I. Chapter 110-12-1. Minimum Standards and Procedures for Local Comprehensive Planning

1. Introduction

The 2019 County Comprehensive Plan was prepared in accordance with the Rules of the Georgia Department of Community Affairs Chapter 110-12-1, Minimum Standards and Procedures for Local Comprehensive Planning.

As required by the Local Comprehensive Planning Standards, the 2019 Irwin County and City of Ocilla’s Comprehensive Plan consists of the following elements:

1. Community Goals
2. Needs and Opportunities
3. Community Work Program
4. Economic Development Element
   (As a community included in the Georgia Job Tax Credit Tier 1 category)
   Although a separate summarized economic development element is included in this Comprehensive Plan, which by reference adopts the current regional Comprehensive Economic Development Strategy (CEDS), any economic development goals, policies, needs, opportunities, and objectives pertaining to Irwin County /City of Ocilla have also been integrated directly into their parallel components in this Comprehensive Plan.

5. Land Use Element
   (As a community with zoning or land development regulations subject to the Zoning Procedures Law)

2. Community Involvement

All of the required elements have been developed with extensive opportunity for involvement and input from stakeholders throughout the county and cities. The following steps were taken to ensure that this plan reflected the full range of needs and opportunities from the many stakeholders and residents in the county:

a) Stakeholders were identified. These include local governments of Irwin County and the City of Ocilla; local businesses and industries; and the general public.

b) Participation techniques were identified. Techniques used include a kick-off public information meeting, printed public information in local newspapers, and information on the Southern Georgia Regional Commission’s website and local government websites. A steering committee was formed to oversee and participate
in planned development, including representatives from the stakeholders mentioned above.

c) A participation program was conducted. Identified stakeholders were invited and attended, yielding specific input in plan content. The steering committee held regular meetings to provide input and feedback.

The public hearing kicking off the comprehensive planning process was held on Monday, July 2, 2018, at the Irwin County Courthouse, located at 301 S. Irwin Avenue, Ocilla, Georgia. It was held for the purpose of making any potential stakeholders and residents aware that the comprehensive plan update and review was now underway; to explain the purpose of the update; and to encourage residents and other stakeholders to actively participate in the plan update.

3. Identification of Stakeholders

A comprehensive list of potential stakeholders was put together with input from the Chamber of Commerce, Development Authority, elected officials, and residents. A complete list of all the stakeholders is included in this plan.

4. Identification of Participation Techniques

The following participation techniques were utilized during the update process:
- Public Hearings
- Workshops
- Extensive e-mail correspondence with stakeholders
- Special Webpage on SGRC website as well as County and City websites
- Dissemination of information in the newspaper
- Fliers

5. Participation Program

A foundational principle utilized by the Southern Georgia Regional Commission in all of its planning projects is public and stakeholder participation from, and coordination with, multiple and diverse interest groups. Due to the relatively small population of the County and City, the entire stakeholder group was utilized as the steering committee, ensuring the broadest buy-in and diversity of input into the comprehensive plan update. Outreach to the public, local governments and other stakeholders and interested parties was accomplished by e-mail correspondence, direct communication, Facebook postings, the project website, and updates provided at workshops and at other group meetings. Opportunity for public comment was provided at public hearings and at city and county commission meetings.

In addition to the two required public hearings, SGRC held a series of three workshops to discuss several elements of the plan. The first workshop was used to review the existing goals, Needs, and opportunities; in the form of a SWOT (Strengths, Weaknesses, Opportunities, and Threats) analysis, participants updated the list of goals, needs, and
opportunities to meet current needs. Copies of the sign-in sheets are provided in the appendix along with public hearing notices.

The policies and Report of Accomplishments were developed in the second workshop along with the draft of the updated Community Work Program. The Community Work Program was developed by the participants to include specific action items and projects that would be feasible for the County and the individual communities to implement should funding be available.

The third workshop was utilized to update the Economic Development Element and the Land Use Element and Maps as desired by the local governments.
6. Consideration of Regional Water Plan and Environmental Planning Criteria

During the preparation of the Comprehensive Plan, the local governments must review both the Regional Water Plan covering its area and the GDNR Rules for Environmental Planning Criteria, as laid out in Chapter 391-3-16, to determine whether any local implementation practices or development regulations need to be adapted to be consistent with both.

Suwannee-Satilla Regional Water Plan
Irwin County is within the area of the Suwannee-Satilla Regional Water Plan, which was adopted in September 2017.

The Suwannee-Satilla Council has identified 13 goals for the region. It is important to note that the goals summarized below are not presented in order of priority, but rather were assigned a number to identify specific goals addressed as part of the water management practice selection process (Section 6).

Suwannee-Satilla Regional Water Plan Goals:

1. Manage and develop water resources to sustainably and reliably meet domestic, commercial, industrial water needs, and agricultural water needs including all agricultural sectors (this includes the agro forestry economy of the region).
2. Manage groundwater and surface water to encourage sustainable economic and population growth in the region.

3. Manage the region’s and state’s water resources in a manner that preserves and protects private property rights.

4. Ensure an adequate water supply of suitable quality to meet current and future human needs, while protecting environmental resources.

5. Identify opportunities to optimize existing and future supplies, and water and wastewater infrastructure.

6. Promote efficient use and management of surface and groundwater resources to allow for sufficient supplies for current and future generations.

7. Protect and manage surface and groundwater recharge areas to ensure sufficient long-term water supplies for the region.

8. Protect, maintain, and where appropriate and practicable, identify opportunities to enhance water quality and river base flows.

9. Protect and maintain regional water-dependent recreational opportunities.

10. Identify opportunities to manage stormwater to improve water quantity and quality.

11. Identify and implement cost-effective water management strategies.

12. Seek to provide economically affordable power and water resource service to all citizens of the region.

13. Identify and implement actions to better measure and share water use data and information.

In addition, the Regional Water Plan has adopted several Short-Term Water Quantity and Water Quality Management Practices, which the local comprehensive plan should include in order to manage water resources in a sustainable manner through the planning period and beyond. The most significant Needs in the Suwannee-Satilla Region are surface water availability gaps driven by agricultural usage. As such, the majority of water supply management practices are intended to address agricultural surface water use.
Short Term Water Quantity Management Practices (0-10 Years)

1. Utilize surface water and groundwater sources within the available resource capacities
2. Water conservation.
3. Data collection and research to confirm the frequency, duration, severity, and drivers of surface water gaps (forecast methodology assumptions and Resource Assessment modeling)
4. Evaluate and ensure that current and future surface water permit conditions do not contribute to 7Q10 low flow concerns
5. Encourage sustainable groundwater use as a preferred supply in regions with surface water 7Q10 low flow concerns and adequate groundwater supply
6. Identify incentives and a process to sustainably replace a portion of existing agricultural surface water use with groundwater use to address 7Q10 low flow concerns
7. Evaluate the potential to use existing storage to address 7Q10 low flow concerns
8. Education to reduce surficial aquifer groundwater use impacts to 7Q10 low flow concerns

Short-Term Water Quality Management Practices (0 – 10 Years):

1. Point Sources:
   - Support and fund current permitting and waste load allocation process to improve treatment of wastewater and increase treatment capacity
   - Data collection and research to confirm discharge volumes and waste concentrations as well as receiving stream flows and chemistry

2. Non-Point Sources:
   - Data collection to confirm source of pollutants and causes; encourage stormwater ordinances, septic system maintenance, and coordinated planning
   - Ensure funding and support for local and state Best Management Practices programs, including urban/suburban, rural, forestry, and agricultural Best Management Practices

3. Non-point Source Existing Impairments:
   - Total maximum daily load listed streams: Improve data on source of pollutant and length of impairment; identify opportunities to leverage funds, and implement non-point source Best Management Practices

Longer Term (20 – 40 years) water quantity and quality management practices include:

- Improve infiltration and management of wetlands
• Evaluate incentive-based programs to manage, increase, and restore wastewater and storm water returns

• Identify potential/feasibility of a multi-purpose reservoir

• Identify feasibility of regional inter-basin transfer

• Continue wastewater and stormwater master planning

Chapter 391-3-16, Rules for Environmental Planning Criteria

The Environmental Planning Criteria that are part of the Minimum Planning Standards deal specifically with the protection of water supply watersheds, groundwater recharge areas, wetlands, river corridors, and mountains; the last of which is not applicable in this region. These criteria were developed by the Department of Natural Resources (DNR) as mandated in Part V of the Georgia Planning Act and in the Mountains and River Corridor Protection Act.

