## INDEPENDENT AUDITOR'S REPORT

To the Council
River Valley Regional Commission
Columbus, Georgia
We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of River Valley Regional Commission (the "RC") as of and for the year ended June 30, 2011, which collectively comprise the RC's basic financial statements as listed in the table of contents. These financial statements are the responsibility of River Valley Regional Commission's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of River Valley Regional Commission as of June 30, 2011, and the respective changes in financial position, cash flows, where applicable, and the respective budgetary comparison for the General Fund and the Major Special Revenue Funds, thereof and for the fiscal year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 4, 2011, on our consideration of River Valley Regional Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

## River Valley Regional Commission

Page Two

The management's discussion and analysis on pages 3 through 9 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the RC's basic financial statements. The combining and individual nonmajor fund financial statements and the supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements of River Valley Regional Commission. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of River Valley Regional Commission. The combining and individual nonmajor fund financial statements, and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The supplemental schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION \& ANALYSIS

# RIVER VALLEY REGIONAL COMMISSION <br> MANAGEMENT'S DISCUSSION AND ANALYSIS 

JUNE 30, 2011

As management of River Valley Regional Commission (RVRC), we offer readers of the RVRC's financial statements this narrative overview and analysis of the financial activities of the Commission for the fiscal year ended June 30, 2011. This discussion and analysis should be read in conjunction with our Government-wide Financial Statements, Fund Financial Statements and the Notes to the Financial Statements.

## Financial Highlights

As of the close of fiscal year ending June 30, 2011:

- The total assets of the RVRC were $\$ 4,578,444$. Of this amount, $\$ 443,363$ is invested in capital assets, net of depreciation.
- The total liabilities for the RVRC were $\$ 2,290,155$. Total noncurrent liabilities were $\$ 1,023,674$.
- The assets of the RVRC exceeded its liabilities by $\$ 2,288,289$. Of this amount, $\$ 815,615$ is unrestricted and may be used to meet the RVRC's ongoing obligations.
- Total program revenues, provided primarily through federal and state grants, were $\$ 8,132,247$.
- The total general revenues were $\$ 358,720$ (primarily local government dues), of which $\$ 236,039$ was contributed to the program revenue provided by federal and state grants to fund total governmental activities.
- Total combined revenue for governmental and business-type activities was $\$ 8,574,360$.
- Total combined expenses were $\$ 8,593,137$ for governmental and business-type activities.
- The net assets of the RVRC as of June 30,2011 were $\$ 2,288,289$, a decrease of $\$ 18,777$ from the beginning of the year.
- Excess of actual expenditures over budget were $\$ 15,403$ in the General Fund and $\$ 5,343$ in Major Special Revenue Funds.

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the RVRC's basic financial statements. The RVRC's basic financial statements comprise three components. 1) government-wide financial statements, 2) fund financial statements. and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

## Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the RVRC's finances, in a manner similar to a private-sector business. These statements provide information about the activities of the RC as a whole and present a longer-term view of finances.

The statement of net assets presents information on all of the RVRC's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the RVRC is improving or deteriorating.

# RIVER VALLEY REGIONAL COMMISSION <br> MANAGEMENT'S DISCUSSION AND ANALYSIS 

JUNE 30, 2011
(CONTINUED)

The statement of activities presents information showing how the RC's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

GASB 34 prescribes that activities be classified in two general categories, governmental and businesstype. Most of the RVRC's basic services, including the administration of direct federal grants, state administered grants and contracts and local contracts and programs qualify as governmental activities and are so classified in the statement of net assets and the statement of activities. Local (member) government dues and federal and state grants finance most of these activities. Governmental activities also include an internal service fund used to account for pooled costs that are allocated to various grants and contracts as determined by the Commission's cost allocation plan.

The RVRC's business-types activities consist of revolving loan and relending programs and rental property. These programs are accounted for in proprietary funds. The RVRC has no component units. The government-wide financial statements can be found on pages 10 and 11 of this report.

## Fund Financial Statements

A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The RVRC, like other similar governmental entities, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the RVRC can be divided into two categories: governmental funds and proprietary funds. The emphasis of fund financial statements is on major funds, general fund and special revenue funds.

## Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

# RIVER VALLEY REGIONAL COMMISSION MANAGEMENT'S DISCUSSION AND ANALYSIS 

JUNE 30, 2011
(CONTINUED)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The RVRC maintains two governmental fund types. These funds are the general fund and special revenue funds.

The RVRC adopts an annual budget for its funds. Budgetary comparison statements have been provided within the Commission's financial statements to demonstrate compliance with this budget.

The Commission's governmental fund financial statements can be found on pages 12 through 18 of this report.

## Proprietary funds

The RVRC has several proprietary funds including the internal service fund. The RVRC's internal service fund is an accounting device used under the provisions of the United States Office of Management and Budget (OMB) Circular A-87 to accumulate and allocate costs to grants and contracts in accordance with the Commission's cost allocation plan. Because these costs are allocated to and benefit governmental functions, they are included within governmental activities in the government-wide financial statements.

Other proprietary funds include two separate EDA Revolving Loan Funds, a USDA Relending Program Fund, other small loan funds, and a Rental Property Fund. The proprietary fund financial statements can be found on pages 19 through 25 of this report.

## Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements begin on page 26.

## Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the RVRC. This information is supplied to meet certain state and federal requirements and to provide individual grantors information pertaining to their grant/contract.

# RIVER VALLEY REGIONAL COMMISSION <br> MANAGEMENT'S DISCUSSION AND ANALYSIS 

JUNE 30, 2011
(CONTINUED)

## Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. As of June 30,2011 , RVRC's assets exceeded liabilities by $\$ 2,288,289$. Of this amount, $\$ 443,363$ (19\%) is invested in capital assets such as land, buildings and equipment. The remaining $\$ 815,615$ ( $36 \%$ ) is unrestricted and may be used to meet the RVRC's ongoing obligations and $\$ 1,029,311$ (45\%) is restricted for loans.

Change in net assets for the year was $(\$ 18,777)$. This decrease reflects the amount of expenses over revenues for the RC as a whole. Total expenses were $\$ 8,593,137$ and total revenues were $\$ 8,574,360$. The decrease in net assets results primarily from losses in the revolving loan funds due to bad debt expense of $\$ 180,583$. In April 2011, the Finance Committee adopted a new loan loss reserve policy that places $50 \%$ of the principal balance of delinquent loans in reserve and $100 \%$ of the principal balance of defaulted loans in reserve. As a result, there was a significant increase in loan loss reserve and bad debt expense. These losses can be recovered if delinquent or defaulted loans become current.

The RC receives its revenue mainly from federal and state grants and awards and from contracts with local member governments. The major revenue reported in the General Fund is received as dues from local governments within the region. Georgia law empowers the Council to establish dues for the member governments using population data provided by the Georgia Department of Community Affairs. The current dues structure assesses the member governments at a rate of $\$ 1.00$ per capita. The total amount of assessed dues for fiscal year 2011 was $\$ 356,188$.

Of the total expenses of $\$ 8,593,137$, only a fraction of a percent was general government expenses. The majority of expenses, $\$ 8,556,784$, were related to programs.

## Fund Financial Analysis

As noted earlier, the RVRC uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

## Governmental funds

The focus of the RVRC's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Commission's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Commission's net resources available for spending at the end of the fiscal year. Governmental funds include the General Fund and the Special Revenue Funds.

As of the end of the current fiscal year, the RVRC's governmental funds reported an ending fund balance of $\$ 492,321$, a net decrease of $\$ 2,203$ for the current year. The entire amount of this fund balance is within the General Fund. The Special Revenue Funds have no fund balances and had no net change in fund balances for the year.

# RIVER VALLEY REGIONAL COMMISSION <br> MANAGEMENT'S DISCUSSION AND ANALYSIS 

JUNE 30, 2011
(CONTINUED)

## Proprietary funds

As stated previously, the RVRC reports on several proprietary loan funds, a rental property fund, and an internal service fund. The internal service fund accounts for employee benefits and indirect costs in accordance with its cost allocation plan. These costs are pooled and billed to grants and contracts accounted for in the Special Revenue Funds. These reimbursements from the Special Revenue Funds are recognized as revenue in the internal service fund as cost recoveries.

