

A MARKET CONDITIONS AND **PROJECT EVALUATION SUMMARY** OF: NORTH DOWNTOWN ATHENS **PHASEII**

A MARKET CONDITIONS AND PROJECT EVALUATION SUMMARY OF: NORTH DOWNTOWN ATHENS PHASE II

530 North Hull Street Athens, Clarke County, Georgia 30601

Effective Date: July 20, 2023 Report Date: September 28, 2023

Prepared for: Christina DeMaioribus Director of Development Columbia Residential 1718 Peachtree Street NW, South Tower, Suite 684 Atlanta GA, 30303

Prepared by: Novogradac 4416 East-West Highway, Suite 200 Bethesda, MD 20814 240-235-1701

September 28, 2023

Christina DeMaioribus Director of Development Columbia Residential 1718 Peachtree Street NW, South Tower, Suite 684 Atlanta GA, 30303

Re: Application Market Study for North Downtown Athens Phase II, located in Athens, Clarke County, Georgia

Dear Christina DeMaioribus:

At your request, Novogradac & Company LLP doing business under the brand name Novogradac Consulting (Novogradac), performed a study of the multifamily rental market in the Athens, Clarke County, Georgia area relative to the above-referenced Low-Income Housing Tax Credit (LIHTC) project. We previously completed an application market study, appraisal, and Rent Comparability Study (RCS) on North Downtown Athens Phase I, a prior phase of the Subject's larger overall development, all with an effective date of June 5, 2020, an RCS update for North Downtown Athens Phase I with an effective date of July 2, 2021, an RCS update for North Downtown Athens Phase I with an effective date of June 6, 2022, and a market study for North Downtown Athens Phase I with an effective 29, 2022.

The purpose of this market study is to assess the viability of the proposed 146-unit family LIHTC project. It will be a newly constructed affordable LIHTC project, with 146 revenue generating units, restricted to households earning 40, 60, and 80 percent of the Area Median Income (AMI) or less. Of these, the 73 units restricted to households earning 40 and 60 percent of the AMI will operate with project-based Section 8 rental assistance, where tenants will pay 30 percent of their income towards rent. The following report provides support for the findings of the study and outlines the sources of information and the methodologies used to arrive at these conclusions.

The scope of this report meets the requirements of Georgia Department of Community Affairs (DCA), including the following:

- Inspecting the site of the proposed Subject and the general location.
- Analyzing appropriateness of the proposed unit mix, rent levels, available amenities and site.
- Estimating market rent, absorption and stabilized occupancy level for the market area.
- Investigating the health and conditions of the multifamily market.
- Calculating income bands, given the proposed Subject rents.
- Estimating the number of income eligible households.
- Reviewing relevant public records and contacting appropriate public agencies.
- Analyzing the economic and social conditions in the market area in relation to the proposed project.
- Establishing the Subject Primary and Secondary Market Area(s) if applicable.
- Surveying competing projects, Low-Income Housing Tax Credit (LIHTC) and market rate.

Novogradac adheres to the market study guidelines promulgated by the National Council of Housing Market Analysts (NCHMA).

This report contains, to the fullest extent possible and practical, explanations of the data, reasoning, and analyses that were used to develop the opinions contained herein. The report also includes a thorough analysis

CHRISTINA DEMAIORIBUS COLUMBIA RESIDENTIAL SEPTEMBER 28, 2023

of the scope of the study, regional and local demographic and economic studies, and market analyses including conclusions. The depth of discussion contained in the report is specific to the needs of the client. The information included in this report is accurate and the report can be relied upon by DCA as a true assessment of the low-income housing rental market. This report is completed in accordance with DCA market study guidelines. We inform the reader that other users of this document may underwrite the LIHTC rents to a different standard than contained in this report.

The Stated Purpose of this assignment is for tax credit application. You agree not to use the Report other than for the Stated Purpose, and you agree to indemnify us for any claims, damages or losses that we may incur as the result of your use of the Report for other than the Stated Purpose. Without limiting the general applicability of this paragraph, under no circumstances may the Report be used in advertisements, solicitations and/or any form of securities offering.

The authors of this report certify that we are not part of the development team, owner of the Subject property, general contractor, nor are we affiliated with any member of the development team engaged in the development of the Subject property or the development's partners or intended partners. Please do not hesitate to contact us if there are any questions regarding the report or if Novogradac can be of further assistance. It has been our pleasure to assist you with this project.

Respectfully submitted, Novogradac

B. EXECUTIVE SUMMARY

1. Project Description

North Downtown Athens Phase II will be a newly constructed family property located at 530 North Hull Street in Athens, Clarke County, Georgia, which will consist of one five-story, midrise building, and a four-story 225-space parking deck.

| | | | | PROPOS | ED RENTS | | | | |

The following table illustrates the proposed unit mix.

Notes (1) Source of Utility Allowance provided by the Developer.

The proposed rents for the Subject's one, two, and three-bedroom units at the 40 and 60 percent of AMI are contract rents. Tenants in these units will pay 30 percent of their income towards rent. The proposed contract rents for the Subject's one, two, and three-bedroom units at 40 and 60 percent of AMI are set above the maximum allowable levels. Thus, if the Subject were to lose the rental subsidies, the proposed rents for these units would have to be lowered to comply with the LIHTC program requirements. The proposed rents for the Subject's one, two, and three-bedroom LIHTC only units at the 60 percent of AMI level are set at the maximum allowable levels. The proposed rents for the Subject's one, two, and three-bedroom LIHTC only units at the 60 percent of AMI level are set at the maximum allowable levels. The proposed rents for the Subject's one, two, and three-bedroom units at the 80 percent of AMI level are set below the maximum allowable levels. The Subject will offer inferior to slightly superior in-unit amenities in comparison to the LIHTC and mixed-income comparable properties as it will not offer exterior to superior property amenities in comparison to the LIHTC and mixed-income comparable properties as it will offer slightly inferior to offer a swimming pool, which some of the comparables offer, though it will offer a business center, community room, and exercise facility, which some of the comparables lack. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market.

2. Site Description/Evaluation

The Subject site is located in downtown Athens and has frontage along the southwest side of North Lumpkin Street and the east side of North Hull Street. The Subject site has good visibility and accessibility from North Hull Street. The Subject site is currently improved with an existing portion of Bethel Midtown Village, an existing LIHTC/Section 8 multifamily development that will be razed upon the start of construction. It should be noted that only the portion of Bethel Midtown Village that is located on the Subject site is to be razed, the majority of Bethel Midtown Village will continue with normal operations. Surrounding uses consist of residential uses, retail, commercial, government uses, and several restaurants. A positive attribute of the Subject is within close proximity to downtown Athens, which offers many important locational amenities and is one of the city's major employment centers. Crime in the PMA is elevated compared to the nation; however, we believe the Subject's

security features will be market-oriented. Based on our inspection of the neighborhood, retail and commercial uses appeared to be 90 percent occupied. The Subject site is considered "Somewhat Walkable" by Walk Score with a rating of 68 out of 100. The Subject site is considered a desirable building site for rental housing. The Subject site is located in a mixed-use neighborhood. The uses surrounding the Subject are in average to excellent condition. The Subject site has good proximity to locational amenities, which are within 2.0 miles of the Subject site. The Subject site can be accessed from North Hull Street and North Lumpkin Street, which are both two-lane, lightly trafficked streets. North Hull Street generally traverse, north/south and provides access throughout downtown Athens and to the University of Georgia approximately 0.5 and 0.8 miles south, respectively. North Hull Street also provides access to West Dougherty Street approximately 0.1 miles south of the Subject site. West Dougherty Street traverses east/west throughout downtown Athens and provides access to Prince Avenue approximately 0.3 miles west of the Subject and to North Avenue approximately 0.5 miles east of the Subject site. Prince Avenue traverses east/west and provides access throughout northeast Athens, while North Avenue traverses north/south and provides access to Athens Perimeter Loop 10 approximately 1.4 miles northeast of the Subject site. Athens Perimeter Loop 10 traverse in a circle around Athens and provides access to several employment centers. Athens Perimeter Loop 10 also provides access to GA State Route 316, which traverses east/west and provides access from Athens to the nearby city of Atlanta, GA, approximately 50 miles west of the Subject. Overall, access and visibility are considered good. Total crime indices in the PMA are elevated relative to the national average and above the surrounding MSA. Both geographic areas feature crime indices above the overall nation. In particular, the category of property crime in the PMA is substantially elevated relative to the nation. The Subject will offer an intercom system (buzzer), limited access, and video surveillance. All but one of the comparable properties offer at least one security feature, similar to the Subject. We expect the security features at the Subject to be market-oriented.

3. Market Area Definition

The PMA is defined by Athens Perimeter Loop 10 to the north, Athens Perimeter Loop 10, Lexington Road, and Whit Davis Road to the east, Old Lexington Road, Barnett Shoals, and Whitehall Road to the south, and the Middle Oconee River to the west. This area includes the city of Athens as well as portions of Clarke County. The distances from the Subject to the farthest boundaries of the PMA in each direction are listed as follows:

North: 1.1 miles East: 5.0 miles South: 4.9 miles West: 3.4 miles

The PMA is defined based on interviews with the local housing authority and property managers at comparable properties. Many property managers indicated that a significant portion of their tenants come from out of state. While we do believe the Subject will experience leakage from outside the PMA boundaries, per the 2023 market study guidelines, we do not account for leakage in our demand analysis found later in this report. The farthest PMA boundary from the Subject is approximately 5.0 miles. The SMA is defined as the Athens-Clarke County, GA Metropolitan Statistical Area (MSA), which consists of Clarke, Madison, Oconee, and Oglethorpe Counties in Georgia and encompasses 1,363 square miles.

4. Community Demographic Data

The population in the PMA and the MSA increased significantly from 2000 to 2022, and the rate of growth increased from 2010 to 2022. However, the rate of population and household growth is projected to increase but is projected to slow through 2027. The current population of the PMA is 71,270 and is expected to be 72,221 upon market entry in 2027. The current number of households in the PMA is 28,599 and is expected to be 29,217 upon market entry in 2027. Renter households are concentrated in the lowest income cohorts, with 57.2 percent of renters in the PMA earning less than \$30,000 annually. The Subject will target households earning between \$0 and \$70,400 as proposed. Absent subsidy, the Subject will target tenants earning between \$20,949 and \$70,400. Therefore, the Subject should be well-positioned to service this market. Overall, while population growth has been modest, the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

According to *ATTOM* statistics, one in every 1,795 housing units nationwide was in some stage of foreclosure as of April 2022. In the state of Georgia, one in every 1,702 housing units was in some stage of foreclosure, slightly higher than the national average. The Subject's neighborhood does not have a significant number of abandoned or vacant structures that would impact the marketability of the Subject.

5. Economic Data

Employment in the PMA is concentrated in the educational services, accommodation/food services, and retail trade industries, which collectively comprise 51.0 percent of local employment. The large share of PMA employment in accommodation/food services and retail trade is notable as both industries are historically volatile, and prone to contraction during recessionary periods. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, accommodation/food services, and arts/entertainment/recreation industries. Conversely, the PMA is underrepresented in the healthcare/social assistance, manufacturing, and construction industries. Since 2012, job growth in the MSA was generally similar to the nation. Employment in the MSA declined by 4.6 percent in 2020 amid the pandemic, compared to 6.2 percent across the overall nation. The MSA subsequently recovered all pandemic-related job losses, however, local employment remains below the record high achieved in 2008. As of May 2023, employment in the MSA is increasing at an annualized rate of 2.0 percent, above the 1.5 percent growth across the nation. Continued interest rate increases could further slow the current rate of employment growth.

Since 2012, the MSA generally experienced a similar unemployment rate relative to the nation. The MSA unemployment rate increased modestly by 2.2 percentage points in 2020 amid the pandemic, reaching a high of 5.6 percent. For comparison, the national unemployment rate rose by 4.4 percentage points and reached a high of 8.1 percent over the same time period. According to the latest labor statistics, dated May 2023, the current MSA unemployment rate is 3.3 percent. This is well below the COVID highs of 2020, and just below the current national unemployment rate of 3.4 percent.

6. Affordability and Demand Analysis

The following table illustrates the demand and capture rates for the Subject's proposed units.

| | | - | - | | | | | | |
|-----------------------------------|------------------|-------------------|-------------------|-------------------|-----------------|--------|---------------|-----------------|-------------------|
| AMI Level | Unit Type | Minimum Income | Maximum Income | Units Proposed | Total Demand | Supply | Net Demand | Capture Rate | Proposed Rents |

CAPTURE RATE ANALYSIS CHART

*Maximum allowable rents

We believe these calculated capture rates are reasonable, particularly as these calculations do not consider demand from outside the PMA or standard rental household turnover.

7. Competitive Rental Analysis

Comparable properties are examined on the basis of physical characteristics, i.e. building type, age/quality, level of common amenities, absorption, as well as similarity in rent structure. We attempted to compare the Subject to complexes from the competing market to provide a broader picture of the health and available supply in the market. Our competitive survey includes 11 "true" comparable properties containing 1,734 units.

The availability of LIHTC data is considered good. We included four LIHTC comparables in our analysis. All of the comparables are located within the PMA, between 1.3 and 2.2 miles from the Subject. The comparables were built or renovated between 2007 and 2017.

The availability of market rate data is considered good. The Subject is located in Athens and there are several market rate properties in the area. We include seven conventional properties in our analysis of the competitive market. All of the market rate properties are located in the PMA, between 0.1 and 3.8 miles from the Subject. These comparables were built or renovated between 2003 and 2020. Overall, we believe the market rate properties used in our analysis are the most comparable. Other market rate properties are excluded based on proximity, unit count, and condition.

Based on the quality of the surveyed comparable properties and the anticipated quality of the Subject, we conclude that the Subject's proposed LIHTC rental rates are below the achievable market rates for the Subject's area. The table below illustrates the comparison of the market rents.

| Unit Type | Rent Level | Subject Pro Forma Rent | Surveyed Min | Surveyed Max | Surveyed Average | Achievable Market Rent | Subject Rent Advantage |
|-----------|------------------|---------------------------|-----------------|-----------------|---------------------|---------------------------|---------------------------|
| 1BR / 1BA | @40% (Section 8) | \$502* | \$883 | \$1,751 | \$1,301 | \$1,450 | 189% |

SUBJECT COMPARISON TO MARKET RENTS

*Maximum allowable LIHTC rents reflected for the 40% and 60% (Section 8) units

The Subject's LIHTC rents are well below the achievable market rents. The Subject's proposed LIHTC rents represent a rent advantage of 82 to 197 percent over the achievable market rents. We concluded that achievable market rents for the Subject's units are above the rents at Legacy Of Athens and below the rents at Ascent Athens.

Legacy Of Athens is a 238-unit development located 3.3 miles from the Subject site, in a neighborhood considered slightly superior to the Subject's neighborhood in terms of median household income, median home values, and median rent. The property was built in 1968 and renovated in 2011, and currently exhibits average condition, which is considered inferior to the anticipated excellent condition of the Subject upon completion. The manager at Legacy Of Athens reported the property is 97.5 percent occupied, indicating the current rents are well accepted in the market. The following table compares the Subject with Legacy Of Athens.

| Unit Type | Rent | Subject Pro | Square | Subject | Legacy Of Athens | Square | Legacy Of | Subject Rent |
|-----------|------------------|-------------|--------|---------|------------------|--------|-------------|--------------|
| Unit Type | Level | Forma Rent | Feet | RPSF | Rent | Feet | Athens RPSF | Advantage |
| 1BR / 1BA | @40% (Section 8) | \$502* | 753 | \$0.67 | \$1,051 | 775 | \$1.36 | 52.2% |

SUBJECT COMPARISON TO LEGACY OF ATHENS

*Maximum allowable LIHTC rents reflected for the 40% and 60% (Section 8) units

This property offers similar property and in-unit amenities to the proposed Subject. In terms of unit sizes, Legacy Of Athens offers larger one and two-bedroom unit sizes and smaller three-bedroom unit sizes compared to the Subject. Overall, Legacy Of Athens is considered slightly inferior to the Subject. Due to the superior condition of the Subject, we believe the achievable market rents for the Subject would be above the current rents at Legacy Of Athens.