The criteria require that local governments shall identify existing and future water supply watersheds and adopt a water supply watershed protection plan for their jurisdiction.

Some uses may be grandfathered, such as land uses existing prior to the adoption of a watershed plan, mining activities permitted by DNR, certain utilities placements, special forestry, or agricultural services.

The environmental guidelines also spell out criteria for the delineation of small and large water supply watersheds, for the protection of groundwater recharge areas, for the protection of wetlands, and for the protection of river corridors. These criteria shall be incorporated into this comprehensive plan and addressed specifically and in more detail through local ordinances and land development code regulations.
II. Plan Elements

1. Community Goals and Vision

The purpose of the Community Goals Element is to lay out a road map for the future of Irwin County and the City of Ocilla; to generate local buy-in to the plan; and to ensure that the plan is implemented. Communities are encouraged to amend and update the goals as necessary.

Vision

Twenty years from now, Irwin County will continue to have a small town atmosphere that is characterized by welcoming communities and a sense of individual belonging, accentuated by natural greenway corridors. The community’s rich agricultural and forestry heritage will be preserved through the preservation of prominent landmarks, and these sites will be of paramount importance to citizens and elected officials. Partnerships among the County and the City will have been expanded to promote improvement of the quality of life in the community.

Goal 1: **NATURAL AND CULTURAL RESOURCES** – To provide for and promote the continued protection of our natural and cultural resources for current and future generations.

Goal 2: **ECONOMIC DEVELOPMENT** – To support a growing and balanced economy that bolsters the community’s position as a regional economic engine, offering high-wage jobs by ensuring a high-level of workforce adequacy; and to ensure community growth and development, which benefits all segments of the diverse population.

Goal 3: **HOUSING** – To encourage access to appropriate and affordable housing options for all residents of all income levels.

Goal 4: **LAND USE** - To ensure that the County’s anticipated growth occurs in a well-integrated yet organized fashion, which protects our community resources, promotes efficient use of infrastructure and support quality economic development.

Goal 5: **TRANSPORTATION** – To promote transportation facilities, which protects our community resources, promotes efficient use of infrastructure and support quality economic development while supporting quality economic development.

Goal 6: **COMMUNITY FACILITIES & SERVICES** – To ensure the provision of infrastructure, community facilities, and public services that support efficient growth and development patterns.
Goal 7: INTERGOVERNMENTAL COORDINATION – To encourage coordination of planning efforts with other local service providers and authorities, neighboring communities, and state and regional planning agencies.

Goal 8: BROADBAND SERVICES – To ensure broadband services are accessible throughout the communities and are consistent, reliable, and equitable.

2. Needs and Opportunities

The Needs and Opportunities as shown in this Section were developed in meetings through discussions with stakeholders and residents, experiences by stakeholders and residents, analysis of statistical data and information, and review and revision as applicable of the Needs and opportunities identified in the 2010 Partial Update for Irwin County and the City of Ocilla. Each of the following needs and opportunities is addressed by corresponding implementation measures in the Community Work Program.

1. Natural and Cultural Resources

Needs
1.1 Updated Flood Plain Maps. Correct existing flood plain maps are needed to replace the current maps, which are inaccurate by much as eleven feet, to protect flood areas, river corridors, and groundwater recharge areas from development.
1.2 Development in Flood Hazard Areas. Existing regulations need to be reviewed to ensure adequacy in reducing the amount of future development in identified flood hazard areas.
1.3 Master Drainage Plan. A countywide Master Drainage Plan is needed.
1.4 Inventory of Historic Places and structures. There are many historical structures and places including cemeteries, in Irwin County that are not identified nor inventoried.
1.5 Historic Preservation. More funding is needed to protect and rehabilitate local historic structures.
1.6 Culture Resources Registry. Irwin County and Ocilla are home to many renowned local artists and musicians however, no official registry or recognition of these cultural resources exists.
1.7 Underutilized Tourism Resources. Irwin County and Ocilla contain many historic and cultural resources in need of promotion.
1.8 School Renovations. The old Ocilla Schoolhouse is in need of renovations.
1.9 Sustainable Water Management. Sustainable management of water as a resource, especially for agri-business, is required.

Opportunities
1.1 Water conservation. Encourage citizen education and awareness through brochures and workshops to encourage water conservation.
1.2 **Water management.** Promote more efficient use of surface irrigation and better water management to ensure long-term opportunities for sustainable development and quality of life for residents.

1.3 **Runoff Management.** Implement storm water retention ponds, wetlands, and bio-retention areas to manage runoff quality and flow rate and help support river flows.

1.4 **Seek Funding.** Apply for water quality grants to assist with reduction in runoff.

2. **Economic Development**

**Needs**

2.1 **Job Opportunities.** More job opportunities are needed, especially higher-wage jobs.

2.2 **Need of Value-Added Products & Diversification.** Development of more value-added products and diversification is needed for agribusiness and other industries.

2.3 **Innovative Economic Development.** More innovative economic development is needed.

**Opportunities**

2.1 **Promote & Support.** Promote and support existing and expanding local businesses and industries.

2.2 **Local Retention of Graduates.** Expand recruitment of businesses that will hire local graduates from the Quick Start training program and graduates from the trades’ certification programs at Wiregrass.

2.3 **Workforce.** Encourage degree programs in relevant and lucrative fields, such as science, technology, and engineering.

2.4 **Sustainable & Innovative.** Promote and encourage sustainable and innovative agri-business opportunities.

2.5 **Grants Research.** Research grants that are available to assist businesses and tourism and pursue them as feasible.

2.6 **Downtown Expansions.** Expand economic development in Downtown Ocilla focusing on restaurants and retail.

3. **Housing**

**Needs**

3.1 **Substandard Housing.** Blighted/substandard homes/properties need to be renovated or demolished.

3.2 **Housing Compatibility.** New homes being constructed in the City need to blend with the character of the area and neighborhood.

**Opportunities**

3.1 **Funding Sources.** Continue to pursue CHIP, GICH and CDBG funds and other available grants to renovate appropriate housing.

3.2 **Code Enforcement.** Continue a code enforcement program that will support homeowners in the maintenance and upkeep of blighted homes and properties.
3.3 **Cleanup of Blighted Homes & Properties.** City of Ocilla is actively cleaning up blighted homes and properties to revitalize neighborhoods and improve property value.

3.4 **Land Bank.** Create a Land Bank Authority.

4. **Land Use**

**Needs**

4.1 **Zoning Enforcement.** Both the City and County need better enforcement of their respective zoning codes, and need more resources to accomplish this task.

**Opportunities**

4.1 **Greenspace Program.** Develop a countywide Greenspace Program.

5. **Transportation**

**Needs**

5.1 **Public Transit.** The community needs public transit. The City of Ocilla has expressed a desire for rural public transit.

5.2 **Roads.** The City still has dirt roads that need to be paved.

5.3 **Sidewalks.** Irwin County and Ocilla have a need for the creation or improvement of sidewalks that are handicap accessible.

**Opportunities**

5.1 **Public Transit.** Federal programs and regional resources could help to fund public transit.

5.2 **TSPLOST.** TSPLOST has been approved with funding for basic road resurfacing and maintenance.

6. **Community Facilities and Services**

**Needs**

6.1 **Infrastructure Improvements.** The City’s existing water and sewer lines are very old and many of the pipes are rusty and leaking, and the sewer pond needs to be dredged.

6.2 **Funding Sources.** There is a lack of funding to repair the water and sewer system.