Net assets of the proprietary funds (excluding Internal Service Fund) decreased by $\$ 157,726$ to $\$ 1,058,426$ at June 30,2011 . Net assets of the Internal Service Fund increased by $\$ 127,934$, leaving a balance of $\$ 751,176$ at year-end. Net assets of the Internal Service Fund are included in governmental activities in the Statement of Net Assets.

## Budgetary Highlights

The RVRC is mandated by state law to adopt its next year's budget before the end of the current year. Due to contracts and grants not being finalized for the upcoming year, the Commission's Board of Directors adopts the original budget using known and "best guess" estimates. During the fiscal year, the Board adopts revisions to incorporate new grants/contracts entered into during the year and to delete contracts/grants that never materialized.

The General Fund had one significant budgetary variance of $\$ 15,580$ in miscellaneous expenditures due to various year-end adjustments/costs that were unforeseen at the time of the last budget amendment. Of the other major governmental funds, Community Care had $\$ 6,418$ more miscellaneous expenditures than budgeted, but did not exceed the overall budgeted expenditures. Detailed budgetary to actual comparisons begin on page 17 of this report.

## Capital assets

The RVRC's investment in capital assets for its governmental type activities as of June 30, 2011 amounts to $\$ 385,657$ (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings and improvements, and equipment. Detailed information regarding the capital asset activity for fiscal year 2011 can be found in Note 3 of this report.

# RIVER VALLEY REGIONAL COMMISSION <br> <br> MANAGEMENT'S DISCUSSION AND ANALYSIS 

 <br> <br> MANAGEMENT'S DISCUSSION AND ANALYSIS}

JUNE 30, 2011
(CONTINUED)

The RC owns two additional buildings and the associated land that amount to $\$ 57,706$ net value. These buildings are accounted for in the Rental Property Fund and generate approximately $\$ 26,000$ in revenue each year. There is no debt associated with either of these buildings.

## Long-term Debt

The Commission has a note payable to the Randolph County Development Authority. This note was created to fund the General Fund's obligation for the local match in the Revolving Loan Fund and had an original balance of $\$ 108,841$. The terms of the note were amended in 2004 to remove the interest charges. Debt service requirements on this note are $\$ 6,344$ per year through the year 2018 .

The Commission also has two outstanding notes payable to the United States Department of Agriculture. The original note for the Intermediary Relending Program was $\$ 1,000,000$ and is payable in annual installments including principal and interest at $1 \%$ per annum totaling $\$ 42,450$. The second note for the Intermediary Relending Program was for $\$ 750,000$ and is payable in annual installments including principal and interest at $1 \%$ per annum totaling $\$ 31,838$. Both of these notes are secured by notes receivable, cash, and cash equivalents.

Detailed information regarding long-term debt activity for fiscal year 2011 can be found in Note 5 of this report.

## Economic Factors and Next Year's Budget

The RC's funding level continues to change due to the level of Federal and State funding or appropriations for services offered by the RC to assist its member governments. The dues assessment approved by the Council will remain at $\$ 1.00$ per capita for fiscal year 2012, resulting in total dues receipts of $\$ 370,887$ for the upcoming year. This is an increase of $\$ 14,699$ from FY11 due to new census results.

The approved FY 2012 amended budget as of the date of this report provides for $\$ 2,381,446$ in special revenue (not including pass-through funds) and $\$ 2,614,367$ in related expenses and matching funds.

## Requests for Information

This financial report provides a general overview of the RVRC's finances for all those with an interest in the Commission's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, River Valley Regional Commission, PO Box 1908, Columbus, GA 31902.

# RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS <br> TO THE STATEMENT OF NET ASSETS <br> JUNE 30, 2011 

Total Fund Balance per Balance Sheet of Governmental Funds

Amounts reported for governmental activities in the Statement of Net Assets differ from amounts reported in the Balance Sheet of Governmental Funds due to the following:

## Capital Assets

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Cost of the assets - not included in the internal service fund
Accumulated depreciation - not included in the internal service fund
Internal Service
The Internal service fund is used by management to charge the costs of administration to individual funds. The assets and liabilities of the internal service fund is included in governmental activities in the statement of net assets.