Ascent Athens is located 2.5 miles from the Subject and offers a slightly superior location to the Subject in terms of median household income, median home values, and median rent. This property was constructed in 2019, and exhibits excellent condition, which is considered similar to the anticipated excellent condition of the Subject upon completion. The property manager at Ascent Athens reported the property is 93.5 percent occupied, indicating the current rents are accepted in the market. The following table compares the Subject with Ascent Athens.

| Unit Turne | Rent | Subject Pro | Square | Subject | Ascent Athens | Square | Ascent Athens | Subject Rent |
|------------|------------------|-------------|--------|---------|---------------|--------|---------------|--------------|
| Unit Type | Level | Forma Rent | Feet | RPSF | Rent | Feet | RPSF | Advantage |
| 1BR / 1BA | @40% (Section 8) | \$502* | 753 | \$0.67 | \$1,650 | 735 | \$2.24 | 69.6% |
| 1BR / 1BA | @60% | \$807 | 753 | \$1.07 | \$1,650 | 735 | \$2.24 | 51.1% |
| 1BR / 1BA | @80% | \$807 | 753 | \$1.07 | \$1,650 | 735 | \$2.24 | 51.1% |
| 2BR / 2BA | @40% (Section 8) | \$594* | 1,099 | \$0.54 | \$1,850 | 1,073 | \$1.72 | 67.9% |
| 2BR / 2BA | @60% | \$960 | 1,099 | \$0.87 | \$1,850 | 1,073 | \$1.72 | 48.1% |
| 2BR / 2BA | @60% (Section 8) | \$960* | 1,099 | \$0.87 | \$1,850 | 1,073 | \$1.72 | 48.1% |
| 2BR / 2BA | @80 % | \$960 | 1,099 | \$0.87 | \$1,850 | 1,073 | \$1.72 | 48.1% |
| 3BR / 2BA | @40% (Section 8) | \$674* | 1,416 | \$0.48 | \$2,181 | 1,418 | \$1.54 | 69.1% |
| 3BR / 2BA | @60% (Section 8) | \$1,097* | 1,416 | \$0.77 | \$2,181 | 1,418 | \$1.54 | 49.7% |
| 3BR / 2BA | @80% | \$1,097 | 1,416 | \$0.77 | \$2,181 | 1,418 | \$1.54 | 49.7% |

SUBJECT COMPARISON TO ASCENT ATHENS

*Maximum allowable LIHTC rents reflected for the 40% and 60% (Section 8) units

This property offers slightly superior property amenities compared to the Subject as it offers a swimming pool, which the Subject will not offer. Ascent Athens offers superior in-unit amenities compared to the Subject as it offers in-unit washers/dryers, which the Subject will not offer. This property offers similar unit sizes compared to the Subject. Overall, Ascent Athens is considered superior to the Subject as proposed. As such, we believe the achievable market rents for the Subject would be below the current rents at Ascent Athens.

8. Absorption/Stabilization Estimate

Information regarding the absorption paces of four nearby properties is illustrated in the following table.

| ABSORPTION | | | | | | | | | | |
|--------------------------|--------|---------|------|-------------|-----------------------------|--|--|--|--|--|
| Property Name | Rent | Tenancy | Year | Total Units | Absorption (units/month) | | | | | |
| Pointe Grand Athens | Market | Family | 2022 | 240 | 21 | | | | | |
| Ascent Athens | Market | Family | 2019 | 200 | 25 | | | | | |
| Columbia Brookside III | LIHTC | Family | 2017 | 138 | 13 | | | | | |
| Columbia Brookside I | LIHTC | Senior | 2015 | 100 | 17 | | | | | |

Per DCA guidelines, we calculate the absorption to 93 percent occupancy. The Subject is a proposed new construction property. The comparable properties report absorption rates between 13 to 25 units per month, with an average absorption rate of 19 units per month. We expect the Subject will experience an absorption pace of 20 units per month. This equates to an absorption period of approximately six to seven months to reach an occupancy rate of 93 percent and our concluded stabilized occupancy rate of 95 percent.

9. Interviews

Interviews with local property managers are included in the profiles in the Existing Competitive Rental Analysis portion of this report.

10. Overall Conclusion

Based upon our market research, demographic calculations and analysis, we believe there is adequate demand for the Subject property as proposed. The LIHTC comparables are experiencing a weighted average vacancy rate of 0.6 percent. All of the LIHTC properties maintain waiting lists. These waiting lists are extensive at some of the LIHTC developments. These factors indicate demand for affordable housing. The Subject will offer inferior to slightly superior in-unit amenities in comparison to the LIHTC and mixed-income comparable properties as it will not offer exterior storage or in-unit washer/dryers, which some of the comparables offer. The Subject will offer slightly inferior to superior property amenities in comparison to the LIHTC and mixed-income comparable properties as it will not offer a swimming pool, which some of the comparables offer, though it will offer a business center, community room, and exercise facility, which some of the comparables lack. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As a newly constructed property, the Subject will be in excellent condition upon completion and will be considered similar to superior in terms of condition to the comparable properties. In general, the Subject

will be inferior to slightly superior to the comparable properties. Given the Subject's anticipated superior condition relative to the competition and the demand for affordable housing evidenced by waiting lists and strong occupancy at the majority of the LIHTC comparable properties, we believe that the proposed Subject is reasonable as proposed.

C. PROJECT DESCRIPTION

PROJECT DESCRIPTION

- 1. Project Address and Development Location:
 The Subject site is located at 530 North Hull Street in Athens, Clarke County, Georgia 30601. The Subject site is currently improved with an existing portion of Bethel Midtown Village, an existing LIHTC/Section 8 multifamily development that will be razed upon the start of construction. It should be noted that only the portion of Bethel Midtown Village that is located on the Subject site is to be razed, the majority of Bethel Midtown Village will continue with normal operations.
- 2. Construction Type: The Subject will consist of one five-story, midrise, elevator-serviced building in addition to one, four-story 225-space parking deck. The Subject will be new construction.
- 3. Occupancy Type: Families.
- 4. Special Population Target: None.
- 5. Number of Units by Bedroom See following property profile. Type and AMI Level:
- 6. Unit Size, Number of Bedrooms See following property profile. and Structure Type:
- 7. Rents and Utility Allowances: See following property profile for Subject rents. The Subject will offer central air conditioning and electric cooking, heating, and water heating. Tenants will be responsible for the cooking, hot water, heating, electric, cold water, and sewer expenses. The landlord will be responsible for the trash expenses. The following table details utility allowance calculations as derived from the most recent utility allowance schedule published by the Georgia Department of Community Affairs, effective as of January 1, 2023.

| UTILITY AND SOURCE | Paid By | 1BR | 2BR | 3BR |
|--------------------------------|----------------|-------|-------|-------|
| Heating - Electric | Tenant | \$9 | \$12 | \$17 |
| Cooking - Electric | Tenant | \$8 | \$10 | \$12 |

This is an proposed development that will consist of one, five-story, midrise, elevator-serviced residential building. The utility allowances for the one, two, and three-bedroom units are \$109, \$139, \$173, respectively. Construction is set to begin in the first quarter of 2025 and be complete by the first quarter of 2027.

.....

| 10. Scope of Renovations: | The Subject will be new construction, as the existing improvements will be demolished. |
|-----------------------------|--|
| 11. Placed in Service Date: | Construction on the Subject is expected to begin in the first quarter of 2025 and be completed in the first quarter of 2027. We have utilized January 2027 as the market entry year for demographic purposes according to the DCA Market Study Manual. |
| Conclusion: | The Subject will be an excellent-quality, five-story, midrise, elevator- serviced development, comparable to most of the inventory in the area. As new construction, the Subject will not suffer from deferred maintenance, functional obsolescence, or physical deterioration. |

.....

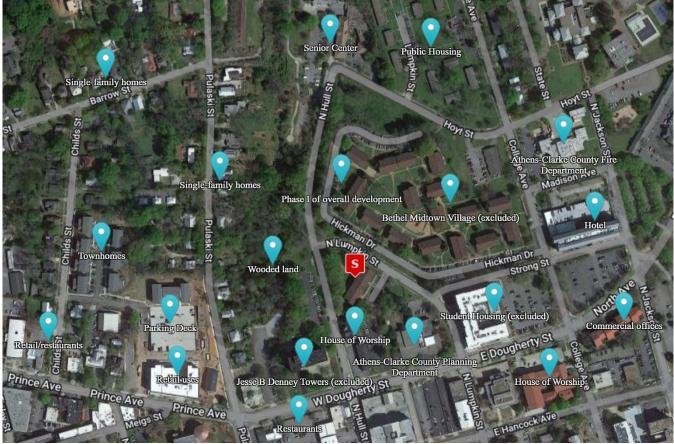

D. SITE EVALUATION

- **1.** Date of Site Visit and Name of Caroline McGimsey visited the site on July 20, 2023. Inspector:
- 2. Physical Features of the Site: The following illustrates the physical features of the site.

Frontage:The Subject site currently has frontage along the east side of North
Hull Street and is bifurcated by North Lumpkin Street. As part of
construction of the Subject several roads will be developed. Following
completion, the Subject will have frontage along the south side of
Madison Street, the west side of North Lumpkin Street, the north side
of Strong Street, and the east side of North Hull Street.

- Visibility/Views: The Subject site is located in downtown Athens, with surrounding uses including residential, retail, commercial, government uses, and several restaurants. Views to the north of the Subject site include North Downtown Athens Phase I, a prior phase of the Subject's overall larger development, which is currently under construction. Views to the east include Bethel Midtown Village, an existing LIHTC/Section 8 multifamily development that was excluded as a comparable in our analysis due to its subsidized rent structure. It should be noted that the Subject is the second phase of a redevelopment project that includes the future demolition of a portion of the existing Bethel Midtown Village LIHTC/Section 8 development. Views to the south consist of a house of worship and the Athens-Clarke County Planning Department. Views to the west include single-family homes in average condition and Jessie B Denney Towers, a subsidized senior 50+ multifamily development that was excluded as a comparable in our analysis due to its subsidized rent structure. Overall, the Subject site has average views and visibility.
- *Surrounding Uses:* The following map illustrates the surrounding land uses.

Source: Google Earth, July 2023.

The Subject site currently has frontage along the east side of North Hull Street and is bifurcated by North Lumpkin Street. As part of construction of the Subject several roads will be developed. Following completion, the Subject will have frontage along the south side of Madison Street, the west side of North Lumpkin Street, the north side of Strong Street, and the east side of North Hull Street. The Subject site is currently improved with a portion of the existing Bethel Midtown Village development. A portion of the development is to be razed, while the majority of the existing development will continue normal operations. North of the Subject site is vacant land that includes North Downtown Athens Phase I, a prior phase of the Subject's overall larger development, which is currently under construction. East of the Subject site is Bethel Midtown Village, an existing LIHTC/Section 8 multifamily development that was excluded as a comparable in our analysis due to its subsidized rent structure. It should be noted that the Subject is the second phase of a redevelopment project that includes the future demolition of a portion of the existing Bethel Midtown Village LIHTC/Section 8 development. To the south is a house of worship and the Athens-Clarke County Planning Department, both in average condition. To the west are single-family homes in average condition and Jessie B Denney Towers, a subsidized senior 50+ multifamily development that was excluded as a comparable in our analysis due to its subsidized rent structure. Based on our inspection of the

neighborhood, retail and commercial uses appeared to be 90 percent occupied. The Subject site is considered "Somewhat Walkable" by *Walk Score* with a rating of 68 out of 100. The Subject site is considered a desirable building site for rental housing. The Subject site is located in a mixed-use neighborhood. The uses surrounding the Subject are in average to excellent condition. The Subject site has good proximity to locational amenities, which are within 2.0 miles of the Subject site.

- **Positive/Negative Attributes of** Site: The Subject site's proximity to retail and other locational amenities as well as its surrounding uses, which are in average to excellent condition, are considered positive attributes. The Subject site is located approximately 0.5 mile north of downtown Athens. The Subject site is considered "Somewhat Walkable" by *Walk Score* with a rating of 68 out of 100. The Walk Score is considered a positive attribute. The Subject site's access to downtown Athens and major thoroughfares allows for good access to locational amenities and employment centers.
- **3.** Physical Proximity to Locational The Subject is located within 2.0 miles of all locational amenities. Amenities:
- 4. Pictures of Site and Adjacent The following are pictures of the Subject site and adjacent uses. Uses:

6. Description of Land Uses

The Subject site currently has frontage along the east side of North Hull Street and is bifurcated by North Lumpkin Street. As part of construction of the Subject, several roads will be developed. The

Subject site is currently improved with a portion of the existing Bethel Midtown Village development, A portion of the development is to be razed, while the majority of the existing development will continue normal operations. North of the Subject site is vacant land that will include, North Downtown Athens Phase I, a prior phase of the Subject's overall larger development that is currently under construction. Farther north is the Athens Community Council on Aging Senior Citizen Center in average condition. East of the Subject site is Bethel Midtown Village, an existing LIHTC/Section 8 multifamily development that was excluded as a comparable in our analysis due to its subsidized rent structure. It should be noted that the Subject is the second phase of a redevelopment project that includes the future demolition of a portion of the existing Bethel Midtown Village LIHTC/Section 8 development. Farther east is a hotel in good condition and the Athens-Clarke County Fire Department in average condition. To the south is a house of worship and the Athens-Clarke County Planning Department, both in average condition. Farther south is a music hall and print store, both in average condition. To the west are single-family homes in average condition and Jessie B Denney Towers, a subsidized senior 50+ multifamily development that was excluded as a comparable in our analysis due to its subsidized rent structure. Farther west is a house of worship in average condition and several restaurants in good to average condition. Based on our inspection of the neighborhood, retail and commercial uses appeared to be 90 percent occupied. The Subject site is considered "Somewhat Walkable" by Walk Score with a rating of 68 out of 100. The Subject site is considered a desirable building site for rental housing. The Subject site is located in a mixed-use neighborhood. The uses surrounding the Subject are in average to excellent condition. The Subject site has good proximity to locational amenities, which are within 2.0 miles of the Subject site.

7. Crime:

The following table illustrates crime statistics in the Subject's PMA compared to the MSA.

| 2022 CRIME INDICES | | | | | | | |
|---------------------|-----|-----|--|--|--|--|--|
| | РМА | | | | | | |
| Total Crime* | 222 | 134 | | | | | |
| Personal Crime* | 160 | 102 | | | | | |
| Murder | 160 | 113 | | | | | |
| Rape | 176 | 107 | | | | | |
| Robbery | 191 | 108 | | | | | |
| Assault | 143 | 98 | | | | | |
| Property Crime* | 231 | 139 | | | | | |
| Burglary | 256 | 163 | | | | | |
| Larceny | 232 | 136 | | | | | |
| Motor Vehicle Theft | 155 | 96 | | | | | |

Source: Esri Demographics 2022, Novogradac Consulting LLP, July 2023

*Unweighted aggregations

Total crime indices in the PMA are elevated relative to the national average and above the surrounding MSA. Both geographic areas feature crime indices above the overall nation. In particular, the category of property crime in the PMA is substantially elevated relative to the nation. The Subject will offer an intercom system (buzzer), limited access, and video surveillance. All but one of the comparable properties offer at least one security feature, similar to the Subject. We expect the security features at the Subject to be market-oriented.

8. Existing Assisted Rental Housing The Property Map: pro

The following map and list identifies all assisted rental housing properties in the PMA.