6.3 **Inventory.** There is a lack of a complete inventory of water and sewer system including valves, meters and manholes which makes identification of problems and solutions (including budgeting for improvements) very difficult and more expensive.

6.4 **GIS Data.** There is a GIS inventory of some community infrastructure, but a more complete inventory is needed.

6.5 **Recreation Employment and Volunteers.** The Recreation Department has one full-time staff person and relies on volunteers to do the work. There is a need for more paid employees and volunteers.
6.6 **Emergency System.** A countywide Early Warning Communication/Notification System is needed.

6.7 **CERT.** The “Community Emergency Response Team” (CERT) program needs to be implemented.

6.8 **Generators.** Portable and/or fixed generators are needed for all designated evacuation and emergency shelters and community water systems, as well as other critical facilities.

6.9 **Recreational Protections.** Lightning warning and protection equipment is needed at outdoor recreational facilities countywide.

6.10 **Training.** There is a need to improve wildland fire training at the local fire department level.

**Opportunities**

6.1 **Funding Resources.** Public finances are scarce to undertake much needed improvements to the public infrastructure. Review more opportunities for applications for state and federal funding sources to provide for the improvements.

6.2 **Local Grant Matches.** Research and implement sufficient private/public funding sources to act as local match for any state and Federal grants to increase the percentage of grants being awarded to Irwin County and the City of Ocilla.

6.3 **Community Partnerships.** Build on the active partnership between the local Schoolboard and the City and County.

6.4 **Volunteer Services.** Encourage volunteer opportunities and expand the local volunteer program.

6.5 **Designated “Firewise Community.”** Become a designated “Firewise Community”.

6.6 **Enforcement of Codes.** Enforce building, fire, and safety codes.

6.7 **Storm Ready.** Become a “Storm Ready Community”.

7. **Intergovernmental Coordination**

**Needs**

7.1 **Collaboration.** Increased collaboration with neighboring counties is needed.

**Opportunities**

7.1 **Continue to Collaborate.** Maintain the excellent working relationship between the City and the County.

8. **Broadband Services**

**Needs**

8.1 **Broadband access.** More affordable, accessible, consistent, and higher-speed broadband access is needed throughout all of Irwin County and the City of Ocilla, especially in underserved areas.

**Opportunities:**
8.1 **Economic growth.** Better broadband services will improve the future for all citizens and businesses.

8.2 **Public/Private Partnerships.** Public/private partnerships could be developed to provide comprehensive broadband coverage that is consistent, reliable, and equitable.
3. Analysis of Data and Information

The 2017 population of Irwin County is estimated at 9,410. This is a -1.95% decrease since 2010. The 2017 population of the City of Ocilla is estimated at 3,627 and is a 4.71% increase since 2010. There are a total of 4,076 households in Irwin County, with an average of 2.8 people per household.
Since 2010, the percentage of the population aged 65 and older has increased in 2016 for Irwin County (2.4%) and the City of Ocilla has increased 4%. The median age in Irwin County is 38.6, compared with a median US age of 37.7.

The 2016 age distribution in Irwin County is 17.6% over 65, 57.1% ages 20-64 and 25.2% under 20. In the City of Ocilla, the age distribution is 15.9% over 65, 56.2% ages 20-64 and 27.8% under 20.

Irwins County’s population is 51.2 % male and 48.8% female while the City of Ocilla’s population is 52.8% male and 47.2% female. Georgia is 47.7% male and 51.3% female.
The 2016 population of Irwin County is 68.1% White/Caucasian, 27.9% Black/African American, 0.1% Asian, 0.0% some other race, 2.8% two or more races and 0.0% Native American. The City of Ocilla’s 2016 population is 30.9% White/Caucasian, 67.6% Black/African American, 0.2% Asian 0.0% some other race, 0.3% two or more races and 0.0% Native American.
For 2017, Irwin County’s population is 1.1% Hispanic/Latino (of any race) and the City of Ocilla’s is 1.0% Hispanic/Latino (of any race). Georgia’s population for 2017 is 9.2% Hispanic/Latino (of any race).

In 2016, among persons aged 25 or older, in Irwin County, 17.1% have no high school diploma, 48.0% are high school graduates (includes equivalency) with no further education, 29.5% have an associate’s degree or some college and 5.4% have a bachelor’s or higher degree. Among persons aged 25 or older in the City of Ocilla, 26.7% have no high school diploma, 51.0% are high school graduates (includes equivalency) with no further education, 4.6% have an associate’s degree or some college and 3.5% have a bachelor’s or higher degree.
The median household income in Irwin County for 2016 is $29,846, the median household income in the City of Ocilla is $20,821. Median household income in Georgia is $51,037.

An estimated 39.2% of Irwin County’s population and 24.9% of the City of Ocilla’s population live below the federal poverty level. An estimated 17.8% of Georgia’s population is living in poverty. In Irwin County, 34.4% of persons under age 18 live below
the poverty level and in the City of Ocilla 46.8% of persons under age 18 live below the poverty level. In Georgia, 25.4% of persons under age 18 live below the poverty level.

Irwin County’s estimated unemployment rate is 6.9% and the City of Ocilla’s unemployment rate is 12.3%. Georgia’s unemployment rate for 2016 was 8.5%. Among adults aged 16 and older, the rate of labor force participation is 45.7% in Irwin County and 42.0% in the City of Ocilla. Georgia’s labor force participation rate for those aged 16 and older is 62.9%.
4. Broadband Element

Broadband service in Ocilla and Irwin County is provided through DSL and satellite. There are 2 DSL providers and 3 Satellite providers. The communities are mainly served by two wired providers: Windstream and Mediacom Cable. Other providers have coverage in limited areas. There are 7 providers with 5 of those offering residential services and only Windstream and Mediacom offering business services. There is poor coverage, slow download and upload speeds, and restrictive package pricing.

The Southern Georgia Regional Commission’s 2014 Digital Economy Plan called for expanded broadband access in the Region along with strategies for the Region to remain competitive and maintain a qualified workforce in an increasingly digitized economy.

The infrastructure through which broadband is provided, and the condition of that infrastructure, is widely varied throughout the Region. DSL service is provided through telephone lines. Cable broadband is delivered through cable lines that often share poles with telephone and electric wires. As such, cable and DSL broadband infrastructure is vulnerable to damage from storms. While fiber optic lines are typically buried, fiber optic broadband service is not available. (See Broadband Maps below).

Number of Cable Broadband Service Providers

Source: broadbandmap.fcc.gov
Number of Fiber Optic Broadband Service Providers

Source: broadbandmap.fcc.gov

Number of Fixed Wireless Broadband Service Providers

Source: broadbandmap.fcc.gov
The top speed available to consumers anywhere in the area is 200 Mbps (Megabits per second). The average download speed is 6.42 Mbps. This is 83.6% slower than the average in Georgia and 508.1% slower than the national average. The average download speed in Georgia is 39.12 Mbps.

60.3% of consumers in Ocilla only have access to 1 or fewer providers. Approximately 40% of Ocilla residents are served by multiple wired providers. Approximately 2,000 people in Irwin County have no access to any internet service.

Mobile (3G/4G) broadband access is provided via cell phone towers throughout the County, with varying levels of coverage (see 3G/4G Broadband Maps on the following pages); most cell towers in the Southern Georgia Region are relatively newly constructed and are in excellent condition. Some areas of the Region are still without mobile coverage, including some populated areas.

Due to the increasing importance of broadband access in daily life, business, and recreation; broadband availability is increasingly likely to influence development patterns in Ocilla and Irwin County. Broadband should be included, along with other utilities and infrastructure, in all new developments. Broadband access will be a critical factor in determining the success of future developments of all types, including residential, commercial, and industrial.

Also, as broadband access has become crucial for so many people, the resiliency of broadband infrastructure will be a critical consideration for future hazard mitigation plans and
other plans dealing with disaster resiliency. Broadband outages are no longer just inconvenient; they can also take an economic toll on communities and regions.