## Long-term Liabilities

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities both current and long-term are reported in the Statement of Net Assets. Long-term liabilities at yearend consist of the following:

Notes payable
Net assets of governmental activities

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES <br> OF GOVERNMENTAL FUNDS TO THE <br> STATEMENT OF ACTIVITIES <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2011 

Excess (Deficit) of Revenues and Other Financing Sources Over (Under) Expenditures and Other Uses Per Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances

Amounts reported for governmental activities in the Statement of Activities differ from amounts reported in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances due to the following:

Internal Service Fund revenues and expenses are combined with governmental fund revenues and expenses on the government-wide financial statements.
\$

## Capital Assets

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is depreciated over their estimated useful lives and reported as depreciation expense.

Total capital outlays - not included in the internal service fund
Total depreciation - not included in the internal service fund

Long-term Debt
Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The adjustment for these items is as follows:

Principal payments on notes payable
Change in Net Assets of Governmental Activities

## NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The River Valley Regional Commission ("RC") was created as a result of the merger of the former Lower Chattahoochee Regional Development Center and the former Middle Flint Regional Development Center effective July 1, 2009. The former Regional Development Centers were established in 1961 to assist local governments in planning for common needs, cooperating for mutual benefit, and coordinating sound area-wide development. Its purpose is to strengthen the individual and collective power of local governments by recognizing area-wide opportunities and matters of mutual concern, helping local governments resolve both local and area-wide problems through joint decisions, and developing means to assist local governments in the implementation of those decisions.

County members of the RC are: Clay, Columbus Consolidated Government, Crisp, Unified Government of Cussetta-Chattahoochee County, Dooly, Unified Government of GeorgetownQuitman County, Harris, Macon, Marion, Randolph, Schley, Stewart, Sumter, Talbot, Taylor, and Unified Government of Webster County. Municipalities which are members are: Bluffon, Cuthbert, Fort Gaines, Geneva, Hamilton, Junction City, Lumpkin, Pine Mountain, Richland, Shellman, Shiloh, Talbotton, Waverly Hall, Woodland, Cordele, Ellaville, Butler, Reynolds, Ideal, Marshallville, Buena Vista, Americus, Oglethorpe, Montezuma, Pinehurst, Plains, Andersonville, Byromville, Dooling, DeSoto, Leslie, Lilly, Unadilla, Vienna, and Arabi.

The accounting policies and financial reporting practices of $R C$ conform in all material respects to generally accepted accounting principles as applicable to units of government issued by the Governmental Accounting Standards Board (GASB).

## A. Reporting Entity

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the River Valley Regional Commission and any component units. A component unit is a legally separate organization for which the elected officials are financially accountable. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

In conformity with generally accepted accounting principles, as set forth in Statement of Governmental Accounting Standards No. 14 "The Financial Reporting Entity", the RC's relationships with other governments and agencies have been examined. As a result, no component units were identified which should be included in the reporting entity.

## B. Government-wide and fund financial statements

The government-wide financial statements (Statement of Net Assets and Statement of Activities) report information on all nonfiduciary activities. For the most part, the effect of interfund activity has been removed from these statements, which distinguish between the governmental and business-type activities of the Center. Governmental activities
generally are financed through dues, intergovernmental revenues, grants, and other nonexchange transactions.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the flow of economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the RC considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Intergovernmental grant revenues and interest revenue are considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenues are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental fund:
The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

# RIVER VALLEY REGIONAL COMMISSION 

## NOTES TO THE FINANCIAL STATEMENTS <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2011 (CONTINUED)

The Community Care Special Revenue Fund is used to account for grants received for aging services provided to the public.

The government reports the following major proprietary funds:
The EDA Revolving Loan Fund - Columbus is used to account for the issuance and repayment of loans made to customers from the Columbus offices.