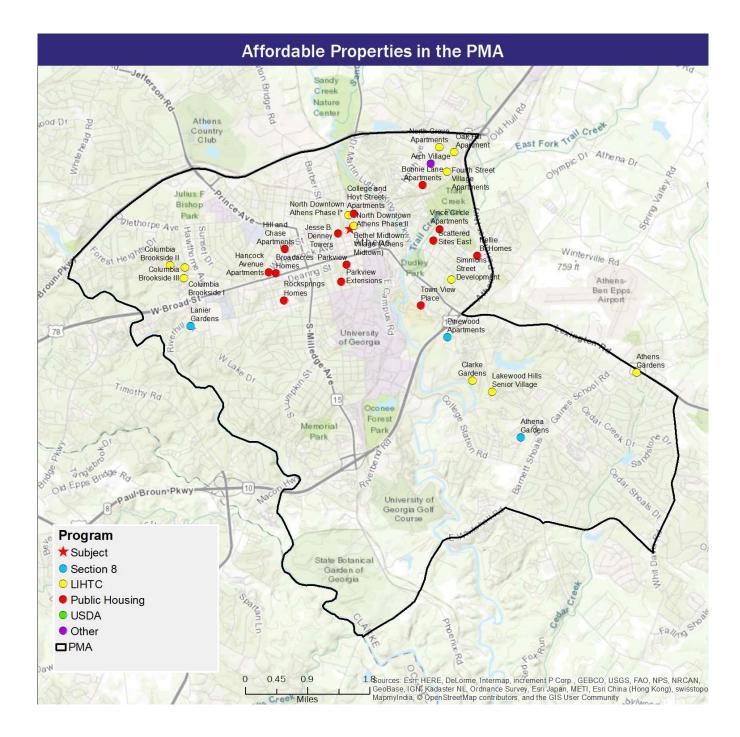

| | - | | _ | # of | Distance from Subject | Map Color |
|---|-----------------------|----------|----------|-------|-----------------------|--------------|
| Property Name | Program | Location | Tenancy | Units | | |
| North Downtown Athens Phase II | LIHTC/Section 8 | Athens | Family | 146 | - | Star |
| Lakewood Hills Senior Village | LIHTC | Athens | Senior | 74 | 2.6 miles | |

| Athena Gardens | Section 8 | Athens | Senior | 50 | 3.2 miles | |
| Lanier Gardens | Section 8 | Athens | Family | 151 | 2.2 miles | |
| Pinewood Apartments | Section 8 | Athens | Family | 90 | 1.7 miles | |

AFFORDABLE PROPERTIES IN THE PMA

*Under construction property

**Includes units that will be demolished for Phase I and the Subject

- 9. Road, Infrastructure or Proposed Improvements:
- 10. Access, Ingress-Egress and Visibility of Site:

The Subject is Phase II of a larger overall development. Phase I is under construction and is adjacent north of the Subject site. As a part of the construction of the Subject's development, three roads will be developed or extended; Madison Street to the north, North Lumpkin Street to the east, and Strong Street to the south.

The Subject site can be accessed from North Hull Street and North Lumpkin Street, which are both two-lane, lightly trafficked streets. North Hull Street generally traverse, north/south and provides access throughout downtown Athens and to the University of Georgia

approximately 0.5 and 0.8 miles south, respectively. North Hull Street also provides access to West Dougherty Street approximately 0.1 miles south of the Subject site. West Dougherty Street traverses east/west throughout downtown Athens and provides access to Prince Avenue approximately 0.3 miles west of the Subject and to North Avenue approximately 0.5 miles east of the Subject site. Prince Avenue traverses east/west and provides access throughout northeast Athens, while North Avenue traverses north/south and provides access to Athens Perimeter Loop 10 approximately 1.4 miles northeast of the Subject site. Athens Perimeter Loop 10 traverse in a circle around Athens and provides access to several employment centers. Athens Perimeter Loop 10 also provides access to GA State Route 316, which traverses east/west and provides access from Athens to the nearby city of Atlanta, GA, approximately 50 miles west of the Subject. Overall, access and visibility are considered good.

11. Conclusion: The Subject site is located in downtown Athens and has frontage along the southwest side of North Lumpkin Street and the east side of North Hull Street. The Subject site has good visibility and accessibility from North Hull Street. The Subject site is currently improved with an existing portion of Bethel Midtown Village, an existing LIHTC/Section 8 multifamily development that will be razed upon the start of construction. It should be noted that only the portion of Bethel Midtown Village that is located on the Subject site is to be razed, the majority of Bethel Midtown Village will continue with normal operations. Surrounding uses consist of residential uses, retail, commercial, government uses, and several restaurants. A positive attribute of the Subject is within close proximity to downtown Athens, which offers many important locational amenities and is one of the city's major employment centers. Crime in the PMA is elevated compared to the nation; however, we believe the Subject's security features will be market-oriented. Based on our inspection of the neighborhood, retail and commercial uses appeared to be 90 percent occupied. The Subject site is considered "Somewhat Walkable" by Walk Score with a rating of 68 out of 100. The Subject site is considered a desirable building site for rental housing. The Subject site is located in a mixed-use neighborhood. The uses surrounding the Subject are in average to excellent condition. The Subject site has good proximity to locational amenities, which are within 2.0 miles of the Subject site.

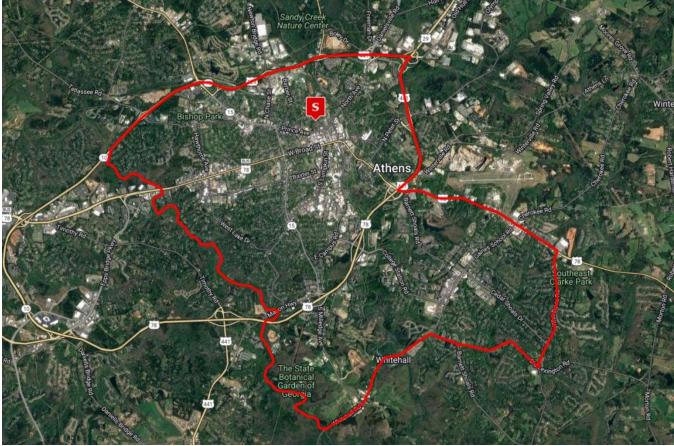

E. MARKET AREA

PRIMARY MARKET AREA

For the purpose of this study, it is necessary to define the market area, or the area from which potential tenants for the project are likely to be drawn. In some areas, residents are very much "neighborhood oriented" and are generally very reluctant to move from the area where they have grown up. In other areas, residents are much more mobile and will relocate to a completely new area, especially if there is an attraction such as affordable housing at below market rents.

Primary Market Area Map

Source: Google Earth, July 2023.

The following sections will provide an analysis of the demographic characteristics within the market area. Data such as population, households and growth patterns will be studied, to determine if the Primary Market Area (PMA) and the Athens-Clarke County, MSA are areas of growth or contraction.

The PMA is defined by Athens Perimeter Loop 10 to the north, Athens Perimeter Loop 10, Lexington Road, and Whit Davis Road to the east, Old Lexington Road, Barnett Shoals, and Whitehall Road to the south, and the Middle Oconee River to the west. This area includes the city of Athens as well as portions of Clarke County. The distances from the Subject to the farthest boundaries of the PMA in each direction are listed as follows:

North: 1.1 miles East: 5.0 miles South: 4.9 miles West: 3.4 miles

The PMA is defined based on interviews with the local housing authority and property managers at comparable properties. Many property managers indicated that a significant portion of their tenants come from out of

state. While we do believe the Subject will experience leakage from outside the PMA boundaries, per the 2023 market study guidelines, we do not account for leakage in our demand analysis found later in this report. The farthest PMA boundary from the Subject is approximately 5.0 miles. The SMA is defined as the Athens-Clarke County, GA Metropolitan Statistical Area (MSA), which consists of Clarke, Madison, Oconee, and Oglethorpe Counties in Georgia and encompasses 1,363 square miles.

F. COMMUNITY DEMOGRAPHIC DATA

COMMUNITY DEMOGRAPHIC DATA

The following sections will provide an analysis of the demographic characteristics within the market area. Data such as population, households and growth patterns will be studied to determine if the Primary Market Area (PMA) and Athens-Clarke County, MSA are areas of growth or contraction. The discussions will also describe typical household size and will provide a picture of the health of the community and the economy. The following demographic tables are specific to the populations of the PMA and Athens-Clarke County, MSA. Construction on the Subject is anticipated to be completed in January 2027, which will be used as the estimated market entry time in this section of the report according to DCA guidelines.

1. Population Trends

The following tables illustrate Total Population, Population by Age Group, and within the population in the MSA, the PMA and nationally from 2000 through 2027.

Total Population

The following table illustrates the total population within the PMA, MSA and nation from 2000 through 2027.

| | | | POPULATIO | DN | | |
|-------------------------------------|--------|---------------|-------------------------------|-----------------|-------------|---------------|
| Year | РМА | | Athens-Cl | arke County, GA | 110 | 20 |
| Tear | | FIMA | Metropolitan Statistical Area | | USA | |
| | Number | Annual Change | Number | Annual Change | Number | Annual Change |
| 2000 | 60,997 | - | 164,312 | - | 281,250,431 | - |
| 2010 | 61,967 | 0.2% | 192,541 | 1.7% | 308,738,557 | 1.0% |

| 2027 | 72,327 | 0.3% | 225,743 | 0.5% | 339,902,535 | 0.2% |

Source: Esri Demographics 2022, Novogradac Consulting LLP, July 2023

Between 2010 and 2022, there was approximately 1.2 percent annual population growth in the PMA and over the same time period, the MSA experienced similar annual population growth, while the nation experienced lower annual population growth. Over the next five years, the population growth in the PMA is projected to increase but at a slower rate of 0.3 percent, which is just below the MSA and slightly above the national projections. Overall, we believe that population growth in the PMA and MSA is a positive indication of demand for the Subject's proposed units.

Total Population by Age Group

The following table illustrates the total population within the PMA and SMA and nation from 2000 to 2027.

| | | | PMA | | |
|------------|--------|--------|--------|-------------------------------------|--------|

The largest age cohorts in the PMA are between 20 to 24 and 25 to 29, which indicates the presence of families and students.

2. Household Trends

The following tables illustrate Total Households and Average Household Size, Household Tenure, Households by Income, Renter Households by Size, within the population in the MSA, the PMA and nationally from 2000 through 2027.

Total Number of Households and Average Household Size

The following tables illustrate the total number of households and average household size within the PMA, SMA and nation from 2000 through 2027.

Source: Esri Demographics 2022, Novogradac Consulting LLP, July 2023

Between 2010 and 2022, household growth in the PMA was slightly higher than the MSA at 1.5 percent and both areas experienced growth above the nation. Over the next five years, the household growth in the PMA and MSA is expected to continue to increase but at a slower rate, both areas are projected to experience household growth above the national household growth projections. The average household size in the PMA is smaller than the national average at 2.17 persons in 2022. Over the next five years, the average household size is projected to remain relatively similar.

Households by Tenure

The table below depicts household growth by tenure from 2000 through 2027.

| TENURE PATTERNS PMA | | | | | |
|-------------------------------------|-------------------------|------------|-----------------------|-----------------|--|
| Year | Owner- | Percentage | Renter-Occupied Units | Percentage | |
| rear | Occupied Owner-Occupied | | Renter-Occupied Units | Renter-Occupied | |
| 2000 | 8,360 | 35.0% | 15,512 | 65.0% | |
| 2022 | 7,212 | 25.2% | 21,387 | 74.8% | |
| Projected Mkt Entry January 2027 | 7,569 | 25.9% | 21,648 | 74.1% | |
| 2027 | 7,609 | 26.0% | 21,677 | 74.0% | |

Source: Esri Demographics 2022, Novogradac Consulting LLP, July 2023

As the table illustrates, households within the PMA reside in predominately renter-occupied residences. Nationally, approximately 65 percent of the population resides in owner-occupied housing units, and 35 percent resides in renter-occupied housing units. Therefore, there is a significantly larger percentage of renters in the PMA than the nation. This percentage is projected to remain relatively stable over the next five years.

Household Income

The following table depicts renter household income in the PMA in 2022, market entry, and 2027.

Source: HISTA Data / Ribbon Demographics 2021, Novogradac Consulting LLP, July 2023

The Subject will target tenants earning between \$0 and \$70,400 as proposed. Absent subsidy, the Subject will target tenants earning between \$20,949 and \$70,400. As the table above depicts, approximately 57.2 percent of renter households in the PMA are earning incomes between \$0 and \$29,999, which is comparable to the 49.9 percent of renter households in the MSA in 2022. For the projected market entry date of January 2027, these percentages are projected to slightly decrease to 52.1 percent and 44.9 percent for the PMA and MSA, respectively.

Renter Households by Number of Persons in the Household

The following table illustrates household size for all households in 2022, market entry and 2027. To determine the number of renter households by number of persons per household, the total number of households is adjusted by the percentage of renter households.

| Household Size | : | 2022 | Projected Mkt | t Entry January 2027 | 20 |)27 |
|------------------|--------|------------|---------------|----------------------|--------|------------|
| | Number | Percentage | Number | Percentage | Number | Percentage |
| 1 Person | 8,255 | 38.6% | 8,413 | 38.9% | 8,431 | 38.9% |
| 2 Persons | 6,674 | 31.2% | 6,706 | 31.0% | 6,709 | 30.9% |
| 3 Persons | 3,206 | 15.0% | 3,243 | 15.0% | 3,247 | 15.0% |
| 4 Persons | 2,220 | 10.4% | 2,226 | 10.3% | 2,227 | 10.3% |
| 5+ Persons | 1,032 | 4.8% | 1,060 | 4.9% | 1,063 | 4.9% |

RENTER HOUSEHOLDS BY NUMBER OF PERSONS - PMA

Source: HISTA Data / Ribbon Demographics 2021, Novogradac Consulting LLP, July 2023

The majority of renter households in the PMA are one or two-person households.

Conclusion

The population in the PMA and the MSA increased significantly from 2000 to 2022, and the rate of growth increased from 2010 to 2022. However, the rate of population and household growth is projected to increase but is projected to slow through 2027. The current population of the PMA is 71,270 and is expected to be 72,221 upon market entry in 2027. The current number of households in the PMA is 28,599 and is expected to be 29,217 upon market entry in 2027. Renter households are concentrated in the lowest income cohorts, with 57.2 percent of renters in the PMA earning less than \$30,000 annually. The Subject will target households earning between \$0 and \$70,400 as proposed. Absent subsidy, the Subject will target tenants earning between \$20,949 and \$70,400. Therefore, the Subject should be well-positioned to service this market. Overall, while population growth has been modest, the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

G. EMPLOYMENT TRENDS

Employment Trends

The PMA and Clarke County are economically reliant on the University of Georgia, which is the third largest University in the state of Georgia with over 40,000 enrolled students. Employment is concentrated in industries relating to or supporting the University, which is the largest employer in the region. Industries related to healthcare also represent major employment sectors in the PMA. Employment levels decreased during the national recession but have surpassed pre-recession highs and appears to be in an expansionary phase.

1. Covered Employment

The following table illustrates the total jobs (also known as "covered employment") in Clarke County. Note that the data below is the most recent data available.

| | COVERED EMPLOYMENT | |
|--------|------------------------|----------|
| | Clarke County, Georgia | |
| Year | Total Employment | % Change |
| 2007 | 61,583 | - |
| 2008 | 62,243 | 1.07% |
| 2009 | 58,954 | -5.28% |
| 2010 | 51,424 | -12.77% |
| 2011 | 51,801 | 0.73% |
| 2012 | 52,974 | 2.26% |
| 2013 | 53,315 | 0.64% |
| 2014 | 52,226 | -2.04% |
| 2015 | 52,987 | 1.46% |
| 2016 | 55,484 | 4.71% |
| 2017 | 58,535 | 5.50% |
| 2018 | 58,519 | -0.03% |
| 2019 | 57,543 | -1.67% |
| 2020 | 54,453 | -5.37% |

| Apr-21 | 56,892 | 14.10% |

Source: U.S. Bureau of Labor Statistics, retrieved July 2023

YTD as of Apr-21

As illustrated in the table above, Clarke County experienced a weakening economy during the previous national recession. The county began feeling the effects of the downturn in 2009. Employment growth quickly rebounded, and Clarke County exhibited employment growth from 2011 through 2013, with a slight decrease in 2014. Employment growth increased again between 2015 and 2017. However, employment began to decline in 2018 and 2019. Employment declined in 2020 amid the COVID-19 pandemic, and employment as of April 2021 still remains below pre-pandemic levels.