5. Consideration of DCA Community Quality Objectives

The Department of Community Affairs (DCA) has crafted a series of objectives dealing with a broad range of Needs that concern local governments. The objectives, which are listed below, are only recommendations, but provide local governments with a tool to guide them in the assessment of their needs and opportunities and in the development of their implementation activities. If they are used as such a tool by many of the local governments in their planning efforts, these objectives also have the potential to result in consistent planning projects and goals, which may translate into greater efficiency and a better quality of life for the residents.

1. Economic Prosperity
Encourage development or expansion of businesses and industries that are suitable for the community. Factors to consider when determining suitability include: job skills required; long-term sustainability; linkages to other economic activities in the region; impact on the resources of the area; and prospects for creating job opportunities that meet the needs of a diverse local workforce.

Best Practices recommended for Irwin County and City of Ocilla:
- Research and create a source book to identify technical and financial assistance available for local businesses from regional, state and federal sources and make it available to local businesses.
- Track business needs of existing businesses to help with business retention.
- Tailor training programs to provide workforce skills needed by local businesses.

2. Resource Management
Promote the efficient use of natural resources and identify and protect environmentally sensitive areas of the community. This may be achieved by promoting energy efficiency and renewable energy generation; encouraging green building construction and renovation; utilizing appropriate waste management techniques; fostering water conservation and reuse; or setting environmentally sensitive areas aside as green space or conservation reserves.

Best Practices recommended for Irwin County and City of Ocilla:
- Create an inventory of environmentally sensitive areas such as groundwater recharge areas, river corridors and wetlands, as a first step to create a local strategy for minimizing negative impacts on water quality and quantity.

3. Efficient Land Use
Maximize the use of existing infrastructure and minimize the costly conversion of undeveloped land at the periphery of the community. This may be achieved by encouraging development or redevelopment of sites closer to the traditional core of the
community; designing new development to minimize the amount of land consumed; carefully planning expansion of public infrastructure; or maintaining open space in agricultural, forestry, or conservation uses.

**Best Practices recommended for Irwin County and City of Ocilla:**
- Create incentives such as tax breaks, code changes or other regulatory tools to encourage property owners to rehabilitate underutilized or vacant structures so that they can be put to new uses.
- Revise land development regulations to remove rigid parking requirements to reduce the number of unnecessary spaces in the community. This may include reducing the number of required parking spaces, or allowing shared parking between adjacent facilities.

4. Local Preparedness
Identify and put in place the prerequisites for the type of future the community seeks to achieve. These prerequisites might include infrastructure (roads, water, and sewer) to support or direct new growth; ordinances and regulations to manage growth as desired; leadership and staff capable of responding to opportunities and managing new challenges; or undertaking an all-hazards approach to disaster preparedness and response.

**Best Practices recommended for Irwin County and City of Ocilla:**
- Ensure consistency of Irwin County’s and the City of Ocilla, land use/zoning ordinances with the adopted comprehensive plan.
- Pursue CDBG grants to implement needed infrastructure projects.
- Continue implementation of a Service Delivery Strategy.

5. Sense of Place
Protect and enhance the community’s unique qualities. This may be achieved by maintaining the downtown as focal point of the community; fostering compact, walkable, mixed-use development; protecting and revitalizing historic areas of the community; encouraging new development that is compatible with the traditional features of the community; or protecting scenic and natural features that are important to defining the community’s character.

**Best Practices recommended for Irwin County and City of Ocilla:**
- Adopt manufactured home regulations to ensure compatibility of manufactured homes with surrounding single family residences and to regulate appearance, layout and location of manufactured homes.

6. Regional Cooperation
Cooperate with neighboring jurisdictions to address shared needs. This may be achieved by actively participating in regional organizations; identifying joint projects that will result in greater efficiency and less cost to the taxpayer; or developing collaborative solutions for regional Needs such as protection of shared natural resources, development of the transportation network, or creation of a tourism plan.
Best Practices recommended for Irwin County and the City of Ocilla:
   • Meet regularly with SGRC staff to discuss local priorities and projects and explore opportunities for assistance and coordination with regional efforts.

7. Housing Options
Promote an adequate range of safe, affordable, inclusive, and resource-efficient housing in the community. This may be achieved by encouraging development of a variety of housing types, sizes, costs, and densities in each neighborhood; promoting programs to provide housing for residents of all socioeconomic backgrounds, including affordable mortgage finance options; instituting programs to address homelessness Needs in the community; or coordinating with local economic development programs to ensure availability of adequate workforce housing in the community.

Best Practices recommended for Irwin County and City of Ocilla:
   • Create an ordinance to allow very small single-family houses ("cottages") of 600-1,000 square feet in appropriate districts of the community. A cottage takes up a lot about half the size of a conventional new house, and its impact, in terms of traffic, stormwater, etc., is also about half. Cottages fill a need for affordable housing, especially for empty-nesters, retirees, young couples, or any 1-2 person household.
   • Provide education on home loan assistance to foster rehabilitation and revitalization.

8. Transportation Options
Address the transportation needs, challenges, and opportunities of all community residents. This may be achieved by fostering alternatives to transportation by automobile, including walking, cycling, and transit; employing traffic calming measures throughout the community; requiring adequate connectivity between adjoining developments; or coordinating transportation and land use decision-making within the community.

Best Practices recommended for Irwin County and the City of Ocilla:
   • Create a continuous, well maintained sidewalk network, especially around schools.
   • Ensure safe, adequate and well-designed facilities for bicyclists.

9. Educational Opportunities
Make educational and training opportunities readily available to enable all community residents to improve their job skills, adapt to technological advances, manage their finances, or pursue life ambitions. This can be achieved by expanding and improving local educational institutions or programs; providing access to other institutions in the region; instituting programs to improve local graduation rates; expanding vocational education programs; or coordinating with local economic development programs to ensure an adequately trained and skilled workforce.
Best Practices recommended for Irwin County and City of Ocilla:

- Ensure that all schools and libraries have adequate and efficient access to the internet to provide sufficient opportunities for on-line education and certification opportunities.

10. Community Health

Ensure that all community residents, regardless of age, ability, or income, have access to critical goods and services, safe and clean neighborhoods, and good work opportunities. This may be achieved by providing services to support the basic needs of disadvantaged residents, including the disabled; instituting programs to improve public safety; promoting programs that foster better health and fitness; or otherwise providing all residents the opportunity to improve their circumstances in life and to fully participate in the community.

Best Practices recommended for Irwin County and City of Ocilla:

- Develop a comprehensive listing of health services and assistance resources for local citizens.
- Coordinate with SGRC to participate in the GDOT 5311 program to provide public transportation to the nearest available public health facility.
6. Community Policies

Policies are developed to provide ongoing guidance and direction to Coffee County officials. They provide a basis for making decisions in implementing the Comprehensive Plan, including achieving the community vision and addressing the city’s issues and opportunities. The policies are general in nature and should be used, in particular, during budget, permitting, and zoning decisions. Geographic-specific policies are discussed in conjunction with the Future Development Map for Irwin County.

These policies are organized around the Issues identified in the “Needs and Opportunities” section, and are further organized around the seven major topics of the plan:

1. Natural and Cultural Resources
2. Economic Development
3. Housing
4. Land Use
5. Transportation
6. Community Facilities and Services
7. Intergovernmental Coordination
8. Broadband Services

Natural and Cultural Resources

**Goal:** To provide for and promote the continued protection of our natural and cultural resources for current and future generations.

**Needs & Policies:**

1.1: **Updated Flood Plain Maps.** Correct existing floodplain maps are needed to replace the current maps, which are inaccurate by much as eleven feet, to protect flood areas, river corridors, and groundwater recharge areas from development.

   - **Policy 1.1.1:** Make sure that the NFIP (National Flood Insurance Program) has adequately updated the maps for Irwin County and City of Ocilla.

1.2: **Development in Flood Hazard Areas.** Existing regulations need to be reviewed to ensure adequacy in reducing the amount of future development in identified flood hazard areas.