The USDA Relending Program Fund is used to account for the issuance and repayment of loans made to customers.

The EDA Revolving Loan Fund - Americus is used to account for the issuance and repayment of loans made to customers from the Americus offices.

Additionally, the government reports the following fund types:
The Internal service fund accounts for management services provided to other departments or agencies of the government on a cost reimbursement basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

The effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the RC's proprietary funds are interest received from customers. Operating expenses for the RC's proprietary funds include the cost of services, administrative expenses, and depreciation on capital assets. The principal operating revenues of the RC's internal service fund are charges for the allocation of indirect costs. Operating expenses for the RC's internal service fund included the personnel expenses and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first and the unrestricted resources as they are needed.

## D. Significant Accounting Policies

The accounting policies of River Valley Regional Commission conform to generally accepted accounting principles as applicable to governments. The following is a summary of the RC's more significant policies applied in the preparation of the accompanying financial statements.

## 1. Cash and Cash Equivalents

The RC's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less from the date of acquisition.

State statutes authorized the RC to invest in obligations of the U.S. Treasury, other U.S. Government Agencies, State of Georgia, Other States, Prime Banker's Acceptances, repurchase agreements, and other political subdivisions of Georgia.

Investments for the RC are reported at fair value.

## 2. Interfund Transactions

The RC, during the course of normal operations, has numerous transactions between funds including expenditures and transfers of resources to provide services, service debt and construct assets. Interfund transfers are recorded as other financing sources and uses, unless the intent of the transfer is to advance operating funds on a short-term basis. These interfund advances are recorded in due to/due from accounts, and no interest is charged on advances. All interfund advances are considered available spendable resources.

## 3. Prepaid Items

Certain payments made to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.
4. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of $\$ 5,000$ or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Discrete components of capital assets classified as property are

# RIVER VALLEY REGIONAL COMMISSION 

## NOTES TO THE FINANCIAL STATEMENTS <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2011 <br> (CONTINUED)

treated as separate capital assets when they have significantly shorter lives than the asset as a whole. Donated capital assets recorded at estimated fair market value at the date of donation. No public domain or infrastructure assets (e.g. roads, bridges, sidewalks and similar items) are owned by the RC.

Title to all nonexpendable personal property acquired by $R C$ vests with the $R C$. Title to assets acquired wholly or partially with Federal funds vests with RC subject to certain residual rights retained by the grantor agency. Title to nonexpendable personal property acquired by RC's subgrantees vests with the subgrantees subject to certain residual rights retained by the grantor agency and RC.

Depreciation is computed over the following estimated useful lives using the straight-lone depreciation method:

| Buildings | $40-60$ years |
| :--- | :--- |
| Furniture, fixtures and equipment | $5-15$ years |
| Vehicles | 5 years |
| Leasehold improvements | $5-15$ years |

## 5. Budgets

The Executive Director submits annual budgets to the council for the General and Special Revenue Funds. Legal provisions govern the budgetary process. These budgets are formally adopted on an individual grant-funded program level, which is the legal level of budgetary control. All expenditures in excess of budgeted amounts are the responsibility of the RC through local funds. Unobligated appropriations in the annual operating budget lapse at fiscal year end.

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) and, therefore, no reconciliation of budget basis to GAAP basis is necessary.

## 6. Employee Retirement Plans

## Defined Contribution Plan

The RC sponsors a defined contribution plan called the River Valley Regional Commission Money Purchase Plan. The plan is administered by VALIC Retirement Services Company. This plan was established under Internal Revenue Code Section 401(a) and does not allow employee contributions. The RC contributes a minimum of two percent and a maximum of seven percent of annual salary following a scale based on years of service.

The plan covers 38 employees as of June 30,2011 . The RC contributed a total of $\$ 69,617$ to this plan for the year ended June 30, 2011.