2. Total Jobs by Industry

The following table illustrates the total jobs by employment sectors within Clarke County as of the third quarter of 2022.

| TOTAL JOBS BY INDUSTRY Clarke County, GA - Q3 2022 | | | | | |
|---|--------|---------|--|--|--|

Source: Bureau of Labor Statistics, 2019, retrieved July 2023

Trade, transportation, and utilities services is the largest industry in Clarke County, followed by education and healthcare services. Utilities, education, and healthcare are particularly stable industries during economic downturns. The following table illustrates employment by industry for the PMA as of 2022 (most recent year available).

| | PN | ΛA | | USA |
|--------------------------------|-----------------|------------------|--------------------|------------------|

Source: Esri Demographics 2022, Novogradac Consulting LLP, July 2023

Employment in the PMA is concentrated in the educational services, accommodation/food services, and retail trade industries, which collectively comprise 51.0 percent of local employment. The large share of PMA employment in accommodation/food services and retail trade is notable as both industries are historically volatile, and prone to contraction during recessionary periods. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, accommodation/food services, and arts/entertainment/recreation industries. Conversely, the PMA is underrepresented in the healthcare/social assistance, manufacturing, and construction industries.

3. Major Employers

The table below shows the largest employers in Clarke County, Georgia.

| | CLARKE COONTI, GEORGIA | | | | | | | | | |

MAJOR EMPLOYERS CLARKE COUNTY, GEORGIA

Source: investathensga.com, retrieved July 2023

The University of Georgia has been the focal point of Athens, Georgia since its founding in 1785. The University of Georgia is the largest employer in Clarke County by a significant margin. Other major employers include companies in the manufacturing, education, government, and healthcare industries. While healthcare, education, and government sectors are historically stable industries, manufacturing is historically unstable, especially during times of recession. Several industries, including banking and manufacturing, were negatively affected by the COVID-19 pandemic. As of July 2023, these top 20 employers comprised approximately 61.6 percent of the county's employment, which indicates that the local economy is reliant on the success of these employers.

Expansions/Contractions

We reviewed the Worker Adjustment and Retraining Notification Act (WARN) notices published by the Georgia Department of Labor for 2021 through July 2023. The following table illustrates the companies that experienced layoffs as well as the number of affected employees.

| Company | Industry | Employees Affected | Layoff Date |
|-----------------------------|---------------|-----------------------|-------------|
| David's Bridal | Retail | 24 | 4/14/2023 |
| ByoPlanet International LLC | Manufacturing | 69 | 6/3/2021 |
| Total | 0 | 93 | |

WARN LISTINGS CLARKE COUNTY, GA – 2021 – YTD 2023

Source: Georgia Department of Labor, retrieved April 2023

As illustrated in the previous table, there were a total of 93 layoffs between 2021 and July 2023.

In Spring 2023, we spoke with Ilka McConnell, Director of Economic Development with the Athens-Clarke County Unified Government. McConnell reported three major investments in the area since 2022, totaling \$365 million and expected to create 1,840 jobs. In addition to the information we received from McConnell, we conducted our own research into employment expansions and contractions in the area. The following represent the major business expansions in the area since 2022:

- Meissner Corporation, a life sciences manufacturer, announced in April 2023 that it will invest \$250 million in a new facility in Athens-Clarke County. The project is expected to create 1,700 new jobs over the next eight years. Operations are expected to begin in early 2026 at the new facility.
- In September 2022, Athena Studios, a film and TV studio company, announced its planned expansion of its production space in Athens. The expansion will add 350,000 square feet to the existing facility. The first phase of the expansion is scheduled to open in the spring of 2023. Details on permanent job creation were unavailable, but the construction of the expansion has already created over 300 jobs.
- In August 2022, Pilgrim's Pride, a food processing company which is one of Athens' top employers, announced plans to expand its Athens manufacturing facility. Details on job creation and investment are not yet available.
- In April 2022, the Athens City Council approved incentives for the three developments bringing the businesses to the city. Five of the nine new businesses will be in the Noon Athens project, a strip mall located on U.S. 72 East near Interstate 65 behind Wendy's.
- In April 2022, Boehringer Ingelheim, a global research-driven pharmaceutical development and manufacturing company based in Germany, announced it will expand its Animal Health Global Innovation center in Athens, Georgia. The \$57 million investment will increase laboratory space and bring additional research and development capabilities and activities, including 55 new positions, to the site.

As illustrated, there are several additions in a variety of industries including manufacturing, pharmaceuticals, and film. Since 2022, there were a total of 2,140 jobs created or announced, which more than counteracts the 93 layoffs during the same period.

4. Employment and Unemployment Trends

The following table details employment and unemployment trends for the MSA from 2007 to May 2023.

Source: U.S. Bureau of Labor Statistics, July 2023

The effects of the previous national recession were exaggerated in the MSA, which experienced a 17.7 percent contraction in employment growth, below the 4.9 percent contraction reported by the nation as a whole. Since 2012, job growth in the MSA was generally similar to the nation. Employment in the MSA declined by 4.6 percent in 2020 amid the pandemic, compared to 6.2 percent across the overall nation. The MSA subsequently recovered all pandemic-related job losses, however, local employment remains below the record high achieved in 2008. As of May 2023, employment in the MSA is increasing at an annualized rate of 2.0 percent, above the 1.5 percent growth across the nation. Continued interest rate increases could further slow the current rate of employment growth.

Since 2012, the MSA generally experienced a similar unemployment rate relative to the nation. The MSA unemployment rate increased modestly by 2.2 percentage points in 2020 amid the pandemic, reaching a high of 5.6 percent. For comparison, the national unemployment rate rose by 4.4 percentage points and reached a high of 8.1 percent over the same time period. According to the latest labor statistics, dated May 2023, the current MSA unemployment rate is 3.3 percent. This is well below the COVID highs of 2020, and just below the current national unemployment rate of 3.4 percent.

It should be noted that increasing inflation and rising interest rates have created an uncertain economic climate. On May 3, 2023, the Federal Reserve increased the interest rate by 0.25 percentage points to the 5.00 to 5.25 percent range. According to an article published by *The New York Times* on May 3, 2023, Jerome H. Powell, the chairman of the Federal Reserve, tempered language from previous interest rate hike announcements and suggest the Federal Reserve could stop raising interest rates as soon as June 2023. However, inflation remains above the Federal Reserve's target of 2.0 percent. According to the 12-month percentage change in the consumer price index, the inflation rate increased from 4.9 percent between April 2022 and April 2023, which is down slightly from the 5.0 percent increase between March 2022 and March 2023. According to an article published by CNN on April 18, 2023, experts are divided on the possibility of a recession. Treasury Secretary Janet Yellen stated a recession can be avoided with a soft landing, and there is "a path to bring down inflation while maintaining a strong labor market." Economists at Goldman Sachs are forecasting a 35 percent chance of recession, while a Bloomberg survey of forecasters is forecasting a 65 percent chance of recession.

In March 2023, Silicon Valley Bank was shut down by regulators, and represented the second largest U.S. bank failure since 2008. A second large bank, Signature Bank, was also shut down shortly thereafter. In May 2023, regulators took possession of First Republic Bank, and it was auctioned to JPMorgan Chase. The First Republic Bank failure represented the largest U.S. Bank failure since 2008. In an article published by CNN on May 1, 2023, JPMorgan Chase CEO Jamie Dimon stated the recent bank failures are unlikely to worsen the U.S. economic outlook. According to a survey published by the World Economic Forum on May 2, 2023, approximately 70 percent of chief economists surveyed characterized the recent banking crises as isolated events rather than signs of systemic weaknesses.

5. Map of Site and Major Employment Concentrations

The following map and table details the largest employers in Clarke County, Georgia.

Source: Google Earth, July 2023.

MAJOR EMPLOYERS CLARKE COUNTY, GEORGIA

| Rank | Employer Name | Industry | # Of Employees |

6. Conclusion

Employment in the PMA is concentrated in the educational services, accommodation/food services, and retail trade industries, which collectively comprise 51.0 percent of local employment. The large share of PMA employment in accommodation/food services and retail trade is notable as both industries are historically volatile, and prone to contraction during recessionary periods. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, accommodation/food services, and arts/entertainment/recreation industries. Conversely, the PMA is underrepresented in the healthcare/social assistance, manufacturing, and construction industries. Since 2012, job growth in the MSA was generally similar to the nation. Employment in the MSA declined by 4.6 percent in 2020 amid the pandemic, compared to 6.2 percent across the overall nation. The MSA subsequently recovered all pandemic-related job losses, however, local employment remains below the record high achieved in 2008. As of May 2023, employment in the MSA is increasing at an annualized rate of 2.0 percent, above the 1.5 percent growth across the nation. Continued interest rate increases could further slow the current rate of employment growth.

Since 2012, the MSA generally experienced a similar unemployment rate relative to the nation. The MSA unemployment rate increased modestly by 2.2 percentage points in 2020 amid the pandemic, reaching a high of 5.6 percent. For comparison, the national unemployment rate rose by 4.4 percentage points and reached a high of 8.1 percent over the same time period. According to the latest labor statistics, dated May 2023, the current MSA unemployment rate is 3.3 percent. This is well below the COVID highs of 2020, and just below the current national unemployment rate of 3.4 percent.

H. PROJECT-SPECIFIC AFFORDABILITY AND DEMAND ANALYSIS

The following demand analysis evaluates the potential amount of qualified households, which the Subject would have a fair chance at capturing. The structure of the analysis is based on the guidelines provided by DCA.

1. Income Restrictions

LIHTC rents are based upon a percentage of the Area Median Gross Income ("AMI"), adjusted for household size and utilities. The Georgia Department of Community Affairs ("DCA") will estimate the relevant income levels, with annual updates. The rents are calculated assuming that the maximum net rent a household will pay is 35 percent of its household income at the appropriate AMI level.

According to DCA, household size is assumed to be 1.5 persons per bedroom for LIHTC rent calculation purposes. For example, the maximum rent for a four-person household in a two-bedroom unit is based on an assumed household size of three persons (1.5 per bedroom). For income determination purposes, the maximum income is assumed to be 1.5 persons per bedroom rounded up to the nearest whole number. For example, maximum income for a one-bedroom unit is based on an assumed household size of two persons (1.5 persons per bedroom senior household household size of two persons (1.5 persons per bedroom, rounded up). However, very few senior households have more than two persons. Therefore, we assume a maximum household size of two persons in our analysis.

To assess the likely number of tenants in the market area eligible to live in the Subject, we use Census information as provided by ESRI Information Systems, to estimate the number of potential tenants who would qualify to occupy the Subject as a LIHTC project.

The maximum income levels are based upon information obtained from the Rent and Income Limits Guidelines Table as accessed from the DCA website.

2. Affordability

As discussed above, the maximum income is set by DCA while the minimum is based upon the minimum income needed to support affordability. This is based upon a standard of 35 percent. Lower and moderateincome families typically spend greater than 30 percent of their income on housing. These expenditure amounts can range higher than 50 percent depending upon market area. However, the 30 to 40 percent range is generally considered a reasonable range of affordability. DCA guidelines utilize 35 percent for families and 40 percent for seniors. We will use these guidelines to set the minimum income levels for the demand analysis. We conducted a demand analysis for the Subject assuming both a subsidy and absent a subsidy. In the absent subsidy scenario, the minimum income limit was based on the maximum allowable rents for the Subject's subsidized units.

FAMILY INCOME LIMITS - ABSENT SUBSIDI

3. Demand

The demand for the Subject will be derived from three sources: new households, existing households and elderly homeowners likely to convert to rentership. These calculations are illustrated in the following tables.

Demand from New Households

The number of new households entering the market is the first level of demand calculated. We utilized 2027, the anticipated date of market entry, as the base year for the analysis. Therefore, 2022 household population estimates are inflated to 2027 by interpolation of the difference between 2022 estimates and 2027 projections. This change in households is considered the gross potential demand for the Subject property. This number is adjusted for income eligibility and renter tenure. This is calculated as an annual demand number. In other words, this calculates the anticipated new households in 2027. This number takes the overall growth from 2022 to 2027 and applies it to its respective income cohorts by percentage. This number does not reflect lower income households losing population, as this may be a result of simple dollar value inflation.

Demand from Existing Households

Demand for existing households is estimated by summing two sources of potential tenants. The first source is tenants who are rent overburdened. These are households who are paying over 35 percent for family households and 40 percent for senior households of their income in housing costs. This data is interpolated using ACS data based on appropriate income levels.

The second source is households living in substandard housing. We will utilize this data to determine the number of current residents that are income eligible, renter tenure, overburdened and/or living in substandard housing and likely to consider the Subject. In general, we will utilize this data to determine the number of current residents that are income eligible, renter tenure, overburdened and/or living in substandard housing and likely to consider the Subject. In general, we will utilize this data to determine the number of current residents that are income eligible, renter tenure, overburdened and/or living in substandard housing and likely to consider the Subject.

Demand from Elderly Homeowners likely to Convert to Rentership

An additional source of demand is also seniors likely to move from their own homes into rental housing. This source is only appropriate when evaluating senior properties and is determined by interviews with property managers in the PMA. It should be noted that per DCA guidelines, we lower demand from seniors who convert to homeownership to be at or below 2.0 percent of total demand.

3d. Other

Per the 2023 GA DCA Qualified Allocation Plan (QAP) and Market Study Manual, GA DCA does not consider demand from outside the Primary Market Area (PMA), including the Secondary Market Area (SMA). Therefore, we do not account for leakage from outside the PMA boundaries in our demand analysis.

DCA does not consider household turnover to be a source of market demand. Therefore, we do not account for household turnover in our demand analysis.

We calculated all of our capture rates based on household size. DCA guidelines indicate that properties with over 20 percent of their proposed units in three and four-bedroom units need to be adjusted to considered larger household sizes. Our capture rates incorporate household size adjustments for all of the Subject's units.

Net Demand

The following pages will outline the overall demand components added together less the supply of competitive developments awarded and/or constructed or placed in service from 2020 to the present.

Additions to Supply

Additions to supply will lower the number of potential qualified households. Pursuant to our understanding of DCA guidelines, we deduct the following units from the demand analysis.

- Comparable/competitive LIHTC and bond units (vacant or occupied) that were funded, are under construction, or are in properties that have not yet reached stabilized occupancy
- Comparable/competitive conventional or market rate units that are proposed, are under construction, or are in properties that have not yet reached stabilized occupancy. As the following discussion will demonstrate, competitive market rate units are those with rent levels that are comparable to the proposed rents at the Subject.

Per GA DCA guidelines, competitive units are defined as those units that are of similar size and configuration and provide alternative housing to a similar tenant population, at rent levels comparative to those proposed for the Subject development.

| PLANNED DEVELOPMENT | | | | | | | | | | | |
|-------------------------------|------------------------|---------------------|-------|---------------------|--|------|---------------------|------------|--|--|--|
| Property Name | Rent | _ Total Competitive | | Competitive | Competitive Competitive Units LIHTC Allocation | | Construction Status | Distance | | | |
| Property Name | Structure | Tenancy | Units | Units (As Proposed) | (Absent Subsidy) | Year | construction Status | to Subject | | | |
| North Downtwon Athens Phase I | LIHTC/Section 8/Market | Family | 120 | 62 | 40 | 2020 | Under Construction | Adjacent | | | |
| Totals | | | 120 | 62 | 40 | | | | | | |

Source: DCA and CoStar, September 2023

• North Downtown Athens Phase I, a prior phase of the Subject's larger overall development, was allocated in 2020 for the development of 120 LIHTC/Section 8/Market units targeting families. This development will be located adjacent north of the Subject. Upon completion the property will offer 80 one, two, and three-bedroom units targeting households earning 50 and 60 percent of the AMI, or less. Additionally, there will be 40 unrestricted market rate units. Of the total units, 40 of the units will operate with project-based Section 8 rental assistance, where tenants will pay 30 percent of their income towards rent. Construction on Phase I began in April 2023 and is anticipated to be complete in the second quarter of 2025. As this property will target a family tenancy it will be considered directly competitive with the Subject. As such, we have deducted all the 62 units at the 50 and 60 percent of AMI in our demand analysis. However, in the absent subsidy scenario we will only deduct 40 units from our demand analysis.

The following table illustrates the total number of units removed based on existing properties as well as new properties to the market area that have been allocated or are not yet stabilized. Note that this table may illustrate non-competitive units and competitive properties that are not deducted from our demand analysis.

| Unit Type | 40% AMI (Section 8) | 60% AMI | 60% AMI (Section 8) | 80% AMI | Overall | | | | |
|-----------|---------------------|---------|---------------------|---------|---------|--|--|--|--|

Rehab Developments and PBRA

For any properties that are rehab developments, the capture rates will be based on those units that are vacant, or whose tenants will be rent burdened or over income as listed on the Tenant Relocation Spreadsheet.