   - **Policy 1.2.1:** Review existing regulations with regard to development in flood hazard areas; if necessary, adopt a Floodplain Ordinance to regulate development in the flood hazard areas.

1.3: **Master Drainage Plan.** A countywide Master Drainage Plan is needed.
o **Policy 1.3.1:** Seek funding to develop and implement a countywide Master Drainage Plan.

**1.4: Inventory of Historic Places and Structures.** There are many historical structures and places, including cemeteries, in Irwin County that are not identified nor inventoried.

o **Policy 1.4.1:** Conduct a comprehensive survey which identifies all local historic buildings, places, potential historic districts, historic events and historic communities.

o **Policy 1.4.2:** Encourage the County and City to expand the existing cultural resources survey to identify cultural resources located within the county. Historic property information previously surveyed and submitted to the Department of Natural Resources, Historic Preservation Division, could be used to supplement this survey as well as already conducted historic resource surveys for the City of Ocilla, which are available at the County Library, the City Clerk’s office, and at the Georgia Department of Natural Resources.

o **Policy 1.4.3:**

**1.5: Historic Preservation.** More funding is needed to protect and rehabilitate local historical structures.

o **Policy 1.5.1:** Irwin County and the City of Ocilla should develop a local incentive or assistance program to encourage local building owners to take advantage of the voluntary historic designation process for their buildings. Such local incentives could be tax incentives, cash or in-kind, or restoration of such structure as considered by the County and City.

o **Policy 1.5.2:** Builders should be encourage to preserve, redevelop or rehabilitate historically significant resources for all property they develop.

o **Policy 1.5.3:** Identify and utilize available funding sources to implement the Historic Preservation Program. Pursue grant opportunities to complete needed historical renovations.

o **Policy 1.5.4:** Investigate designation of a historic district.

o **Policy 1.5.5:** Pursue funding to renovate the historic courthouse.

**1.6: Culture Resources Registry.** Irwin County and Ocilla are home to many renowned local artists and musicians, but no official registry or recognition of these cultural resources exists.
Policy 1.6.1: Conduct a comprehensive survey which identifies all the cultural resources in Greater Irwin County, including local artists. This inventory could be used to promote tourism in the area.

1.7: Underutilized Tourism Resources. Irwin County and Ocilla contain many historic and cultural resources that need to be promoted.

- Policy 1.7.1: Expand the role of tourism in economic development by promoting festivities, events, and historical heritage in the community.

- Policy 1.7.2: Develop an Ocilla/Irwin County website that will promote the community’s historic and cultural resources.

1.8: School Renovations. The old Ocilla Schoolhouse is in need of renovations. Develop this site for offices for the County and City. The Chamber of Commerce could also have their office at this site.

- Policy 1.8.1: Seek grant funding to renovate the old Ocilla Schoolhouse.

1.9: Sustainable Water Management. Sustainable management of water as a resource, especially for agri-business, is required.

- Policy 1.9.1: Encourage citizen education and awareness through brochures and workshops to encourage water conservation.

- Policy 1.9.2: Promote more efficient use of surface irrigation and better water management to ensure long term opportunities for sustainable development and quality of life for residents.

- Policy 1.9.3: Implement storm water retention ponds, wetlands, and bio-retention areas to manage runoff quality and flow rate and help support river flows.

- Policy 1.9.4: Apply for water quality grants that can reduce runoff.

Economic Development

Goal: To support a growing and balanced economy that bolsters the community’s position as a regional economic engine, offering high-wage jobs by ensuring a high-level of workforce adequacy; and to provide community growth and development, which benefits all segments of the diverse population.

Needs & Policies:

2.1: Job Opportunities. More job opportunities are needed, especially higher-wage jobs.
Policy 2.1.1: Promote and support private economic investment from existing and new industry and businesses through financial and technical assistance to improve job opportunities.

Policy 2.1.2: Support vocational and technical training programs that will provide a workforce serving the needs of existing and future industry in Irwin County and Ocilla and ensure a strong, viable, and local presence of the Technical College.

Policy 2.1.3: Support more consistent broadband accessibility.

Policy 2.1.4: Expand recruitment of businesses that will hire local graduates from the Quick Start training program and graduates from the trades’ certification programs at Wiregrass.

2.2 Need of Value-Added and Diversification. Development of more value-added products and diversification is needed for agribusiness and other industries.

Policy 2.2.1: Promote and support the development of diverse and innovative agri-business related industries.

Policy 2.2.2: Promote the local winery. This can be a major asset to the community.

Policy 2.2.3: Promote local fruit stands that brings awareness of locally grown products.

Policy 2.2.4: Promote development of the new industrial park.

2.3 Innovation Economic Development. There is not enough innovative economic development taking place.

Policy 2.3.1: Pursue development of a local business incubator.

Policy 2.3.2: Provide more adequate broadband accessibility throughout the community to attract innovative development.

Housing

Goal: To encourage access to appropriate and affordable housing options for all residents of all income levels.

Needs & Policies:

3.1: Substandard Housing. Blighted/substandard homes/properties need to be renovated or demolished.
Policy 3.1.1: Revise the City of Ocilla’s and Irwin County’s existing zoning ordinances and building codes to include uniform regulations for the location, minimum value, and/or age of manufactured homes and buildings.

Policy 3.1.2: Continue to pursue Code Enforcement within neighborhoods to clean up trash, demolish unsafe and abandoned buildings and manufactured (mobile) homes, and require that homeowners and landlords be responsible for the upkeep of their property.

Policy 3.1.3: Continue participation in the Community Home Investment Program (CHIP). Also apply for grants such as CDBG, and USDA.

3.2 Housing Compatibility. New homes that are being constructed in the City need to blend with the character of the area and neighborhood.

Policy 3.2.1: Maintain the character of the existing neighborhoods when developing new housing.

Policy 3.2.1: Adopt a landscaping ordinance to define individual responsibility for maintenance of properties and landscaping in the City or the County.

Policy 3.2.2: Pursue creation of a Land Bank Authority.

Land Use

Goal: To ensure that the County’s anticipated growth occurs in a well-integrated yet organized fashion, which protects our community resources, promotes efficient use of infrastructure and supports quality economic development.

Needs & Policies:

4.1 Zoning Enforcement. Both the City and County need better enforcement of their respective zoning codes, and need more resources in order to accomplish this.

Policy 4.1.1: Investigate reallocation of resources in order to better enforce local zoning ordinances.

Policy 4.1.2: Where feasible, strive for consistency between the City and County zoning codes in order to make it easier to share code enforcement resources.
Transportation

Goal: To ensure that the County’s anticipated growth occurs in a well-integrated yet organized fashion, which protects our community resources, promotes efficient use of transportation facilities and supports quality economic development.

5.1: Public Transit. The community needs public transit. The City of Ocilla has expressed a desire for rural public transit.

- Policy 5.1.1: An accessible, coordinated urban public transit system should be investigated.

5.2 Roads. The City and County still has dirt roads that need paving.

- Policy 5.2.1: Continue to seek funding through grants for paving and maintenance of roads. This will benefit school buses being able to continue their routes during bad weather.

- Policy 5.2.3: Transportation capacity should be carefully monitored to preserve capacity on roadways and highway safety concurrent with development.

- Policy 5.2.4: Industrial, commercial and residential growth should occur in areas where adequate public facilities such as water, sewer, and roads are provided.

5.3 Sidewalks. Irwin County and Ocilla have a need for the creation or improvement of sidewalks that are handicap accessible.

- Policy 5.3.1: Repair and improve existing sidewalks and install new sidewalks where they are needed.

Community Facilities and Services

Goal: To ensure the provision of infrastructure, community facilities, and public services that support efficient growth and development patterns.

Needs and Policies:

6.1: Infrastructure Improvements. The City’s existing water and sewer lines are very old and many of the pipes are rusty and leaking, and the sewer pond is in need of dredging.

- Policy 6.1.1: Pursue improvements to the water and sewer public infrastructure in the County and City.
6.2 **Funding Sources.** Lack of funding to repair water and sewer system.
   
   o **Policy 6.2.1:** Continue to pursue grants to upgrade water and sewer public infrastructure in existing neighborhoods and to provide for future adequate capacity.