# RIVER VALLEY REGIONAL COMMISSION 

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011
(CONTINUED)

## Deferred Compensation Plan

The RC sponsors a 457(b) deferred compensation plan which provides for voluntary elective deferral contributions from all employees as well as a Social Security Opt-Out Feature for certain former employees of the Middle Flint Regional Development Center, providing for non-elective contributions and employer contributions for eligible employees. The name of this plan is the River Valley Regional Commission Section 457(b) Deferred Compensation Plan. The plan is administered by VALIC Retirement Services Company. Employees can voluntarily defer up to the maximum amount permitted by the Internal Revenue Code. The RC does not match any voluntary deferrals. Employees who are eligible for the Social Security Opt-Out feature must contribute 7.65 percent of compensation if they participated in Middle Flint's plan prior to July 1, 1991 or 6.2 percent of compensation if they first participated after that date. The RC contributes an amount equal to 100 percent of the employees' non-elective contributions.

The deferred compensation plan covers 35 eligible employees as of June 30 , 2011 and covered a total of 37 during the fiscal year. Elective employee contributions to the 457 (b) totaled $\$ 64,747$ and non-elective employee contributions totaled $\$ 33,607$ for the year ended June 30, 2011. The RC matched $\$ 33,607$ of the non-elective employee contributions.

## 7. Accumulated Compensated Absences

RC policies allow an employee to carry forward up to 15 days annual leave into the next fiscal year. Vacation hours accumulate on a progressive scale depending on the employee's years of service. The liability for earned but unused vacation pay has been recorded in the internal service fund. In the event that an employee terminates employment, the employee is compensated for the annual leave not taken. At June 30, 2011, the RC was liable for $\$ 70,515$ in unused compensated absences.

The RC is not liable and no provision is made for the payment of unused sick pay upon termination.

## 8. Deferred Revenue

The RC reports deferred revenue on its combined balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the RC before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the RC has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

# RIVER VALLEY REGIONAL COMMISSION 

## NOTES TO THE FINANCIAL STATEMENTS <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2011 <br> (CONTINUED)

## 9. Use of Estimates

In preparing financial statement in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts on the balance sheet of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the revenues, expenditures, and expenses during the reporting period. Actual results and amounts could differ from those estimates.

## 10. Fund Equity

In the financial statements, governmental funds report the following classifications of fund balance in accordance with Governmental Accounting Standards Board Statement No. 54:

- Nonspendable - amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- Restricted - amounts are restricted when constraints have been placed on the use of resources by (a) externally imposed by creditors, grantors, contributors or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed - amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Council. The Council approves committed resources through a motion and vote during the voting session of Council meetings.
- Assigned - amounts that are constrained by the RC's intent to be used for specific purposes, but are neither restricted nor committed. The intent is expressed by the Council.
- Unassigned - amounts that have not been assigned to other funds, and that are not restricted, committed or assigned to specific purposes within the General Fund.

Flow Assumptions - When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the RC's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the RC's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

The RC does not have a formal minimum fund balance policy.

The following is a summary of the fund balance classifications as of June 30, 2011:

|  | General |  | Total |  |
| :---: | :---: | :---: | :---: | :---: |
| Fund Balances |  |  |  |  |
| Unassigned | \$ | 492,321 | \$ | 492,321 |
| Total fund balances | \$ | 492,321 | \$ | 492,321 |

## NOTE 2 - CASH AND INVESTMENTS

## A. Custodial Credit Risk-Deposits

The custodial credit risk of deposits is the risk that in the event of the failure of a bank, the government will not be able to recover deposits. The RC's bank balances of deposits as of June 30, 2011 are entirely insured or collateralized with securities held by the RC's agent in the RC's name. State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held.

## B. Investments

Investments of the RC include a money market account which is included as a Type 1 risk category. Both the carrying amount and fair value of the investments are $\$ 80,172$ and, therefore, no adjustment is necessary for fair value reporting.

Custodial credit risk. For an investment, the custodial risk is the risk that in the event of the failure of the counter-party to a transaction, an entity will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Georgia Fund 1 is not required to disclose custodial credit risk. The RC had no such investments with such risk as of June 30, 2011.

Interest rate risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The RC does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk. Georgia law allows investments in obligations of the U.S. Treasury, other U.S. Governmental Agencies, State of Georgia, other states, prime banker's acceptances, repurchase agreements, other political subdivisions of Georgia and the State Georgia Fund 1 investment pool.