Units that are subsidized with PBRA or whose rents are more than 20 percent lower than the rent for other units of the same bedroom size in the same AMI band and comprise less than 10 percent of total units in the same AMI band will not be used in determining project demand. In addition, any units, if priced 30 percent lower than the average market rent for the bedroom type in any income segment, will be assumed to be leasable in the market and deducted from the total number of units in the project for determining capture rates.

Capture Rates

The above calculations and derived capture rates are illustrated in the following tables. Note that the demographic data used in the following tables, including tenure patterns, household size and income distribution through the projected market entry date of January 2027 are illustrated in the previous section of this report.

.....

CAPTURE RATE ANALYSIS CHART

Our demand analysis is used to determine a base of demand for the Subject as a tax credit property. Several factors affect the indicated capture rates and are discussed following.

- The number of households in the PMA is expected to increase 0.5 percent annually between 2022 and the date of market entry in January 2027.
- This demand analysis does not measure the PMA's or Subject's ability to attract additional or latent demand into the market from elsewhere by offering an affordable option. We believe this to be moderate and therefore the demand analysis is somewhat conservative in its conclusions because this demand is not included.

The following table illustrates demand and net demand for the Subject's units. Note that these capture rates are not based on appropriate bedroom types, as calculated previously.

| | DEMAND AND NET DEMAND | | | | | | | | | | | | |

CAPTURE RATE ANALYSIS CHART

*Maximum allowable rents

As the analysis illustrates, the Subject's capture rates at the 40 percent AMI level with subsidy will range from 0.7 to 1.8 percent, with an overall capture rate of 0.9 percent. The Subject's capture rates at the 40 percent AMI level without subsidy range between 1.9 and 5.0 percent, with an overall capture rate of 2.5 percent. The Subject's capture rates at the 60 percent AMI level for the LIHTC only units will range between 2.0 and 2.8 percent, with an overall capture rate of 2.4 percent. The Subject's capture rates at the 60 percent AMI level with subsidy will range between 0.2 and 1.3, with an overall capture rate of 0.5 percent. The Subject's capture rates at the 60 percent AMI level without subsidy range between 1.9 and 4.9 percent, with an overall capture rate of 2.4 percent. The Subject's capture rate of 2.4 percent. The Subject's capture rate of 2.4 percent, with an overall capture rate of 1.9 and 4.9 percent, with an overall capture rate of 2.4 percent. The Subject's capture rate at the 80 percent AMI level will range between 1.2 and 2.1 percent, with an overall capture rate of 1.4 percent. The overall capture rate at the Subject, as proposed, is 1.7 percent. The overall capture rate at the Subject, absent subsidy, is 3.0 percent. All capture rates, as proposed, are within DCA thresholds. As such, we believe there is adequate demand for the Subject.

I.COMPETITIVE RENTAL ENVIRONMENT

Survey of Comparable Projects

Comparable properties are examined on the basis of physical characteristics, i.e. building type, age/quality, level of common amenities, absorption, as well as similarity in rent structure. We attempted to compare the Subject to complexes from the competing market to provide a broader picture of the health and available supply in the market. Our competitive survey includes 11 "true" comparable properties containing 1,734 units.

The availability of LIHTC data is considered good. We included four LIHTC comparables in our analysis. All of the comparables are located within the PMA, between 1.3 and 2.2 miles from the Subject. The comparables were built or renovated between 2007 and 2017.

The availability of market rate data is considered good. The Subject is located in Athens and there are several market rate properties in the area. We include seven conventional properties in our analysis of the competitive market. All of the market rate properties are located in the PMA, between 0.1 and 3.8 miles from the Subject. These comparables were built or renovated between 2003 and 2020. Overall, we believe the market rate properties used in our analysis are the most comparable. Other market rate properties are excluded based on proximity, unit count, and condition.

A detailed matrix describing the individual competitive properties as well as the proposed Subject is provided on the following pages. A map illustrating the location of the Subject in relation to comparable properties is also provided on the following pages. The properties are further profiled in the following write-ups. The property descriptions include information on vacancy, turnover, absorption, age, competition, and the general health of the rental market, when available.

Excluded Properties

The following table illustrates properties within the PMA that are excluded from our analysis along with their reason for exclusion.

The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent. The waiting list for these units is maintained by the Athens Housing Authority and is shared for their properties. The property does not maintain a waiting list for the LIHTC only or market rate units. The contact stated that the 60 percent AMI rents are at the 2022 maximum allowable levels and will likely increase to the 2023 maximum allowable rents in the near future.

Trend: Comments

- 1Q22 The contact confirmed rents are at maximum allowable levels for 2021. The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent and the waiting list for those units is maintained by the Housing Authority. The contact stated rents for two- and three-bedroom townhome units at 60 percent AMI are lower than rents for two- and three-bedroom garden units at 60 percent AMI are lower than rents for two- and three-bedroom garden units at 60 percent AMI due to greater utility allowances for the townhome units. No major impact from COVID-19 was reported and the contact stated occupancy rates have been stable since November 2019.
- 2022 N/A
- 3Q22 The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent and the waiting list for those units is maintained by the Housing Authority. The property does not hold a waiting list for any other units. The contact stated they did not have the contract rents for the subsidized units available, but stated that the contract rents did not increase when LIHTC and market rate rents increased in June. The contact stated rents for two- and three-bedroom townhome units at 60 percent AMI are lower than rents for two- and three-bedroom garden units at 60 percent AMI due to greater utility allowances for the townhome units. LIHTC rents increased to the 2022 maximum allowable level.
- 2023 The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent. The waiting list for these units is maintained by the Athens Housing Authority and is shared for their properties. The property does not maintain a waiting list for the LIHTC only or market rate units. The contact stated that the 60 percent AMI rents are at the 2022 maximum allowable levels and will likely increase to the 2023 maximum allowable rents in the near future.

Trend: Comments

- 4Q21 The contact confirmed rents are set at maximum allowable levels for 2021. The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent and the waiting list for those units is maintained by the Housing Authority. The contact stated rents for twoand three-bedroom townhome units at 60 percent AMI are lower than rents for two- and three-bedroom garden units at 60 percent AMI due to greater utility allowances for the townhome units. No major impact from COVID-19 was reported and the contact stated occupancy rates have been stable since November 2019.
- 1022 The contact confirmed rents are at maximum allowable levels for 2021. The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent and the waiting list for those units is maintained by the Housing Authority. The contact stated rents for two- and three-bedroom townhome units at 60 percent AMI are lower than rents for two- and three-bedroom garden units at 60 percent AMI due to greater utility allowances for the townhome units. No major impact from COVID-19 was reported and the contact stated occupancy rates have been stable since November 2019.
- 3Q22 The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent and the waiting list for those units is maintained by the Housing Authority. The property does not hold a waiting list for any other units. The contact stated they did not have the contract rents for the subsidized units available, but stated that the contract rents did not increase when LIHTC and market rate rents increased in June. The contact stated rents for two- and three-bedroom townhome units at 60 percent AMI are lower than rents for two- and three-bedroom garden units at 60 percent AMI due to greater utility allowances for the townhome units. LIHTC rents increased to the 2022 maximum allowable level.
- 2Q23 The units at 50 percent AMI are Public Housing units in which tenants pay 30 percent of income towards rent. The waiting list for these units is maintained by the Athens Housing Authority and is shared for their properties. The property does not maintain a waiting list for the LIHTC only or market rate units. The 60 percent AMI rents are at the 2022 maximum allowable level and the property plans to increase to the 2023 maximum allowable level in the near future.

Comments

The contact reported 6.5 percent vacancy and stated that it is due to increased turnover at this time of the year. We were directed to the property's website for rents. The contact indicated that the property began leasing units late 2018, and estimated that the property took close to eight months to stabilize. Housing choice vouchers are not accepted. No utilities are included in rent. The contact reported that the property receives more moveouts during the summer season and much less in the off season. The property offers free surface parking, and townhomes include two garage space parking spots.

Trend: Comments

- 2020 The contact reported the property was originally a 300 unit condominium and when units were not able to sell, a block of 120 units was purchased and is now managed by Cobblestone management. The other 180 units are either owner occupied or individually leased by other management companies. The contact stated 85 percent of units are leased to students and leases typically run from August through July in order to avoid large gaps of high vacancy during the summer months. She noted no major negative effects from COVID-19 and said the property is 100 percent preleased for the fall semester.
- 1022 The contact reported the property was originally a 300 unit condominium and when units were not able to sell, a block of 120 units was purchased and is now managed by Cobblestone management. The other 180 units are either owner occupied or individually leased by other management companies. The contact stated 85 percent of units are leased to students and leases typically run from August through July in order to avoid large gaps of high vacancy during the summer season. She noted no major negative effects from COVID-19 and said the property is 100 percent preleased for the fall semester.

Trend: Comments

1022 The contact stated the majority of tenancy is students but the property leases units and not by the bedroom. The property participates in roommate matching but every tenant in the unit must be on the lease and is responsible. Sublets are allowed. The property is currently 100 percent occupied. Leases typically run from August through July each year. The rents for the 1041 sf unit increased four percent. The rents for all other floor plans remained unchanged. The contact did not report issues with rent collection due to COVID-19.

3022 N/A

2023 N/A

3023 The contact stated the majority of tenancy is students but the property leases by the unit and not by the bedroom.

2. Housing Choice Vouchers

We spoke with a representative for the Georgia Department of Community Affairs (DCA). They noted there are 17,152 vouchers designated for 149 counties across the state of Georgia. Further, there are 366 vouchers designated and in use in Clarke County. The waiting list is currently open, and an approximate wait time is unavailable. The following table illustrates the 2023 payment standards in Clarke County. The following table illustrates voucher usage at the comparables.

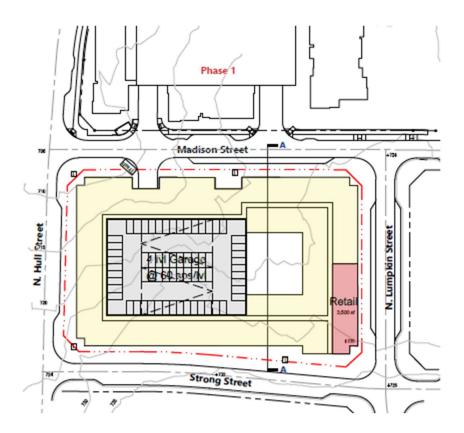

| TENANT | S WITH VOUCHERS | 6 |
|----------------------------------|-----------------|--------------------------------|
| Property Name | Rent Structure | Housing Choice Voucher Tenants |
| Columbia Brookside II | LIHTC/ Market | 5% |
| Columbia Brookside III | LIHTC/ Market | 5% |
| Fourth Street Village Apartments | LIHTC/ Market | 30% |
| North Grove Apartments | LIHTC | 12% |
| 100 Prince | Market | 0% |
| 1287 Shoals Apartments | Market | 0% |
| Ascent Athens | Market | N/A |
| Cambridge Apartments | Market | 0% |
| Legacy Of Athens | Market | 0% |
| The Summit Of Athens | Market | 0% |
| The Woodlands Of Athens | Market | 0% |

Housing Choice Voucher usage in this market ranges from zero to 30 percent. None of the market rate properties reported having tenants utilizing vouchers at this time. All of the LIHTC properties reported voucher usage, with an average utilization of approximately 13 percent. Based on the performance of the LIHTC comparables, we expect the Subject will operate with voucher usage of approximately 15 percent, absent subsidy.

3. Phased Developments

The Subject will be the second phase of the multi-phase development of North Downtown Athens. The first phase of this development, North Downtown Athens Phase I, is located adjacent north of the Subject and will contain a total of 120 units including 80 LIHTC/Section 8 units targeting families earning 50 and 60 percent of the AMI, or less upon completion. Additionally, the property offers 40 unrestricted market rate units. Of the total units, 40 units will operate with project-based Section 8 rental assistance, where tenants will pay 30 percent of their income towards rent. Construction on Phase I began in April 2023 and is anticipated to be complete in the second quarter of 2025. As this phase is under construction it has been excluded as a comparable property. The following map illustrates the existing and planned phases of the Subject

Lease Up History

Information regarding the absorption paces of four nearby properties is illustrated in the following table.

| ABSORPTION | | | | | | | | | | |
|------------------------|--------|---------|------|-------------|-----------------------------|--|--|--|--|--|
| Property Name | Rent | Tenancy | Year | Total Units | Absorption (units/month) | | | | | |
| Pointe Grand Athens | Market | Family | 2022 | 240 | 21 | | | | | |
| Ascent Athens | Market | Family | 2019 | 200 | 25 | | | | | |
| Columbia Brookside III | LIHTC | Family | 2017 | 138 | 13 | | | | | |
| Columbia Brookside I | LIHTC | Senior | 2015 | 100 | 17 | | | | | |

Per DCA guidelines, we calculate the absorption to 93 percent occupancy. The Subject is a proposed new construction property. The comparable properties report absorption rates between 13 to 25 units per month, with an average absorption rate of 19 units per month. We expect the Subject will experience an absorption pace of 20 units per month. This equates to an absorption period of approximately six to seven months to reach an occupancy rate of 93 percent and our concluded stabilized occupancy rate of 95 percent.

The Subject will offer inferior to slightly superior in-unit amenities in comparison to the LIHTC and mixedincome comparable properties as it will not offer exterior storage or in-unit washer/dryers, which some of the comparables offer. The Subject will offer slightly inferior to superior property amenities in comparison to the LIHTC and mixed-income comparable properties as it will not offer a swimming pool, which some of the comparables offer, though it will offer a business center, community room, and exercise facility, which some of the comparables lack. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market.

6. Comparable Tenancy

The Subject will target families. All of the comparable properties also target families.

Vacancy

The following table illustrates the vacancy rates in the market.

| OVERALL VACANCY | | | | | | | | | |
|----------------------------------|----------------|-------------|--------------|--------------|--|--|--|--|--|
| Property Name | Rent Structure | Total Units | Vacant Units | Vacancy Rate | | | | | |
| Columbia Brookside II | LIHTC/ Market | 132 | 0 | 0.0% | | | | | |
| Columbia Brookside III | LIHTC/ Market | 138 | 0 | 0.0% | | | | | |
| Fourth Street Village Apartments | LIHTC/ Market | 120 | 0 | 0.0% | | | | | |
| North Grove Apartments | LIHTC | 116 | 3 | 2.6% | | | | | |
| 100 Prince | Market | 110 | 0 | 0.0% | | | | | |
| 1287 Shoals Apartments | Market | 220 | 8 | 3.6% | | | | | |
| Ascent Athens | Market | 200 | 13 | 6.5% | | | | | |
| Cambridge Apartments | Market | 180 | 1 | 0.6% | | | | | |
| Legacy Of Athens | Market | 238 | 6 | 2.5% | | | | | |
| The Summit Of Athens | Market | 120 | 0 | 0.0% | | | | | |
| The Woodlands Of Athens | Market | 160 | 0 | 0.0% | | | | | |
| Total LIHTC | | 506 | 3 | 0.6% | | | | | |
| Total Market Rate | | 1,228 | 28 | 2.3% | | | | | |
| Overall Total | | 1,734 | 31 | 1.8% | | | | | |

Overall vacancy in the market is at 1.8 percent. Total LIHTC vacancy is lower, at 0.6 percent. Three of the LIHTC and mixed-income properties reported full occupancy, and all of the LIHTC comparables maintain waiting lists. These waiting lists are extensive at some of the LIHTC and mixed-income developments. It should be noted that the waiting lists at Columbia Brookside II and III are for the subsidized units only. The contact at North Grove Apartments reported that the three vacant units are being processed from the waiting list.

The vacancy rates among the market rate comparable properties range from zero to 6.5 percent, averaging 2.3 percent, which is considered low. The contact at Ascent Athens reported the elevated vacancy rate at the property is due to a number or recent moveouts. The low vacancy rates among the market rate comparable properties indicates that there is demand for rental housing in the Subject's PMA. As a newly constructed property with a competitive amenity package, we anticipate that the Subject would perform with a vacancy rate of five percent or less. Based on these factors, we believe that there is sufficient demand for additional affordable housing in the market. We do not believe that the Subject will impact the performance of the existing LIHTC properties if allocated.