6.3 **Inventory.** Lack of complete inventory of water and sewer system including valves, meters and manholes makes identification of problems and solutions (including budgeting for improvements) very difficult and more expensive.
   
   o **Policy 6.3.1:** Develop an inventory of the entire water and sewer system with information on location, size, and condition of lines, valves, meters, manhole cover, fire hydrants, etc. to determine security and public health hazards.

6.4 **GIS Data.** There is a GIS inventory of some community infrastructure, but a more complete inventory is needed.
   
   o **Policy 6.4.1:** Continue to upgrade and inventory the data for the water, sewer, drainage, roads, and other facilities.

6.5 **Recreation Employment and Volunteers.** The Recreation Department has one full-time staff and is relying on volunteers to do the work. There is a need for more paid employees and volunteers.
   
   o **Policy 6.5.1:** Pursue funding for more paid employees and volunteers.

6.6 **Emergency System.** A countywide Early Warning Communication/Notification System is needed.
   
   o **Policy 6.6.1:** Seek funding for a countywide Early Warning Communication/Notification System.

6.7 **CERT.** The “Community Emergency Response Team” (CERT) program needs to be implemented.
   
   o **Policy 6.7.1:** Pursue funding to implement the CERT program.

6.8 **Generators.** Portable and/or fixed generators are needed for all designated evacuation and emergency shelters and community water systems, as well as other critical facilities.
   
   o **Policy 6.10.1:** Pursue grant funding to acquire and install generators.
6.9 **Recreational Protections.** Lightning warning and protection equipment is needed at outdoor recreational facilities countywide.

- **Policy 6.11.1:** Continue to seek grants for warning and protection equipment.

6.10 **Training.** Need to improve wildland fire training at the local fire department level.

- **Policy 6.12.1:** Continue to seek grants for training.

**Intergovernmental Coordination**

**Goal:** To encourage coordination of planning efforts with other local service providers and authorities, neighboring communities, and state and regional planning agencies.

**Needs and Policies:**

7.1: **Collaboration.** Increased collaboration with neighboring counties is needed.

- **Policy 7.1.1:** Pursue increased collaboration with neighboring counties and communities.

**Broadband Services**

**Goal:** To encourage the expansion of existing broadband services and to allow more providers within the communities.

**Needs and Policies:**

8.1: **Broadband access.** More affordable, accessible, and higher-speed broadband access is needed throughout all of Irwin County and the City of Ocilla, especially in underserved areas.

- **Policy 8.1.1:** Pursue development of public/private partnerships to provide comprehensive broadband coverage that is consistent, reliable, and equitable.

- **Policy 8.1.2:** Include consideration of broadband infrastructure in roadway projects where such infrastructure may be included in the right-of-way.

- **Policy 8.1.3:** Community-wide technology infrastructure should be considered a basic community facility and as such should be adequately planned for and implemented.
7. Community Work Program

8. Economic Development Element

The 2018-2022 Comprehensive Economic Development Strategy (CEDS), as developed by the Southern Georgia Regional Commission under a grant from the US Department of Commerce Economic Development Administration, is hereby incorporated by reference into this Comprehensive Plan to serve as the Economic Development Element for Irwin County and the City of Ocilla.

The Southern Georgia Regional Commission’s (SGRC) Comprehensive Economic Development Strategy (CEDS) was designed to bring together the public and private sectors in the creation of an economic roadmap to diversify and strengthen the regional economy. The SGRC CEDS analyzed the regional economy and serves as a guide for establishing regional goals and objectives, a regional plan of action, and investment priorities and funding sources.

As a performance-based plan, this CEDS plays a critical role in adapting to global economic conditions by fully utilizing the region’s unique advantages to maximize economic opportunity for its residents by attracting private investment that creates jobs. The SGRC CEDS is a regionally-owned strategy that is the result of a continuing economic development planning process developed with regional public- and private-sector participation. This plan sets forth the goals and objectives necessary to solve the economic development problems of the Southern Georgia region and clearly defines the measures of success.

The Southern Georgia CEDS gives an overview of the region, briefly describing geography, population, economy, labor and workforce development and use, education, transportation access, environment, and regional resources. It reviews the state of the regional economy and provides a list of achievable Goals and Objectives for the region, a Plan of Action to ensure success, and Performance Measures used to evaluate the Southern Georgia Regional Commission’s successful development and implementation of the 2018-2022 CEDS. Implementation of the goals identified in this plan is significant to the economic future of the SGRC District.

Policies, Needs and opportunities, and Short-term Work Program implementation strategies located in the current Comprehensive Plans for each jurisdiction in our 18-county region were used extensively to develop the CEDS Goals and Objectives, Vital Projects, and Problems and Opportunities.

Included below are goals and objectives from the CEDS which are aligned with the current economic development goals of Irwin County and the City of Ocilla.

Goal 1: Promote economic development strategies that encourage entrepreneurship, support existing industries, attract new employers, and stimulate tourism.
**Objectives:**

- Focus on ways to encourage and facilitate regional tourism.

**Goal 2: Protect, expand, and enhance critical infrastructure and connectivity for existing and future community growth.**

**Objectives:**

- Encourage local governments to implement the Southern Georgia Regional Bicycle and Pedestrian Plan.
- Identify areas where high speed internet and broadband are needed.
- Strive to provide industrial parks/properties with all the necessary infrastructure and transportation links to attract new and expanding businesses and industries to the area.
- Continue to monitor grant opportunities and inform local communities about upcoming deadlines and assist local governments in the grant preparation and application process.

**Goal 3: Facilitate growth and development of an educated, skilled, prepared workforce by utilizing available programs and resources.**

**Objectives:**

- Improve educational attainment by reducing high school dropout rates
- Market workforce development programs that enable youth and adults to pursue higher education opportunities.
- Support educational institutions to provide learning/skill development opportunities.
- Work closely with business and industry to ensure that the system is not only producing workers to meet its immediate needs, but making adjustments in anticipation of future needs and technological changes.

**Goal 4: Create an inviting sense of place through rural renewal and other strategies in order to retain population and to attract new members to our community.**

**Objectives:**

- Collaborate to develop county-wide historic preservation plans.
- Promote downtown areas for tourism and recreation.
- Increase code enforcement in communities surrounding downtown areas.
- Create welcoming, functional neighborhoods with “work, play, live” atmospheres to invite younger families to the region.
- Encourage local governments to participate in CHIP, CDBG, and USDA housing programs.
-Seek additional funding streams to address senior population program sustainability.
- Market unique aspects of communities to attract a younger population.
9. Land Use Element

Character Areas

In keeping with State Minimum Planning Standards, every part of Irwin County and the City of Ocilla has been delineated into specific Character Areas. Character areas are intended to serve as guidance for future land use and land development. Each of the following character area narratives was developed based on stakeholder input, existing land uses, anticipated development, planned infrastructure improvements and expansions, and guidance found in the State Planning Recommendations. As with the Plan in general, these character area descriptions and goals should not be considered final. As the community gains a greater understanding of the role and value of character areas, their descriptions should be fine-tuned. Additionally, as the community continues to grow, specific character area depictions may need to be adjusted.