## NOTE 5 - LONG-TERM LIABILITIES

## Notes Payable

## Governmental activities:

The Commission has a note payable to the Randolph County Development Authority. This note was created to fund the General Fund's obligation for the local match in the Revolving Loan Fund and had an original balance of $\$ 108,841$. The terms of the note were amended in 2004 to remove the interest charges.

Annual debt service requirements to amortize this note payable are as follows:

| Year | Principal |  |  | Total |
| :--- | ---: | ---: | ---: | ---: |
| 2012 | $\$$ | 6,344 |  | $\$$ |
| 2013 | 6,344 |  | 6,344 |  |

|  |  |  |  |  |
| Total | $\$ 44,408$ | $\$$ | 44,408 |  |
|  |  |  |  |  |

## Business-type activities:

The Commission has two outstanding notes payable to the United States Department of Agriculture. The original note for the Intermediary Relending Program was of $\$ 1,000,000$ and is payable in annual installments including principal and interest at $1 \%$ per annum totaling $\$ 42,450$. The second note for the Intermediary Relending Program was for $\$ 750,000$ and is payable in annual installments including principal and interest at $1 \%$ per annum totaling $\$ 31,838$. Both of these notes are secured by notes receivable and cash and cash equivalents.

Annual debt service requirements to amortize these notes payable are as follows:

| Year | Principal |  | Interest |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2012 | \$ | 63,178 | \$ | 11,109 | \$ | 74,287 |

| Long-term liabilities |  | 11,336 |  | $\underline{-}$ | \$ |  | 62,548 |  | 1,048,788 | \$ | 63,178 |

The internal service fund predominantly serves the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At fiscal year end $\$ 70,515$ of internal service fund compensated absences are included in the above amounts. Also, for the governmental activities, compensated absences are generally liquidated by the general fund.

## NOTE 6 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Generally, outstanding balances between funds reported as due to/from other funds include outstanding charges by one fund to another for services or goods, subsidy commitments outstanding, and other miscellaneous receivables and payables between funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." The composition of inter-fund balances as of June 30, 2011, is as follows:

| Receivable Fund | Payable Fund | Amount |
| :--- | :--- | ---: |
| General Fund | Community Care | $\$$ |
|  | Nonmajor Governmental Funds | 175,580 |
|  | EDA Revolving Loan | 729,860 |

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011
(CONTINUED)

Transfers and payments within the reporting entity are substantially for the purposes of subsidizing operating functions, funding capital projects and asset acquisitions, or maintaining debt service. Resources are accumulated in a fund or component unit to support and simplify the administration of various projects or programs. The government-wide statement of activities eliminates transfers as reported within the segregated governmental and business-type activities columns. Only transfers between the two columns appear in this statement.

The following shows the interfund transfers as of June 30, 2011:

## NOTE 7 - EXPENDITURES OVER BUDGET

Excess of actual expenditures over budget for the General Fund and Major Special Revenue Funds are as follows:

| General Fund <br> Miscellaneous | $\$$ | 15,580 |
| :--- | ---: | ---: |
| Community Care |  |  |
| $\quad$ Travel |  | 2 |
| Miscellaneous | 6,418 |  |

## NOTE 8 - RISKS AND UNCERTAINTIES

Use of Federal, State and other grant funds is subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. To the extent such disallowances involve expenditures under subcontracted arrangements, RVRC generally has the right of recovery from such subcontractors. Based upon prior experience, management believes that no significant liability exists for possible grant disallowances.

The RC obtains a substantial portion of its funding for operations from State grants. Management anticipates that this funding will continue; however, these grants are subject to annual appropriations by the State.

## NOTE 9 - RISK MANAGEMENT

The RC is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The RC carries commercial insurance coverage for these risks to the extent deemed prudent by management. Settlements, if any, of insurable risks did not exceed insurance coverage during the last three fiscal years. The RC participates in the Georgia Municipal Association Health Insurance Plan, a risk pool, and is not required to maintain additional self-insurance. Coverage includes medical insurance with a per person $\$ 500$ deductible. The RC pays a monthly premium of $\$ 478$ per employee. Employee health claims are submitted to and paid by the GMA and the RC is not liable for any medical costs not covered by the plan.