7. Properties Under Construction and Proposed

The following section details properties currently planned, proposed or under construction.

North Downtown Athens Phase I

- a. Location: 100 Hoyt Street, Athens
- b. Owner: Johnathan Rose Companies (developer)
- c. Total number of units: 120 units
- d. Unit configuration: One, two and three bedroom units
- e. Rent structure: 50 percent (Section 8), 60 percent (Section 8), 60 percent, and market
- f. Estimated market entry: Second quarter of 2025
- g. Relevant information: Family tenancy, under construction

8. Rental Advantage

The following table illustrates the Subject's similarity to the comparable properties. We inform the reader that other users of this document may underwrite the LIHTC rents to a different standard than contained in this report.

| | SIMILARITY MATRIX | | | | | | | | | | |
|----|----------------------------------|------------------|---------|-----------------------|----------------------|----------------------|----------------------|----------------------|-----------------------|--|--|
| # | Property Name | Program | Tenancy | Property Amenities | Unit Features | Location | Age / Condition | Unit Sizes | Overall Comparison | | |

*Inferior=-10, slightly inferior=-5, similar=0, slightly superior=5, superior=10.

The rental rates at the LIHTC properties are compared to the Subject's proposed 40, 60, and 80 percent AMI rents in the following tables.

| LIHTC RENT COMPARISON @40% | | | | | | | | | |
|--------------------------------|----------|----------|----------|---------------|--|--|--|--|--|
| Property Name | 1BR | 2BR | 3BR | Rents at Max? | | | | | |
| North Downtown Athens Phase II | \$1,450* | \$1,700* | \$1,900* | N/A | | | | | |
| 2023 LIHTC Maximum Rent (Net) | \$502 | \$594 | \$674 | | | | | | |
| 2022 LIHTC Maximum Rent (Net) | \$352 | \$414 | \$466 | | | | | | |

*Contract rents

| LIHTC RENT COMPARISON @60% | | | | | | | | | | |
|--------------------------------|-------|------------------|----------|---------------|--|--|--|--|--|--|
| Property Name | 1BR | 2BR | 3BR | Rents at Max? | | | | | | |
| North Downtown Athens Phase II | \$807 | \$960 - \$1,700* | \$1,900* | Yes/N/A | | | | | | |
| 2023 LIHTC Maximum Rent (Net) | \$807 | \$960 | \$1,097 | | | | | | | |
| 2022 LIHTC Maximum Rent (Net) | \$757 | \$900 | \$1,027 | | | | | | | |
| Columbia Brookside II | \$769 | \$914 | \$1,055 | Yes (2022) | | | | | | |
| Columbia Brookside III | \$769 | \$914 | \$1,055 | Yes (2022) | | | | | | |
| North Grove Apartments | - | \$960 | \$1,097 | Yes (2023) | | | | | | |
| Average | \$769 | \$929 | \$1,069 | | | | | | | |

*Contract rents

Two of the LIHTC and mixed-income comparable properties reported achieving the 2022 maximum allowable rents for their units at the 60 percent AMI levels. One of the LIHTC and mixed-income comparable properties reported achieving the 2023 maximum allowable rents for their units at the 60 percent AMI levels. None of the comparables reported offering rents at the 40 percent of AMI level. The rents at these properties appear to be above or below the maximum allowable levels. This is likely due to differing utility allowances.

North Grove Apartments is located 1.4 miles from the Subject and offers a similar location compared to the Subject. This property was constructed in 1995 and renovated in 2015 and exhibits good condition, which is considered slightly inferior to the anticipated excellent condition of the Subject. North Grove Apartments offers slightly superior property amenities compared to the Subject as it offers a swimming pool, which the Subject will not offer. This property offers slightly superior in-unit amenities compared to the Subject as it offers exterior storage, which the Subject will not offer. North Grove Apartments offers slightly inferior unit sizes compared to the proposed Subject. This property is 97.4 percent occupied and maintains a waiting list of six to 12 months in length, indicating maximum allowable levels are achievable in the market. Overall, North Grove Apartments is similar to the Subject. As such, we believe rents similar to those at North Grove Apartments are achievable. Thus, we believe the Subject's 40 and 60 percent AMI rents for the one, two, and three-bedroom units, which are below the rents at this property, are achievable as proposed and absent subsidy.

DENT COMPANICON

| LIHTC RENT COMPARISON @80% | | | | | | | | | | |
|----------------------------------|---------|---------|---------|---------------|--|--|--|--|--|--|
| Property Name | 1BR | 2BR | 3BR | Rents at Max? | | | | | | |
| North Downtown Athens Phase II | \$807 | \$960 | \$1,097 | No | | | | | | |
| 2023 LIHTC Maximum Rent (Net) | \$1,113 | \$1,327 | \$1,521 | | | | | | | |
| 100 Prince (Market) | \$1,711 | \$2,186 | - | N/A | | | | | | |
| 1287 Shoals Apartments (Market) | \$1,460 | \$1,534 | \$1,747 | N/A | | | | | | |
| Ascent Athens (Market) | \$1,650 | \$1,850 | \$2,181 | N/A | | | | | | |
| Cambridge Apartments (Market) | \$883 | \$1,026 | \$1,257 | N/A | | | | | | |
| Legacy Of Athens (Market) | \$1,051 | \$1,242 | \$1,279 | N/A | | | | | | |
| The Summit Of Athens (Market) | - | \$1,300 | \$1,725 | N/A | | | | | | |
| The Woodlands Of Athens (Market) | \$1,000 | \$1,300 | \$1,725 | N/A | | | | | | |
| Average | \$1,241 | \$1,441 | \$1,592 | | | | | | | |

The Subject will offer one, two, and three-bedroom units at 80 percent AMI. The Subject's proposed one, two, and three-bedroom rents at 80 percent AMI are set below the maximum allowable levels. None of the comparable properties offer rents at this moderate income level. Therefore, we believe the most comparable rents for the Subject's 80 percent AMI units are market rate rents. The Subject's proposed rents at the 80 percent AMI level are well below the surveyed average of the unrestricted rents in the market. The majority of tenants who would qualify for the Subject's unit types are likely living in market rate housing and the Subject's units at the 80 percent of the AMI level would be in direct competition with these units. As discussed below in our analysis of the Subject's achievable market rents, we believe the Subject can achieve market rents above the rents at Legacy Of Athens and below the rents at Ascent Athens. Therefore, we believe that the Subject's proposed rents are reasonable based on the anticipated excellent condition and competitive amenities that the Subject will offer.

Achievable Market Rents

Based on the quality of the surveyed comparable properties and the anticipated quality of the Subject, we conclude that the Subject's proposed LIHTC rental rates are below the achievable market rates for the Subject's area. The table below illustrates the comparison of the market rents.

| Unit Type | Rent Level | Subject Pro Forma Rent | Surveyed Min | Surveyed Max | Surveyed Average | Achievable Market Rent | Subject Rent Advantage |
|-----------|------------------|---------------------------|-----------------|-----------------|---------------------|---------------------------|---------------------------|
| 1BR / 1BA | @40% (Section 8) | \$502* | \$883 | \$1,751 | \$1,301 | \$1,450 | 189% |

SUBJECT COMPARISON TO MARKET RENTS

*Maximum allowable LIHTC rents reflected for the 40% and 60% (Section 8) units

The Subject's LIHTC rents are well below the achievable market rents. The Subject's proposed LIHTC rents represent a rent advantage of 82 to 197 percent over the achievable market rents. We concluded that achievable market rents for the Subject's units are above the rents at Legacy Of Athens and below the rents at Ascent Athens.

Legacy Of Athens is a 238-unit development located 3.3 miles from the Subject site, in a neighborhood considered slightly superior to the Subject's neighborhood in terms of median household income, median home values, and median rent. The property was built in 1968 and renovated in 2011, and currently exhibits average condition, which is considered inferior to the anticipated excellent condition of the Subject upon completion. The manager at Legacy Of Athens reported the property is 97.5 percent occupied, indicating the current rents are well accepted in the market. The following table compares the Subject with Legacy Of Athens.

| Unit Type | Rent | Subject Pro | Square | Subject | Legacy Of Athens | Square | Legacy Of | Subject Rent |
|-----------|------------------|-------------|--------|---------|------------------|--------|-------------|--------------|
| Unit Type | Level | Forma Rent | Feet | RPSF | Rent | Feet | Athens RPSF | Advantage |
| 1BR / 1BA | @40% (Section 8) | \$502* | 753 | \$0.67 | \$1,051 | 775 | \$1.36 | 52.2% |

| 3BR / 2BA | @80% | \$1,097 | 1,416 | \$0.77 | \$1,279 | 1,106 | \$1.16 | 14.2% |

SUBJECT COMPARISON TO LEGACY OF ATHENS

*Maximum allowable LIHTC rents reflected for the 40% and 60% (Section 8) units

This property offers similar property and in-unit amenities to the proposed Subject. In terms of unit sizes, Legacy Of Athens offers larger one and two-bedroom unit sizes and smaller three-bedroom unit sizes compared to the Subject. Overall, Legacy Of Athens is considered slightly inferior to the Subject. Due to the superior condition of the Subject, we believe the achievable market rents for the Subject would be above the current rents at Legacy Of Athens.

Ascent Athens is located 2.5 miles from the Subject and offers a slightly superior location to the Subject in terms of median household income, median home values, and median rent. This property was constructed in 2019, and exhibits excellent condition, which is considered similar to the anticipated excellent condition of the Subject upon completion. The property manager at Ascent Athens reported the property is 93.5 percent occupied, indicating the current rents are accepted in the market. The following table compares the Subject with Ascent Athens.

| Unit Toma | Rent | Subject Pro | Square | Subject | Ascent Athens | Square | Ascent Athens | Subject Rent |
|-----------|------------------|-------------|--------|---------|---------------|--------|---------------|--------------|
| Unit Type | Level | Forma Rent | Feet | RPSF | Rent | Feet | RPSF | Advantage |
| 1BR / 1BA | @40% (Section 8) | \$502* | 753 | \$0.67 | \$1,650 | 735 | \$2.24 | 69.6% |
| 1BR / 1BA | @60% | \$807 | 753 | \$1.07 | \$1,650 | 735 | \$2.24 | 51.1% |
| 1BR / 1BA | @80% | \$807 | 753 | \$1.07 | \$1,650 | 735 | \$2.24 | 51.1% |
| 2BR / 2BA | @40% (Section 8) | \$594* | 1,099 | \$0.54 | \$1,850 | 1,073 | \$1.72 | 67.9% |
| 2BR / 2BA | @60% | \$960 | 1,099 | \$0.87 | \$1,850 | 1,073 | \$1.72 | 48.1% |
| 2BR / 2BA | @60% (Section 8) | \$960* | 1,099 | \$0.87 | \$1,850 | 1,073 | \$1.72 | 48.1% |
| 2BR / 2BA | @80 % | \$960 | 1,099 | \$0.87 | \$1,850 | 1,073 | \$1.72 | 48.1% |
| 3BR / 2BA | @40% (Section 8) | \$674* | 1,416 | \$0.48 | \$2,181 | 1,418 | \$1.54 | 69.1% |
| 3BR / 2BA | @60% (Section 8) | \$1,097* | 1,416 | \$0.77 | \$2,181 | 1,418 | \$1.54 | 49.7% |
| 3BR / 2BA | @80% | \$1,097 | 1,416 | \$0.77 | \$2,181 | 1,418 | \$1.54 | 49.7% |

SUBJECT COMPARISON TO ASCENT ATHENS

*Maximum allowable LIHTC rents reflected for the 40% and 60% (Section 8) units

This property offers slightly superior property amenities compared to the Subject as it offers a swimming pool, which the Subject will not offer. Ascent Athens offers superior in-unit amenities compared to the Subject as it offers in-unit washers/dryers, which the Subject will not offer. This property offers similar unit sizes compared to the Subject. Overall, Ascent Athens is considered superior to the Subject as proposed. As such, we believe the achievable market rents for the Subject would be below the current rents at Ascent Athens.

9. Rental Trends in the PMA

The table below depicts household growth by tenure from 2000 through 2027.

TENURE PATTERNS PMA

| Year | Owner- | Percentage | Denter Oceanie d Unite | Percentage |
|-------------------------------------|----------|----------------|------------------------|-----------------|
| | Occupied | Owner-Occupied | Renter-Occupied Units | Renter-Occupied |
| 2000 | 8,360 | 35.0% | 15,512 | 65.0% |
| 2022 | 7,212 | 25.2% | 21,387 | 74.8% |
| Projected Mkt Entry January 2027 | 7,569 | 25.9% | 21,648 | 74.1% |
| 2027 | 7,609 | 26.0% | 21,677 | 74.0% |

Source: Esri Demographics 2022, Novogradac Consulting LLP, July 2023

As the table illustrates, households within the PMA reside in predominately renter-occupied residences. Nationally, approximately 65 percent of the population resides in owner-occupied housing units, and 35 percent resides in renter-occupied housing units. Therefore, there is a significantly larger percentage of renters in the PMA than the nation. This percentage is projected to remain relatively stable over the next five years.

Historical Vacancy

The following table details historical vacancy levels for the properties included as comparables.

| | HISTORICAL VACANCY | | | | | | | | | | |
|----------------------------------|--------------------|-------------|---------|---------|---------|---------|---------|---------|---------|---------|---------|

The historical vacancy rates at all of the comparable properties for several quarters in the past four years are illustrated in the previous table. In general, the comparable properties have experienced low to moderate vacancy levels from 2020 through the third quarter of 2023.

Change in Rental Rates

The following table illustrates rental rate increases as reported by the comparable properties.

| RENT GROWTH | | | | | | | | | |
|----------------------------------|----------------|---------|------------------------------|--|--|--|--|--|--|
| Property Name | Rent Structure | Tenancy | Rent Growth | | | | | | |
| Columbia Brookside II | LIHTC/ Market | Family | Increased to 2022 max | | | | | | |
| Columbia Brookside III | LIHTC/ Market | Family | Increased to 2022 max | | | | | | |
| Fourth Street Village Apartments | LIHTC/ Market | Family | Increased to 2022 max | | | | | | |
| North Grove Apartments | LIHTC | Family | Increased to 2023 max | | | | | | |
| 100 Prince | Market | Family | Increased up to 25 percent | | | | | | |
| 1287 Shoals Apartments | Market | Family | Increased up to nine percent | | | | | | |
| Ascent Athens | Market | Family | Changes daily | | | | | | |
| Cambridge Apartments | Market | Family | Increased up to five percent | | | | | | |
| Legacy Of Athens | Market | Family | Increased up to two percent | | | | | | |
| The Summit Of Athens | Market | Family | Increased up to 3% | | | | | | |
| The Woodlands Of Athens | Market | Family | Increased up to 3% | | | | | | |

Ten of the comparable properties reported rent growth over the past year. More specifically, all of the LIHTC properties report increasing rents. Additionally, all of the LIHTC properties reported achieving rents at the maximum allowable levels. We anticipate that the Subject will be able to achieve moderate rent growth in the future as a LIHTC property.

10. Impact of Foreclosed, Abandoned and Vacant Structures

According to *ATTOM* statistics, one in every 1,795 housing units nationwide was in some stage of foreclosure as of April 2022. In the state of Georgia, one in every 1,702 housing units was in some stage of foreclosure, slightly higher than the national average. The Subject's neighborhood does not have a significant amount of abandoned or vacant structures that would impact the marketability of the Subject.

11. LIHTC Competition – DCA Funded Properties within the PMA

Capture rates for the Subject are considered low for all bedroom types and AMI levels. If allocated, the Subject will be inferior to slightly superior to the existing LIHTC housing stock. The average vacancy rate is at 1.8 percent. Average LIHTC vacancy is much lower, at 0.6 percent. All of the LIHTC and mixed-income properties reported an occupancy of 97.4 percent or higher, and all maintain waiting lists. These waiting lists are extensive at some of the LIHTC and mixed-income comparables, indicating strong demand for affordable housing in the market. Therefore, we believe there is strong demand for the Subject as proposed.