Each Character Area narrative has a unique Description stating either the existing or desired qualities for that area. (Please note the associated picture for each area represents the current state of the specific area and should not be construed to necessarily represent the desired state, although for some descriptions this may be the case.) The stated Development Strategy should serve as a guide for all development and redevelopment taking place in the Character Area. Adherence to these development strategies will ensure consistent and complimentary development, which promotes a greater sense of place and overall improved quality of life. The listing of Permitted Zoning Districts provides guidance as to the type of land uses encouraged within each Character Area. While many of the differences between uses can be masked through site design and development standards, there are certain uses which are incompatible with surrounding uses and should not be permitted. As required by the State, the Quality Community Objectives demonstrate the unique ideals established for each Character Area. The Implementation Measures are the specific activities or programs which could take place within each of the Character Areas. While the suggested list of measures may or may not currently exist in Irwin County and the City of Ocilla, their implementation in appropriate areas would help achieve the established objectives and overall development strategy for each Character Area. In most cases, these measures should be considered joint efforts between the local government, development community, and citizens alike.
Agricultural/Forestry Character Area

DESCRIPTION:

These are areas intended for detached single-family residential uses and prime agriculture areas that maintain rural character. Residential lots should be large (no less than 1 acre), or homes should be clustered on smaller lots to preserve large tracts of natural areas and open space. Setbacks, residential landscaping to include foundation plantings, and site design should be employed in order to maintain rural character, with plentiful open space and wooded areas. The land in Irwin County is approximately 95% agricultural, dedicated to farming, including fields, lots, pastures, livestock production, and specialty farms.
APPROPRIATE LAND USE:
Agricultural farm operations and related activities, forestry, natural resources conservation, groundwater recharge areas, low-density residential development accessory to agricultural or farm operations of varying sizes.

DEVELOPMENT STRATEGY:
Preserve the rural/agricultural character of these areas by maintaining very low density residential development primarily accessory to farm operations and large lot sizes. Use of conservation easements to protect environmentally sensitive areas should be encouraged. Roadways in these areas should be widened only when required to meet public safety standards.

PERMITTED ZONING DISTRICTS:
• AU – Agricultural Use

QUALITY COMMUNITY OBJECTIVES:
1) Economic Prosperity
2) Resource Management
3) Sense of Place

IMPLEMENTATION MEASURES:
Conservation Easements
Encourage owners of key properties (such as those in environmentally sensitive areas, included in the local greenspace plan, or designated for agricultural use in the comprehensive plan) to utilize conservation easements or sale of development rights to preserve their land from future development. Conservation easements allow private landowners to donate the development rights of their property to a qualified conservation organization or government agency, in exchange for tax savings. The sale of development rights is an arrangement whereby private landowners sell the development rights of their property to a qualified conservation organization or government agency. In both cases above, giving up development rights permanently protects a property from development and thereby ensures it remain as green space or farmland.

Sidewalk/Trail Network
Promote physical activity in your community by creating or improving sidewalks and trails that connect to important destinations such as schools, public facilities, employment centers, parks, recreation areas.

Preserve Agriculture Land Use
Help contain sprawl development by preserving agricultural lands in your community. This may be accomplished through any combination of the following: 1) Establish an agriculture zoning district with very large minimum lot size requirements (at least 20 acres). 2) Require an agricultural buffer for all new non-agricultural development adjacent to designated agricultural land. This will minimize future potential conflicts between ag and non-ag land uses. 3) Require a waiver when land use, building or occupancy permits are applied for on non-agricultural land abutting or within 1,000 feet of agricultural land.
This waiver would specify that the applicant understands agricultural land exists near the subject property and agricultural operations are ongoing adjacent to the existing or proposed use. 4) Develop a program to assist local farmers in selling their products or otherwise profiting from their farms. These programs include agri-tourism, farmers’ markets, farm festivals, and related activities.
Commercial Character Area

DESCRIPTION:
This land use is intended for areas in Irwin County or the City of Ocilla that contain retail establishments, offices, highway commercial establishments, and other similar uses.

APPROPRIATE LAND USE:
The dominant land use in this area is commercial. This includes a wide variety of sales and services that best accommodate the needs of the community and the traveling public.

PERMITTED ZONING DISTRICTS:
General Business District (G-B) and Rural Commercial (R-C) – County.

Neighborhood Commercial District (N-C), General Business District and Central Business District (C-B-D) - City.

QUALITY COMMUNITY OBJECTIVES:

1) Economic Prosperity
2) Resource Management
3) Efficient Land Use
4) Sense of Place
5) Transportation Options
6) Community Health
7) Housing Options

IMPLEMENTATION MEASURES:

Downtown Program - Actively support and participate in programs that promote healthy business downtown such as Downtown Development Authorities, Better Hometown, and Main Street. Encourage and develop broadband connectivity.

Infill Development Program - Develop a comprehensive strategy for encouraging infill development in particular areas of the community, while also regulating this development to ensure protection of quality of life in affected neighborhoods. This strategy should include a) development incentives, improvements to public facilities and services, and streamlined regulations to encourage infill development; b) guidelines for appropriate design, density and location of new infill projects.
Industrial Character Area

**DESCRIPTION:**
Development in this category includes manufacturing and wholesale, as well as warehousing and similar uses. The two industrial parks are located in this character area, as is the landfill.

**APPROPRIATE LAND USE:**
Agricultural Industries, Construction Services, Manufacturing, Millwork, Motor Freight Transportation and Warehousing, Wholesale Trades, Airport, Transportation/Communication/Utilities, and other similar uses.

**DEVELOPMENT STRATEGY:**
Provide an environment suitable for light and heavy manufacturing, wholesale, and warehousing activities that may impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding area, together with other non-residential uses complementary to industrial surroundings.

**PERMITTED ZONING DISTRICTS:**
Allowable zoning districts in this category: Heavy Industrial, Light Industrial. Wholesale-Light Industrial District (WLI) and Heavy Industrial District (H-I) – County/City.

**QUALITY COMMUNITY OBJECTIVES:**
1) Economic Prosperity

**IMPLEMENTATION MEASURES:**
**Targeted Industry Analysis**
Strategically choose which types of business to recruit and support using relevant community characteristics to determine the best fit for local job needs, workforce skills, or to complement existing businesses. Also consider recent growth rates for various industries, in the region, the state, and the U.S. Encourage and develop broadband connectivity to maintain sustainable economic growth.
Stormwater Management
Develop and implement a local stormwater management plan that includes: 1) Incentives for low impact development (LID) which uses innovative site design techniques to collect and drain or evaporate stormwater runoff onsite, rather than routing it into a typical stormwater collection system. LID techniques include bioretention, permeable pavers, tree box filters, rain barrels, disconnected downspouts, narrower streets, infiltration swales, rooftop gardens, bioretention cells and rain gardens. 2) Requirements that impervious surfaces not exceed a certain maximum percentage of total lot size, in particular sections of the community, particularly those that drain most directly into water supply streams or reservoirs.
Mixed Use Character Area

DESCRIPTION:

The Mixed Use character area contains activity centers in Irwin County and the City of Ocilla, which have an intricate mix of uses contributing to a working balance for smaller geographic areas. Greater regulatory flexibility is intended to encourage innovative design, high quality development and redevelopment, and a walkable environment.

The City of Ocilla character areas consist of industrial flanking the city on the north and south ends, with the center of the city consisting of mixed use surrounded by residential. The residential category is comprised of both single and multi-family dwelling units and encompasses approximately 50% of the area of the City of Ocilla. The remaining 50% is divided between Industrial, which is for manufacturing facilities, processing plants, factories, warehousing, etc.; Mixed Use, which contains office, service, retail sales and entertainment facilities which are usually located as a single use in one building; and Public/Institutional, which consists of the County Courthouse, libraries, schools, post office, fire stations, and police stations. The unincorporated communities of Mystic and Irwinville are 100% mixed use character area; their existing land use is approximately 75% single-family residential and 25% commercial/industrial.

DEVELOPMENT STRATEGY:

Provide guidelines and infrastructure to enhance the connectivity and accessibility of these areas in order to ensure business success while minimizing adverse impacts on neighborhoods and the environment. Continue to ensure adequate buffering between uses. Endeavor to strike a balance between encouraging economic development and preserving agricultural land and open space.
PERMITTED ZONING:

A-U Agricultural Use, R-1 Single Family Residential, R-R Rural Residential, R-1A Single Family Residential, R-20 Single Family Residential, WLI Wholesale-Light Industrial District, H-I Heavy Industrial District and G-B General Business District. (County)

SA Suburban Agriculture, R-14 Single Family Residential, R-8 Residential, M-R Multiple Residential, R-8-M Residential, R-P Residential Professional, N-C Neighborhood Commercial District, G-B General Business District and C-B-D Central Business District. (City).