The RC has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund ("GIRMA") and the Georgia Municipal Association Workers Compensation Self-Insurance Fund ("WCSIF"), public entity risk pools currently operating as common risk management and insurance programs for member local governments.

Administered by GMA, the GIRMA was created in 1987 to provide property and liability coverage to local government entities in Georgia. The membership owns and controls the fund requiring annual contributions based on individual loss experience and underwriting which are pooled to pay property and liability claim defense, claim losses, insurance to limit exposure, and administrative expenses. The WCSIF was created in 1982 by state statue and administered by GMA. The membership owns and controls the fund requiring contributions based on individual loss experience and underwriting which are pooled to pay workers' compensation statutory coverage for municipal governments in Georgia.

As part of these risk pools, the RC is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The RC is also to allow the pool's agents and attorneys to represent the RC in investigation, settlement discussions and all levels of litigation arising out of any claim made against the RC within the scope of loss protection furnished by the funds.

## SPECIAL REVENUE FUNDS

The Special Revenue Fund is used to account for the expenditure of revenues related to grant funds which are legally restricted for purposes specified in the grant agreements. Individual projects are maintained for each grant and/or contract.

The following are examples of the numerous Special Revenue fund projects that the River Valley Regional Commission maintains:

1. Workforce Development Fund - accounts for grants from the U.S. Department of Labor and the Georgia Department of Labor to be used for job training.
2. Aging Fund - accounts for grants from the U.S. Departments of Agriculture and Health and Human Services and the Georgia Department of Human Resources to be used for services for senior citizens.
3. DNR Fund - accounts for grants from the Georgia Department of Natural Resources.
4. DOT Fund - accounts for grants from the Georgia Department of Transportation.
5. EDA Fund - accounts for grants from the U.S. Department of Commerce to be used for economic development.

## NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2011

## NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

## Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of River Valley Regional Commission under programs of the federal government for the fiscal year ended June 30, 2011. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-profit Organizations. Because the schedule presents only a selected portion of the operations of River Valley Regional Commission, it is not intended to and does not present the financial position, changes in net assets or cash flows of River Valley Regional Commission.

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for States, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Passthrough entity identifying numbers are presented where available.

## Measurement Focus

The determination of when an award is expended is based on when the activity related to the award occurs.

## Program Type Determination

Type A programs are defined as Federal programs with Federal expenditures exceeding the larger of $\$ 300,000$ or three percent of total Federal expenditures. The threshold of $\$ 300,000$ was used in distinguishing between Type A and Type B programs.

## Method of Major Program Selection

The risk-based approach was used in the selection of Federal programs to be tested as major programs. The RC did not qualify as a low-risk auditee for the fiscal year ended June 30, 2011.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS 

To the Council<br>River Valley Regional Commission<br>Columbus, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of River Valley Regional Commission ("RC") as of and for the fiscal year ended June 30, 2011, which collectively comprise the RC's basic financial statements and have issued our report thereon dated November 4, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

## Internal Control Over Financial Reporting

Management of River Valley Regional Commission is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the RC's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the RC's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the RC's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the RC's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether River Valley Regional Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain matters that we reported to management of River Valley Regional Commission in a separate letter dated November 4, 2011.

This report is intended solely for the information and use of the audit committee, management, the Council, and federal award agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 

To the Council<br>River Valley Regional Commission<br>Columbus, Georgia

## Compliance

We have audited River Valley Regional Commission's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of River Valley Regional Commission's major federal programs for the fiscal year ended June 30, 2011. River Valley Regional Commission's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of River Valley Regional Commission's management. Our responsibility is to express an opinion on River Valley Regional Commission's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about River Valley Regional Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of River Valley Regional Commission's compliance with those requirements.

In our opinion, River Valley Regional Commission complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2011.

## Internal Control Over Compliance

Management of River Valley Regional Commission is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered River Valley Regional Commission's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the River Valley Regional Commission's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, the Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