One property was allocated in the Subject's PMA since 2020. North Downtown Athens Phase I, a prior phase of the Subject's larger overall development, was allocated in 2020 for the development of 120 LIHTC/Section 8/Market units targeting families. This development will be located adjacent north of the Subject. Upon completion the property will offer 80 one, two, and three-bedroom units targeting households earning 50 and 60 percent of the AMI, or less. Additionally, there will be 40 unrestricted market rate units. Of the total units, 40 of the units will operate with project-based Section 8 rental assistance, where tenants will pay 30 percent of their income towards rent. Construction on Phase I began in April 2023 and is anticipated to be complete in the second quarter of 2025. As this property will target a family tenancy it will be considered directly competitive with the Subject. As such, we have deducted 62 units at the 50 and 60 percent of AMI in our demand analysis. However, in the absent subsidy scenario we will only deduct 40 units from our demand analysis.

This property will add units to the market that are directly competitive with the Subject as proposed. We do not believe that the addition of the Subject to the market will impact the one new LIHTC property or the existing LIHTC properties that are in overall good condition and currently performing well.

12. Effect of Subject on Other Affordable Units in Market

As previously noted, there is one LIHTC development currently proposed or under construction in the PMA. This property will target a family tenancy and is expected to compete directly with the Subject. In total there are 58 directly competitive units that have been deducted from our demand analysis as proposed. Absent subsidy, there are 40 directly competitive units that have been deducted from our demand analysis. All of the LIHTC and mixed-income properties reported an occupancy of 97.4 percent or higher, and all maintain waiting lists. These waiting lists are extensive at some of the LIHTC and mixed-income comparables, indicating strong demand for affordable housing in the market. The high occupancy among the affordable and market rate properties illustrates unmet demand for affordable housing in the area. In summary, the performance of the Subject's low capture rates all indicate that the Subject will not negatively impact the existing or proposed affordable rental units in the market.

Conclusions

Based upon our market research, demographic calculations and analysis, we believe there is adequate demand for the Subject property as proposed. The LIHTC comparables are experiencing a weighted average vacancy rate of 0.6 percent. All of the LIHTC properties maintain waiting lists. These waiting lists are extensive at some of the LIHTC developments. These factors indicate demand for affordable housing. The Subject will offer inferior to slightly superior in-unit amenities in comparison to the LIHTC and mixed-income comparable properties as it will not offer exterior storage or in-unit washer/dryers, which some of the comparables offer. The Subject will offer slightly inferior to superior property amenities in comparison to the LIHTC and mixedincome comparable properties as it will not offer a swimming pool, which some of the comparables offer, though it will offer a business center, community room, and exercise facility, which some of the comparables lack. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As a newly constructed property, the Subject will be in excellent condition upon completion and will be considered similar to superior in terms of condition to the comparable properties. In general, the Subject will be inferior to slightly superior to the comparable properties. Given the Subject's anticipated superior condition relative to the competition and the demand for affordable housing evidenced by waiting lists and strong occupancy at the majority of the LIHTC comparable properties, we believe that the proposed Subject is reasonable as proposed.

J. ABSORPTION AND STABILIZATION RATES

ABSORPTION AND STABILIZATION RATES

Information regarding the absorption paces of four nearby properties is illustrated in the following table.

| ABSORPTION | | | | | | | | |
|--------------------------|--------|---------|------|-------------|-----------------------------|--|--|--|
| Property Name | Rent | Tenancy | Year | Total Units | Absorption (units/month) | | | |
| Pointe Grand Athens | Market | Family | 2022 | 240 | 21 | | | |
| Ascent Athens | Market | Family | 2019 | 200 | 25 | | | |
| Columbia Brookside III | LIHTC | Family | 2017 | 138 | 13 | | | |
| Columbia Brookside I | LIHTC | Senior | 2015 | 100 | 17 | | | |

Per DCA guidelines, we calculate the absorption to 93 percent occupancy. The Subject is a proposed new construction property. The comparable properties report absorption rates between 13 to 25 units per month, with an average absorption rate of 19 units per month. We expect the Subject will experience an absorption pace of 20 units per month. This equates to an absorption period of approximately six to seven months to reach an occupancy rate of 93 percent and our concluded stabilized occupancy rate of 95 percent.

K. INTERVIEWS

Georgia Department of Community Affairs

We spoke with a representative for the Georgia Department of Community Affairs (DCA). They had noted there are 17,152 vouchers designated for 149 counties across the state of Georgia. Further, there are 366 vouchers designated and in use in Clarke County. The waiting list is currently open, and an approximate wait time is unavailable. The following table illustrates the 2023 payment standards in Clarke County.

| PAYMENT STANDARDS | | | | | | |
|-------------------|------------------|--|--|--|--|--|
| Unit Type | Payment Standard | | | | | |
| One-Bedroom | \$964 | | | | | |
| Two-Bedroom | \$1,094 | | | | | |
| Three-Bedroom | \$1,468 | | | | | |
| | | | | | | |

Source: Georgia Department of Community Affairs, effective January 2023

The payment standard for all units are above the Subject's rent, indicating that voucher tenants will not have to pay additional rent out of pocket, absent subsidy.

Planning

We attempted to contact Bruce Lonnee, Assistant Planning Director for Athens-Clarke County, to inquire about multifamily developments proposed or under construction in the area. However, as of the date of this report our inquiries have not been returned.

We consulted a July 2023 Costar report of under construction properties in the PMA as well as the Georgia DCA Program Awards Database. The following table illustrates the properties we identified that are under construction in the PMA.

| PLANNED DEVELOPMENT | | | | | | | | | | |
|--|------------------------|---------|-------------------|---------------------|-------------------|------------------|---------------------|------------|--|--|
| Property Name | Rent | Tenancy | Total Competitive | | Competitive Units | LIHTC Allocation | Construction Status | Distance | | |
| Property Name | Structure | Tenancy | Units | Units (As Proposed) | (Absent Subsidy) | Year | construction Status | to Subject | | |
| North Downtwon Athens Phase I | LIHTC/Section 8/Market | Family | 120 | 62 | 40 | 2020 | Under Construction | Adjacent | | |
| Totals | | | 120 | 62 | 40 | | | | | |
| Source: DCA and CoStar, Sentember 2023 | | | | | | | | | | |

ce: DCA and CoStar, September 2023

North Downtown Athens Phase I, a prior phase of the Subject's larger overall development, was allocated in 2020 for the development of 120 LIHTC/Section 8/Market units targeting families. This development will be located adjacent north of the Subject. Upon completion the property will offer 80 one, two, and three-bedroom units targeting households earning 50 and 60 percent of the AMI, or less. Additionally, there will be 40 unrestricted market rate units. Of the total units, 40 of the units will operate with projectbased Section 8 rental assistance, where tenants will pay 30 percent of their income towards rent. Construction on Phase I began in April 2023 and is anticipated to be complete in the second quarter of 2025. As this property will target a family tenancy it will be considered directly competitive with the Subject. As such, we have deducted all the 62 units at the 50 and 60 percent of AMI in our demand analysis. However, in the absent subsidy scenario we will only deduct 40 units from our demand analysis.

Invest Athens, Athens-Clarke County Economic Development Department

In Spring 2023, we spoke with Ilka McConnell, Director of Economic Development with the Athens-Clarke County Unified Government. McConnell reported three major investments in the area since 2022, totaling \$365 million and expected to create 1,840 jobs. In addition to the information we received from McConnell, we conducted our own research into employment expansions and contractions in the area. The following represent the major business expansions in the area since 2022:

Meissner Corporation, a life sciences manufacturer, announced in April 2023 that it will invest \$250 million in a new facility in Athens-Clarke County. The project is expected to create 1,700 new jobs over the next eight years. Operations are expected to begin in early 2026 at the new facility.

- In September 2022, Athena Studios, a film and TV studio company, announced its planned expansion of its production space in Athens. The expansion will add 350,000 square feet to the existing facility. The first phase of the expansion is scheduled to open in the spring of 2023. Details on permanent job creation were unavailable, but the construction of the expansion has already created over 300 jobs.
- In August 2022, Pilgrim's Pride, a food processing company which is one of Athens' top employers, announced plans to expand its Athens manufacturing facility. Details on job creation and investment are not yet available.
- In April 2022, the Athens City Council approved incentives for the three developments bringing the businesses to the city. Five of the nine new businesses will be in the Noon Athens project, a strip mall located on U.S. 72 East near Interstate 65 behind Wendy's.
- In April 2022, Boehringer Ingelheim, a global research-driven pharmaceutical development and manufacturing company based in Germany, announced it will expand its Animal Health Global Innovation center in Athens, Georgia. The \$57 million investment will increase laboratory space and bring additional research and development capabilities and activities, including 55 new positions, to the site.

As illustrated, there are several additions in a variety of industries including manufacturing, pharmaceuticals, and film. Since 2022, there were a total of 2,140 jobs created or announced, which more than counteracts the 93 layoffs during the same period.

Additional interviews can be found in the comments section of the property profiles.

L. CONCLUSIONS AND RECOMMENDATIONS

CONCLUSIONS

Demographics

The population in the PMA and the MSA increased significantly from 2000 to 2022, and the rate of growth increased from 2010 to 2022. However, the rate of population and household growth is projected to increase but is projected to slow through 2027. The current population of the PMA is 71,270 and is expected to be 72,221 upon market entry in 2027. The current number of households in the PMA is 28,599 and is expected to be 29,217 upon market entry in 2027. Renter households are concentrated in the lowest income cohorts, with 57.2 percent of renters in the PMA earning less than \$30,000 annually. The Subject will target households earning between \$0 and \$70,400 as proposed. Absent subsidy, the Subject will target tenants earning between \$20,949 and \$70,400. Therefore, the Subject should be well-positioned to service this market. Overall, while population growth has been modest, the concentration of renter households at the lowest income cohorts indicates significant demand for affordable rental housing in the market.

Employment Trends

Employment in the PMA is concentrated in the educational services, accommodation/food services, and retail trade industries, which collectively comprise 51.0 percent of local employment. The large share of PMA employment in accommodation/food services and retail trade is notable as both industries are historically volatile, and prone to contraction during recessionary periods. Relative to the overall nation, the PMA features comparatively greater employment in the educational services, accommodation/food services, and arts/entertainment/recreation industries. Conversely, the PMA is underrepresented in the healthcare/social assistance, manufacturing, and construction industries. Since 2012, job growth in the MSA was generally similar to the nation. Employment in the MSA declined by 4.6 percent in 2020 amid the pandemic, compared to 6.2 percent across the overall nation. The MSA subsequently recovered all pandemic-related job losses, however, local employment remains below the record high achieved in 2008. As of May 2023, employment in the MSA is increasing at an annualized rate of 2.0 percent, above the 1.5 percent growth across the nation. Continued interest rate increases could further slow the current rate of employment growth.

Since 2012, the MSA generally experienced a similar unemployment rate relative to the nation. The MSA unemployment rate increased modestly by 2.2 percentage points in 2020 amid the pandemic, reaching a high of 5.6 percent. For comparison, the national unemployment rate rose by 4.4 percentage points and reached a high of 8.1 percent over the same time period. According to the latest labor statistics, dated May 2023, the current MSA unemployment rate is 3.3 percent. This is well below the COVID highs of 2020, and just below the current national unemployment rate of 3.4 percent.

Capture Rates

The following table illustrates the demand and capture rates for the Subject's proposed units.

| AMI Level | Unit Type | Minimum Income | Maximum Income | Units Proposed | Total Demand | Supply | Net Demand | Capture Rate | Proposed Rents |
|--------------------------|------------------|-------------------|-------------------|-------------------|-----------------|--------|---------------|-----------------|-------------------|
| | 1BR | \$0 | \$26,080 | 18 | 2,591 | 0 | 2,591 | 0.7% | \$1,450 |

CAPTURE RATE ANALYSIS CHART

*Maximum allowable rents

We believe these calculated capture rates are reasonable, particularly as these calculations do not consider demand from outside the PMA or standard rental household turnover.

Absorption

Information regarding the absorption paces of four nearby properties is illustrated in the following table.

| ABSORPTION | | | | | | | | | |
|------------------------|--------|---------|------|-------------|-----------------------------|--|--|--|--|
| Property Name | Rent | Tenancy | Year | Total Units | Absorption (units/month) | | | | |
| Pointe Grand Athens | Market | Family | 2022 | 240 | 21 | | | | |
| Ascent Athens | Market | Family | 2019 | 200 | 25 | | | | |
| Columbia Brookside III | LIHTC | Family | 2017 | 138 | 13 | | | | |
| Columbia Brookside I | LIHTC | Senior | 2015 | 100 | 17 | | | | |

Per DCA guidelines, we calculate the absorption to 93 percent occupancy. The Subject is a proposed new construction property. The comparable properties report absorption rates between 13 to 25 units per month, with an average absorption rate of 19 units per month. We expect the Subject will experience an absorption pace of 20 units per months. This equates to an absorption period of approximately six to seven months to reach an occupancy rate of 93 percent and our concluded stabilized occupancy rate of 95 percent.

Vacancy Trends

The following table illustrates the vacancy rates in the market.

| | OVERALL VACAN | ICY | | |
|----------------------------------|----------------|-------------|--------------|--------------|
| Property Name | Rent Structure | Total Units | Vacant Units | Vacancy Rate |
| Columbia Brookside II | LIHTC/ Market | 132 | 0 | 0.0% |
| Columbia Brookside III | LIHTC/ Market | 138 | 0 | 0.0% |
| Fourth Street Village Apartments | LIHTC/ Market | 120 | 0 | 0.0% |
| North Grove Apartments | LIHTC | 116 | 3 | 2.6% |
| 100 Prince | Market | 110 | 0 | 0.0% |
| 1287 Shoals Apartments | Market | 220 | 8 | 3.6% |
| Ascent Athens | Market | 200 | 13 | 6.5% |
| Cambridge Apartments | Market | 180 | 1 | 0.6% |
| Legacy Of Athens | Market | 238 | 6 | 2.5% |
| The Summit Of Athens | Market | 120 | 0 | 0.0% |
| The Woodlands Of Athens | Market | 160 | 0 | 0.0% |
| Total LIHTC | | 506 | 3 | 0.6% |
| Total Market Rate | | 1,228 | 28 | 2.3% |
| Overall Total | | 1,734 | 31 | 1.8% |
| | | | | |

Overall vacancy in the market is at 1.8 percent. Total LIHTC vacancy is lower, at 0.6 percent. Three of the LIHTC and mixed-income properties reported full occupancy, and all of the LIHTC comparables maintain waiting lists. These waiting lists are extensive at some of the LIHTC and mixed-income developments. It should be noted that the waiting lists at Columbia Brookside II and III are for the subsidized units only. The contact at North Grove Apartments reported that the three vacant units are being processed from the waiting list.

The vacancy rates among the market rate comparable properties range from zero to 6.5 percent, averaging 2.3 percent, which is considered low. The contact at Ascent Athens reported the elevated vacancy rate at the property is due to a number or recent moveouts. The low vacancy rates among the market rate comparable properties indicates that there is demand for rental housing in the Subject's PMA. As a newly constructed property with a competitive amenity package, we anticipate that the Subject would perform with a vacancy rate of five percent or less. Based on these factors, we believe that there is sufficient demand for additional affordable housing in the market. We do not believe that the Subject will impact the performance of the existing LIHTC properties if allocated.

Strengths of the Subject

The Subject will be the newest LIHTC development in the PMA upon completion. The Subject will exhibit excellent condition upon completion, which is similar to superior to the existing LIHTC housing stock in the PMA. The Subject will offer inferior to slightly superior in-unit amenities in comparison to the LIHTC and mixedincome comparable properties as it will not offer exterior storage or in-unit washer/dryers, which some of the comparables offer. The Subject will offer slightly inferior to superior property amenities in comparison to the LIHTC and mixed-income comparable properties as it will not offer a swimming pool, which some of the comparables offer, though it will offer a business center, community room, and exercise facility, which some of the comparables lack. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. The Subject's proposed rents are among the lowest in the market. Therefore, we believe the Subject will be well received in the market given its competitive advantage over the existing housing stock, competitive amenity packages, and rent advantage over the LIHTC and market rate comparables.

