take advantage of the best available financing, and the effects of such financing on property value were considered.
- 4. All information contained in the report, which others furnished, was assumed to be true, correct, and reliable. A reasonable effort was made to verify such information, but the author assumes no responsibility for its accuracy.
- 5. The report was made assuming responsible ownership and capable management of the property.
- 6. The sketches, photographs, and other exhibits in this report are solely for the purpose of assisting the reader in visualizing the property. The author made no property survey, and assumes no liability in connection with such matters. It was also assumed there is no property encroachment or trespass unless noted in the report.
- 7. The author of this report assumes no responsibility for hidden or unapparent conditions of the property, subsoil or structures, or the correction of any defects now existing or that may develop in the future. Equipment components were assumed in good working condition unless otherwise stated in this report.
- 8. It is assumed that there are no hidden or unapparent conditions for the property, subsoil, or structures, which would render it more or less valuable. No responsibility is assumed for such conditions or for engineering, which may be required to discover such factors.
- 9. The investigation made it reasonable to assume, for report purposes, that no insulation or other product banned by the Consumer Product Safety Commission has been introduced into the Subject premises. Visual inspection by the market analyst did not indicate the presence of any hazardous waste. It is suggested the client obtain a professional environmental hazard survey to further define the condition of the Subject soil if they deem necessary.
- 10. Any distribution of total property value between land and improvements applies only under the existing or specified program of property utilization. Separate valuations for land and buildings must not be used in conjunction with any other study or market study and are invalid if so used.
- 11. Possession of the report, or a copy thereof, does not carry with it the right of publication, nor may it be reproduced in whole or in part, in any manner, by any person, without the prior written consent of the author particularly as to value conclusions, the identity of the author or the firm with which he or she is connected. Neither all nor any part of the report, or copy thereof shall be disseminated to the general public by the use of advertising, public relations, news, sales, or other media for public communication without the prior written consent and approval of the market analyst. Nor shall the market analyst, firm, or professional organizations of which the market analyst is a member be identified without written consent of the market analyst.
- 12. Disclosure of the contents of this report is governed by the Bylaws and Regulations of the professional organization with which the market analyst is affiliated.

- 13. The author of this report is not required to give testimony or attendance in legal or other proceedings relative to this report or to the Subject property unless satisfactory additional arrangements are made prior to the need for such services.
- 14. The opinions contained in this report are those of the author and no responsibility is accepted by the author for the results of actions taken by others based on information contained herein.
- 15. Opinions of value contained herein are estimates. There is no guarantee, written or implied, that the Subject property will sell or lease for the indicated amounts.
- 16. All applicable zoning and use regulations and restrictions are assumed to have been complied with, unless nonconformity has been stated, defined, and considered in the market study report.
- 17. It is assumed that all required licenses, permits, covenants or other legislative or administrative authority from any local, state, or national governmental or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
- 18. On all studies, Subject to satisfactory completion, repairs, or alterations, the report and conclusions are contingent upon completion of the improvements in a workmanlike manner and in a reasonable period of time.
- 19. All general codes, ordinances, regulations or statutes affecting the property have been and will be enforced and the property is not Subject to flood plain or utility restrictions or moratoriums, except as reported to the market analyst and contained in this report.
- 20. The party for whom this report is prepared has reported to the market analyst there are no original existing condition or development plans that would Subject this property to the regulations of the Securities and Exchange Commission or similar agencies on the state or local level.
- 21. Unless stated otherwise, no percolation tests have been performed on this property. In making the market study, it has been assumed the property is capable of passing such tests so as to be developable to its highest and best use.
- 22. No in-depth inspection was made of existing plumbing (including well and septic), electrical, or heating systems. The market analyst does not warrant the condition or adequacy of such systems.
- 23. No in-depth inspection of existing insulation was made. It is specifically assumed no Urea Formaldehyde Foam Insulation (UFFI), or any other product banned or discouraged by the Consumer Product Safety Commission has been introduced into the property. The market analyst reserves the right to review and/or modify this market study if said insulation exists on the Subject property.
- 24. Estimates presented in this report are assignable to parties to the development's financial structure.

Co-authored "Determining Whether a Developer Fee is Reasonable and Market-Oriented for Purposes of the Revenue Procedure 2014-12 Historic Tax Credit Safe Harbor," Novogradac Journal of Tax Credits, March 2021

Co-authored "Reasonableness of Historic Tax Credit Related-Party Fees a Complicated, Changing Question in Context of Rev. Proc. 2014-12," Novogradac Journal of Tax Credits, March 2021

Co-authored "Post Rev. Proc. 2014-12 Trend Emerges: Developer Fee Reasonableness Opinions," Novogradac Journal of Tax Credits, March 2016

VI. Real Estate Assignments

A representative sample of Asset Management, Due Diligence, and Valuation Engagements includes:

- Performed a variety of asset management services for a lender including monitoring and reporting property performance on a monthly basis. Data points monitored include economic vacancy, levels of concessions, income and expense levels, NOI and status of capital projects. Data used to determine these effects on the project's ability to meet its incomedependent obligations.
- Performed asset management services for lenders and syndicators on underperforming assets to identify significant issues facing the property and recommend solutions. Scope of work included analysis of deferred maintenance and property condition, security issues, signage, marketing strategy, condition of units upon turnover and staffing plan. Performed a physical inspection of the assets, to include interior and exterior of property and assessed how the property compares to competition. Analyzed operating expense results.
- Prepared market studies for proposed Low-Income Housing Tax Credit, market rate, HOME financed, USDA Rural Development, and HUD subsidized properties, on a national basis. Analysis includes property screenings, market analysis, comparable rent surveys, demand analysis based on the number of income qualified renters in each market, supply analysis, and operating expenses analysis. Property types include proposed multifamily, senior independent living, large family, and acquisition with rehabilitation. Completed market studies in all states.
- Assisted in appraisals of proposed new construction, rehabilitation, and existing Low-Income Housing Tax Credit properties, USDA Rural Development, and market rate multifamily developments. Analysis includes property screenings, valuation analysis, rent comparability studies, expense comparability analysis, determination of market rents, and general market analysis.
- Assisted in appraisal work for retail and commercial properties in various parts of the country for various lenders. The client utilized the study for underwriting purposes.
- Conducted market studies and appraisals for projects under the HUD Multifamily Accelerated Processing program.
- Prepared Rent Comparability Studies for expiring Section 8 contracts for subsidized properties located throughout the United States. Engagements included site visits to the subject property, interviewing and inspecting potentially comparable properties, and the analyses of collected data including adjustments to comparable data to determine appropriate adjusted market rents using HUD form 92273.
- Performed all aspects of data collection and data mining for web-based rent reasonableness systems for use by local housing authorities.
- Completed numerous reasonableness opinions related to Revenue Procedure 2014-12. Transactions analyzed include projects involving the use of Historic Tax Credits, New Markets Tax Credits and Investment Tax Credits. Fees and arrangements tested for reasonableness include developer fees, construction management fees, property management fees, asset management fees, various leasing-related payments and overall prime lease terms.

Georgia State University, May 2022 Master of Interdisciplinary Studies – Urban Studies

II. LICENSING AND PROFESSIONAL AFFILIATION

III. PROFESSIONAL EXPERIENCE

Junior Analyst, Novogradac & Company LLP Impact Investing Intern, CDFI Friendly America Intern, Henry County Department of Planning and Zoning

IV. REAL ESTATE ASSIGNMENTS

A representative sample of Due Diligence, Consulting, or Valuation Engagements includes:

- Assisted in appraisals of proposed new construction, rehabilitation, and existing Low-Income Housing Tax Credit properties. Analysis included property screenings, valuation analysis, capitalization rate analysis, expense comparability analysis, determination of market rents, and general market analysis.
- Prepared market studies for proposed Low-Income Housing Tax Credit, market rate, HOME financed, USDA Rural Development, and HUD subsidized properties on a national basis. Analysis includes property screenings, market analysis, comparable rent surveys, demand analysis based on the number of income qualified renters in each market, supply analysis, and operating expenses analysis. Property types include proposed multifamily, senior independent living, assisted living, large family, and acquisition with rehabilitation.
- Assisted in the preparation of Rent Comparability Studies for expiring Section 8 contracts and USDA contracts for subsidized properties located throughout the United States. Engagements included site visits to the subject property, interviewing and inspecting potentially comparable properties, and the analyses of collected data including adjustments to comparable data to determine appropriate adjusted market rents using HUD form 92273.
- Researched and analyzed local and national economy and economic indicators for specific projects throughout the United States. Research included employment industries analysis, employment historical trends and future outlook, and demographic analysis.
- Examined local and national housing market statistical trends and potential outlook in order to determine sufficient demand for specific projects throughout the United States.

ADDENDUM F

NCHMA Certification

NCHMA MEMBER CERTIFICATION

This market study has been prepared by **Novogradac Consulting**, a member in good standing of the National Council of Housing Market Analysts (NCHMA). This study has been prepared in conformance with the standards adopted by NCHMA for the market analysts' industry. These standards include the *Standard Definitions of Key Terms Used in Market Studies*, and *Model Content Standards for the Content of Market Studies*. These Standards are designed to enhance the quality of market studies and to make them easier to prepare, understand, and use by market analysts and by the end users. These Standards are voluntary only, and no legal responsibility regarding their use is assumed by the National Council of Housing Market Analysts.

Novogradac Consulting is duly qualified and experienced in providing market analysis for Affordable Housing. The company's principals participate in the National Council of Housing Market Analysts (NCHMA) educational and information sharing programs to maintain the highest professional standards and state-of-the-art knowledge. **Novogradac Consulting** is an independent market analyst. No principal or employee of **Novogradac Consulting** has any financial interest whatsoever in the development for which this analysis has been undertaken.