QUALITY COMMUNITY OBJECTIVES:

1) Sense of Place
2) Efficient Land Use
3) Transportation Options
4) Community Health

IMPLEMENTATION MEASURES:

Sidewalk and Pedestrian Network Planning – Addressing deficiencies in the sidewalk network promotes healthy neighborhoods and commercial areas where pedestrians can safely travel.

Infill Development Program - A comprehensive strategy for encouraging infill development in particular areas of the community, while also regulating this development to assure the quality of life in affected neighborhoods.

Traffic Calming - Physical improvements designed to decrease traffic speed and increase the pedestrian-friendliness of roadways.

Mixed-Income Housing - Encouraging affordable housing developments thereby creating viable communities with increased levels of property maintenance and security, as well as social services to support the population.

Community Housing Partnership - Create a partnership with the local public housing agency, nonprofits and neighborhood organizations, using tools available to agencies, non-profits, and governmental bodies to create safe and affordable housing for people.
Parks/Recreation/Conservation Character Area

DESCRIPTION:

Land in this area is dedicated for active or passive recreational uses and for areas that require special protection from development due to unique historical or natural resources and characteristics. Jeff Davis Memorial Park is located in this character area.

DEVELOPMENT STRATEGY:

Protect the areas from any negative impacts of development. Provide natural buffers within and along developments adjacent to the Park. Conservation of sensitive environmental areas should be encouraged or required.

PERMITTED ZONING:

Agriculture Use (AU) and Conservation (SA).

QUALITY COMMUNITY OBJECTIVES:

1) Resource Management
2) Regional Cooperation
3) Efficient Land Use
4) Sense of Place

IMPLEMENTATION MEASURES:

Conservation Easements - Encourage owners of key properties (such as those in environmentally sensitive areas, included in the local greenspace plan, or designated for agricultural use in the comprehensive plan) to utilize conservation easements or sale of development rights to preserve their land from future development. Conservation
easements allow private landowners to donate the development rights of their property to a qualified conservation organization or government agency, in exchange for tax savings. Sale of development rights is an arrangement whereby private landowners sell the development rights of their property to a qualified conservation organization or government agency. In both cases above, giving up the development rights permanently protects a property from development and thereby ensures that it remains as green space or farmland.

Tourism Strategy - Plan a tourism initiative and marketing campaign based on the community’s existing heritage and cultural resources. The strategy might also entail employing well-designed logo and tourist-oriented directional signage systems, to help tourists find the services they need. Heritage and Cultural tourism are key components of economic success in Georgia.

Green Space Plan - Develop, adopt, and implement a green space plan that provides for connectivity of permanently protected green space throughout the community. Setting aside the greenspace can be done through direct purchase by the local government, purchase of the development rights to the land only, or by working with local land trusts to focus their efforts to acquire conservation easement in the areas identified in the local greenspace plan.
Public/Institutional Character Area

DESCRIPTION:
This character area consists of large sites of a public or institutional type, such as schools, colleges and universities, large churches, hospitals, and government facilities.

DEVELOPMENT STRATEGY:
Development of new facilities within this character area should take place at a scale that is compatible with surrounding uses. New developments should be accessible by a variety of transportation options.

PREDOMINANT LAND USE:
- Public/Institutional

PERMITTED ZONING DISTRICTS:
- Public/Institutional

QUALITY COMMUNITY OBJECTIVES:
Local Preparedness: Identify and put in place the prerequisites for the type of future the community seeks to achieve. These prerequisites might include infrastructure (roads, water, sewer) to support or direct new growth; ordinances and regulations to manage growth as desired; leadership and staff capable of responding to opportunities and managing new challenges; or undertaking an all-hazards approach to disaster preparedness and response.

Educational Opportunities: Make educational and training opportunities readily available to enable all community residents to improve their job skills, adapt to technological advances, manage their finances, or pursue life ambitions. This can be achieved by expanding and improving local educational institutions or programs; providing access to other institutions in the region; instituting programs to improve local graduation rates; expanding vocational education programs; or coordinating with local economic development programs to ensure an adequately trained and skilled workforce.

IMPLEMENTATION MEASURES:
- Implement a balance of transportation options and design.
• Encourage development of essential facilities in locations where they can be conveniently accessed.
• Encourage development of new public/institutional uses at a scale that is compatible with surrounding uses.
Residential Character Area

**DESCRIPTION:**
Development in this area is predominantly residential, ranging from single-family to multi-family densities. Uses also allowed include public and private schools, churches, and other uses as permitted within the zoning districts within this area.

**DEVELOPMENT STRATEGY:**
The focus should be reinforcing stability by encouraging more home ownership and maintenance or upgrade of existing properties. Vacant properties in the neighborhood offer an opportunity for infill development of new, architecturally compatible housing. Strong pedestrian and bicycle connections should also be provided.

**PREDOMINANT LAND USE:**
The dominant land use in this area is residential. A mix of uses, including neighborhood commercial and office would be suitable as well. It is recommended that all communities identify a central point to act as a gathering point for the immediate community.
PERMITTED ZONING DISTRICTS:

Single-Family Residential (R-1, R-1A, and R-20/County), Rural Residential (R-R/County)

Single Family Residential (R-14/City), Residential (R-8 City), Residential (R-8-M/City) and Multi-Family/Mixed Family (M-R/City).

QUALITY COMMUNITY OBJECTIVES:

1) Sense of Place
2) Housing Options

IMPLEMENTATION MEASURES:

Rehabilitate Codes
Adopt building codes with standards appropriate to the renovation of older buildings. Typical building codes were written with new construction in mind, and strict application of these codes to older buildings significantly increases renovation costs. Rehabilitation codes help keep costs down, thereby encouraging rehabilitation of older properties.
Transportation/Communication/Utilities Character Area

DESCRIPTION:
The purpose of this character area is to recognize the transportation or utility use of a property. This designation is applied when appropriate, subject to the existing or intended specific use of the property.

DEVELOPMENT STRATEGY:
Provide and protect an environment that is suitable for utilities, transportation and communication facilities, together with uses that can be compatible with utility, transportation, and communication facility surroundings and to provide an environment that will protect such uses from encroaching incompatible development.

PREDOMINANT LAND USE:
Roads, railways, airports, and utilities infrastructure including power substations.

PERMITTED ZONING DISTRICTS:
Any zoning district is permitted within this area.

QUALITY COMMUNITY OBJECTIVES:
- Economic Prosperity: Encourage development or expansion of businesses and industries that are suitable for the community. Factors to consider when determining suitability include: job skills required; long-term sustainability; linkages to other economic activities in the region; impact on the resources of the area; and prospects for creating job opportunities that meet the needs of a diverse local workforce.
- Local Preparedness: Identify and put in place the prerequisites for the type of future the community seeks to achieve. These prerequisites might include infrastructure (roads, water, and sewer) to support or direct new growth; ordinances and regulations to manage growth as desired; leadership and staff capable of responding to opportunities and managing new challenges; or undertaking an all-hazards approach to disaster preparedness and response.

IMPLEMENTATION MEASURES:
- Analyze impact of additional traffic flow.
- Identify and plan for improvement needs along key transportation corridors.

Re: Comprehensive Plan Update Submittal

The City of Ocilla has completed an update of its Comprehensive Plan and is submitting it with this letter for review by the Southern Georgia Regional Commission and the Department of Community Affairs.

I certify that we have held the required public hearings and have involved the public in development of the plan in a manner appropriate to our community's dynamics and resources. Evidence of this has been included with our submittal.

I certify that appropriate staff and decision-makers have reviewed both the Regional Water Plan(s) covering our area and the Rules for Environmental Planning Criteria (O.C.G.A. 12-2-8) and taken them into consideration in formulating our plan.

If you have any questions concerning our submittal, please contact me, Lucile Middlebrooks at 229-468-5141 or email at cityclerk@cityofocilla.net.

Sincerely,

Lucile Middlebrooks
City Clerk
City of Ocilla