Conclusion

Based upon our market research, demographic calculations and analysis, we believe there is adequate demand for the Subject property as proposed. The LIHTC comparables are experiencing a weighted average vacancy rate of 0.6 percent. All of the LIHTC properties maintain waiting lists. These waiting lists are extensive at some of the LIHTC developments. These factors indicate demand for affordable housing. The Subject will offer inferior to slightly superior in-unit amenities in comparison to the LIHTC and mixed-income comparable

properties as it will not offer exterior storage or in-unit washer/dryers, which some of the comparables offer. The Subject will offer slightly inferior to superior property amenities in comparison to the LIHTC and mixedincome comparable properties as it will not offer a swimming pool, which some of the comparables offer, though it will offer a business center, community room, and exercise facility, which some of the comparables lack. Overall, we believe that the proposed amenities will allow the Subject to effectively compete in the LIHTC market. As a newly constructed property, the Subject will be in excellent condition upon completion and will be considered similar to superior in terms of condition to the comparable properties. In general, the Subject will be inferior to slightly superior to the comparable properties. Given the Subject's anticipated superior condition relative to the competition and the demand for affordable housing evidenced by waiting lists and strong occupancy at the majority of the LIHTC comparable properties, we believe that the proposed Subject is reasonable as proposed.

Recommendations

We recommend the Subject as proposed.

M. SIGNED STATEMENT REQUIREMENTS

I affirm that I (or one of the persons signing below) have made a physical inspection of the market area and the Subject property and that information has been used in the full study of the need and demand for the proposed units. The report is written according to DCA's market study requirements, the information included is accurate and the report can be relied upon by DCA as a true assessment of the low-income housing rental market.

To the best of my knowledge, the market can support the project as shown in the study. I understand that any misrepresentation of this statement may result in the denial of further participation in DCA's rental housing programs. I also affirm that I have no interest in the project or relationship with the ownership entity and my compensation is not contingent on this project being funded.

DCA may rely on the representation made in the market study. The document is assignable to other lenders.

ADDENDUM A

Assumptions and Limiting Conditions

ASSUMPTIONS AND LIMITING CONDITIONS

- 1. In the event that the client provided a legal description, building plans, title policy and/or survey, etc., the market analyst has relied extensively upon such data in the formulation of all analyses.
- 2. The legal description as supplied by the client is assumed to be correct and the author assumes no responsibility for legal matters, and renders no opinion of property title, which is assumed to be good and merchantable.
- 3. All encumbrances, including mortgages, liens, leases, and servitudes, were disregarded in this valuation unless specified in the report. It was recognized, however, that the typical purchaser would likely take advantage of the best available financing, and the effects of such financing on property value were considered.
- 4. All information contained in the report, which others furnished, was assumed to be true, correct, and reliable. A reasonable effort was made to verify such information, but the author assumes no responsibility for its accuracy.
- 5. The report was made assuming responsible ownership and capable management of the property.
- 6. The sketches, photographs, and other exhibits in this report are solely for the purpose of assisting the reader in visualizing the property. The author made no property survey, and assumes no liability in connection with such matters. It was also assumed there is no property encroachment or trespass unless noted in the report.
- 7. The author of this report assumes no responsibility for hidden or unapparent conditions of the property, subsoil or structures, or the correction of any defects now existing or that may develop in the future. Equipment components were assumed in good working condition unless otherwise stated in this report.
- 8. It is assumed that there are no hidden or unapparent conditions for the property, subsoil, or structures, which would render it more or less valuable. No responsibility is assumed for such conditions or for engineering, which may be required to discover such factors.
- 9. The investigation made it reasonable to assume, for report purposes, that no insulation or other product banned by the Consumer Product Safety Commission has been introduced into the Subject premises. Visual inspection by the market analyst did not indicate the presence of any hazardous waste. It is suggested the client obtain a professional environmental hazard survey to further define the condition of the Subject soil if they deem necessary.
- 10. Any distribution of total property value between land and improvements applies only under the existing or specified program of property utilization. Separate valuations for land and buildings must not be used in conjunction with any other study or market study and are invalid if so used.
- 11. Possession of the report, or a copy thereof, does not carry with it the right of publication, nor may it be reproduced in whole or in part, in any manner, by any person, without the prior written consent of the author particularly as to value conclusions, the identity of the author or the firm with which he or she is connected. Neither all nor any part of the report, or copy thereof shall be disseminated to the general public by the use of advertising, public relations, news, sales, or other media for public communication without the prior written consent and approval of the market analyst. Nor shall the market analyst, firm, or professional organizations of which the market analyst is a member be identified without written consent of the market analyst.
- 12. Disclosure of the contents of this report is governed by the Bylaws and Regulations of the professional organization with which the market analyst is affiliated.

- 13. The author of this report is not required to give testimony or attendance in legal or other proceedings relative to this report or to the Subject property unless satisfactory additional arrangements are made prior to the need for such services.
- 14. The opinions contained in this report are those of the author and no responsibility is accepted by the author for the results of actions taken by others based on information contained herein.
- 15. Opinions of value contained herein are estimates. There is no guarantee, written or implied, that the Subject property will sell or lease for the indicated amounts.
- 16. All applicable zoning and use regulations and restrictions are assumed to have been complied with, unless nonconformity has been stated, defined, and considered in the market study report.
- 17. It is assumed that all required licenses, permits, covenants or other legislative or administrative authority from any local, state, or national governmental or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
- 18. On all studies, Subject to satisfactory completion, repairs, or alterations, the report and conclusions are contingent upon completion of the improvements in a workmanlike manner and in a reasonable period of time.
- 19. All general codes, ordinances, regulations or statutes affecting the property have been and will be enforced and the property is not Subject to flood plain or utility restrictions or moratoriums, except as reported to the market analyst and contained in this report.
- 20. The party for whom this report is prepared has reported to the market analyst there are no original existing condition or development plans that would Subject this property to the regulations of the Securities and Exchange Commission or similar agencies on the state or local level.
- 21. Unless stated otherwise, no percolation tests have been performed on this property. In making the market study, it has been assumed the property is capable of passing such tests so as to be developable to its highest and best use.
- 22. No in-depth inspection was made of existing plumbing (including well and septic), electrical, or heating systems. The market analyst does not warrant the condition or adequacy of such systems.
- 23. No in-depth inspection of existing insulation was made. It is specifically assumed no Urea Formaldehyde Foam Insulation (UFFI), or any other product banned or discouraged by the Consumer Product Safety Commission has been introduced into the property. The market analyst reserves the right to review and/or modify this market study if said insulation exists on the Subject property.
- 24. Estimates presented in this report are assignable to parties to the development's financial structure.

VI. Real Estate Assignments

A representative sample of Asset Management, Due Diligence, and Valuation Engagements includes:

- Performed a variety of asset management services for a lender including monitoring and reporting property performance on a monthly basis. Data points monitored include economic vacancy, levels of concessions, income and expense levels, NOI and status of capital projects. Data used to determine these effects on the project's ability to meet its incomedependent obligations.
- Performed asset management services for lenders and syndicators on underperforming assets to identify significant issues facing the property and recommend solutions. Scope of work included analysis of deferred maintenance and property condition, security issues, signage, marketing strategy, condition of units upon turnover and staffing plan. Performed a physical inspection of the assets, to include interior and exterior of property and assessed how the property compares to competition. Analyzed operating expense results.
- Prepared market studies for proposed Low-Income Housing Tax Credit, market rate, HOME financed, USDA Rural Development, and HUD subsidized properties, on a national basis. Analysis includes property screenings, market analysis, comparable rent surveys, demand analysis based on the number of income qualified renters in each market, supply analysis, and operating expenses analysis. Property types include proposed multifamily, senior independent living, large family, and acquisition with rehabilitation. Completed market studies in all states.
- Assisted in appraisals of proposed new construction, rehabilitation, and existing Low-Income Housing Tax Credit properties, USDA Rural Development, and market rate multifamily developments. Analysis includes property screenings, valuation analysis, rent comparability studies, expense comparability analysis, determination of market rents, and general market analysis.
- Assisted in appraisal work for retail and commercial properties in various parts of the country for various lenders. The client utilized the study for underwriting purposes.
- Conducted market studies and appraisals for projects under the HUD Multifamily Accelerated Processing program.
- Prepared Rent Comparability Studies for expiring Section 8 contracts for subsidized properties located throughout the United States. Engagements included site visits to the subject property, interviewing and inspecting potentially comparable properties, and the analyses of collected data including adjustments to comparable data to determine appropriate adjusted market rents using HUD form 92273.
- Performed all aspects of data collection and data mining for web-based rent reasonableness systems for use by local housing authorities.
- Completed numerous reasonableness opinions related to Revenue Procedure 2014-12. Transactions analyzed include projects involving the use of Historic Tax Credits, New Markets Tax Credits and Investment Tax Credits. Fees and arrangements tested for reasonableness include developer fees, construction management fees, property management fees, asset management fees, various leasing-related payments and overall prime lease terms.

Analyst, Novogradac & Company LLP – July 2022 - Present Junior Analyst, Novogradac & Company LLP – November 2021 – June 2022

III. Research Assignments

A representative sample of work on various types of projects:

- Assist in performing and writing markets studies of proposed and existing Low-Income Housing Tax Credit (LIHTC) properties.
- Research web-based rent reasonableness systems and contact local housing authorities for utility allowance schedules, payment standards, and Housing Choice Voucher information.
- Assisted numerous market and feasibility studies for family and senior affordable housing. Local housing authorities, developers, syndicators and lenders have used these studies to assist in the financial underwriting and design of market-rate and Low-Income Housing Tax Credit (LIHTC) properties. Analysis typically includes: unit mix determination, demand projections, rental rate analysis, competitive property surveying and overall market analysis.

ADDENDUM E

Subject Floor Plans

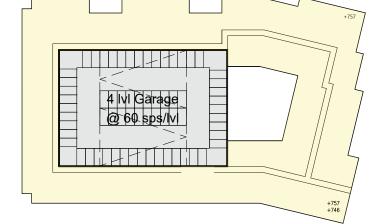

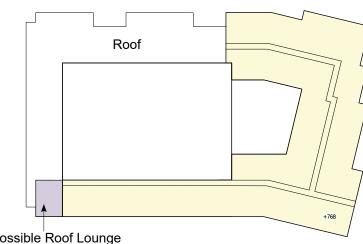

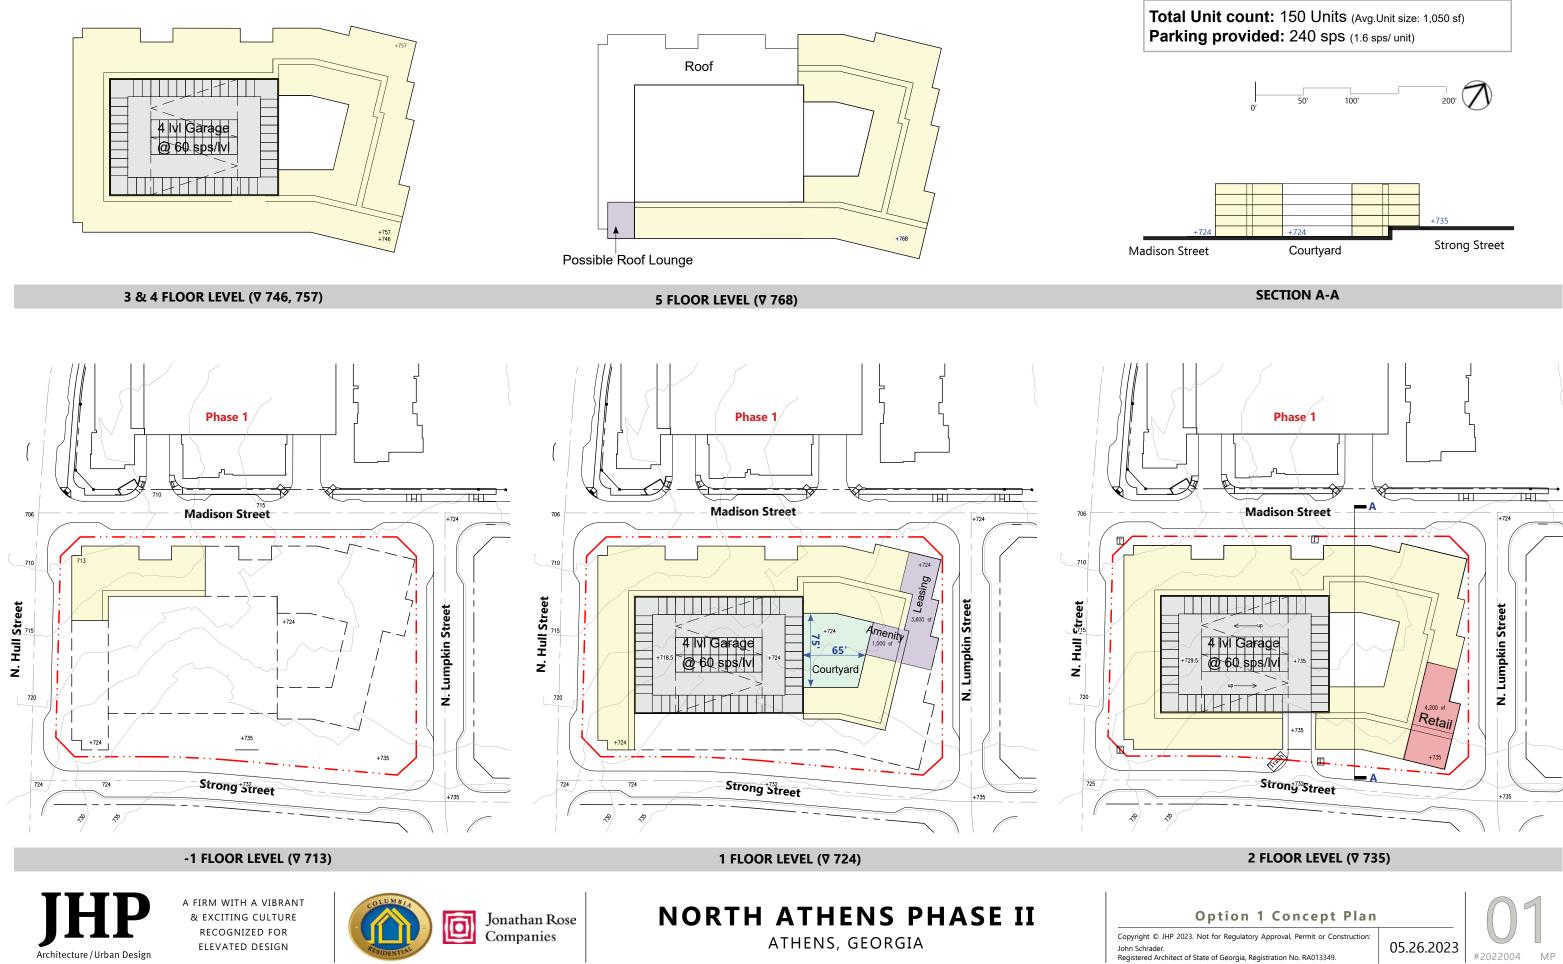

ADDENDUM F NCHMA Certification

NCHMA MEMBER CERTIFICATION

This market study has been prepared by **Novogradac**, a member in good standing of the National Council of Housing Market Analysts (NCHMA). This study has been prepared in conformance with the standards adopted by NCHMA for the market analysts' industry. These standards include the *Standard Definitions of Key Terms Used in Market Studies*, and *Model Content Standards for the Content of Market Studies*. These Standards are designed to enhance the quality of market studies and to make them easier to prepare, understand, and use by market analysts and by the end users. These Standards are voluntary only, and no legal responsibility regarding their use is assumed by the National Council of Housing Market Analysts.

Novogradac is duly qualified and experienced in providing market analysis for Affordable Housing. The company's principals participate in the National Council of Housing Market Analysts (NCHMA) educational and information sharing programs to maintain the highest professional standards and state-of-the-art knowledge. **Novogradac** is an independent market analyst. No principal or employee of **Novogradac** has any financial interest whatsoever in the development for which this analysis has been undertaken.

Abora M. When

Abby Cohen Partner

Certificate of Professional Designation

This certificate verifies that

Abby Cohen

Novogradac & Company LLP

Has completed NCHMA's Professional Designation Requirements and is hence an approved member in good standing of:

National Council of Housing Market Analysts 1400 16th St. NW Suite 420 Washington, DC 20036 202-939-1750

> **Membership Term** 1/1/2023 to 12/31/2023

Kaittyn Angeles
